

ONDERSTEPSOORT JOURNAL OF VETERINARY RESEARCH

VOLUME 35 (1968)

SUBJECT INDEX

	<i>Page</i>
ANTHELMINTIC TEST	
An anthelmintic test for larval stages of sheep nematodes.....	287
BESNOITIOSIS	
New concepts on the epidemiological features of bovine besnoitiosis as determined by laboratory and field investigations.....	3
BHK CELLS	
Electron microscopic studies on reovirus type 1 in BHK 21 cells.....	151
BLUETONGUE	
Electron microscopic study of the formation of bluetongue virus.....	139
BOVINE	
New concepts on the epidemiological features of bovine besnoitiosis as determined by laboratory and field investigations.....	3
DOGS	
Studies on <i>Filaroides osleri</i> infestation in dogs.....	225
ELECTRON MICROSCOPIC STUDIES	
Electron microscopic study on the formation of bluetongue virus.....	139
Electron microscopic studies on reovirus Type 1 in BHK 21 cells.....	151
ENZOOTIC ICTERUS	
Biochemical studies on geeldikkop and enzootic icterus.....	319
EPIZOOTIOLOGY	
The epizootiology of helminth infestation in sheep in the south-western districts of the Cape	159
EQUINES	
Ovarian function, follicular oestradiol-17 β , and luteal progesterone and 20 α -hydroxy-pregn-4-en-3-one in cycling and pregnant equines.....	301
FIELD INVESTIGATIONS	
New concepts on the epidemiological features of bovine besnoitiosis as determined by laboratory and field investigations.....	3
<i>FILAROIDES OSLERI</i>	
Studies on <i>Filaroides osleri</i> infestation in dogs.....	225
GEELDIKKOP	
Biochemical studies on geeldikkop and enzootic icterus.....	319
HELMINTH INFESTATION	
The epizootiology of helminth infestation in sheep in the south-western districts of the Cape	159
The pathological physiology of helminth infestations. III. <i>Trichostrongylus colubriformis</i>	195
HYDROXY-PREGNENONE	
Ovarian function, follicular oestradiol-17 β , and luteal progesterone and 20 α -hydroxy-pregn-4-en-3-one in cycling and pregnant equines.....	301
ICTERUS	
Biochemical studies on geeldikkop and enzootic icterus.....	319
LABORATORY INVESTIGATIONS	
New concepts on the epidemiological features of bovine besnoitiosis as determined by laboratory and field investigations.....	3

	<i>Page</i>
NEMATODES	
An anthelmintic test for larval stages of sheep nematodes.....	287
OESTRADIOL-17β	
Ovarian function, follicular oestradiol-17 β , and luteal progesterone and 20 α -hydroxy-pregn-4-en-3-one in cycling and pregnant equines.....	301
OVARIAN FUNCTION	
Ovarian function, follicular oestradiol-17 β , and luteal progesterone and 20 α -hydroxy-pregn-4-en-3-one in cycling and pregnant equines.....	301
PATHOLOGICAL PHYSIOLOGY	
The pathological physiology of helminth infestations. III. <i>Trichostrongylus colubriformis</i>	195
PROGESTERONE	
Ovarian function, follicular oestradiol-17 β , and luteal progesterone and 20 α -hydroxy-pregn-4-en-3-one in cycling and pregnant equines.....	301
REOVIRUS	
Electron microscopic studies on reovirus Type I in BHK 21 cells.....	151
SHEEP	
The epizootiology of helminth infestation in sheep in the south-western districts of the Cape	159
SHEEP	
An anthelmintic test for larval stages of sheep nematodes.....	287
SHEEP	
Biochemical studies on geeldikkop and enzootic icterus.....	319
TRICHOSTRONGYLUS COLUBRIFORMIS	
The pathological physiology of helminth infestations. III. <i>Trichostrongylus colubriformis</i>	195
VIRUS	
Electron microscopic study of the function of bluetongue virus.....	139
