Left Cav. on M

till Saturday

Up at 7.30. Work done, pack for Boultonn, and wrote this diary. This was the E.A.W.L. day at Cav. on -M. So I am going to Maricelle Saturday before returning here. Mary Butlerin, Doris Red & Max & Ren all busy in party or house breakfast at 9 a.m. when Maricelle arrived for me. Took her 2 bananas from Glen Hong & the large leaves with tea with my luggage for Kette where I concealed Kette - Rumble flight (with Maricelle Maricelle Davis at Hill-Burrell) bought two Kodachrome 195-36 film (looking Dec 1955.) Whiskey wine & soda to drink showed Maricelle 'National' jerseys (very similar to Gramin) Took Miles of San Sardes & 20 time Africa's cities from Nairobi at the, and we got home to Boultonn about 12.30 & went down to watch trout fishing. No fish & cold wet lunch on terrace. Took Easter Hill 3 to old Brittle farm at 1.30. Three of us went for drive (Met at school) to old Brittle farm & had Maricelle tea from deserted, ruined house with trees over the back country toward Nandi (Kipkelo, Ketchelton CC) & afterwards visited back along foothills of Elgin first the Tom Lake farm, the Cascade back farm, the Bachman home to Kette, big to port (rocks) and getting home about 7 pm. Had seen two beautiful griffon vulture near road just before tea near the 'Barbours' farms. Maricelle Maricelle Davis was spending the night & joined drinks & dinner. She had much to say about Africa until (in which she is continuing) but she had worked late in Africa, South Africa (on the Durban Country) East Africa is. From very short he called a raw, unformed Brittle & keeps a Colonial Office - she is now quite strong anti-British after working much from this end. To bed about 11 pm. Present when joined me on island but it was a very "hot" night and I could throw him off me with the blankets.

Up at 7.45 a.m. Shower, bath & breakfast (orange juice, two Kettles + tea) by 9 a.m. Long session of television after meal, arranged — briefly with Millicent Hunter (11am tea Robin Anderson (by phone to David Hart) afternoon tea — we were poor. Went on foot to see Bob C.B. out. Saw Dorothy Williams in my flat (Millicent H + arranged she + Frank Hunter came with me in the evening). Chatted with Millicent + Son Michael at Eden Roc flats 12.45 - 2.10 p.m. + walked back to town (before returning Millicent car left). Got Bob C.B. in his office (Lonsdale Bldg) 3pm - 4pm + back to tea with Vera Prock 4.15 - 6pm. Chatted, 2 Shirley + soda in room + tea till 7.45. Then met Frank H and Marjorie W in City. Drinks in lounge + dinner in La Fontaine's Grill (had to pay) after from 8.15. Back to room to 10.45. When they went home. 11.15 - wrote this and I had to read by 10.15 (Phone Brenda Davies + arranged to see a film and two girls have lunch with me at Meekles on Tuesday)

Saturday

16.1.65

Up at 7.50 a.m. Dull, chilly, overcast day. Breakfast (orange juice, bloater + tea) by 9 a.m. Arranged about work + having seen Phoebe David Hart + happened to get Robin Anderson - in office + confirmed tea at 11 a.m. Robin Anderson + David Hart had tea with me at her flat 11 a.m. to about 12.15 p.m. + among other things, arranged about my parcel of Tybridge stuff from Nairobi + gave all Kenya news.. Left immediately after by taxi, & David Hart, for Highlands (11/6) to Bob C.B. Met him first + received usual доброжелательно (friendly) greeting. Baba appeared a bit later from somewhere and (although I saw he was flitting about in background) Baba appeared reluctantly still late. Baba looks dark about the eyes + a bit withered. Baba (in semi-blushingly friendly) said affectionately dangling a long lock of hair over her eyes) - an odd and unusualised expression. Bob + Baba still claim smoking. Still overcast + chilly and raining a little. Every look + felt chilly + unwelcoming.

12.45 to 11pm with Bob + Baba. Very uncomfortable 11 hours. Ronald, Rankin & Sheep. A. Cold lunch. Some talk after in cold lounge. Baba informed great interest in "Cedos" "India in Children" said she had her. Fragile old dusty book + small dog, lowered against one or bushkin wall bench. Reluctantly + fire offered and sat on the hearth. Secluded Baba opened book. She seemed at intervals as did Baba. What a sort of measure, unfriendly, unhearty, unnatural act of all seemed. My hand pains started + I took Second lift of staircase about 6 pm as drinks started. Then arrived one Ronald Rankin with one Steel leg leg and wooden arm. Turned out a very nice person and a repulsive "beetle" of flesh and bones. Connected with orthopaedic hospital + interests like (on behalf of N.H.S.) about artificial legs. Very unfriendly conduct before dinner when Bob opened + inserted red wine but Bob protested that she has prof' white 1 or 2 etc. We had rice (including) dinner dry sandwiches that Bob + Baba have been through Pietra by car + August last or now to P.M. Day to Ent Jones, Billin + Neary + had not so much as said hello. It was the final "last straw" to this general badgering the uncharitable friendliness + I left really glad I was not staying with them a night + I found them extremely pleasant, well informed, intelligent fellows who had good taste but about 11.30 pm

Rankin left me back to hotel in Entebbe about 11pm in the car at late about 11.30 pm. Brownman, Africa + some politics. Drank whisky
