NEW STATION: ANOTHER VIEW OF THE CONCOURSE.

Yesterday The Star published a page of pictures showing what Johannesburg's new railway station will look like. One of the pictures which has attracted much attention was that of the Concourse, which is to be 12 feet below normal ground level and round which will be placed dining and refreshment rooms and other rooms for the convenience of the public. The view of the Concourse published yesterday was one looking towards Eloff Street. That given above is one looking towards the Wanderers.
