

## 10. 9: ACKNOWLEDGEMENTS

I wish to thank the following people:

Prof. S.A. de Waal for arranging funding of the project.

Magdel Combrinck for help with software and programming.

Dr. Louis van Rooy – just for everything.

Dr. H.J. Brynard for sacrificing his valuable time to help supervising this project, and for all the insightful contributions.

Dr. Roelof van der Merwe for his guidance and patience, and especially for help during crises times.
