

Subject index

ONDERSTEPSOORT JOURNAL OF VETERINARY RESEARCH

Volume 61, Numbers 1-4, 1994

Abomasum

- Neuropeptides in the myenteric ganglia and nerve fibres of the fore-stomach and abomasum of grey, white and black Karakul lambs—H.B. GROENEWALD 207-213

Abortion

- First isolation of *Campylobacter jejuni* from the vaginal discharge of three bitches after abortion in South Africa—M.W. ODENDAAL, K.G.M. DE CRAMER, MARTHA L. VAN DER WALT, A.D. BOTHA and P.M. PIETERSON 193-195

Aetiological agent

- The identification of *Mycoplasma conjunctivae* as an aetiological agent of infectious keratoconjunctivitis of sheep in South Africa—A. VAN HALDEREN, W.J.J. VAN RENSBURG, A. GEYER and J.H. VORSTER 231-237

African elephant

- Osteology of the pelvic limb of the African elephant (*Loxodonta africana*)—MALIE M.S. SMUTS and A.J. BEZUIDENHOUT 51-66

- African horsesickness epidemiology: five species of *Culicoides* (Diptera: Ceratopogonidae) collected live behind the ears and at the dung of the African elephant in the Kruger National Park, South Africa—R. MEISWINKEL and L.E.O. BRAACK 155-170

- A histochemical study of mucus glycoproteins or mucins in the intestinal tract of the African elephant (*Loxodonta africana*)—SANET H. KOTZÉ and HELEEN L. COETZEE 177-181

- The oesophagus and stomach of the African elephant: a histological, immunocytochemical and immunofluorescence study—G. VAN ASWEGEN, J.H. SCHOEMAN, V. DE VOS and SUSAN VAN NOORDEN 223-229

African horsesickness

- African horsesickness epidemiology: five species of *Culicoides* (Diptera: Ceratopogonidae) collected live behind the ears and at the dung of the African elephant in the Kruger National Park, South Africa—R. MEISWINKEL and L.E.O. BRAACK 155-170

- Epidemiology of African horsesickness: Duration of viraemia in zebra (*Equus burchelli*)—B.J.H. BARNARD, R. BENGIS, D. KEET and E.H. DEKKER 391-393

Air pollution

- Vanadium air pollution: a cause of malabsorption and immunosuppression in cattle—B. GUMMOW, S.S. BASTIANELLO, C.J. BOTHA, H.J.C. SMITH, A.J. BASSON and B. WELLS 303-316

Amblyomma hebraeum

- The detection of antibodies cross-reacting with *Cowdria ruminantium* in the sera of domestic ruminants in regions of South Africa where *Amblyomma hebraeum* does not occur—J.L. DU PLESSIS, B.R. BOERSEMA and M.F. VAN STRIJP 277-281

Anaplasmosis

- A survey of the incidence and importance of the tick-borne diseases heartwater, redwater and anaplasmosis in the heartwater-endemic regions of South Africa—J.L. DU PLESSIS, D.T. DE WAAL and W.H. STOLTSZ 295-301

Anthrax

- Ecology and epidemiology of anthrax in the Etosha National Park, Namibia—P.M. LINDEQUE and P.C.B. TURNBULL 71-83

Antibodies

- Bovine besnoitiosis: transfer of colostral antibodies with observations possibly relating to natural transmission of the infection—VARDA SHKAP, E. PIPANO, S. MARCUS and Y. KRIGEL 273-275

Antibody	
The detection of antibodies cross-reacting with <i>Cowdria ruminantium</i> in the sera of domestic ruminants in regions of South Africa where <i>Amblyomma hebraeum</i> does not occur—J.L. DU PLESSIS, B.R. BOERSEMA and M.F. VAN STRIJP	277–281
Arboviruses	
The virtual absence of <i>Culicoides imicola</i> (Diptera: Ceratopogonidae) in a light-trap survey of the colder, high-lying area of the eastern Orange Free State, South Africa, and implications for the transmission of arboviruses—G.J. VENTER and R. MEISWINKEL	327–340
Arthropod parasites	
Helminth and arthropod parasites of indigenous goats in the northern Transvaal—J. BOOMKER, I.G. HORAK and K.A. RAMSAY	13–20
Avocado toxicity	
Putative avocado toxicity in two dogs—I.B.J. BUORO, S.B. NYAMWANGE, D. CHAI and S.M. MUNYUA	107–109
Bacterial contamination	
A rapid method to quantify bacterial contamination on hatching eggs. I. Correlation of optical density with initial bacterial count—A.C.E. PIENAAR, L. COETZEE and R.R. BRAGG	341–349
Bacterial count	
A rapid method to quantify bacterial contamination on hatching eggs. I. Correlation of optical density with initial bacterial count—A.C.E. PIENAAR, L. COETZEE and R.R. BRAGG	341–349
Bile	
Bile enhances the infectivity of third stage larvae of <i>Dictyocaulus filaria</i> —G.A.P. TITTOY and E.V. SCHWAN	395–396
Biliary crystals	
Photosensitivity in South Africa. VII. Chemical composition of biliary crystals from a sheep with experimentally induced geeldikkop—C.O. MILES, A.L. WILKINS, G.L. ERASMUS, T.S. KELLERMAN and J.A.W. COETZER	215–222
Bioequivalence evaluation	
A bioequivalence and pharmacokinetic evaluation of two commercial diminazene aceturate formulations administered intramuscularly to cattle—B. GUMMOW, G.E. SWAN and J.L. DU PREEZ	317–326
Birds	
Trypanosomes of some sub-Saharan birds—GORDON F. BENNETT, ROY A. EARLÉ and DEBORAH SQUIRES-PARSONS	263–271
Blackflies	
A rapid method of estimating the abundance of immature blackflies (Diptera: Simuliidae)—R.W. PALMER	117–126
Blackfly	
A method for the assessment of blackfly (Diptera: Simuliidae) attraction to and engorgement on sheep in South Africa—D.J. KOK, L.J. FOURIE and P.T. OBEREM	7–11
Blood	
The clinical pathology of heartwater. III. Changes in blood clotting, blood calcium, blood protein, haematocrit and white-cell counts in sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS, ELSBÉ MYBURGH, GERTRUIDA PRETORIUS and P. SACKS	21–27
Changes in the blood-gas status of sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS and ELSBÉ MYBURGH	45–49
Blood calcium	
The clinical pathology of heartwater. III. Changes in blood clotting, blood calcium, blood protein, haematocrit and white-cell counts in sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS, ELSBÉ MYBURGH, GERTRUIDA PRETORIUS and P. SACKS	21–27
Blood clotting	
The clinical pathology of heartwater. III. Changes in blood clotting, blood calcium, blood protein, haematocrit and white-cell counts in sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS, ELSBÉ MYBURGH, GERTRUIDA PRETORIUS and P. SACKS	21–27
Blood-gas status	
Changes in the blood-gas status of sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS and ELSBÉ MYBURGH	45–49
Blood protein	
The clinical pathology of heartwater. III. Changes in blood clotting, blood calcium, blood protein, haematocrit and white-cell counts in sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS, ELSBÉ MYBURGH, GERTRUIDA PRETORIUS and P. SACKS	21–27
Bone	
Serum- and bone-mineral status of ostriches with tibiotarsal rotation—A.J. BEZUIDENHOUT, W.P. BURGER, F. REYERS and J.T. SOLEY	203–206
Bovine besnoitiosis	
Bovine besnoitiosis: transfer of colostral antibodies with observations possibly relating to natural transmission of the infection—VARDA SHKAP, E. PIPANO, S. MARCUS and Y. KRIGEL	273–275

- Brain tissue**
Application of immunoperoxidase techniques to formalin-fixed brain tissue for the diagnosis of rabies in southern Africa—R.D. LAST, J.E. JARDINE, M.M.E. SMIT and J.J. VAN DER LUGT 183–187
- Campylobacter jejuni**
First isolation of *Campylobacter jejuni* from the vaginal discharge of three bitches after abortion in South Africa—M.W. ODENDAAL, K.G.M. DE CRAMER, MARTHA L. VAN DER WALT, A.D. BOTHA and P.M. PIETERSON 193–195
- Caprine rotavirus**
Isolation and preliminary characterization of a caprine rotavirus—V.M. DA COSTA MENDES, M.C. DE BEER, G.H. GOOSEN and A.D. STEELE 291–294
- Cattle**
A nervous disorder in cattle, caused by the plants *Ficus ingens* var. *ingens* and *Ficus cordata* subsp. *salicifolia*—J.G. MYBURGH, N. FOURIE, J.J. VAN DER LUGT, T.S. KELLERMAN, S.T. CORNELIUS and CAROLINE WARD 171–176
Vanadium air pollution: a cause of malabsorption and immunosuppression in cattle—B. GUMMOW, S.S. BAS-TIANELLO, C.J. BOTHA, H.J.C. SMITH, A.J. BASSON and B. WELLS 303–316
A bioequivalence and pharmacokinetic evaluation of two commercial diminazene aceturate formulations administered intramuscularly to cattle—B. GUMMOW, G.E. SWAN and J.L. DU PREEZ 317–326
- Central nervous system**
Perinatal mortality in lambs of ewes exposed to cultures of *Diplodia maydis* (= *Stenocarpella maydis*) during gestation. A study of the central-nervous-system lesions—L. PROZESKY, T.S. KELLERMAN, D. PETRO SWART, B.P. MAAR-TENS and R. ANITRA SCHULTZ 247–253
Sleeping sickness and the central nervous system—V.W. PENTREATH, P.J. BAUGH and D.R. LAVIN 369–377
- Ceratopogonidae**
Afrotropical *Culicoides*: Description and comparison of the pupae of seven species of the Similis supergroup (Diptera: Ceratopogonidae)—HILDA NEVILL and A.L. DYCE 85–106
African horsesickness epidemiology: five species of *Culicoides* (Diptera: Ceratopogonidae) collected live behind the ears and at the dung of the African elephant in the Kruger National Park, South Africa—R. MEISWINKEL and L.E.O. BRAACK 155–170
The virtual absence of *Culicoides imicola* (Diptera: Ceratopogonidae) in a light-trap survey of the colder, high-lying area of the eastern Orange Free State, South Africa, and implications for the transmission of arboviruses—G.J. VENTER and R. MEISWINKEL 327–340
- Cloaca**
Evidence for cryptosporidial infection as a cause of prolapse of the phallus and cloaca in ostrich chicks (*Struthio camelus*)—MARY-LOUISE PENRITH, A.J. BEZUIDENHOUT, W.P. BURGER and J.F. PUTTERILL 283–289
- Colostrum antibodies**
Bovine besnoitiosis: transfer of colostrum antibodies with observations possibly relating to natural transmission of the infection—VARDA SHKAP, E. PIPANO, S. MARCUS and Y. KRIGEL 273–275
- Conception**
Effect of heat stress on conception in a dairy-herd model in the Natal highlands of South Africa—J.H. DU PREEZ, J.J.C. WILLEMSE and H. VAN ARK 1–6
- Cowdria ruminantium**
The detection of antibodies cross-reacting with *Cowdria ruminantium* in the sera of domestic ruminants in regions of South Africa where *Amblyomma hebraeum* does not occur—J.L. DU PLESSIS, B.R. BOERSEMA and M.F. VAN STRIJP 277–281
- Cryptosporidial infection**
Evidence for cryptosporidial infection as a cause of prolapse of the phallus and cloaca in ostrich chicks (*Struthio camelus*)—MARY-LOUISE PENRITH, A.J. BEZUIDENHOUT, W.P. BURGER and J.F. PUTTERILL 283–289
- Culicoides**
Afrotropical *Culicoides*: Description and comparison of the pupae of seven species of the Similis supergroup (Diptera: Ceratopogonidae)—HILDA NEVILL and A.L. DYCE 85–106
African horsesickness epidemiology: five species of *Culicoides* (Diptera: Ceratopogonidae) collected live behind the ears and at the dung of the African elephant in the Kruger National Park, South Africa—R. MEISWINKEL and L.E.O. BRAACK 155–170
- Culicoides imicola**
The virtual absence of *Culicoides imicola* (Diptera: Ceratopogonidae) in a light-trap survey of the colder, high-lying area of the eastern Orange Free State, South Africa, and implications for the transmission of arboviruses—G.J. VENTER and R. MEISWINKEL 327–340
- Cystidicolidae**
Eight new Afrotropical *Spinitectus* spp. (Nematoda: Cystidicolidae) from freshwater fishes with a key to the members of the genus in the Region—J. BOOMKER and F.A. PUylaERT 127–142
- Dairy-herd model**
Effect of heat stress on conception in a dairy-herd model in the Natal highlands of South Africa—J.H. DU PREEZ, J.J.C. WILLEMSE and H. VAN ARK 1–6

Dictyocaulus filaria	
Bile enhances the infectivity of third stage larvae of <i>Dictyocaulus filaria</i> —G.A.P. TITOY and E.V. SCHWAN	395–396
Diminazene aceturate	
A bioequivalence and pharmacokinetic evaluation of two commercial diminazene aceturate formulations administered intramuscularly to cattle—B. GUMMOW, G.E. SWAN and J.L. DU PREEZ	317–326
Diplodia maydis	
Perinatal mortality in lambs of ewes exposed to cultures of <i>Diplodia maydis</i> (= <i>Stenocarpella maydis</i>) during gestation. A study of the central-nervous-system lesions—L. PROZESKY, T.S. KELLERMAN, D. PETRO SWART, B.P. MAARTENS and R. ANITRA SCHULTZ	247–253
Diptera	
A method for the assessment of blackfly (Diptera: Simuliidae) attraction to and engorgement on sheep in South Africa—D.J. KOK, L.J. FOURIE and P.T. OBEREM	7–11
Afrotropical <i>Culicoides</i> : Description and comparison of the pupae of seven species of the Similis supergroup (Diptera: Ceratopogonidae)—HILDA NEVILL and A.L. DYCE	85–106
A rapid method of estimating the abundance of immature blackflies (Diptera: Simuliidae)—R.W. PALMER	117–126
African horsesickness epidemiology: five species of <i>Culicoides</i> (Diptera: Ceratopogonidae) collected live behind the ears and at the dung of the African elephant in the Kruger National Park, South Africa—R. MEISWINKEL and L.E.O. BRAACK	155–170
The virtual absence of <i>Culicoides imicola</i> (Diptera: Ceratopogonidae) in a light-trap survey of the colder, high-lying area of the eastern Orange Free State, South Africa, and implications for the transmission of arboviruses—G.J. VENTER and R. MEISWINKEL	327–340
Dogs	
Putative avocado toxicity in two dogs—I.B.J. BUORO, S.B. NYAMWANGE, D. CHAI and S.M. MUNYUA	107–109
First isolation of <i>Campylobacter jejuni</i> from the vaginal discharge of three bitches after abortion in South Africa—M.W. ODENDAAL, K.G.M. DE CRAMER, MARTHA L. VAN DER WALT, A.D. BOTHA and P.M. PIETERSON	193–195
Ecology	
Ecology and epidemiology of anthrax in the Etosha National Park, Namibia—P.M. LINDEQUE and P.C.B. TURNBULL	71–83
Elephantulus myurus	
Sequential feeding of <i>Ixodes rubicundus</i> on its natural host, <i>Elephantulus myurus</i> : effects on tick mass and on engorgement and moulting success—J.S. DU TOIT, L.J. FOURIE and I.G. HORAK	143–147
Detachment rhythms of immature <i>Ixodes rubicundus</i> from their natural host, the rock elephant shrew (<i>Elephantulus myurus</i>)—J.S. DU TOIT, L.J. FOURIE and I.G. HORAK	149–153
Endotoxin	
Studies on the presence of endotoxin activity and inflammatory products (leukotrienes) in cases of experimentally induced heartwater in sheep—S.R. VAN AMSTEL, ELSBÉ MYBURGH, JENNIFER MUNDELL and B. DAVIDSON	29–33
Epidemiology	
Ecology and epidemiology of anthrax in the Etosha National Park, Namibia—P.M. LINDEQUE and P.C.B. TURNBULL	71–83
African horsesickness epidemiology: five species of <i>Culicoides</i> (Diptera: Ceratopogonidae) collected live behind the ears and at the dung of the African elephant in the Kruger National Park, South Africa—R. MEISWINKEL and L.E.O. BRAACK	155–170
Epidemiology of African horsesickness: Duration of viraemia in zebra (<i>Equus burchelli</i>)—B.J.H. BARNARD, R. BENGIS, D. KEET and E.H. DEKKER	391–393
Epidemiology and control of Trypanosomosis—V. CHADENGA	385–390
Equus burchelli	
Epidemiology of African horsesickness: Duration of viraemia in zebra (<i>Equus burchelli</i>)—B.J.H. BARNARD, R. BENGIS, D. KEET and E.H. DEKKER	391–393
Etosha National Park	
Ecology and epidemiology of anthrax in the Etosha National Park, Namibia—P.M. LINDEQUE and P.C.B. TURNBULL	71–83
Ficus cordata subsp. <i>salicifolia</i>	
A nervous disorder in cattle, caused by the plants <i>Ficus ingens</i> var. <i>ingens</i> and <i>Ficus cordata</i> subsp. <i>salicifolia</i> —J.G. MYBURGH, N. FOURIE, J.J. VAN DER LUGT, T.S. KELLERMAN, S.T. CORNELIUS and CAROLINE WARD	171–176
Ficus ingens var. <i>ingens</i>	
A nervous disorder in cattle, caused by the plants <i>Ficus ingens</i> var. <i>ingens</i> and <i>Ficus cordata</i> subsp. <i>salicifolia</i> —J.G. MYBURGH, N. FOURIE, J.J. VAN DER LUGT, T.S. KELLERMAN, S.T. CORNELIUS and CAROLINE WARD	171–176
Fish	
Parasites of South African freshwater fish. VI. Nematode parasites of some fish species in the Kruger National Park—J. BOOMKER	35–43

Eight new Afrotropical <i>Spinitectus</i> spp. (Nematoda: Cystidicolidae) from freshwater fishes with a key to the members of the genus in the Region—J. BOOMKER and F.A. PUYLAERT	127–142
Parasites of South African freshwater fish. VII. Nematodes of some scaled fishes from the Hartbeespoort Dam, Transvaal—J. BOOMKER	197–199
Forestomach	
Neuropeptides in the myenteric ganglia and nerve fibres of the fore-stomach and abomasum of grey, white and black Karakul lambs—H.B. GROENEWALD	207–213
Gastroenteritis	
Pseudorabies and transmissible gastroenteritis: a serological survey in South Africa—R. WILLIAMS, J.J. ESTER-HUYSEN and J.T.R. ROBINSON	67–70
Geeldikkop	
Photosensitivity in South Africa. VII. Chemical composition of biliary crystals from a sheep with experimentally induced geeldikkop—C.O. MILES, A.L. WILKINS, G.L. ERASMUS, T.S. KELLERMAN and J.A.W. COETZER	215–222
Photosensitivity in South Africa. VIII. Ovine metabolism of <i>Tribulus terrestris</i> saponins during experimentally induced geeldikkop—C.O. MILES, A.L. WILKINS, G.L. ERASMUS and T.S. KELLERMAN	351–359
Gestation	
Perinatal mortality in lambs of ewes exposed to cultures of <i>Diplodia maydis</i> (= <i>Stenocarpella maydis</i>) during gestation. A study of the central-nervous-system lesions—L. PROZESKY, T.S. KELLERMAN, D. PETRO SWART, B.P. MAARTENS and R. ANITRA SCHULTZ	247–253
Glycoproteins	
A histocytochemical study of mucus glycoproteins or mucins in the intestinal tract of the African elephant (<i>Loxodonta africana</i>)—SANET H. KOTZÉ and HELEEN L. COETZEE	177–181
Goats	
Helminth and arthropod parasites of indigenous goats in the northern Transvaal—J. BOOMKER, I.G. HORAK and K.A. RAMSAY	13–20
Growth-inhibition test	
Evaluation of a short-term <i>in vitro</i> growth-inhibition test to determine susceptibility of <i>Trypanosoma vivax</i> stocks to various trypanocides—E. ZWEYGARTH, R. KAMINSKY and S.K. MOLOO	189–191
Haematocrit	
The clinical pathology of heartwater. III. Changes in blood clotting, blood calcium, blood protein, haematocrit and white-cell counts in sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS, ELSBÉ MYBURGH, GERTRUIDA PRETORIUS and P. SACKS	21–27
Hartbeespoort Dam	
Parasites of South African freshwater fish. VII. Nematodes of some scaled fishes from the Hartbeespoort Dam, Transvaal—J. BOOMKER	197–199
Hatching eggs	
A rapid method to quantify bacterial contamination on hatching eggs. I. Correlation of optical density with initial bacterial count—A.C.E. PIENAAR, L. COETZEE and R.R. BRAGG	341–349
Heartwater	
The clinical pathology of heartwater. III. Changes in blood clotting, blood calcium, blood protein, haematocrit and white-cell counts in sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS, ELSBÉ MYBURGH, GERTRUIDA PRETORIUS and P. SACKS	21–27
Studies on the presence of endotoxin activity and inflammatory products (leukotrienes) in cases of experimentally induced heartwater in sheep—S.R. VAN AMSTEL, ELSBÉ MYBURGH, JENNIFER MUNDELL and B. DAVIDSON	29–33
Changes in the blood-gas status of sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS and ELSBÉ MYBURGH	45–49
A survey of the incidence and importance of the tick-borne diseases heartwater, redwater and anaplasmosis in the heartwater-endemic regions of South Africa—J.L. DU PLESSIS, D.T. DE WAAL and W.H. STOLTSZ	295–301
Heat stress	
Effect of heat stress on conception in a dairy-herd model in the Natal highlands of South Africa—J.H. DU PREEZ, J.J.C. WILLEMSE and H. VAN ARK	1–6
Helminth parasites	
Helminth and arthropod parasites of indigenous goats in the northern Transvaal—J. BOOMKER, I.G. HORAK and K.A. RAMSAY	13–20
Immunoperoxidase techniques	
Application of immunoperoxidase techniques to formalin-fixed brain tissue for the diagnosis of rabies in southern Africa—R.D. LAST, J.E. JARDINE, M.M.E. SMIT and J.J. VAN DER LUGT	183–187
Immunosuppression	
Vanadium air pollution: a cause of malabsorption and immunosuppression in cattle—B. GUMMOW, S.S. BASTIANELLO, C.J. BOTHA, H.J.C. SMITH, A.J. BASSON and B. WELLS	303–316

Infectious keratoconjunctivitis	
The identification of <i>Mycoplasma conjunctivae</i> as an aetiological agent of infectious keratoconjunctivitis of sheep in South Africa—A. VAN HALDEREN, W.J.J. VAN RENSBURG, A. GEYER and J.H. VORSTER	231–237
Inflammatory products	
Studies on the presence of endotoxin activity and inflammatory products (leukotrienes) in cases of experimentally induced heartwater in sheep—S.R. VAN AMSTEL, ELSBÉ MYBURGH, JENNIFER MUNDELL and B. DAVIDSON	29–33
Intestinal tract	
A histochemical study of mucus glycoproteins or mucins in the intestinal tract of the African elephant (<i>Loxodonta africana</i>)—SANET H. KOTZÉ and HELEEN L. COETZEE	177–181
<i>Ixodes rubicundus</i>	
Sequential feeding of <i>Ixodes rubicundus</i> on its natural host, <i>Elephantulus myurus</i> : effects on tick mass and on engorgement and moulting success—J.S. DU TOIT, L.J. FOURIE and I.G. HORAK	143–147
Detachment rhythms of immature <i>Ixodes rubicundus</i> from their natural host, the rock elephant shrew (<i>Elephantulus myurus</i>)—J.S. DU TOIT, L.J. FOURIE and I.G. HORAK	149–153
Karakul	
Neuropeptides in the myenteric ganglia and nerve fibres of the fore-stomach and abomasum of grey, white and black Karakul lambs—H.B. GROENEWALD	207–213
Kruger National Park	
Parasites of South African freshwater fish. VI. Nematode parasites of some fish species in the Kruger National Park—J. BOOMKER	35–43
African horsesickness epidemiology: five species of <i>Culicoides</i> (Diptera: Ceratopogonidae) collected live behind the ears and at the dung of the African elephant in the Kruger National Park, South Africa—R. MEISWINKEL and L.E.O. BRAACK	155–170
Larvae	
Bile enhances the infectivity of third stage larvae of <i>Dictyocaulus filaria</i> —G.A.P. TITTOY and E.V. SCHWAN	395–396
Leukotrienes	
Studies on the presence of endotoxin activity and inflammatory products (leukotrienes) in cases of experimentally induced heartwater in sheep—S.R. VAN AMSTEL, ELSBÉ MYBURGH, JENNIFER MUNDELL and B. DAVIDSON	29–33
Light-trap survey	
The virtual absence of <i>Culicoides imicola</i> (Diptera: Ceratopogonidae) in a light-trap survey of the colder, high-lying area of the eastern Orange Free State, South Africa, and implications for the transmission of arboviruses—G.J. VENTER and R. MEISWINKEL	327–340
<i>Loxodonta africana</i>	
Osteology of the pelvic limb of the African elephant (<i>Loxodonta africana</i>)—MALIE M.S. SMUTS and A.J. BEZUIDENHOUT	51–66
African horsesickness epidemiology: five species of <i>Culicoides</i> (Diptera: Ceratopogonidae) collected live behind the ears and at the dung of the African elephant in the Kruger National Park, South Africa—R. MEISWINKEL and L.E.O. BRAACK	155–170
A histochemical study of mucus glycoproteins or mucins in the intestinal tract of the African elephant (<i>Loxodonta africana</i>)—SANET H. KOTZÉ and HELEEN L. COETZEE	177–181
The oesophagus and stomach of the African elephant: a histological, immunocytochemical and immunofluorescence study—G. VAN ASWEGEN, J.H. SCHOEMAN, V. DE VOS and SUSAN VAN NOORDEN	223–229
Lumpy-skin disease	
Early and late transcriptional phases in the replication of lumpy-skin-disease virus—W.C. FICK and G.J. VILJOEN	255–261
Malabsorption	
Vanadium air pollution: a cause of malabsorption and immunosuppression in cattle—B. GUMMOW, S.S. BASTIANELLO, C.J. BOTHA, H.J.C. SMITH, A.J. BASSON and B. WELLS	303–316
Mineral	
Serum- and bone-mineral status of ostriches with tibiotarsal rotation—A.J. BEZUIDENHOUT, W.P. BURGER, F. REYERS and J.T. SOLEY	203–206
Mucins	
A histochemical study of mucus glycoproteins or mucins in the intestinal tract of the African elephant (<i>Loxodonta africana</i>)—SANET H. KOTZÉ and HELEEN L. COETZEE	177–181
Mucus	
A histochemical study of mucus glycoproteins or mucins in the intestinal tract of the African elephant (<i>Loxodonta africana</i>)—SANET H. KOTZÉ and HELEEN L. COETZEE	177–181

- Mycoplasma conjunctivae***
The identification of *Mycoplasma conjunctivae* as an aetiological agent of infectious keratoconjunctivitis of sheep in South Africa—A. VAN HALDEREN, W.J.J. VAN RENSBURG, A. GEYER and J.H. VORSTER 231–237
- Myenteric ganglia**
Neuropeptides in the myenteric ganglia and nerve fibres of the fore-stomach and abomasum of grey, white and black Karakul lambs—H.B. GROENEWALD 207–213
- Nagana**
The impact of nagana—R.J. CONNOR 379–383
- Nematode**
Parasites of South African freshwater fish. VI. Nematode parasites of some fish species in the Kruger National Park—J. BOOMKER 35–43
Eight new Afrotropical *Spinitectus* spp. (Nematoda: Cystidicolidae) from freshwater fishes with a key to the members of the genus in the Region—J. BOOMKER and F.A. PUYLAERT 127–142
Parasites of South African freshwater fish. VII. Nematodes of some scaled fishes from the Hartbeespoort Dam, Transvaal—J. BOOMKER 197–199
- Nerve fibres**
Neuropeptides in the myenteric ganglia and nerve fibres of the fore-stomach and abomasum of grey, white and black Karakul lambs—H.B. GROENEWALD 207–213
- Nervous disorder**
A nervous disorder in cattle, caused by the plants *Ficus ingens* var. *ingens* and *Ficus cordata* subsp. *salicifolia*—J.G. MYBURGH, N. FOURIE, J.J. VAN DER LUGT, T.S. KELLERMAN, S.T. CORNELIUS and CAROLINE WARD 171–176
- Neuropeptides**
Neuropeptides in the myenteric ganglia and nerve fibres of the fore-stomach and abomasum of grey, white and black Karakul lambs—H.B. GROENEWALD 207–213
- Oesophagus**
The oesophagus and stomach of the African elephant: a histological, immunocytochemical and immunofluorescence study—G. VAN ASWEGEN, J.H. SCHOEMAN, V. DE VOS and SUSAN VAN NOORDEN 223–229
- Optical density**
A rapid method to quantify bacterial contamination on hatching eggs. I. Correlation of optical density with initial bacterial count—A.C.E. PIENAAR, L. COETZEE and R.R. BRAGG 341–349
- Osteology**
Osteology of the pelvic limb of the African elephant (*Loxodonta africana*)—MALIE M.S. SMUTS and A.J. BEZUIDENHOUT 51–56
- Ostrich**
Serum- and bone-mineral status of ostriches with tibiotarsal rotation—A.J. BEZUIDENHOUT, W.P. BURGER, F. REYERS and J.T. SOLEY 203–206
Ultrastructure of ostrich (*Struthio camelus*) spermatozoa. II. Scanning electron microscopy—J.T. SOLEY and D.C. ROBERTS 239–246
Evidence for cryptosporidial infection as a cause of prolapse of the phallus and cloaca in ostrich chicks (*Struthio camelus*)—MARY-LOUISE PENRITH, A.J. BEZUIDENHOUT, W.P. BURGER and J.F. PUTTERILL 283–289
- Ovine metabolism**
Photosensitivity in South Africa. VIII. Ovine metabolism of *Tribulus terrestris* saponins during experimentally induced geeldikkop—C.O. MILES, A.L. WILKINS, G.L. ERASMUS and T.S. KELLERMAN 351–359
- Parasites**
Helminth and arthropod parasites of indigenous goats in the northern Transvaal—J. BOOMKER, I.G. HORAK and K.A. RAMSAY 13–20
Parasites of South African freshwater fish. VI. Nematode parasites of some fish species in the Kruger National Park—J. BOOMKER 35–43
Parasites of South African freshwater fish. VII. Nematodes of some scaled fishes from the Hartbeespoort Dam, Transvaal—J. BOOMKER 197–199
- Pelvic limb**
Osteology of the pelvic limb of the African elephant (*Loxodonta africana*)—MALIE M.S. SMUTS and A.J. BEZUIDENHOUT 51–66
- Perinatal mortality**
Perinatal mortality in lambs of ewes exposed to cultures of *Diplodia maydis* (= *Stenocarpella maydis*) during gestation. A study of the central-nervous-system lesions—L. PROZESKY, T.S. KELLERMAN, D. PETRO SWART, B.P. MAARTENS and R. ANITRA SCHULTZ 247–253
- Phallus**
Evidence for cryptosporidial infection as a cause of prolapse of the phallus and cloaca in ostrich chicks (*Struthio camelus*)—MARY-LOUISE PENRITH, A.J. BEZUIDENHOUT, W.P. BURGER and J.F. PUTTERILL 283–289

Pharmacokinetic evaluation

- A bioequivalence and pharmacokinetic evaluation of two commercial diminazene aceturate formulations administered intramuscularly to cattle—B. GUMMOW, G.E. SWAN and J.L. DU PREEZ 317–326

Photosensitivity

- Photosensitivity in South Africa. VII. Chemical composition of biliary crystals from a sheep with experimentally induced geeldikkop—C.O. MILES, A.L. WILKINS, G.L. ERASMUS, T.S. KELLERMAN and J.A.W. COETZER 215–222

- Photosensitivity in South Africa. VIII. Ovine metabolism of *Tribulus terrestris* saponins during experimentally induced geeldikkop—C.O. MILES, A.L. WILKINS, G.L. ERASMUS and T.S. KELLERMAN 351–359

Pseudorabies

- Pseudorabies and transmissible gastroenteritis: a serological survey in South Africa—R. WILLIAMS, J.J. ESTERHUYSEN and J.T.R. ROBINSON 67–70

Rabies

- Application of immunoperoxidase techniques to formalin-fixed brain tissue for the diagnosis of rabies in southern Africa—R.D. LAST, J.E. JARDINE, M.M.E. SMIT and J.J. VAN DER LUGT 183–187

Redwater

- A survey of the incidence and importance of the tick-borne diseases heartwater, redwater and anaplasmosis in the heartwater-endemic regions of South Africa—J.L. DU PLESSIS, D.T. DE WAAL and W.H. STOLTZ 295–301

Replication

- Early and late transcriptional phases in the replication of lumpy-skin-disease virus—W.C. FICK and G.J. VILJOEN 255–261

Rock elephant shrew

- Sequential feeding of *Ixodes rubicundus* on its natural host, *Elephantulus myurus*: effects on tick mass and on engorgement and moulting success—J.S. DU TOIT, L.J. FOURIE and I.G. HORAK 143–147

- Detachment rhythms of immature *Ixodes rubicundus* from their natural host, the rock elephant shrew (*Elephantulus myurus*)—J.S. DU TOIT, L.J. FOURIE and I.G. HORAK 149–153

Ruminants

- The detection of antibodies cross-reacting with *Cowdria ruminantium* in the sera of domestic ruminants in regions of South Africa where *Amblyomma hebraeum* does not occur—J.L. DU PLESSIS, B.R. BOERSEMA and M.F. VAN STRIJP 277–281

Saponins

- Photosensitivity in South Africa. VIII. Ovine metabolism of *Tribulus terrestris* saponins during experimentally induced geeldikkop—C.O. MILES, A.L. WILKINS, G.L. ERASMUS and T.S. KELLERMAN 351–359

Scanning electron microscopy

- Ultrastructure of ostrich (*Struthio camelus*) spermatozoa. II. Scanning electron microscopy—J.T. SOLEY and D.C. ROBERTS 239–246

Sera

- The detection of antibodies cross-reacting with *Cowdria ruminantium* in the sera of domestic ruminants in regions of South Africa where *Amblyomma hebraeum* does not occur—J.L. DU PLESSIS, B.R. BOERSEMA and M.F. VAN STRIJP 277–281

Serological survey

- Pseudorabies and transmissible gastroenteritis: a serological survey in South Africa—R. WILLIAMS, J.J. ESTERHUYSEN and J.T.R. ROBINSON 67–70

Serum

- Serum- and bone-mineral status of ostriches with tibiotarsal rotation—A.J. BEZUIDENHOUT, W.P. BURGER, F. REYERS and J.T. SOLEY 203–206

Sheep

- A method for the assessment of blackfly (Diptera: Simuliidae) attraction to and engorgement on sheep in South Africa—D.J. KOK, L.J. FOURIE and P.T. OBEREM 7–11

- The clinical pathology of heartwater. III. Changes in blood clotting, blood calcium, blood protein, haematocrit and white-cell counts in sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS, ELSBÉ MYBURGH, GERTRUIDA PRETORIUS and P. SACKS 21–27

- Studies on the presence of endotoxin activity and inflammatory products (leukotrienes) in cases of experimentally induced heartwater in sheep—S.R. VAN AMSTEL, ELSBÉ MYBURGH, JENNIFER MUNDELL and B. DAVIDSON 29–33

- Changes in the blood-gas status of sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS and ELSBÉ MYBURGH 45–49

- Photosensitivity in South Africa. VII. Chemical composition of biliary crystals from a sheep with experimentally induced geeldikkop—C.O. MILES, A.L. WILKINS, G.L. ERASMUS, T.S. KELLERMAN and J.A.W. COETZER 215–222

- The identification of *Mycoplasma conjunctivae* as an aetiological agent of infectious keratoconjunctivitis of sheep in South Africa—A. VAN HALDEREN, W.J.J. VAN RENSBURG, A. GEYER and J.H. VOFSTEF 231–237

- Perinatal mortality in lambs of ewes exposed to cultures of *Diplodia maydis* (= *Stenocarpella maydis*) during gestation. A study of the central-nervous-system lesions—L. PROZESKY, T.S. KELLERMAN, D. PETRO SWART, B.P. MAARTENS and R. ANITRA SCHULTZ 247–253
- Similis**
Afrotropical *Culicoides*: Description and comparison of the pupae of seven species of the Similis supergroup (Diptera: Ceratopogonidae)—HILDA NEVILL and A.L. DYCE 85–106
- Simuliidae**
A method for the assessment of blackfly (Diptera: Simuliidae) attraction to and engorgement on sheep in South Africa—D.J. KOK, L.J. FOURIE and P.T. OBEREM 7–11
A rapid method of estimating the abundance of immature blackflies (Diptera: Simuliidae)—R.W. PALMER 117–126
- Sleeping sickness**
Sleeping sickness and the central nervous system—V.W. PENTREATH, P.J. BAUGH and D.R. LAVIN 369–377
- Spermatozoa**
Ultrastructure of ostrich (*Struthio camelus*) spermatozoa. II. Scanning electron microscopy—J.T. SOLEY and D.C. ROBERTS 239–246
- Spinitectus**
Eight new Afrotropical *Spinitectus* spp. (Nematoda: Cystidicolidae) from freshwater fishes with a key to the members of the genus in the Region—J. BOOMKER and F.A. PUUYLAERT 127–142
- Stenocarpella maydis**
Perinatal mortality in lambs of ewes exposed to cultures of *Diplodia maydis* (= *Stenocarpella maydis*) during gestation. A study of the central-nervous-system lesions—L. PROZESKY, T.S. KELLERMAN, D. PETRO SWART, B.P. MAARTENS and R. ANITRA SCHULTZ 247–253
- Stomach**
The oesophagus and stomach of the African elephant: a histological, immunocytochemical and immunofluorescence study—G. VAN ASWEGEN, J.H. SCHOEMAN, V. DE VOS and SUSAN VAN NOORDEN 223–229
- Struthio camelus**
Serum- and bone-mineral status of ostriches with tibiotarsal rotation—A.J. BEZUIDENHOUT, W.P. BURGER, F. REYERS and J.T. SOLEY 203–206
Ultrastructure of ostrich (*Struthio camelus*) spermatozoa. II. Scanning electron microscopy—J.T. SOLEY and D.C. ROBERTS 239–246
Evidence for cryptosporidial infection as a cause of prolapse of the phallus and cloaca in ostrich chicks (*Struthio camelus*)—MARY-LOUISE PENRITH, A.J. BEZUIDENHOUT, W.P. BURGER and J.F. PUTTERILL 283–289
- Tibiotarsal rotation**
Serum- and bone-mineral status of ostriches with tibiotarsal rotation—A.J. BEZUIDENHOUT, W.P. BURGER, F. REYERS and J.T. SOLEY 203–206
- Tick**
Sequential feeding of *Ixodes rubicundus* on its natural host, *Elephantulus myurus*: effects on tick mass and on engorgement and moulting success—J.S. DU TOIT, L.J. FOURIE and I.G. HORAK 143–147
A survey of the incidence and importance of the tick-borne diseases heartwater, redwater and anaplasmosis in the heartwater-endemic regions of South Africa—J.L. DU PLESSIS, D.T. DE WAAL and W.H. STOLTSZ 295–301
- Tick-borne diseases**
A survey of the incidence and importance of the tick-borne diseases heartwater, redwater and anaplasmosis in the heartwater-endemic regions of South Africa—J.L. DU PLESSIS, D.T. DE WAAL and W.H. STOLTSZ 295–301
- Transcriptional phases**
Early and late transcriptional phases in the replication of lumpy-skin-disease virus—W.C. FICK and G.J. VILJOEN 255–261
- Tribulus terrestris**
Photosensitivity in South Africa. VIII. Ovine metabolism of *Tribulus terrestris* saponins during experimentally induced geeldikkop—C.O. MILES, A.L. WILKINS, G.L. ERASMUS and T.S. KELLERMAN 351–359
- Trypanocides**
Evaluation of a short-term *in vitro* growth-inhibition test to determine susceptibility of *Trypanosoma vivax* stocks to various trypanocides—E. ZWEYGARTH, R. KAMINSKY and S.K. MOLOO 189–191
- Trypanosoma vivax**
Evaluation of a short-term *in vitro* growth-inhibition test to determine susceptibility of *Trypanosoma vivax* stocks to various trypanocides—E. ZWEYGARTH, R. KAMINSKY and S.K. MOLOO 189–191
- Trypanosomes**
Trypanosomes of some sub-Saharan birds—GORDON F. BENNETT, ROY A. EARLÉ and DEBORAH SQUIRES-PARSONS 263–271
- Trypanosomiasis**
Epidemiology and control of Trypanosomiasis—V. CHADENGA 385–390

Tsetse flies	
Understanding tsetse flies—P.A. LANGLEY	361–367
Vaginal discharge	
First isolation of <i>Campylobacter jejuni</i> from the vaginal discharge of three bitches after abortion in South Africa—M.W. ODENDAAL, K.G.M. DE CRAMER, MARTHA L. VAN DER WALT, A.D. BOTHA and P.M. PIETERSON	193–195
Vanadium	
Vanadium air pollution: a cause of malabsorption and immunosuppression in cattle—B. GUMMOW, S.S. BASTIANELLO, C.J. BOTHA, H.J.C. SMITH, A.J. BASSON and B. WELLS	303–316
Viraemia	
Epidemiology of African horsesickness: Duration of viraemia in zebra (<i>Equus burchelli</i>)—B.J.H. BARNARD, R. BENGIS, D. KEET and E.H. DEKKER	391–393
Virus	
Early and late transcriptional phases in the replication of lumpy-skin-disease virus—W.C. FICK and G.J. VILJOEN	255–261
White-cell counts	
The clinical pathology of heartwater. III. Changes in blood clotting, blood calcium, blood protein, haematocrit and white-cell counts in sheep with experimentally induced heartwater—S.R. VAN AMSTEL, F. REYERS, ELSBÉ MYBURGH, GERTRUIDA PRETORIUS and P. SACKS	21–27
Zebra	
Epidemiology of African horsesickness: Duration of viraemia in zebra (<i>Equus burchelli</i>)—B.J.H. BARNARD, R. BENGIS, D. KEET and E.H. DEKKER	391–393
