Heartfelt thanks to those who:

- Took the time to complete questionnaires;
- Participated in interviews;
- Exercised patience by giving the author time to complete this.

Abstract

Title: The impact of the internet on organisational culture within the IT industry
Candidate: Pamela Cooke
Study Leader: Dr. J. H. Kroeze
Department: Informatics
Degree: MCom (Informatics)

This paper examines the impact of the internet on organisational culture within the IT industry. The first part of the literature study examines the history of the internet as well as, more specifically, its history and implementation within the organisation. The second part of the literature study analyses organisational culture. This is in order to determine the factors that change it, whether the internet could have played a role in changing the culture and, if so, how this change is managed and the implications of the change.

Two case studies support the literature study. The first case study is a quantitative study whereby questionnaires are used to determine how employees at two selected organisations perceive the impact of the internet. The second case study is qualitative and involves interviews with management at the selected organisations. Management's opinion on the impact of the internet as well as the use of the internet within the organisation is obtained. A comparison is made between the employees' and management's responses.

Recommendations are made in terms of what organisations should do to overcome the impacts of the internet on their culture.

The main focus of the paper is the effect of the implementation of the internet on organisational culture.

Lists	
Abbreviations	i
Figures	iv
Graphs	v
Tables	vi
1. Chapter 1: Introduction and structure	1
1.1 Introduction	1
1.2 Statement of the problem	1
1.3 Main aim of the paper	1
1.4 Outline of scope	1
1.5 Methodology	2
1.5.1 Assimilation of research material	2
1.5.2 Design and layout of the dissertation	3
1.6 Research questions and focal points	3
1.7 Case studies	4
1.7.1 Overview of the case studies	4
1.7.2 Aim of the case studies	5
1.7.3 Target population of the case studies	5
1.8 State of existing knowledge	6
1.9 Risks and limitations of the paper	10
1.10 Conclusion	11
2. Chapter 2: Literature study of the history and background of the internet	13
2.1 Introduction	13
2.2 History and background of the internet	13
2.2.1 The beginnings of the internet	14
2.2.2 The history of the internet in South Africa	15
2.2.3 History of the internet on a global scale	16
2.2.4 The internet revolution	18

University of Pretoria etd – Cooke, P (2003)

2.3	History of the internet within the IT industry	19
2.3.1	The IT industry	19
2.3.2	History of the internet in the IT industry and IT organisations	19
2.3.3	Social issues arising from the initial implementation of the internet	20
2.3.4	How technical issues that arose during implementation created social issues	21
2.3.5	The history of e-business and e-commerce	23
2.4	Use of the internet in the organisation	26
2.4.1	Business use of the internet	26
2.4.2	Business use of email	27
2.4.3	The intranet and extranet	28
2.4.4	Personal use of the internet	28
2.5	How organisations manage the use of the internet and email	30
2.5.1	Reasons for managing the use of the internet and email	30
2.5.2	Direct methods of managing internet and email use	33
2.5.3	Indirect methods of managing internet and email use	35
2.6	Conclusion	36
3.	Chapter 3: Organisational culture literature study	39
3.1	Introduction	39
3.2	Organisational culture	39
3.2.1	A description of organisational culture	40
3.2.2	Organisational subculture	41
3.2.3	Origins of organisational culture	42
3.2.4	Organisational culture is receiving increased attention	44
3.2.5	Reasons why culture is measured	45
3.2.6	Ways in which culture is measured	46
3.2.7	Organisational culture within the South African economy	47
3.2.8	Organisational culture within the IT industry	49
3.3	Organisational culture change	51
3.3.1	Factors that change organisational culture	51
3.3.2	Ways in which to change organisation culture	54

University of Pretoria etd – Cooke, P (2003)

3.4	The impact of the internet on organisational culture	57
3.4.1	Impacts on the internet	57
3.4.2	Has the internet impacted on organisational culture?	58
3.5	Conclusion	65
4.	Chapter 4: Quantitative case study	68
4.1	Introduction	68
4.2	Method of study	68
4.2.1	Objectives of the questionnaire	69
4.2.2	Structure of the questionnaire	69
4.2.3	Distribution and receipt of questionnaires	70
4.2.4	The effect of non-response	72
4.2.5	The effect of distribution to diverse numbers of employees in each group	73
4.2.6	A common understanding of the questionnaire	73
4.2.7	Statistical methodology	73
4.3	Internet policies	75
4.3.1	Organisation A's internet policy	75
4.3.2	Organisation B's internet policy	78
4.4	Analysis of results	81
4.4.1	Section A: Personal details	82
4.4.2	Section B: Internet and email use for business purposes	82
4.4.3	Section C: Internet and email use for personal purposes while at work	87
4.4.4	Section D: Organisational culture	95
4.4.5	Section E: Culture and attitude towards the internet/email in the organisation	102
4.5	Conclusion	104
5.	Chapter 5: Qualitative case study	106
5.1	Introduction	106
5.2	Method of study	106

University of Pretoria etd – Cooke, P (2003)

5.2.1	Steps of the case study	106
5.2.2	Selection of interviewees	107
5.2.3	Structure of interview	108
5.3	Analysis of results	110
5.3.1	Internet and email use for business purposes	110
5.3.2	Internet and email use for personal purposes while at work	118
5.3.3	Organisational culture	123
5.3.4	Culture and attitude towards the internet/email in the organisation	129
5.4	Conclusion	130
6.	Chapter 6: Conclusion	132
6.1	Introduction	132
6.2	Resolution of stated problems	132
6.3	Research questions and focal points answered	133
6.4	Comparison of literature and case study results	138
6.5	Recommendations	140
6.6	Future and further studies	142
