## INFORMATION FOR AUTHORS

To better assist the editorial team with the task of compiling the SAJAH in good time, in future, all contributors are requested to produce their manuscripts in the format set out in this edition, viz.: in two columns, with a left margin of 3 cm; a right margin of 3 cm; a top margin of 2.5 cm; and a bottom margin of 1 cm. All text should be set at "full justification".

Each article must contain an abstract, written in English but preferably with a translation in Afrikaans. This should be in Times New Roman font set at pitch 10. The main body of the text should be in Arial font set at pitch 11 and indented quotations should be in Arial font set at pitch 9 (see below for more details). The endnotes, which should immediately follow the main body of text, should be in Times New Roman set at pitch 9. Finally, the source list should be in Times New Roman font, set at pitch 10.

For the sake of conformity, authors are requested to adhere to the conventions of the A.P.A. referencing system and to ensure that they use English (Oxford Dictionary) spelling conventions. Authors should avoid employing capitalized, emboldened, italicized and underlined text for purely idiosyncratic purposes. Latin and other non-English terms are to be in italics. Quotations which are over five lines in length should be separated from the main text by a single line spacing and should be indented on both sides by 1cm. No quotation marks are necessary in these instances, however for quotations which are less than five lines and which form part of the main text, double quotation marks (i.e. ") should be used. Regardless of the length of the quotation, authors should make use of single quotation marks (i.e. '). for any quotation which is nested within a quotation.

Images (which are referred to as "figures" should only be included if they are absolutely germane to the article. Authors who have the facilities should scan their images in gray-scale at 100 ppi and then reduce them such that they are exactly 300 pixels in width. They may be any height, so long as this does not exceed the length of the page. These may be included in the text at the time of submission. Contributors who do not have the resources should ensure that they send good quality original photographs, with clear instructions as to their position in the text. These will be scanned by the editorial team.

All submissions should be printed out in hard copy format for the benefit of the academic referee. Should the article be approved for publication, the author should then submit a digital version in MS Word (.doc) format on a double-sided, high-density 3.5-inch diskette (stiffy disk) or CD ROM disk.
