

VANDALS TRASH SCULPTURE

City vandals struck at the weekend when they up-ended this sculpture in George Storrar Drive causing damage estimated at about R40 000. Erected about two months ago, the idea of putting it there was to raise awareness and promote arts and culture in the city. Ronel van der Vyver, spokesman for the Millennium Gallery which donated the sculpture to the Pretoria City Council, said it would take about two weeks to repair the R80 000 work of art made of fibreglass and cement. Then it would reclaim its place of pride in Groenkloof.
