

SUBJECT INDEX

|  | <i>Volume</i> | <i>Page</i> |
|--|---------------|-------------|
| <b>Abortion</b>  |               |             |
| <i>Leptospira interrogans</i> serovar <i>hardjo</i> associated with bovine abortion in South Africa. LESLEY A. TE BRUGGE and TERSIA DREYER.....  | 52            | 51-52       |
| Mycoplasmas recovered from bovine genitalia, aborted fetuses and placentas in the Republic of South Africa. C. J. V. TRICHARD and ELSIE P. JACOBSZ .....   | 52            | 105-110     |
| <b>African swine fever</b>   |               |             |
| The epidemiology of African swine fever: The role of free-living hosts in Africa. G. R. THOMSON .....  | 52            | 201-209     |
| <b>Amblyomma hebraeum</b>  |               |             |
| A method determining the <i>Cowdria ruminantium</i> infection rate of <i>Amblyomma hebraeum</i> in mice injected with tick homogenates. J. L. DU PLESSIS .....   | 52            | 55-61       |
| <b>Angora goats</b>  |               |             |
| Heartwater in Angora goats. II. A pathological study of artificially infected, treated and untreated goats. L. PROZESKY and J. L. DU PLESSIS .....   | 52            | 13-19       |
| <b>Antidorcas marsupialis</b>  |               |             |
| Arthropods and helminths in springbok ( <i>Antidorcas marsupialis</i> ) at Benfontein, Kimberley. I. L. DE VILLIERS, R. LIVERSIDGE and R. K. REINECKE.....   | 52            | 1-11        |
| <b>API 50 CH system</b>  |               |             |
| Some features of coagulase positive staphylococci from bovine milk. 1. Carbohydrate metabolism: Comparison of conventional techniques and the API 50 CH system. J. A. ERASMUS .....  | 52            | 25-29       |
| <b>Argas (Persicargas) walkerae</b>  |               |             |
| An investigation into the emission sites of the volatile pheromone produced by females of <i>Argas (Persicargas) walkerae</i> . R. GOTHE and A. W. H. NEITZ .....  | 52            | 31-33       |
| <b>Arsenical dips</b>  |               |             |
| The effect of arsenical dips on <i>Parafilara bovicola</i> in artificially infected cattle in South Africa. E. M. NEVILL .....   | 52            | 221-225     |
| <b>Arthropods</b>  |               |             |
| Arthropods and helminths in springbok ( <i>Antidorcas marsupialis</i> ) at Benfontein, Kimberley. I. L. DE VILLIERS, R. LIVERSIDGE and R. K. REINECKE.....   | 52            | 1-11        |
| <b>Ball 3</b>  |               |             |
| The pathology of heartwater. II. A study of the lung lesions in sheep and goats infected with the Ball 3 strain of <i>Cowdria ruminantium</i> . L. PROZESKY and J. L. DU PLESSIS .....   | 52            | 81-85       |
| <b>Besnoitia besnoiti</b>  |               |             |
| Chemotherapy of experimental <i>Besnoitia besnoiti</i> infection in rabbits. VARDA SHKAP, D. T. DE WAAL and F. T. POTGIETER .....  | 52            | 289-289     |
| <b>Biotechnology</b>   |               |             |
| Biotechnology, viral oncogenesis and jaagsiekte. D. W. VERWOERD.....   | 52            | 145-148     |
| <b>Bluetongue virus</b>  |               |             |
| The use of recombinant DNA technology for the development of a bluetongue virus subunit vaccine. H. HUISMANS .....   | 52            | 149-151     |
| <b>Bovine abortion</b>   |               |             |
| <i>Leptospira interrogans</i> serovar <i>hardjo</i> associated with bovine abortion in South Africa. LESLEY A. TE BRUGGE and TERSIA DREYER.....  | 52            | 51-52       |
| <b>Bovine genitalia</b>  |               |             |
| Mycoplasmas recovered from bovine genitalia, aborted fetuses and placentas in the Republic of South Africa. C. J. V. TRICHARD and ELSIE P. JACOBSZ .....   | 52            | 105-110     |
| <b>Bovine herpesviruses</b>  |               |             |
| Studies on bovine herpesviruses. Part 1. Isolation and characterization of viruses isolated from the genital tract of cattle. A. THEODORIDIS.....  | 52            | 239-254     |
| <b>Bovine leukemia virus</b>   |               |             |
| Bovine leukaemia virus and enzootic bovine leukosis. A. BURNY, C. BRUCK, Y. CLEUTER, M. MAMMERICKX, G. MARBAIX and D. PORTETELLE .....   | 52            | 133-144     |
| <b>Bovine milk</b>   |               |             |
| Some features of coagulase positive staphylococci from bovine milk. 1. Carbohydrate metabolism. Comparison of conventional techniques and the API 50 CH system. J. A. ERASMUS .....  | 52            | 25-29       |
| <b>Brucellosis</b>   |               |             |
| The use of a single complement fixation test technique in bovine brucellosis, Johne's disease, dourine, equine piroplasmiasis and Q fever serology. S. HERR, HILDEGARD F. K. A. HUCHZERMAYER, LESLEY A. TE BRUGGE, CATHERINE C. WILLIAMSON, J. A. ROOS and G. J. SCHIELE ..... | 52            | 279-282     |

**Bufadienolides**

- Isolation and characterization of and some observations on poisoning by bufadienolides from *Cotyledon orbiculata* L. var. *orbiculata*. L. A. P. ANDERSON, R. ANITRA SCHULTZ, T. S. KELLERMAN, SARIE M. KOTZÉ, L. PROZESKY, G. L. ERASMUS and LEONIE LABUSCHAGNE ..... 52 21-24

**Buffalo**

- Buffalo in the Northern Natal game parks show no serological evidence of infection with foot-and-mouth disease virus. J. J. ESTERHUYSEN, G. R. THOMSON, J. R. B. FLAMMAND and R. G. BENGIS ..... 52 63-66

**Calves**

- An *in vivo* comparison of the efficacy of the heartwater blood and ground-up tick suspension vaccines in calves. J. D. BEZUIDENHOUT and A. M. SPICKETT ..... 52 269-271

**Carbohydrate metabolism**

- Some features of coagulase positive staphylococci from bovine milk. 1. Carbohydrate metabolism: Comparison of conventional techniques and the API 50 CH system. J. A. ERASMUS ..... 52 25-29

**Cattle**

- The epidemiology and control of heartwater and other tick-borne diseases of cattle in South Africa. J. D. BEZUIDENHOUT ..... 52 211-214
- The epidemiology and control of gastrointestinal roundworm infestation of sheep and cattle in South Africa. 1. The historic role of Onderstepoort and a short discussion of present research priorities. J. A. VAN WYK ..... 52 215-219
- The effect of arsenical dips on *Parafilara bovicola* in artificially infected cattle in South Africa. E. M. NEVILL ..... 52 221-225
- Studies on bovine herpesviruses. Part 1. Isolation and characterization of viruses isolated from the genital tract of cattle. A. THEODORIDIS ..... 52 239-254
- The natural resistance of cattle to artificial infection with *Cowdria ruminantium*: the role played by conglutinin. J. L. DU PLESSIS ..... 52 273-277

**Cellular affinity chromatography**

- Isolation of *Cowdria ruminantium* by cellular affinity chromatography and detection by an enzyme-linked immuno-sorbent assay. G. J. VILJOEN, N. M. J. VERMEULEN, P. J. OBEREM, L. PROZESKY, J. A. VERSCHOOR, J. D. BEZUIDENHOUT, J. F. PUTTERILL, L. VISSER and A. W. H. NEITZ ..... 52 227-232

**Chemotherapy**

- Chemotherapy of experimental *Besnoitia besnoiti* infection in rabbits. VARDA SHKAP, D. T. DE WAAL and F. T. POTGIETER ..... 52 289-289

**Commemorative lecture**

- Onderstepoort today, yeasterday and tomorrow. R. D. BIGALKE ..... 52 121-132

**Complement fixation test technique**

- The use of a single complement fixation test technique in bovine brucellosis, Johne's disease, dourine, equine piroplasmosis and Q fever serology. S. HERR, HILDEGARD F. K. A. HUCHZERMAYER, LESLEY A. TE BRUGGE, CATHERINE C. WILLIAMSON, J. A. ROOS and G. J. SCHIELE ..... 52 279-282

**Conglutinin**

- The natural resistance of cattle to artificial infection with *Cowdria ruminantium*: the role played by conglutinin. J. L. DU PLESSIS ..... 52 273-277

**Cotyledon orbiculata var. orbiculata**

- Isolation and characterization of and some observations on poisoning by bufadienolides from *Cotyledon orbiculata* L. var. *orbiculata*. L. A. P. ANDERSON, R. ANITRA SCHULTZ, T. S. KELLERMAN, SARIE M. KOTZÉ, L. PROZESKY, G. L. ERASMUS and LEONIE LABUSCHAGNE ..... 52 21-24

**Cowdria ruminantium**

- A method determining the *Cowdria ruminantium* infection rate of *Amblyomma hebraeum* in mice injected with tick homogenates. J. L. DU PLESSIS ..... 52 55-61
- The pathology of heartwater. I. A study of mice infected with the Welgevonden strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 71-79
- The pathology of heartwater. II. A study of the lung lesions in sheep and goats infected with the Ball 3 strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 81-85
- In vitro* cultivation of *Cowdria ruminantium*. J. D. BEZUIDENHOUT, CAMILLA L. PATERSON and B. J. H. BARNARD ... 52 113-120
- Isolation of *Cowdria ruminantium* by cellular affinity chromatography and detection by an enzyme-linked immuno-sorbent assay. G. J. VILJOEN, N. M. J. VERMEULEN, P. J. OBEREM, L. PROZESKY, J. A. VERSCHOOR, J. D. BEZUIDENHOUT, J. F. PUTTERILL, L. VISSER and A. W. H. NEITZ ..... 52 227-232
- The natural resistance of cattle to artificial infection with *Cowdria ruminantium*: the role played by conglutinin. J. L. DU PLESSIS ..... 52 273-277

**Dairy cows**

- The effect of stress on udder health of dairy cows. W. H. GIESECKE ..... 52 175-193

**Diplodia maydis**

- Induction of diplodiosis, a neuromycotoxicosis, in domestic ruminants with cultures of indigenous and exotic isolates of *Diplodia maydis*. T. S. KELLERMAN, C. J. RABIE, G. C. A. VAN DER WESTHUIZEN, N. P. J. KRIEK and L. PROZESKY ..... 52 35-42

**Diplodiosis**

- Induction of diplodiosis, a neuromycotoxicosis, in domestic ruminants with cultures of indigenous and exotic isolates of *Diplodia maydis*. T. S. KELLERMAN, C. J. RABIE, G. C. A. VAN DER WESTHUIZEN, N. P. J. KRIEK and L. PROZESKY ..... 52 35-42

**Distribution of *Rhipicephalus glabroscutatum***

- The distribution and hosts of *Rhipicephalus glabroscutatum*. K. M. MACIVOR ..... 52 43-46

|  |    |         |
|--|----|---------|
| <b>DNA technology</b>  |    |         |
| The use of recombinant DNA technology for the development of a bluetongue virus subunit vaccine. H. HUISMANS .....   | 52 | 149-151 |
| <b>Domestic ruminants</b>  |    |         |
| Induction of diploidiosis, a neuromycotoxicosis, in domestic ruminants with cultures of indigenous and exotic isolates of <i>Diplodia maydis</i> . T. S. KELLERMAN, C. J. RABIE, G. C. A. VAN DER WESTHUIZEN, N. P. J. KRIEK and L. PROZESKY.....  | 52 | 35-42   |
| <b>Dourine</b>   |    |         |
| The use of a single complement fixation test technique in bovine brucellosis, Johne's disease, dourine, equine piroplasmiasis and Q fever serology. S. HERR, HILDEGARD F. K. A. HUGHZERMAYER, LESLEY A. TE BRUGGE, CATHERINE C. WILLIAMSON, J. A. ROOS and G. J. SCHIELE .....             | 52 | 279-282 |
| <b>Drechslera campanulata</b>  |    |         |
| An experimental mycotoxicosis in sheep and goats caused by <i>Drechslera campanulata</i> , a fungal pathogen of green oats. D. J. SCHNEIDER, W. F. O. MARASAS, M. G. COLLETT and G. C. A. VAN DER WESTHUIZEN.....  | 52 | 93-100  |
| <b>Emission sites of pheromones</b>  |    |         |
| An investigation into the emission sites of the volatile pheromone produced by females of <i>Argas (Persicargas) walkarae</i> . R. GOTHE and A. W. H. NEITZ .....  | 52 | 31-33   |
| <b>EMJH medium</b>   |    |         |
| Addition of rabbit serum to EMJH medium improves isolation of <i>Leptospira interrogans</i> serovar <i>hardjo</i> . LESLEY A. TE BRUGGE and H. NICOLETTE LOUW.....   | 52 | 53-54   |
| <b>Enzootic bovine leucosis</b>  |    |         |
| Bovine leukaemia virus and enzootic bovine leucosis. A. BURNY, C. BRUCK, Y. CLEUTER, M. MAMMERICKX, G. MARBAIX and D. PORTETELLE .....   | 52 | 133-144 |
| <b>Enzyme-linked immuno-sorbent assay</b>  |    |         |
| Isolation of <i>Cowdria ruminantium</i> by cellular affinity chromatography and detection by an enzyme-linked immuno-sorbent assay. G. J. VILJOEN, N. M. J. VERMEULEN, P. J. OBEREM, L. PROZESKY, J. A. VERSCHOOR, J. D. BEZUIDENHOUT, J. F. PUTTERILL, L. VISSER and A. W. H. NEITZ ..... | 52 | 227-232 |
| <b>Epidemiology of African swine fever</b>   |    |         |
| The epidemiology of African swine fever: The role of free-living hosts in Africa. G. R. THOMSON .....  | 52 | 201-209 |
| <b>Epidemiology of heartwater</b>  |    |         |
| The epidemiology and control of heartwater and other tick-borne diseases of cattle in South Africa. J. D. BEZUIDENHOUT.....  | 52 | 211-214 |
| <b>Epidemiology of infectious diseases</b>   |    |         |
| The epidemiology of infectious diseases of livestock. F. A. MURPHY .....   | 52 | 195-200 |
| <b>Epidemiology of Parafilaria bovicola</b>  |    |         |
| The epidemiology of <i>Parafilaria bovicola</i> in the Transvaal Bushveld of South Africa. E. M. NEVILL .....  | 52 | 261-267 |
| <b>Epidemiology of roundworm infestation</b>   |    |         |
| The epidemiology and control of gastrointestinal roundworm infestation of sheep and cattle in South Africa. 1. The historic role of Onderstepoort and a short discussion of present research priorities. J. A. VAN WYK .....   | 52 | 215-219 |
| <b>Equine priplasmiasis</b>  |    |         |
| The use of a single complement fixation test technique in bovine brucellosis, Johne's disease, dourine, equine piroplasmiasis and Q fever serology. S. HERR, HILDEGARD F. K. A. HUGHZERMAYER, LESLEY A. TE BRUGGE, CATHERINE C. WILLIAMSON, J. A. ROOS and G. J. SCHIELE .....             | 52 | 279-282 |
| <b>Farm stock</b>  |    |         |
| Paralysis and lipofuscin-like pigmentation of farm stock caused by the plant, <i>Trachyandra laxa</i> var. <i>laxa</i> . RINA C. GRANT, P. A. BASSON and A. B. KIDD .....  | 52 | 255-259 |
| <b>Fertility</b>   |    |         |
| Stress and fertility. A review. R. I. COUBROUGH .....  | 52 | 153-156 |
| <b>Foetuses</b>  |    |         |
| Mycoplasmas recovered from bovine genitalia, aborted foetuses and placentas in the Republic of South Africa. C. J. V. TRICHARD and ELSIE P. JACOBSZ .....  | 52 | 105-110 |
| <b>Foot-and-mouth disease virus</b>  |    |         |
| Buffalo in the Northern Natal game park show no serological evidence of infection with foot-and-mouth disease virus. J. J. ESTERHUYSEN, G. R. THOMSON, J. R. B. FLAMMANN and R. G. BENGIS .....  | 52 | 63-66   |
| <b>Free-living hosts</b>   |    |         |
| The epidemiology of African swine fever: The role of free-living hosts in Africa. G. R. THOMSON .....  | 52 | 201-209 |
| <b>Fungal pathogen</b>   |    |         |
| An experimental mycotoxicosis in sheep and goats caused by <i>Drechslera campanulata</i> , a fungal pathogen of green oats. D. J. SCHNEIDER, W. F. O. MARASAS, M. G. COLLETT and G. C. A. VAN DER WESTHUIZEN.....  | 52 | 93-100  |
| <b>Game parks</b>  |    |         |
| Buffalo in the Northern Natal game parks show no serological evidence of infection with foot-and-mouth disease virus. J. J. ESTERHUYSEN, G. R. THOMSON, J. R. B. FLAMMANN and R. G. BENGIS .....   | 52 | 63-100  |
| <b>Genital tract</b>   |    |         |
| Studies on bovine herpesviruses. Part 1. Isolation and characterization of viruses isolated from the genital tract of cattle. A. THEODORIDIS.....  | 52 | 239-254 |

**Goats**

- Heartwater in Angora goats. II. A pathological study of artificially infected, treated and untreated goats. L. PROZESKY and J. L. DU PLESSIS ..... 52 13-19
- The pathology of heartwater. II. A study of the lung lesions in sheep and goats infected with the Ball 3 strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 81-85
- An experimental mycotoxicosis in sheep and goats caused by *Drechslera campanulata*, a fungal pathogen of green oats. D. J. SCHNEIDER, W. F. O. MARASAS, M. G. COLLETT and G. C. A. VAN DER WESTHUIZEN ..... 52 93-100

**Ground-up tick suspension vaccines**

- An *in vivo* comparison of the efficacy of the heartwater blood and ground-up tick suspension vaccines in calves. J. D. BEZUIDENHOUT and A. M. SPICKETT ..... 52 269-271

**Guinea-pigs**

- Enrichment of a fraction toxic to guinea-pigs from *Pachystigma pygmaeum* (Schltr.) Robyns. J. A. VERSCHOOR, H. G. PATTERTON and D. J. J. POTGIETER ..... 52 101-104

**Heartwater**

- Heartwater in Angora goats. II. A pathological study of artificially infected, treated and untreated goats. L. PROZESKY and J. L. DU PLESSIS ..... 52 13-19
- The pathology of heartwater. I. A study of mice infected with the Welgevonden strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 71-79
- The pathology of heartwater. II. A study of the lung lesions in sheep and goats infected with the Ball 3 strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 81-85
- The epidemiology and control of heartwater and other tick-borne diseases of cattle in South Africa. J. D. BEZUIDENHOUT ..... 52 211-214

**Heartwater blood vaccine**

- An *in vivo* comparison of the efficacy of the heartwater blood and ground-up tick suspension vaccines in calves. J. D. BEZUIDENHOUT and A. M. SPICKETT ..... 52 269-271

**Helminths**

- Arthropods and helminths in springbok (*Antidorcas marsupialis*) at Benfontein, Kimberley. I. L. DE VILLIERS, R. RIVERSIDGE and R. K. REINECKE ..... 52 1-11

**Hepatogenous photosensitivity diseases**

- Hepatogenous photosensitivity diseases in South Africa. T. S. KELLERMAN and J. A. W. COETZER ..... 52 157-173

**Hepatotoxicosis**

- An ovine hepatotoxicosis caused by the plant *Hertia pallens* (DC.) Kuntze (Asteraceae). L. PROZESKY, T. S. KELLERMAN, P. JORDAAN, WILHELMINA G. WELMAN and J. P. J. JOUBERT ..... 52 233-238

**Herpesviruses**

- Studies on bovine herpesviruses. Part 1. Isolation and characterization of viruses isolated from the genital tract of cattle. A. HEODORIDIS ..... 52 239-254

**Hertia pallens**

- An ovine hepatotoxicosis caused by the plant *Hertia pallens* (DC.) Kuntze (Asteraceae). L. PROZESKY, T. S. KELLERMAN, P. JORDAAN, WILHELMINA G. WELMAN and J. P. J. JOUBERT ..... 52 233-238

**Hosts of *Rhipicephalus glabroscutatum***

- The distribution and hosts of *Rhipicephalus glabroscutatum*. K. M. MACIVOR ..... 52 43-46

**Hyperimmune serum**

- The efficacy of hyperimmune serum in the treatment of sweating sickness. P. T. OBEREM, G. R. VAN AMSTEL, O. MATTHEE and J. D. BEZUIDENHOUT ..... 52 283-287

**Infectious diseases**

- The epidemiology of infectious diseases of livestock. F. A. MURPHY ..... 52 195-200

**Intestinal spirochaetosis**

- "Intestinal spirochaetosis" of the vervet monkey. HEATHER M. COWLEY and R. R. HILL ..... 52 47-50

**In vitro cultivation**

- In vitro* cultivation of *Cowdria ruminantium*. J. D. BEZUIDENHOUT, CAMILLA L. PATERSON and B. J. H. BARNARD ... 52 113-120

**Jaagsiekte**

- Biotechnology, viral oncogenesis and jaagsiekte. D. W. VERWOERD ..... 52 145-148

***Leptospira interrogans* serovar hardjo**

- Leptospira interrogans* serovar *hardjo* associated with bovine abortion in South Africa. LESLEY A. TE BRUGGE and TERSIA DREYER ..... 52 51-52
- Addition of rabbit serum to EMJH medium improves isolation of *Leptospira interrogans* serovar *hardjo*. LESLEY A. TE BRUGGE and H. NICOLETTE LOUW ..... 52 53-54

**Leukemia virus**

- Bovine leukaemia virus and enzootic bovine leukosis. A. BURNY, C. BRUCK, Y. CLEUTER, M. MAMMERICKX, G. MARBAIX and D. PORTETELLE ..... 52 133-144

**Lipofuscin-like pigmentation**

- Paralysis and lipofuscin-like pigmentation of farm stock caused by the plant, *Trachyandra laxa* var. *laxa*. RINA C. GRANT, P. A. BASSON and A. B. KIDD ..... 52 255-259

**Lipofuscin storage disease**

- A suspected lipofuscin storage disease of sheep associated with ingestion of the plant, *Trachyandra divaricata* (Jacq.) Kunth. S. J. NEWSHOLME, D. J. SCHNEIDER and CLARE REID ..... 52 87-92

**Livestock**

- The epidemiology of infectious diseases of livestock. F. A. MURPHY ..... 52 195-200

**Lung lesions**

- The pathology of heartwater. II. A study of the lung lesions in sheep and goats infected with the Ball 3 strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 81-85

**Male pheromones**

- Investigation into the participation of male pheromones of *Rhipicephalus evertsi evertsi* during infestation. R. GOTHE and A. W. H. NEITZ ..... 52 67-70

**Mice**

- A method determining the *Cowdria ruminantium* infection rate of *Amblyomma hebraeum* in mice injected with tick homogenates. J. L. DU PLESSIS ..... 52 55-61

- The pathology of heartwater. 1. A study of mice infected with the Welgevonden strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 71-79

**Morphology of sensory receptor**

- The morphology of a sensory receptor in the nipped tubercles of *Schistosoma mattheei*. F. J. KRUGER and V. L. HAMILTON-ATTWELL ..... 52 111-112

**Mycoplasmas**

- Mycoplasmas recovered from bovine genitalia, aborted fetuses and placentas in the Republic of South Africa. C. J. V. TRICHARD and ELSIE P. JACOBSZ ..... 52 105-110

**Mycotoxicosis**

- An experimental mycotoxicosis in sheep and goats caused by *Drechslera campanulata*, a fungal pathogen of green oats. D. J. SCHNEIDER, W. F. O. MARASAS, M. G. COLLETT and G. C. A. VAN DER WESTHUIZEN ..... 52 93-100

**Neuromycotoxicosis**

- Induction of diploidiosis, a neuromycotoxicosis, in domestic ruminants with cultures of indigenous and exotic isolates of *Diplodia maydis*. T. S. KELLERMAN, C. J. RABIE, G. C. A. VAN DER WESTHUIZEN, N. P. J. KRIEK and L. PROZESKY ..... 52 35-42

**Nipped tubercles**

- The morphology of a sensory receptor in the nipped tubercles of *Schistosoma mattheei*. F. J. KRUGER and V. L. HAMILTON-ATTWELL ..... 52 111-112

**Oats**

- An experimental mycotoxicosis in sheep and goats caused by *Drechslera campanulata*, a fungal pathogen of green oats. D. J. SCHNEIDER, W. F. O. MARASAS, M. G. COLLETT and G. C. A. VAN DER WESTHUIZEN ..... 52 93-100

**Onderstepoort**

- Onderstepoort today, yesterday and tomorrow. R. D. BIGALKE ..... 52 121-132

- The epidemiology and control of gastrointestinal roundworm infestation of sheep and cattle in South Africa. 1. The historic role of Onderstepoort and a short discussion of present research priorities. J. A. VAN WYK ..... 52 215-219

**Ovine hepatotoxicosis**

- An ovine hepatotoxicosis caused by the plant *Hertia pallens* (DC.) Kuntze (Asteraceae). L. PROZESKY, T. S. KELLERMAN, P. JORDAAN, WILHELMINA G. WELMAN and J. P. J. JOUBERT ..... 52 233-238

**Pachystigma pygmaeum**

- Enrichment of a fraction toxic to guinea-pigs from *Pachystigma pygmaeum* (Schltr.) Robyns. J. A. VERSCHOOR, H. G. PATTERTON and D. J. J. POTGIETER ..... 52 101-104

**Parafilaria bovicola**

- The effect of arsenical dips on *Parafilaria biviloca* in artificially infected cattle in South Africa. E. M. NEVILL ..... 52 221-225

- The epidemiology of *Parafilaria bovicola* in the Transvaal Bushveld of South Africa. E. M. NEVILL ..... 52 261-267

**Paralysis of farm stock**

- Paralysis and lipofuscin-like pigmentation of farm stock caused by the plant, *Trachyandra laxa* var. *laxa*. RINA C. GRANT, P. A. BASSON and A. B. KIDD ..... 52 255-259

**Pathology of heartwater**

- Heartwater in Angora goats. II. A pathological study of artificially infected, treated and untreated goats. L. PROZESKY and J. L. DU PLESSIS ..... 52 13-19

- The pathology of heartwater. I. A study of mice infected with the Welgevonden strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 71-79

- The pathology of heartwater. II. A study of the lung lesions in sheep and goats infected with the Ball 3 strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 81-85

**Pheromone**

- An investigation into the emission sites of the volatile pheromone produced by females of *Argas (Persicargas) walkerae*. R. GOTHE and A. W. H. NEITZ ..... 52 31-33

**Photosensitivity diseases**

- Hepatogenous photosensitivity diseases in South Africa. T. S. KELLERMAN and J. A. W. COETZER ..... 52 157-173

**Placentas**

- Mycoplasmas recovered from bovine genitalia, aborted fetuses and placentas in the Republic of South Africa. C. J. V. TRICHARD and ELSIE P. JACOBSZ ..... 52 105-110

**Poisoning**

- Isolation and characterization of and some observations on poisoning by bufadienolides from *Cotyledon orbiculata* L. var. *orbiculata*. L. A. P. ANDERSON, R. ANITRA SCHULTZ, T. S. KELLERMAN, SARIE M. KOTZÉ, L. PROZESKY, G. L. ERASMUS and LEONIE LABUSCHAGNE ..... 52 21-24

**Q fever serology**

- The use of a single complement fixation test technique in bovine brucellosis, Johne's disease, dourine, equine piroplasmiasis and Q fever serology. S. HERR, HILDEGARD F. K. A. HUCHZERMAYER, LESLEY A. TE BRUGGE, CATHERINE C. WILLIAMSON, J. A. ROOS and G. J. SCHIELE ..... 52 279-282

**Rabbits**

- Chemotherapy of experimental *Besnoitia besnoiti* infection in rabbits. VARDA SHKAP, D. T. DE WAAL and F. T. POTGIETER ..... 52 289-289

**Rabbit serum**

- Addition of rabbit serum to EMJH medium improves isolation of *Leptospira interrogans* serovar *hardjo*. LESLEY A. TE BRUGGE and H. NICOLETTE LOUW ..... 52 53-54

**Recombinant DNA technology**

- The use of recombinant DNA technology for the development of a bluetongue virus subunit vaccine. H. HUISMANS ..... 52 149-151

**Research priorities**

- The epidemiology and control of gastrointestinal roundworm infestation of sheep and cattle in South Africa. I. The historic role of Onderstepoort and a short discussion of present research priorities. J. A. VAN WYK ..... 52 215-219

**Rhipicephalus evertsi evertsi**

- Investigation into the participation of male pheromones of *Rhipicephalus evertsi evertsi* during infestation. R. GOTHE and A. W. H. NEITZ ..... 52 67-70

**Rhipicephalus glabroscutatum**

- The distribution and hosts of *Rhipicephalus glabroscutatum*. K. M. MACIVOR ..... 52 43-46

**Roundworms**

- The epidemiology and control of gastrointestinal roundworm infestation of sheep and cattle in South Africa. I. The historic role of Onderstepoort and a short discussion of present research priorities. J. A. VAN WYK ..... 52 215-219

**Schistosoma mattheei**

- The morphology of a sensory receptor in the nipped tubercles of *Schistosoma mattheei*. F. J. KRUGER and V. L. HAMILTON-ATTWELL ..... 52 111-112

**Sensory receptor**

- The morphology of a sensory receptor in the nipped tubercles of *Schistosoma mattheei*. F. J. KRUGER and V. L. HAMILTON-ATTWELL ..... 52 111-112

**Serum**

- The efficacy of hyperimmune serum in the treatment of sweating sickness, P. T. OBEREM, G. R. VAN AMSTEL, O. MATTHEE and J. D. BEZUIDENHOUT ..... 52 283-287

**Sheep**

- The pathology of heartwater. II. A study of the lung lesions in sheep and goats infected with the Ball 3 strain of *Cowdria ruminantium*. L. PROZESKY and J. L. DU PLESSIS ..... 52 81-85

- A suspected lipofuscin storage disease of sheep associated with ingestion of the plant, *Trachyantra divaricata* (Jacq.) Kunth. S. J. NEWSHOLME, D. J. SCHNEIDER and CLARE REID ..... 52 87-92

- An experimental mycotoxicosis in sheep and goats caused by *Drechslera campanulata*, a fungal pathogen of green oats. D. J. SCHNEIDER, W. F. O. MARASAS, M. G. COLLETT and G. C. A. VAN DER WESTHUIZEN ..... 52 93-100

- The epidemiology and control of gastrointestinal roundworm infestation of sheep and cattle in South Africa. I. The historic role of Onderstepoort and a short discussion of present research priorities. J. A. VAN WYK ..... 52 215-219

**Spirochaetosis**

- "Intestinal spirochaetosis" of the vervet monkey. HEATHER M. COWLEY and R. R. HILL ..... 52 47-50

**Springbok**

- Arthropods and helminths in springbok (*Antidorcas marsupialis*) at Benfontein, Kimberley. I. L. DE VILLIERS, R. LIVERSIDGE and R. K. REINECKE ..... 52 1-11

**Staphylococci**

- Some features of coagulase positive staphylococci from bovine milk. I. Carbohydrate metabolism: Comparison of conventional techniques and the API 50 CH system. J. A. ERASMUS ..... 52 25-29

**Stress**

- Stress-induced diseases and toxicological problems in veterinary science. Stress and fertility. A review. R. I. COUBROUGH ..... 52 153-156

- The effect of stress on udder health of dairy cows. W. H. GIESECKE ..... 52 175-193

**Sweating sickness**

- The efficacy of hyperimmune serum in the treatment of sweating sickness, P. T. OBEREM, G. R. VAN AMSTEL, O. MATTHEE and J. D. BEZUIDENHOUT ..... 52 283-287
