FOREWORD.

In the *Journal of the South African Veterinary Medical Association*, Volume 6, No. 2, June, 1935, C. Jackson published a short index to the Government Veterinary Reports of the Transvaal (1903-1910) and the Union of South Africa (1911-1932). The present index is merely an enlarged edition of Jackson's publication.

The need for a fairly detailed index to the publications which emanated from the Government Veterinary Laboratories at Daspoort and Onderstepoort has long been felt. At present the task of finding a reference in these volumes is no easy one; and workers will undoubtedly welcome a handy index volume which will enable them to find with ease information contained in the 26 volumes which it covers.

P. J. DU TOIT,
Director of Veterinary Services.

AUTHOR AND SUBJECT INDEX TO THE GOVERNMENT VETERINARY REPORTS

of the

TRANSVAAL AND UNION OF SOUTH AFRICA 1903-1932

The Reports indexed herein were published between the years 1903 and 1932 and form a continuous series the name of which was modified firstly because of the incorporation of the Transvaal in the Union of South Africa and secondly to conform with subsequent alterations to the title of the Official (formerly Government Veterinary Bacteriologist of the Transvaal) who directed the researches which formed their basis. In 1933 the quarterly *Onderstepoort Journal of Veterinary Science and Animal Industry* replaced the annual Reports, which comprised the following:—

- 7 Reports of the Government Veterinary Bacteriologist of the Transvaal for the years 1903-1910.
- 1 Commemoration Report, The Veterinary Bacteriological Laboratories, 1909.
- 8 Reports (Nos. 1-8) of the Director of Veterinary Research for the years 1911-1918, in 5 volumes.
- 6 Reports (Nos. 9-14) of the Director of Veterinary Education and Research for the years 1923-1928, in 5 volumes.
- 1 Report (No. 15) of the Director of Veterinary Services for the year 1929, in 2 volumes, and
- 3 Reports (Nos. 16-18) of the Director of Veterinary Services and Animal Industry for the years 1930-1932, in 5 volumes.
