

Gland grafting in merino sheep. Preliminary observation on its influence (c) on castrated sheep.

18th Rept. of the Dir. of Vet. Ser. and An. Ind., 1932, p. 819.

### **Grass.**

The chlorophyll-content of grasses in Bechuanaland.

11th and 12th Repts. of the Dir. of Vet. Ed. and Res., 1926, p. 259.

Preliminary report upon the occurrence of hydrocyanic acid in the grasses of Bechuanaland.

11th and 12th Repts. of the Dir. of Vet. Ed. and Res., 1926, p. 495.

Physiological plant studies in South Africa I. Wilting and osmotic phenomena of grasses and other plants under arid conditions.

11th and 12th Repts. of the Dir. of Vet. Ed. and Res., 1926, p. 619.

Physiological plant studies in South Africa II. Transpiration of grasses and other plants under arid conditions.

11th and 12th Repts. of the Dir. of Vet. Ed. and Res., 1926, p. 671.

The relations between the amount of carbohydrates in the leaves of Armoedsvlakte grasses and the meteorological factors.

13th and 14th Repts. of the Dir. of Vet. Ed. and Res., 1928, p. 1041.

The phosphorus content of the grasses of Bechuanaland in the course of their development.

13th and 14th Repts. of the Dir. of Vet. Ed. and Res., 1928, p. 1077.

Mineral and feeding stuff analyses of grasses of the Eastern Transvaal highveld.

16th Rept. of the Dir. of Vet. Ser. and An. Ind., 1930, p. 421.

The phosphorus content of the grasses in the Eastern Transvaal.

16th Rept. of the Dir. of Vet. Ser. and An. Ind., 1930, p. 435.

Studies in Mineral Metabolism No. 16. The micro-determination of some inorganic elements in blood and grasses.

17th Rept. of the Dir. of Vet. Ser. and An. Ind., 1931, p. 443.

Cystine and sulphur content of bushes and grasses in a karroid area (Fauersmith).

18th Rept. of the Dir. of Vet. Ser. and An. Ind., 1932, p. 579.

### **Gulnea-worm.**

The guinea-worm of the ostrich. *Contortospiculum spicularia*.

15th Rept. of the Dir. of Vet. Ser., 1929, p. 299.

### **Haematology.**

A contribution to the study of the virus, haematology, and pathology of infectious anaemia of equines under South African conditions.

9th and 10th Repts. of the Dir. of Vet. Ed. and Res., 1923, p. 253.

Haematology and pathology of haemonchosis in sheep.

17th Rept. of the Dir. of Vet. Ser. and An. Ind., 1931, p. 495.

### **Haematoplinidae.**

See Anoplura.

### **Haematoporphyrin.**

Haematoporphyrin—its photosensitising influence on sheep and goats.

11th Rept. of the Dir. of Vet. Ser. and An. Ind., 1931, p. 645.

### **Haemolymphoid.**

Haemolymphoid-like nodules in the liver of ruminants a few years after splenectomy.

15th Rept. of the Dir. of Vet. Ser., 1929, p. 577.

### **Haemolysis.**

Notes on haemolysis.

An. Rept. of the Gov. Vet. Bacteriologist, 1903-1904, p. 163.

Haemolysis in immunization against horsesickness.

An. Rept. of the Gov. Vet. Bacteriologist, 1903-1904, p. 239.

Haemolysis tests with horsesickness virus.

An. Rept. of the Gov. Vet. Bacteriologist, 1904-1905, p. 152.

Haemolytic serum—morbid lesions found in animals which succumbed to the effect of a haemolytic serum.

*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 166.

Haemolysis in practical Veterinary Science.

*Comment. Rept.*, 1909, p.67.

### **Haemonchosis.**

See also *Haemonchus contortus*.

The fate of ingested and injected arsenic in sheep, with special reference to the treatment of haemonchosis.

*5th and 6th Repts. of the Dir. of Vet. Res.*, 1918, p. 485.

Haemonchosis in sheep. The haematology and pathology of.

*17th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1931. p. 495.

### **Haemonchus contortus.**

See also Wireworm.

*Haemonchus contortus* (or *Strongylus contortus*) and *Oesophagostomum columbianum*—Report on some experiments in connection with the life history of *Strongylus* (or *Haemonchus*) *contortus*, the wireworm of sheep and goats, and also some notes on the zoological structure of the wireworm and of the nodular worm—*Oesophagostomum columbianum*.

*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 398.

Anatomy and life history.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 349.

The egg.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 351.

The larvae.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 356.

Influence of the Ambient on eggs and larvae.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 369.

Migration of the mature larvae.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 407.

Infection through the mouth.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 423.

Infection through the skin.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 424.

Parasitic life.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 425.

Anatomy of the adult worm.

*3rd and 4th Rept. of the Dir. of Vet. Res.*, 1915, p. 437.

Action of drugs on *Haemonchus contortus* " *in vitro* " in sheep.

*5th and 6th Repts. of the Dir. of Vet. Res.*, 1918, p. 409.

*Haemonchus contortus*.

*5th and 6th Repts. of the Dir. of Vet. Res.*, 1918, pp. 377, 485..

### **Haemonchus Cobb.**

Haemonchus Cobb. Parasitizing the camel in the Cape Province.

*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 439.

A preliminary report on three new members of the genus *Haemonchus* Cobb. 1898, from antelope in South Africa.

*15th Rept. of the Dir. of Vet. Ser.*, 1929. p. 451.

### **Haemophysalis.**

*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904. pp. 63, 98.

*Haemophysalis leachi*.

„ *leparis pulustris*.

See "A group of micro-organisms transmitted hereditarily by ticks and apparently unassociated with disease".

### **Haemoproteus.**

On the transmission of *Haemoproteus columbae*.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 627.

**Hartertia.**

- Two new species of the nematode genus *Hartertia*.  
*17th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1931, p. 273.

**Heart.**

- The atrioventricular system of the equine heart.  
*13th and 14th Rept. of the Dir. of Vet. Ed. and Res.*, 1928, p. 745.

**Heartwater.**

- An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 91.
- Heartwater in cattle.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 114.
- Cause of the disease.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 114.
- Symptoms of Heartwater in sheep and goats.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 115.
- Cause of heartwater.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 115.
- Post mortem lesions.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 115.
- Propagation of Heartwater.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 117.
- Geographical distribution.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 116.
- Analysis of experimental cases.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 120.
- Spontaneous cases.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 121.
- Immunization against Heartwater.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 121.
- Experiments to prove that spirillum is transmitted by *Rhipicephalus decoloratus*.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1904-1905, p. 128.
- The inoculability of Spirillosis into cattle and sheep.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1904-1905, p. 134.
- On the correlation of various diseases of stock in South Africa.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-1906, pp. 8, 67.
- Heartwater—a disease due to ultra visible virus.  
*Comm. Rept.*, 1909, p. 33.
- Cytological studies in Heartwater—The observance of *Rickettsia ruminantium* in the tissue of infected animals.  
*11th and 12th Repts. of the Dir. of Vet. Ed. and Res.*, 1926, p. 160.
- The observation of micro-organisms in animals experimentally infected with heartwater.  
*11th and 12th Repts. of the Dir. of Vet. Ed. and Res.*, 1926, p. 167.
- Cytological studies on heartwater: *Rickettsia ruminantium* in the tissues of ticks capable of transmitting the disease.  
*11th and 12th Repts. of the Dir. of Vet. Ed. and Res.*, 1926, p. 180.
- Pathological studies on heartwater.  
*13th and 14th Repts. of the Dir. of Vet. Ed. and Res.*, 1928, p. 283.
- The present state of our knowledge of the disease.  
*17th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1931, p. 89.
- Transmission of heartwater.  
*17th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1931, p. 94.
- Natural transmission of Heartwater.  
*17th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1931, p. 99.
- Symptoms.  
*17th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1931, v. 104.
- Epizootology.  
*17th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1931, p. 113.

Immunity and immunization.

17th Rept. of the Dir. of Vet. Ser. and An. Ind., 1931, p. 115.

An attempt to attenuate the "Virus" of Heartwater by passage.

17th Rept. of the Dir. of Vet. Ser. and An. Ind., 1931, p. 151.

The microscopic diagnosis of Heartwater: A preliminary note on the value of intima smears.

17th Rept. of the Dir. of Vet. Ser. and An. Ind., 1931, p. 161.

On the aetiology of Heartwater.

18th Rept. of the Dir. of Vet. Ser. and An. Ind., 1932, p. 49.

Haematological observations.

18th Rept. of the Dir. of Vet. Ser. and An. Ind., 1932, p. 62.

### **Hedgehog.**

A new nematode *Rictularia aethechini* sp. nov., a physaloptera and an Acanthocephala from the hedgehog, *Aethechinus frontalis*.

16th Rept. of the Dir. of Vet. Ser. and An. Ind., 1930, p. 217.

### **Helminths.**

Lesions caused by helminths.

Exudative lesions located in the alveolar tissue.

Exudative lesions connected with the bronchi.

Productive changes — bronchitis — Piribronchitis.

Pneumonia-peribronchialis fibroblastica et fibro pneumonia fibroblastica et fibrosa.

Nodules in transition stages.

Organised nodules.

Helminthiasis nodularis fibroblastica.

Helminthiasis nodularis fibrosa.

Helminthiasis nodularis chalicotica.

Helminthic nodules in the liver.

Nodules in intestines.

Lymphadenitis helminthica.

Pathogenesis of the helminthic nodules in the lung.

Etiology of the helminthic nodule.

See Nodes and nodules in the lungs of South African Equines.

7th and 8th Repts. of the Dir. of Vet. Res., 1918, p. 247.

Helminthological notes.

11th and 12th Repts. of the Dir. of Vet. Ed. and Res., 1926, p. 221.

Helminth-fauna of South Africa. Contributions to.

11th and 12th Repts. of the Dir. of Vet. Ed. and Res., 1926, p. 63.

Helminths collected from the domestic fowl (*Gallus domesticus*) and the domestic pigeon (*Columba livia*) in Natal.

11th and 12th Repts. of the Dir. of Vet. Ed. and Res., 1926, p. 209.

On two helminths from the ahomasum of the bushbuck in Zululand, Natal.

16th Rept. of the Dir. of Vet. Ser. and An. Ind., 1930, p. 233.

Some helminths from South African Chiroptera.

18th Rept. of the Dir. of Vet. Ser. and An. Ind., 1932, p. 183.

### **Hemiptera.**

Family cimicidae.

18th Rept. of the Dir. of Vet. Ser. and An. Ind., 1932, p. 415.

### **Hepatitis.**

See acute liver atrophy.

### **Hernia.**

Anatomical Studies No. 20. Hernia of the brain in a n Afrikaner heifer

17th Rept. of the Dir. of Vet. Ser. and An. Ind., 1931, p. 857.

### **Heterakis papillosa.**

See helminths collected from the domestic fowl and pigeon.

**Heteropogon contortus.**

See "Steek" grass.  
*5th and 6th Repts. of the Dir. of Vet. Res.*, 1918, p. 324.

**Histological Studies.**

Histological studies on East Coast Fever.  
*13th and 14th Repts. of the Dir. of Vet. Ed. and Res.*, 1928, p. 243.

**Histiostrongylus armatus.**

See Helminthological notes.

**Hog Cholera,**

See swine fever.

**Homeria pallida.**

*An. Rept. of the Gov. Vet. Bacteriologist*, 1908-09, p. 75.

**Hookworm.**

*Agristomum equidentatum*, a hookworm of the springbuck.  
*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 311.  
 On a hookworm (*Agristomum gorgonis*) from the Blue Wildebeest (*Gorgon taurinus*) in the Transvaal.  
*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 481.  
*Hypodontus macropi*, a hookworm of the Kangaroo.  
*18th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1929, p. 303.

**Horse.**

Rice-feeding experiments in the study of deficiency disease, with special reference to Lamsiekte.  
*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 38.  
 A clinical case: spasm of the diaphragm in a horse.  
*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 1203.  
 Cystic osteo-chondroma of the testicle in a stallion.  
*16th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1930, p. 361.  
 Anatomical studies: Accessory spleens in a horse.  
*16th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1930, p. 575.  
 Anatomical studies: Dental anomalies in the ox and horse.  
*16th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1930, p. 589.

**Horsesickness.**

Horsesickness. Results of former experiments.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-04, p. 131.  
 Serum treatment applied to horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1903-04, p. 132.  
 Piroplasmosis observed after simultaneous horsesickness inoculation due to the injected blood.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1904-05, p. 104.  
*Piroplasma equi* as a complication of horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1904-05, p. 104.  
 Hyperimmunisation with virulent serum.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1904-05, p. 151.  
 Inoculation against horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-06, p. 5.  
 On the correlation of various diseases of stock in South Africa.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-06, pp. 8, 67.  
 Horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-06, p. 67.  
 Further experiments with immunisation of mules against horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-06, p. 134.  
 Immunisation of mules against horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-06, p. 134.

- Immunisation of mules with inadequate and adequate serum and virus, and the immunity obtained therefrom.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1906-07, p. 162.
- Transmission of horsesickness into dogs.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-06, p. 160.
- Immunity in horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-06, p. 163.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1906-07, p. 89.
- Result of the inoculation in practice.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-06, p. 168.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1906-07, pp. 12, 85.
- The investigation into horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1906-07, p. 13.
- Inoculation of mules with polyvalent virus and serum.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1906-07, p. 192.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1907-08, p. 24.
- Injections of Argentine horses, mules and donkeys with blood of Transvaal horse foals.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1906-07, p. 216.
- The loss of virulency of horsesickness virus in practice.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1907-08, p. 50.
- The variability of the virulency of a particular strain of horse-sickness virus.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1907-08, p. 57.
- Fever reactions in horses simulating horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1907-08, p. 114.
- Comparative physical-chemical research on horse blood and serum (with special reference to horsesickness).  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1907-08, p. 154.
- Physical-chemical characteristics.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1907-08, p. 191.
- The refractive index of horse-sera.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1908-09, p. 110.
- On a collection of anopheles made at Onderstepoort in the Autumn of 1909.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1908-09, p. 115.
- Manufacture of Antigen and serum.

*7th and 8th Repts. of the Dir. of Vet. Res.*, 1918, p. 339.
- Blood studies. A contribution to the study of the blood and circulation in horsesickness.  
*11th and 12th Repts. of the Dir. of Vet. Ed. and Res.*, 1926, p. 33.
- Tendo-vaginitis in equines, following horsesickness immunization, associated with organisms indistinguishable from *Salmonella abortivo-equinus*.  
*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 239.
- The immunization of horses against horsesickness by the use of formalized virus.  
*16th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1930, p. 85.
- The immunization of mules with formalized horsesickness virus.  
*18th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1932, p. 35.

### **Hyalomma aegyptium.**

- An. Rept. of the Gov. Vet. Bacteriologist*, 1903-1904, p. 59.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1904-1905, pp. 89, 124.
- See also "A group of micro-organisms transmitted hereditarily by ticks and apparently unassociated with disease."

**Hybrid Dukker.**

Anatomical studies No. 37. On a hybrid dukker.  
18th Rept. of the Dir. of Vet. Ser. and An. Ind., 1932, p. 1093.

**Hydrocyanic Acid.**

Preliminary report upon the occurrence of hydrocyanic acid in the grasses of Bechuanaland.  
11th and 12th Repts. of the Dir. of Vet. Ed. and Res., 192(5), p. 495.

**Hydrolysis.**

The increase of inorganic phosphorus due to hydrolysis in solutions of blood.  
16th Rept. of the Dir. of Vet. Ser. and An. Ind., 1930, p. 287.

**Hydronephrosis.**

Anatomical Studies No. 26. Bilateral double ureter and congenital hydronephrosis in a pig.  
17th Rept. of the Dir. of Vet. Ser. and An. Ind., 1931, p. 809.

**Hymenolepidae.**

See helminth fauna of South Africa.

**Hymenolepis.**

See helminth fauna of South Africa.

*Hymenolepis carioca.*

„ *inermis.*

See helminths collected from the domestic fowl and pigeon.

**Hyperimmunisation.**

See also horsesickness.

Hyperimmunisation against horsesickness.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1904-1905, p. 151.

Piroplasmiasis in horses due to hyperimmunisation.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1905-1906, p. 117.

**Hyperplasia.**

The significance of the lymphoid hyperplasia and other proliferative changes in the lungs of sheep.  
15th Rept. of the Dir. of Vet. Ser., 1929, p. G16.

Hyperplasia of the prostate in a dog.  
15th Rept. of the Dir. of Vet. Ser., 1929, p. 1185.

**Hyphantornis.**

See Weaver.

**Hypodontus macropi.**

A hookworm of the Kangaroo.  
15th Rept. of the Dir. of Vet. Ser., 1929, p. 303.

**Hypoplasia.**

Hypoplasia of a testicle.  
15th Rept. of the Dir. of Vet. Ser., 1929, p. 1185.

Hypoplasia cerebri.  
17th Rept. of the Dir. of Vet. Ser. and An. Ind., 1931, p. 865.

**Hypospadias.**

Anatomical Studies No. 28. Hypospadias in a merino ram.  
18th Rept. of the Dir. of Vet. Ser. and An. Ind., 1932, p. 1063.

**Icterus.**

Preliminary investigations into an icterus of sheep caused by a bacterium (bacterial icterus).  
13h and 14th Repts. of the Dir. of Vet. Ed. and Res., 1928, p. 733.

**Immunisation.**

See Anaerobes, East Coast Fever, Fowl Pox, Horsesickness, Rinderpest.

**Immunity.**

See Bluetongue, Redwater and Gallsickness, Anthrax, Trypanosomiasis, East Coast Fever, Horsesickness, Piroplasmosis.

Immunity in tropical and sub-tropical diseases.

*Commem. Rept.*, 1909, p.21.

**Inermicapsifer.**

*Inermicapsifer arvicanthidis.*

*Inermicapsifer hyracis.*

*Inermicapsifer interpositus.*

*Inermicapsife Janicki.*

*Inermicapsifer norhalli,*

*Inermicapsifer pagenstecheri.*

See helminth fauna of South Africa.

**Infection.**

" Infection theorv " in Lamsiekte.

*2nd Sept. of the Dir. of Vet. Res.*, 1912, p. GG.

**Infectious Anaemia.**

Infectious or pernicious anaemia of equines in South Africa.

*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 215.

A contribution to the study of the virus, haematology and pathology of infectious anaemia of equines under South African conditions.

*9th and 10th Repts. of the Dir. of Vet. Ed. and Res.*, 1923, p. 253.

**Infectious Foot Disease In Sheep.**

*1st Rept. of Dir. of Vet. Res.*, 1911, p. 273.

**Internal Parasites.**

*An. Rept. of the Gov. Vet. Bacteriologist*, 1906-1907, p. 23.

**Inoculation,**

See Anthrax, Black Quarter, Bluetongue, Equine Piroplasmosis, Horsesickness, Piroplasmosis.

**Intestinal Invagination.**

See Knoopderm.

**Intima Smears.**

See diagnosis of Heartwater.

**Intussusception.**

See Knoopderm.

**Invagination.**

See intestinal invagination, Knoopderm.

**Iodine.**

Studies in mineral metabolism XX. odine in the nutrition of sheep.

*18th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1932, p. 651.

Mineral metabolism XXIII. Phosphorus and Iodine supplements in field experiments with sheep.

*18th Rept. of the Dir. of Vet, Ser. and An. Ind.*, 1932, p. 733.

**Isolysines.**

Isolysines in equines.

*Commem., Rept.*, 1909, p. 70.

**Isotonicity.**

A short study of the isotonicity of sheep blood.

*16th Rept. of the Dir. of Vet, Ser. and An, Inch*, 1930, p. 525.

**Ixodes reduvius.**

*An. Rept. of the Gov. Vet, Bacteriologist*, 1903-1904, p. 63.

**Jackal.**

Unusual foreign body from Jackal.  
*17th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1931, p. 875.

**Jaagsiekte.**

Investigations into jaagsiekte or chronic catarrhal-pneumonia of sheep.  
*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 585.

Microscopic lesions.  
*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 595.

Experimental work.  
*3rd and 4th Repts. of the Dir. of Vet. Res.*, 1915, p. 602.

Jaagsiekte in horses (Crotalariae equorum).  
*7th and 8th Repts. of the Dir. of Vet. Res.*, 1918, p. 59.

Are the lesions of Jaagsiekte in sheep of the nature of a neoplasm?  
*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 611.

Primary lesions of Jaagsiekte.  
*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 612.

Significance of the Epithelial proliferations in Jaagsiekte.  
*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 613.

Further observations on the etiology of jaagsiekte in sheep.  
*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 1169.

**Jakhalsbos.**

See *Dimorphotheca zeyheri*.  
*18th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1932, p. 966.

**Jaws.**

Anatomical Studies No. 34. Faulty jaws in sheep.  
*18th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1932, p. 1085.

**Joint.**

Joint lesions—styfsiekte not caused by Crotalaria, frequently complicated with joint lesions.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 36.

**Kaalsiekte.**

see Alopecia.

**Kangaroo.**

*Hypodontus macropi*—a hookworm of the Kangaroo.  
*5th Rept. of the Dir. of Vet. Ser.*, 1929, p. 303.

*Filarinema flagrifer*—a trichostrongylid parasite of the Kangaroo.  
*15th Rept. of the Dir. of Vet. Ser.*, 1929, p. 307.

**Knoopderm.**

Knoopderm in sheep.  
*5th and 6th Repts. of the Dir. of Vet. Res.*, 1918, p. 167.

**Koch's Bodies.**

Koch's bodies, Koch's granules, Koch's plasmakugeln.  
 See also East Coast Fever.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1909-1910, pp. 56, 69, 171.

Koch's bodies.—See also Marico calf disease.  
*13th and 14th Repts. of the Dir. of Vet. Ed. and Res.*, 1928, p. 535.

**Koodoo.**

A strain of *Mycobacterium tuberculosis* from the giraffe and further observations of *M. tuberculosis* from the Koodoo and Duiker.  
*16th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1930, p. 143.

**Krimpsiekte.**

*11th and 12th Repts. of the Dir. of Vet. Ed. and Res.*, 1926, p. 331.

Symptomatology.  
*11th and 12th Repts. of the Dir. of Vet. Ed. and Res.*, 1926, p. 336.

Experimental determination of the cause of krimpsiekte.  
*11th and 12th Repts. of the Dir. of Vet. Ed. and Res.*, 1926, p. 343.

**Lactation.**

- Influence of lactation and gestation on wool growth.  
*18th Rept. of the Dir. of Vet. Ser. and An. Ind.*, 1932, p. 643.

**Laemobothriidae.**

See Anoplura.

**Lamsiekte.**

- Investigations into lamsiekte.  
*An. Rept. of Gov. Vet. Bacteriologist*, 1907-1908, p. 127.
- Investigations into the disease of cattle.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1908-1909, p. 100.
- Clinical symptoms.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1908-1909, p. 100.
- Anatomical-pathological lesions.  
*An. Rept. of the Gov. Vet. Bacteriologist*, 1908-1909, p. 105.
- Lamsiekte and styfsiekte :Facts and theories about.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 7.
- Lamsiekte or gal-lamsiekte.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 44.
- Diagnosis of lamsiekte.  
*2nd. Rept. of the Dir. of Vet. Res.*, 1912, p. 49.
- The nature of lamsiekte.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 49.
- Lamsiekte form of styfsiekte.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 42.
- Experiments to transmit lamsiekte by means of inoculation or by drenching with material of cattle suffering from the disease.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 50.
- Experiments to transmit lamsiekte with bones of animals that died of lamsiekte.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 53.
- Experiments to transmit lamsiekte into goats.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 53.
- Experiments to note whether the blood of rodents and other small animals found on lamsiekte farms would produce the disease when injected into susceptible cattle.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 53.
- Experiments to transmit the disease by culture, obtained from cattle that had died or were killed by lamsiekte.  
*2nd. Rept. of the Dir. of Vet. Res.*, 1912, p. 54.
- Experiments to transmit lamsiekte by means of ticks.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 54.
- Experiments with bone meal as a preventive for lamsiekte.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 54.
- Experiments to find out in which way lamsiekte is contracted.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 55.
- Historical notes, geographical distribution, and spread of the disease.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 55.
- Susceptibility of other animals.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 58.
- Lamsiekte : Immunity.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 59.
- Lamsiekte: Depraved appetite and craving.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 59.
- Lamsiekte Condition of veld and grass.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 60.
- Condition of soil—geological formation, altitude and situation of farms.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 61.
- Condition of water supply.  
*2nd Rept. of the Dir. of Vet. Res.*, 1912, p. 62.
