In the Trust Branch the Directors beg to impress on the Shareholders the necessity of their using their influence to a greater extent, and of their giving more general support to the Office in the administration and management of Estates, as Executors, Tutors, Guardians, Curators, Administrators, Trustees, Assignees, or Agents.

The working of the Insolvent Ordinance is opposed to the interests of the concurrent Creditors, by throwing nearly every Estate into the hands of a few *preferent* Creditors, whose claims on the Estate are secured, thus taking all power out of the hands of the former. The Shareholders will bear in mind, that "Union is strength," and without which it cannot be expected that any profitable business can be conducted by the Office.

The various items in the Accounts now before you, will show that the ordinary expenses of management for the past year amount to Three Hundred and Forty-six Pounds and Eightpence (346*l.* 0. 8.), which does not exceed that of former years, notwithstanding the increase of business.

The 37th Section of the Trust Deed provides, that no Dividend shall be declared and paid, until the paid-up Capital and Profits shall amount to Ten Thousand Pounds (£10,000), and that the Dividends to be declared and paid at any time, shall not exceed Three-fourths ($\frac{3}{4}$) of the Profits realised, so long as the paid-up Capital and Profits shall not amount to Twenty Thousand Pounds (£20,000).

The paid-up Capital and Profits now amount to Ten Thousand, Three Hundred and Eighty-two Pounds and Sixpence (£10,382. 0. 6.)

In the present state of the Company's Funds, the Directors have deemed it inexpedient to declare a Dividend at present; but they entertain a hope of being enabled to do so at their half-yearly Meeting in January next.

In terms of the 32nd Clause of the Deed of Agreement, the Directors would recommend that the sum of One Hundred and Five Pounds be awarded to them and the Auditors as a remuneration for their services during the past year.

According to the 25th Section of the Trust Deed, the following Gentlemen, namely, the Hon'ble J. B. EBDEN, Esq., HENRY

S. A. PRIVATE WIDOWS' FUND. 151

SHERMAN, Esq., JACOB LETTERSTEDT, Esq., retire by rotation, all of whom are eligible for re-election.

It will therefore devolve on the Meeting to elect three Directors and two Auditors for the ensuing year.

J. B. EBDEN, Chairman.

South African Private Widows' Fund.

Sixteenth Annual Report of the South African Private Widows' Fund, established in Cape Town in the month of March 1831, — read at a General Meeting of the Members of the Society, in the Town Hall, on Saturday the 27th March 1847.

Pursuant to the existing rules of the Society, your Committee of Management have the honor to submit to the members thereof the 16th annual report of their proceedings, and especially (notwithstanding the slight increase of members during the past year) of the progress and present state of the Institution, which they beg to recommend to the attention of their fellow members.

The number of members was augmented by only four during the past year; they can however state with satisfaction that no death has occurred, and that, notwithstanding this slight increase, and the large number of widows who draw pensions, the most of whom are already entitled to the full sum of Rds. 500, the funds have materially increased.

It will appear from the Treasurer's Account, made up from the Society's Books, and audited by two members not belonging to the committee, that Rds. 7917 2 2 have been added to the funds, and that the capital, at the expiration of the year, amounted to Rds. 156,154 0 5, and consists of: properly secured bonds, Rds. 150,199 7 3; entrance money unpaid and not due, Rds 516 5 2; contributions of two members, Rds. 72. One of these, having paid the usual fine, is still entitled to his membership, but the other has forfeited his title to a pension for his wife, according to article 4 of the fundamental regulations, not having paid for two years at the time the accounts were closed, as will appear from the same. To cash, Rds. 4618 6 4; and arrears of interest, Rds. 746 5 2.

However much your committee desired to allude to an Orphan Fund, proposed by the Treasurer in one of their usual monthly meetings, and in some respects deserving of attention, they were debarred from so doing by the resolution adopted at the eleventh annual meeting on the 2d April, 1842, viz.: "That no alteration shall be made in the payment "of pensions or otherwise, during a period of 20 years, "reckoned from the year 1831, except as provided by the "fundamental regulations." The Treasurer has however submitted an outline of his scheme, which may be inspected by the members present.

Your committee further beg to state, that the number of contributing members now amounts to 173, and that pensions are at present paid to 22 widows.

R. C. HOETS, Chairman.

152 S. A. PRIVATE WIDOWS' FUND.

Cape Town, 28th February 1847.

Exchanges, Monies, Weights, and Measures.

COURSE OF EXCHANGE.

Prior to the 6th June 1825, the Exchange between this Colony and Great Britain was chiefly regulated by the average rate at which the Commissariat Department disposed of its Bills (by public tender) on the Lords Commissioners of the British Treasury.

On the above-mentioned date the value of the Rix-dollar was, in accordance with the directions of the Home Government, and by the Ordinance of the Governor and Council, No. 2, legally fixed at 1s. 6d. (one shilling and sixpence) sterling, and the course of Exchange became thereby, in a manner, settled at that rate, with slight variations, depending upon the demand for Bills.

By the Instructions then given to the Commissariat, Bills drawn by that Department were issued at £101 10, for every £100, being at the rate of one and a half per cent., against the Colony or remitter; and that in some measure regulated the premium on private bills. The latter, however, were mostly sold at a discount, although some were occasionally sold at par, *i. e.* a bill of £100 for the same amount in specie; but that depended upon the credit attached to the parties whose bills or endorsements were in the market, as also upon the number to be disposed of at any one time, and upon the amount which it may have been necessary to remit.

By the Treasury Instructions recently issued to the Commissariat, Bills upon the British Treasury are again disposed of by public Tender.

AMOUNT OF GOVERNMENT PAPER MONEY IN CIRCULATION.

The former rixdollar paper money having been, in a great measure, superseded by the issue of British Sterling Promissory Notes, was in 1835 deprived of its value as a circulating medium, and made payable or exchangeable at the Treasury only, by order of Government. As only very small portions of it continued to be presented, it was notified by proclamation in 1840, that no rixdollar notes would be paid or exchanged after the 31st March 1841, when the accounts of that particular currency would be closed. The conclusion of this account shows the exact amount to which the Colonial Government and the Public have suffered from the *frauds or forgeries* committed on the rixdollar paper, the particulars of which, in as far as they could be ascertained, were from time to time reported to the Home Government: and it is deemed desirable here to record the results of the various increases in that paper, from the surrender of the Colony in 1806, to the conclusion of the account in May 1841.

154 PAPER MONEY IN CIRCULATION.

| | | | |
|---|--------------|----|----|
| 1. The proper amount of Paper Money in circulation at the surrender in 1806, was Rds. | 2,086,000 | 0 | 0 |
| 2. The British Colonial Government between 1806 and 1822, added | 1,385,204 | 5 | 0 |
| Amount of first or Cartoon Paper, (of which Rds. 1,256,415 4 were afterwards withdrawn, leaving unredeemed Rds. 2,214,789 1) | 3,471,204 | 5 | 0 |
| In consequence of the deteriorated state of the Paper in 1828, a <i>second</i> description of Notes was introduced to the net amount of | 2,305,000 | 0 | 0 |
| And shortly afterwards, on the detection of some Forgeries on the lastmentioned Paper, a <i>third</i> description was introduced to an amount of | 1,108,520 | 0 | 0 |
| 3. The proper amount of Rixdollar Paper Money to be accounted for is, therefore, | 6,884,724 | 5 | 0 |
| From 24th April 1828 to May 1841, the following Sums were destroyed or cancelled by Proclamation, viz:— | | | |
| 4. Of the 1st, or cartoon Paper, Rds. | 3,953,098 | | |
| 5. Of the 2d, or circular red stamped Paper, | 2,347,010 | | |
| 6. But it having been discovered that the late Treasurer Stoll had, at first, omitted to keep a particular account of <i>each description</i> of Rixdollar Paper destroyed, an error was thus occasioned, which could not be satisfactorily corrected; and, accordingly, on closing the account of the third description of Notes, of which there had been created Rds. 1,108,520, it was found that there had been cancelled, as belonging to that creation, only, | 1,084,490 | | |
| | 7,384,598 | 0 | 0 |
| The net excess was thus, | 499,873 | 3 | 0 |
| 7. Of which there were destroyed and not replaced, (12th May 1841) | 12,022 | 4 | 0 |
| Leaving a Balance of | Rds. 487,850 | 7 | 0 |
| Which was converted into British Promissory Notes to an equal amount, or | £36,588 | 16 | 3½ |
| Add to this the sterling value of that amount which ought properly to have been in circulation, Rds. 2,214,789. 1. | £166,109 | 3 | 8½ |
| And the Sum agrees with the Gross (see 2) Amount of British Promissory Notes which has been in circulation since Jan. 1837, viz: | £202,698 | 0 | 0 |
| Of this sum there has been cancelled, | 199,698 | 0 | 0 |
| Leaving in circulation on the 28th Jan. 1846, | £3,000 | 0 | 0 |

COINS.

The Coins in circulation are exclusively British, consisting in Gold, of sovereigns and half sovereigns ; in Silver, of a few crowns, half-crowns, shillings and sixpences ; and in Copper, of pennies, half-pennies, and farthings. There is no Colonial Coin. Little of the smaller description of Silver Coin has yet reached the Cape.

The Home Government having established the British Coin as the circulating medium of this Colony, and having directed that it shall be a legal tender in discharge of all debts due to individuals and the public, at the rate of one shilling and sixpence (1s. 6d.) sterling for each paper rixdollar, and so in proportion for any greater or less sum, the value of the rixdollar, formerly the only currency in the Colony, and fluctuating according to the rate of Exchange with England, was consequently fixed at that rate by Ordinance of the Governor in Council, No. 2, bearing date the 6th day of June 1825.

The Coins in circulation have not been pierced, cut, defaced or otherwise altered ; neither have their respective values been diminished or augmented.

Foreign Coins are in very small quantities, and are not used as a circulating medium. They are principally Spanish dollars, and a few rupees. Their value depends almost entirely on the occasional demand for them. The usual exchangeable rate of the Spanish dollar is from 3s. 9d. to 3s. 10d. or at most to 3s. 11d. ; and that of the sicca rupee from 1s. 6d. to 1s. 8½d. Other rupees, when in demand, realise about 1s. 6d. each, but the general price does not exceed 1s. 1½d.

AMOUNT OF COIN IN CIRCULATION.

The British Currency introduced into this Colony, from the year 1825 (when it became a legal tender) to 1829, inclusive, by the Commissariat, to meet the Expenditure of the Military Establishment, amounted; at the end of the latter-mentioned year, to £169,800 in Silver, and £2,205 in Copper. In the year ending 31st March 1837, £80,000 were also imported by the Commissariat, and a further Sum of £90,000 (viz. 50,000 from England, and £40,000 from Mauritius) between that date and 31st March 1838 ; £30,000 have been received from England during the year 1845 ;—£152,500 (viz. £140,000 from England, and £12,500 from Mauritius,) during 1846,—and £302,000 during 1847, making in the whole £826,505, exclusive of £100,000 expected in the Athol.

As far as can be ascertained, about £235,680 had been imported by Merchants, up to the end of 1837. During 1838 a Sum of £19,000, nearly, and in 1839 about £700 passed the Custom House. In 1840, £341. was imported, and £1,538 exported ; during the year ending September 1841, the Sum of £9,290 was exported, and during the year ending September 1842 the Sum of £6,128 was exported, and £2,257 imported ; in 1844, £1,163 was imported, and £33,442 exported ; in 1845, £8,935 was imported, and £14,087 exported ; in 1846, was imported £21,369 and £13,345, exported ; in 1847, £350 was imported, so that the private Imports may be estimated at £212,185.

These amounts, however, have been considerably diminished by exportation. In 1833 nearly £40,000 were shipped to Ceylon and Van Diemen's Land by the Commissariat. During the year ending 30th September 1841, £20,000 have been shipped by that Department to England, £35,000 to Mauritius, £10,000 to Van Diemen's Land, and £5,000 to New South Wales; during the year ending 30th September 1842, £10,000 have been sent by the same Department to New South Wales, and £5,000 to St. Helena; during the year ending 31st December 1843, £5,000 have been sent to the latter place; in the year 1844, £10,000 have been sent to New South Wales, and £20,000 to Van Diemen's Land. It is known, also, that remittances were formerly made at different times by Merchants and others, to England and elsewhere, in specie; and large Sums have also been taken from the Colony by the Emigrant Farmers, being the produce of their Slave Compensation, and of the Sale of their Farms.

Allowing, therefore, for every diminution from these and other causes, the Metallic Circulating Medium at present may be computed at from £150,000 to £300,000, inclusive of Coins introduced by occasional visitants, which cannot be correctly estimated.

The great and sudden increase in the Circulating Medium, occasioned by the payment of the Slave Compensation Claims, had the effect, for a time, of reducing the Colonial Rate of Discount and Interest as low as 4 per Cent.; but Money has again attained its original Market Value of 6 per Cent.

PRIVATE BANK PAPER IN CIRCULATION.

There are three Joint Stock Bank Establishments which issue their own notes of £5 and upwards, payable on demand, viz: the Cape of Good Hope Bank, and the South African Bank, in Cape Town, and the Eastern Province Bank, in Graham's Town. Government has no control over these issues. The amount, at present in circulation are, of the Cape of Good Hope Bank about £42,000, and of the South African Bank from £19,000 to £20,000. The paper of these Banks seems to have only a local circulation.

WEIGHTS.

The Weights legally used in this Colony are of the Standard of Amsterdam, which was introduced by the Dutch Government. They consist of pounds, subdivided into 16 ounces, or 32 loods each.

The proportion generally made use of here, in comparing Dutch with English Weight, is 92lbs. Dutch to 100lbs. English; the true rate, however, is considered to be 91lbs. and 4-5ths Dutch to 100lbs. English, or Avoirdupois.

The pieces of weight admitted to assize are from 60lbs. down to one lood, or the thirty-second part of a pound, which is regarded as equivalent to half an ounce English, although slightly exceeding that proportion, as above shewn.

MEASURES.

The Standard Measures at the Cape are those of Amsterdam, and were introduced by the Dutch Government.

LIQUID MEASURES.

| | | | |
|--|-----------------|-----|---------------------|
| A legger is equal to 152 Dutch gall. or about 126 $\frac{7}{11}$ gall. imperial. | | | |
| A half do. „ | 76 | „ „ | 63 $\frac{7}{11}$ „ |
| A pipe „ | 110 | „ „ | 91 $\frac{7}{11}$ „ |
| A half-pipe „ | 55 | „ „ | 49 $\frac{7}{11}$ „ |
| An aum „ | 38 | „ „ | 31 $\frac{7}{11}$ „ |
| A half-aum | 19 | „ „ | 15 $\frac{7}{11}$ „ |
| An anker „ | 9 $\frac{1}{2}$ | „ „ | 7 $\frac{1}{2}$ „ |
| A half-anker | 4 $\frac{1}{4}$ | „ „ | 3 $\frac{3}{4}$ „ |
| A flask „ | $\frac{3}{8}$ | „ „ | .4946 „ |

There is no fixed proportion between gallons and the bottles in use here, as the latter, although called quarts, are of various sizes and descriptions; but generally a gallon is reckoned to be equal to 4 $\frac{1}{2}$ bottles.

CORN MEASURE.

| | |
|---|--------------------------|
| 1 schepel is equal to $\frac{82}{107}$ old Winchester bushel, or $\frac{748}{1000}$ imperial. | |
| 1 muid is 4 schepels, or $\frac{328}{107}$ do. do., | or $\frac{287}{1000}$ „ |
| 1 load is 10 muids, or $\frac{3280}{107}$ do. do. | or $\frac{2870}{1000}$ „ |

Thus 107 Dutch schepels are equal to 82 Winchester bushels, or 4 schepels are about 3 imperial bushels, and 11 schepels are about one quarter.

CLOTH MEASURE.

| | |
|--------------------------------------|------------------------|
| 1 ell is equal to 27 Rhyland inches. | |
| 1 yard | 34 $\frac{17}{35}$ „ „ |

The proportion between Dutch ells and English yards is generally taken at 3 yards to 4 ells, but the real rate is 100 yards to 129 $\frac{7}{8}$ ells.

LAND MEASURE.

The Standard Measure for Land is the Rhyland rood and foot, 1000 Rhyland equal to 1033 English. One rood is equal to 12 feet, and one foot to 12 inches.

| | |
|--|-----------------|
| 144 inches are equal to 1 square foot Rhyland. | |
| 144 square feet „ | 1 square rood „ |
| 600 square roods „ | 1 morgen „ |

A morgen is generally reckoned equal to 2 English statute acres, but the real proportion is considered to be 49 $\frac{7}{100}$ morgen, equal to 100 acres.

Relative Value of Paper and Silver Money.

| Stivers. | £ s. d. | Rds. | £ s. d. | Rix-Drs. | £. s. d. |
|----------|----------------------|------|---------|----------|----------|
