

16 Windermere R^o

P.E. 22/8/38.

Dear Jack,

I think Madge has written to thank you for plans, I'm very taken up with the scheme of things, if you are returning to P.E. after your C.A. business is over, I would very much like to meet you in Kaysna & perhaps spend a week end at Portland. I think that to build in a hurry will be too costly, so for the next year I intend looking around & buying any material which may be found cheap. For instance those 10" x 10" beams & 3" strip yellowwood flooring, roofing timber & thatch can be cut & stored at Portland as soon as possible, so as to be thoroughly dry by the time it

is used. There are so many things
that I would like to discuss
with you on the spot, meaning
I would be very grateful to
get any further details which
you may have time to work
out ~~any time~~ for us (Excuse
pencil but my pen has just
run dry.)

I wonder if you have seen
anything of Dot & Guy Reynold,
I hear very little of them these
days.

Must stop now with kind
 regards & many thanks

Yours Sincerely

JH
