## *Trends*

# Web 2.0 for Libraries

## Web 1.0 vs Web 2.0

Britannica Online vs Wikipedia

Personal websites vs Blogging

Publishing vs Participation

CMS vs Wikis

Directories (taxonomy) vs Tagging (folksonomy)

## What is Web 2.0?

- Users build networks (professional, recreational, etc.)
- People are the content of sites (O'Reilly)
- Emphasis on online sharing, collaboration, openness, high transparency
- Interactivity
- You are allowed to experiment, make mistakes, start over, share info

## What is Library 2.0?

- The library is everywhere
- The library has no barriers
- Beta is forever
- Replace, enhance existing ways of working
- Library invites participation
- The library uses flexible, best-of-breed, component-based systems
- The library is a human-centred organization
- People are encouraged to experiment, mistakes are allowed

## What is Web 3.0 (Semantic Web)?

‘**Humans** are capable of **using the Web** to carry out tasks such as finding the Finnish word for "monkey", reserving a library book, and searching for a low price on a DVD.

However, a **computer cannot accomplish the same tasks without human direction** because web pages are designed to be read by people, not machines.

The **semantic web** is a vision of information that is understandable by **computers**, so that they can perform more of the **tedious work** involved in finding, sharing and combining information on the web.”

## What is Web 3.0 (Semantic Web)?

*“I have a dream for the **Web** [in which computers] become **capable of analyzing all the data on the Web** – the content, links, and transactions between people and computers. A ‘Semantic Web’, which should make this possible, has yet to emerge, but when it does, the **day-to-day mechanisms** of trade, bureaucracy and our daily lives will be **handled by machines talking to machines**. The ‘intelligent agents’ people have touted for ages will finally materialize.”*

Word publikasie van hierdie boek (en ander soortgelykes) in Afrikaans enigsins in die vooruitsig gestel?

'n Soorgelyke boek is Animals of Pilanesberg an Identification Guide. Daar word sterk oorweeg om Field Guide to the Animals of the Greater Kruger Park in Afrikaans te vertaal. The Mammal Guide, Pocket-guide to Southern African Birds ens. is almal in Afrikaans beskikbaar. Burger Cillie.

## The Whole World was Watching

*Wednesday, November 5, 2008*

Don't get me wrong, when it became obvious Obama was winning big, it was fun to be at the Democrats Abroad party at the Slide Nightclub in Darlinghurst, Sydney, waving my pint and shouting as the results came in. It was all the sweeter because it was clear this was no ordinary victory. To borrow an expression, "we beat them like rented mules."

But the full significance of this election to the world at large swept over me an hour later, in an ordinary pub where a woman with a chihuahua snuggled in her arms sat outside sunning herself, men in the back played video games, and workmen struggled to install one more table near the door.

Lizanne and I had thought it was too early for McCain to concede, and were sprawled on a couch talking about the events of the day, when a screen-scroll announced that regular programming was preempted.

As Obama strode onto the stage, we stood up. This was for practical reasons — we couldn't see the screen from where we sat — and yet it somehow felt right for other reasons. We were honoring something much larger than a new president.

Hi

It is my pleasure to assist you with your assignment on "Much ado about nothing".

  1. Unfortunately, not many books on this topic are available in our library at Groenkloof and I am suggesting you visit the Hatfield Campus Library.  
  
On level 6 (Hatfield Campus) at 822.361 you will be able to find a lot of books to help you. (Remember, if you are registered as a library member at Groenkloof, you will be able to take books from the other UP libraries as well.
  2. You can also do a search on Google Scholar (see link on our website).

The screenshot shows a Mozilla Firefox browser window displaying the Education Library Blog @ University of Pretoria. The browser's address bar shows the URL <http://edulibpretoria.wordpress.com/>. The website features a navigation menu with links for Home, About, Downloads, and Permission. A prominent blue banner reads "EDUCATION LIBRARY BLOG @ UNIVERSITY OF PRETORIA". Below the banner are links for "Entries RSS" and "Comments RSS", and a search box. The main content area includes a sidebar with "Education Library" (with a photo of a building), "Library Website" (with the URL <http://www.library.up.ac.za/edu/>), and "Library Catalogue". The central article is titled "Quality of Education in SA fares badly in comparison with poorer countries", posted on 29 October, 2008 by Johann van Wyk. The article text states: "The quality of education in South Africa fares badly in comparison with that of other poorer countries, according to research by The Human Sciences Research Council. Cas Prinsloo, the chief research specialist at the education research unit, recently commented that national comparative pupil assessments and trends in international maths and science surveys, particularly at grades 4 and 8, showed that South Africa was 'at the bottom of the log'. Research by the University of Pretoria on reading and literacy also showed that we compared poorly. 9 out of 10 pupils did not even achieve the basic benchmark for reading literacy tests. Prinsloo lists the following reasons for this underperformance:" followed by a bulleted list: "poor literacy levels at home", "lack of textbooks and support materials", and "teachers who lacked training (capacity to train teachers was lost by the". To the right of the article is a calendar for November 2008 and a "Google Translator:" link. The browser's status bar at the bottom shows "Done".

I think this is the best library I've been in so far... I really don't mind the fact that some of the computer don't have editing capabilities on some levels because I the end of the day, most students are registered for at least 2 other computer labs plus the library... Anyway, I like the fact that they have the reserved collection. Some of us don't have the budget for expensive textbooks... I just enjoy the humanities level because they have a collection of French books that I always wanted to read when I was a kid back in DRC and couldn't because we didn't have access to a public library. Anyway, Keep it up... you guys are doing a great job and besides there's always room for improvement...

**Ujala Satgoor** replied to Josy's post on September 8, 2008 at 6:59am. [Reply to Ujala](#) [Report](#)

Thank you Josy for affirming our service! I'm glad you discovered our French collection which is able to fulfil a childhood gap!

In fact, the Library has recently acquired a Spanish book collection which was a gift from the Spanish Embassy. So spread the word amongst Spanish speaking friends...

As we are always on a quest to better our services/products, your recommendations or comments will be most welcome.

Best regards

## MyDatabus

The screenshot shows the MyDatabus website in a Mozilla Firefox browser window. The browser's address bar displays the URL <http://www.mydatabus.com/>. The website's header features the **mydatabus** logo in a stylized font, with the tagline "store / share / access" below it. To the right of the logo is a graphic of an open box with arrows pointing up and down, and a "login" link. The main content area is divided into two columns. The left column is titled "Do More With Your Files!" and lists several features: "Share photos, videos, music & more", "Use group collaboration tools", "Integrates with your Facebook account", and "Post files for MySpace, eBay, LiveJournal, Craigslist & more". The right column is titled "Sign Up Today and get 10 GigaBytes of Storage" and lists benefits: "Upload large files- up to 1.5GB", "No transfer limit for personal files", "Secure SSL transfers", "E-mail large files with ease", and "No Spyware, Adware, or Spam". Below this list is a "Find out more..." link and a prominent "Sign Up Now" button. At the bottom of the page, there are two sections: "Existing User Login" and "Our Users Say...". The browser's status bar at the bottom left shows "Done".

## Google Notebook

The screenshot shows the Google Notebook interface within a Mozilla Firefox browser window. The browser's address bar displays the URL <http://www.google.com/notebook?hl=en>. The page features a navigation menu with links for Web, Images, Maps, News, Shopping, and Gmail. A search bar is present with buttons for "Search Notes" and "Search the Web". A tip banner reads: "Tip: Collect recipes, gift ideas, and interesting articles from the web using our [browser extension](#)." The main content area is titled "Notebooks" and includes options to "Create a new notebook..." and "Unfiled bookmarks". A "My Notebook" section is visible, but the content is currently "Loading...". The footer contains copyright information for 2008 Google and links to Google Home, Help, Privacy Policy, and Feedback.

The screenshot shows the Diigo website homepage in a Mozilla Firefox browser window. The browser's address bar displays <http://www.diigo.com/>. The page features the Diigo logo and the tagline "Highlight and Share the Web!". Below this, there are two main sections: "Research and Collaborate" and "Connect and Discover". The "Research and Collaborate" section lists three benefits: highlighting and adding sticky notes, accessing findings from any device, and creating groups. The "Connect and Discover" section lists three benefits: creating a presence in the community, connecting with friends, and discovering quality resources. A "Play Demo Video" button is prominently displayed. At the bottom, there is a testimonial from TechCrunch and a "Join Now" button.

## ***Wiki's***

Collaborative tools for information workers  
within a Web 2.0 environment

## What is a “Wiki”?

- Simplest online database that could possibly work
- Web page/ collection of web pages
- Fast, collaborative development of a website
- Hawaiian word which means “quick”
- Anyone can access, contribute/ modify content – completely democratic
- Wiki can be “protected” against editing
- Work in progress
- People with a common interest
- **Very, very** simple to use

## What can a wiki be used for?

- Plan conferences, workshops
- Bibliographies
- Book reviews
- Notes of meetings
- Discuss issues, comment on items in news e.g. new virus
- List of “Who’s who?”
- Knowledge management
- Wiki Wish list
- Electronic Guestbook etc.

## Agri Wiki gee boere landbou-inligting aanlyn en almal kan bydraes lewer

MARENET JORDAAN  
Pretoria

Die bekende aanlyn-ensiklopedie Wikipedia het 'n boereboetie gekry.

Agri Wiki is die geesteskind van twee vriende van Colesberg: 'n boer en 'n rekenmeester vir boere.

"Daar is baie webwerwe wat fokus op hul spesifieke produk, soos trekkers. Ons wou alles saamgooi," sê mnr. Sarel Wessels (31), die rekenmeester.

Hul boere-wiki het afdelings, in Engels en Afrikaans, vir enigiets van die weer en marksake tot bostuisbeheer.

Mnr. MJ van Wyk (25), die boer, sê hulle wou 'n databasis skep waar almal in die land met landbou-inligting 'n bydrae kan lewer.

Wessels sê hulle wou nie al die werk self doen nie. Daarom die Wikipedia-model, waar besoekers artikels kan plaas en bywerk.

"Dit moet 'n spanpoging wees en só almal se eiendom word."

Volgens hom ontvang hulle e-pos-kennisgewings elke keer wanneer 'n nuwe artikel geplaas word en hy en Van Wyk doen moeite om seker te maak die inligting daarin kan gestaaf word.

"Ons besef jy kry mense wat webruimtes *spam*," sê Van Wyk.

Hoewel die besoekergetalle maandeliks styg, sê Wessels "dit voel of dit nog maar stadig gaan" sedert hulle Agri Wiki in Julie amptelik bekend gestel het.

"Baie boere is nog nie rekenaar- of internetgeletterd nie. Maar hulle begin al hoe meer besef hulle kan nie sonder eksterne bronne van inligting

Mnr. MJ van Wyk

Mnr. Sarel Wessels

boer nie."

Van Wyk het sy sake agtermekaar om die webruimte te help bestuur terwyl hy boer. "Ek is seker die enigste boer met ADSL (breëband) in die land. Vroeër het ek *dial-up* gehad. Dit het my gek gehad. Nou Skype ek tot my vriende in Pretoria!"

**Agri Wiki - WELCOME / WELKOM!**

Agri Wiki saw a gap in the agricultural information sector and therefore decided to fill the gap. A "wiki" database website has been created in order to collect all possible information regarding the agricultural sector. We invite the public and the agricultural society to take part by making use of the website by exchanging any information regarding the agricultural industry. With this website the partners intend to make all the information about the agricultural-sector more accessible to all people.

Agri Wiki het 'n gaping gesien in die landbou-inligting sektor en besluit om die leemte te vul. 'n Webwerf is geskep om 'n "wiki" databasis te stig om inligting te versamel oor die landbou-sektor as 'n geheel. Hiermee word die publiek en die landbou-gemeenskap hartlik uitgenooi om deel te neem deur om artikels of enige inligting rakende die landbou bedryf op die webwerf te deel. Met hierdie webwerf beoog die vennote om die inligting in die landbou bedryf meer toeganklik te maak vir almal.

- From Wikipedia, the free encyclopedia**
- UPSpace** (Institutional research repository of the University of Pretoria) is the name of the open access digital institutional repository of the University of Pretoria, South Africa. A digital institutional repository in the context of a higher education institution can be defined as "a set of services that a university offers to the members of its community for the management and dissemination of digital materials created by the institution and its community members. It is most essentially an organizational commitment to the stewardship of these digital materials, including long-term preservation where appropriate, as well as organization and access or distribution."<sup>[1]</sup> UPSpace contains a collection of the intellectual/ research output produced by past and current researchers of the University of Pretoria. The spectrum of material covered in UPSpace includes the following:
  - Historical/ archival material - after it has been digitized; Research articles (scholarly publications); Popular research material; Unpublished research; Inaugural addresses; Conference proceedings; Technical reports; Open lectures; Data sets, and many more.
- The main objectives of an institutional repository are: 1) to enhance the visibility of the knowledge products created by an institution's members by providing easy open access, and 2) to preserve the intellectual output of the members of that community for years to come.
- The open source platform, [DSpace](#), which was developed by an MIT-Hewlett Packard alliance, is used for UPSpace.

## Merensky II Library [edit]

Consisting of six levels, this building houses the UP Library Services Head Office; the Learning Centre; Technical Services and the faculty libraries for Humanities; Theology; Natural and Agricultural Sciences; Engineering, Built Environment and Information Technology; and, Economics and Management Sciences. It forms a focal point of the University's Hatfield Campus. The original library was initially housed in the Old Arts building before being relocated to the Old Merensky Library. Despite expansions to the Old Merensky Library in 1957, it soon became too small and the firm Lou, Marais, Marquard and Kuhn was appointed in 1969 to design a new library. Construction started in November 1971 and in August 1975 the building was completed. In the construction process the southern wing of the Old Chemistry building was demolished. Adjacent to the library there is a study centre that accommodates up to 1 230 students and is open seven days a week, 24 hours a day.

## Centenary Tapestry [edit]

An interesting feature of the library is the spacious feel of the ground floor due to the three-level high ceiling in the central area. The wall of the mezzanine level is now adorned by an eye-catching panelled tapestry which was commissioned by the University in commemoration of its centenary celebrations in 2008. The idea was to create a work of art that would portray the University and which could be left as a legacy for future generations.

This tapestry was designed and embroidered by rural community members of the Kaross™ embroidery initiative in the Limpopo province. This embroidery initiative was established in 1989 by Irma van Rooyen, a BA Fine Arts graduate of the University and a recipient of the TuksAlumni Laureate Award. The conceptualisation of the tapestry and the execution of the design was done by Irma van Rooyen in collaboration with designer Calvin Mahlaule. Once the design was finalised, 15 embroiderers were employed to create the 15 x 1.2 meter tapestry. The work was executed on separate pieces of material using approximately 10 kg of yarn. The individual pieces of material were later applied and combined in a continuous process of layering the embroidered images and reworking them until the full length artwork was created.

This work of art reflects the culture, creative spirit and craftsmanship!

**Digital libraries**

Digital libraries concern a very dynamic and exciting field where there are many facets where one can find a personal niche: be that on a more technological level, provision of reference services, information literacy programs or advocacy against the digital divide. The module intends to introduce students to digital libraries: the concept of digital libraries and its history, various phases and facets concerning the planning and maintenance of digital libraries as well as services related to digital libraries. The module further intends to enable students to develop certain competencies that are considered essential with regard to digital libraries.

**WikiUP presence**

With the increasing adoption of so-called Web 2.0. technologies in libraries, **it is important for future librarians to become familiar with technologies** such as wikis, blogs, RSS and CMS. Throughout the semester, students will create a user page as well as a page for group work which will serve as their portfolios at the end of the semester.

The main article text reads:

**Adamastor** From Wikipedia, the free encyclopedia

*For the warship, see Adamastor (warship).*

**Adamastor** is a Greek-type mythological character invented by the Portuguese poet Luis de Camões in his epic poem *Os Lusíadas* (first printed in 1572), as a symbol of the forces of nature Portuguese navigators had to overcome during their discoveries. Camões gave his creation a history as one of the Gigantes of Greek mythology who had been spurned by Tethys, now appearing in the form of a threatening stormcloud to Vasco da Gama and threatening ruin to anyone hardy enough to pass the Cape and penetrate the Indian Ocean, which was Adamaster's domain. **Adamastor** became the *Spirit of the Cape*, a hideous phantom of unearthly pallor:

"Even as I spoke, an immense shape  
Materialised in the night air,  
Grotesque and enormous stature  
With heavy jowls, and an unkempt beard  
Scowling from shrunken, hollow eyes  
Its complexion earthy and pale,  
Its hair grizzled and matted with clay,  
Its mouth coal black, teeth yellow with decay. —Camões, *The Lusíads* Canto V.

Adamastor represented the dangers Portuguese sailors faced when trying to round the Cape of Storms, henceforth called, in consequence of the resultant success in despite thereof, *Cape of Good Hope*.

Adamastor has figured in much poetry of the Cape. In *The First Life of Adamastor*, a novella by André Brink, the writer refashioned the Adamastor story from a 20th-century perspective.

A popular gathering place in Lisbon is also known by the name 'Adamastor' because of the large stone statue of the mythical figure which presides over the space, which is officially called the *Miradouro de Santa Catarina*. This vista point offers visitors some of the most breathtaking views of the Tagus river, the 25th of April Bridge and the *Cristo Rei* monument.

Adamastor is also mentioned in the opera *L'Africaine* (1865) about Vasco da Gama by the composer Giacomo Meyerbeer. The slave Nelusko sings a song about Adamastor while he deliberately steers the ship into a storm and it sinks.

It is mentioned by Voltaire in his *Essai sur la poésie épique*. It also appears in the works of Victor Hugo: *Les Misérables* (III, Marius, chap III) and in a poem dedicated to Lenaxia (*Les Feuilles d'automne*, chap IX). Alexandre Dumas also refers to the giant in his novel *Le Comte de Monte-Cristo* (chap

On the right side of the article, there is an image of a page from the 1572 edition of *Os Lusíadas*, showing the corresponding verses in Portuguese. The image is titled "The corresponding verses in the 1572 edition." Below the image is a small thumbnail of a stone statue of Adamastor.

It also appears in the works of Victor Hugo : *Les Misérables* (III, Marius, chap III) and in a poem dedicated to Lamartine (*Les Feuilles d'automne*, chap IX). Alexandre Dumas, père refers the giant six times: *Le Comte de Monte Cristo* (chap. XXXI), *Vingt ans après* (chap. LXXVII), *Georges* (chap I), *Bontekoe*, *Les drames de la mer*, (chap I), *Causeries* (chap. IX) and *Mes Mémoires* (chap. CCXVIII).

### Etymology

The name Adamastor may have been made as:-

- An inaccurate attempt at Greek for "Untamed" or "Untameable" (which would be correctly *Adamastos*).
- An inaccurate attempt at Latin for "imitative rival of Adam" (which would correctly be *Adamaster*).
