Referees:

All submissions received by the AHWGSA are subject to peer review and evaluation by at least two referees with appropriate specialist knowledge in the discipline concerned. The editors, who may also serve as referees, when required, reserve the right to make the final decision should arbitration be needed. Due to the wide range of disciplines that a journal of this calibre covers we are always dependant on the goodwill of potential referees to share their expertise. In this regard, we are very grateful that we have the services of a core group of international subject specialists who are often our first port of call, viz.:

Prof. T. Avital: Department of Design and Art: Holon Academic Institute of Technology , Holon, Israel.

Dr P. Dubourg Glatigny: Centre National de la Recherche Scientifique, Paris, France

Prof. G. Olivier: Department of Philosophy: University of Port Elizabeth, South Africa.

Prof R. Shaw: Department of Foreign Languages: University of New Orleans, Louisiana, U.S.A.

Dr L. Schmidt: Department of Art History and Theory: Otago Polytechnic. Dunedin, New Zealand.

NOTE TO SUPPORTERS

The aim of the Art Historical Work Group of South Africa is to advance the study of the history and theory of art, architecture and visual culture. Any person who supports our aim may become a member and will receive the journal.

Die doelwit van die Kunshistoriese Werkgemeenskap van Suid-Afrika is die bevordering van kunsgeeskiedenis, kunsteorie, argitektuur-geskiedenis en visuele kultuur. Enigiemand wat hierdie doelwit onderskryf, mag 'n lid word en sal die tydskrif ontvang.

The contents of this journal do not necessarily represent the views of the editor, the editorial committee or the sponsors.

INFORMATION FOR AUTHORS

Layout:

To better assist the editorial team with the task of compiling the SAJAH in good time, all contributors are requested to produce their manuscripts in the format set out in this edition, viz.: two columns, each 7.2 cm wide with a 1.2 cm space between them. The left and right margins are 3 cm wide; the top margin is 2.5 cm; and the bottom margin is 2 cm. All text (except titles of figures and the source list), should be in single spacing and should be set to full justification.

Each article must include a short abstract of no more than 250 words, written in English but preferably with a translation in Afrikaans. The abstract(s) should be in Times New Roman font set at pitch 10. The main body of the text should be in Times New Roman font set at pitch 12. The endnotes (labelled as "Notes"), which should immediately follow the main body of text, should be in Times New Roman font set at pitch 9. Finally, the source list (labelled as "Sources cited"), should be in Times New Roman font, set at pitch 12 and left justified.

Language and Conventions:

For the sake of conformity, authors are kindly requested to adhere to the following conventions:

Please adhere to the Harvard referencing system and use English (UK) spelling conventions.

Underscored text should be avoided except in the case of a world wide web source. Similarly, emboldened text should only be utilized for headings and subheadings (*cf.* the present journal). Italicized text should be reserved for non-English and non-Afrikaans terms, titles of artworks, artifacts and books etc. Please refrain from using italicized, emboldened, capitalized or underscored text for idiosyncratic emphases.

Quotations in the text should make use of double quotation marks (i.e. " "), whereas quotations within quotations should make use of single quotation marks (i.e. ' '). Quotations, which are over two lines in length, should be separated from the main body of text, left indented (0.9 cm) and be placed in Times New Roman font set at pitch 9. In the latter regard, the need for double quotation marks (i.e. ") is obviated, whereas the use of single quotation marks (i.e. ') for quotations within quotations is not.

Dates, other than those quoted directly from source material, should make use of the more inclusive B.C.E. (before common era) and C.E. (common era) descriptors.

Images:

Images (which are referred to as "figures") should only be included if they are absolutely germane to the article. Authors who have the facilities should scan their images in grey-scale at 100 ppi and then reduce them such that they are exactly 300 pixels in width. They may be any height, so long as this does not exceed the length of an A4 page. These should ideally be included in the text at the time of submission. This journal makes use of double column layout, thus most images must be sized to fit within one of the two columns. If an image needs to be larger due to its illegibility on a smaller scale, authors may make their digital images 700 pixels in width in order that the editors may use the entire width of the page. Contributors who do not have the resources should ensure that they send good quality original photographs, with clear instructions as to their position in the text. These will be scanned by the editorial team. The titles for all figures should be in Times New Roman font set at pitch 10, emboldened and centered. The titles of works of art should be in italics. Please refer to the present journal for examples.

File Format:

All submissions should be printed out in hard copy format for the benefit of the academic referee. Should the article be approved for publication, the author should then submit a digital version in MS Word (.doc) format on a double-sided, high-density 3.5-inch diskette (stiffy disk) or CD ROM disk. Do not send pdf format files.

Any queries or input concerning the layout of the journal may be forwarded to Prof. N.P.L. Allen (041) 5043 247 or nplallen@petech.ac.za.
