

...TO ELANA - a toast to firsts!
thank you for your enthusiasm,
encouragement and for being a mentor

APPENDIX & REFERENCES

chapter 6

PROPOSED INTERIOR DESIGN PROFESSIONAL REGISTRATION CATEGORIES

NQF Level	Qualification	Band	Years of Study [Credits]	Years of Practical Experience	Registration Category	Equivalent Architecture Registration Category	Identification of Work [†]		
							Complexity	Low Sensitivity	Medium Sensitivity
4	(Certificate) (optional)	GET FET	0 – 2 (optional)		Interior Decorator*	No Equivalent			No Reservation
6-7	(Diploma and Bachelor Degree) BSc(Int)	HET (graduate)	3 (3 years) [360 cumulative minimum]	3**	Professional Interior Designer [PrID]	Prof. Architectural Technologist [PAT]	Low Complexity Building	"Commercial", "Exhibition", "Institutional", "Places of assembly", "Shopping precincts", "Residential", "Facilities for handling mortal remains" and "Alterations". Professional Interior Designers can do all the work identified for Professional Draughtspersons but some specialist interior spaces will be reserved for interior designers.	In some instances Professional Interior Designers may undertake adaptive re-use of buildings in medium-sensitivity sites (some evidence of significance without requiring EIA's, HIA's or SIA's).
7-8	(Honours and BTech Degree) BInt(Hons)	HET+ (post-graduate)	1 (+3) (4 years) [480 cumulative minimum]	2	Professional Senior Interior Designer [PrSID]	Prof. Senior Architectural Technologist [PSAT]	Medium Complexity Building	"Commercial", "Exhibition", "Institutional", "Places of assembly", "Shopping precincts", "Residential", "Facilities for handling mortal remains" and "Alterations". Professional Senior Interior Designers can do all the work identified for Professional Interior Designers but some specialist interior spaces will be reserved for senior interior designers (e.g. "Private art galleries", "Medical consulting rooms", "A la carte restaurants", "Night clubs", "Funeral parlours" etc.)	In some instances Professional Senior Interior Designers may undertake adaptive re-use of buildings in high-sensitivity sites (requiring EIA's, HIA's or SIA's).
9	(Masters [by coursework] and MTech Degrees) MInt(Prof)	HET+ (post-graduate)	1 (+3+1) (5 years) [600 cumulative minimum]	2	Professional Interior Architect [PrIntArch]	Prof. Architect [PrArch]	High Complexity Building	Commercial", "Exhibition", "Institutional", "Places of assembly", "Shopping precincts", "Residential", "Facilities for handling mortal remains" and "Alterations". Professional Interior Architects can do all the work identified for Professional Senior Interior Designers but some specialist interior spaces will be reserved for interior architects (e.g. "Higher education libraries", "Planetariums/specialised exhibition spaces", "Theatres", "Auditoria", "Mortuaries" etc.) These are interior specific installations of a highly technical nature or with a public health or safety concern, which may currently only be designed by Professional Architects.	

[†] The Identification of Work is preliminary, and for illustrative purposes, will be aligned to the Architectural Work Matrix once it is legislated.

* Interior Decorator is not a professional registration category, it cannot use the title 'Professional', has no minimum qualifications and no work reservation.

** The three (3) years practical experience requirement is based on the IFI's requirement of six (6) combined years of study and work experience for Interior Designers.

+ Post-graduate education is necessary to enable the practitioner to gain the relevant research skill to work in sites with heritage, social or environmental significance.
