

VOLUME 33 (1966)
 SUBJECT INDEX

	<i>Page</i>
ABORTER	
The haematology of the Angora goat with special reference to the habitual aborter. 1. The pregnant doe.....	363
ANASTOMOSIS	
A technique for thoracic duct-portal vein anastomosis in the dog.....	239
ANGORA GOATS	
Contributions to the study of blood constituents in domestic animals in South Africa. 4. Normal values for haemoglobin and plasma calcium, inorganic phosphate, magnesium, iron and copper in the blood of Angora goats in the Cape Midlands.....	343
The haematology of the Angora goat with special reference to the habitual aborter. 1. The pregnant doe.....	363
ANTELOPES	
Gedoeelstia myiasis in antelopes in Southern Africa.....	77
Observations on <i>Besnoitia</i> cysts in the cardiovascular system of some wild antelopes and domestic cattle.....	245
ANTIGENS	
The immunizing properties of a <i>Staphylococcus aureus</i> variant possessing surface antigen	25
Identification of the protective and toxic antigens of <i>Corynebacterium pseudotuberculosis</i>	39
Observations on the antigens of some trypanosomes with special reference to common antigens.....	277
ARGASIDAE	
Studies on karyotypes of South African Argasidae. 1. <i>Ornithodoros savignyi</i> (Audouin, 1827).....	93
ARGASID TICK	
Investigations into sex dimorphism during nuclear interphase of the Argasid tick, <i>Ornithodoros savignyi</i> (Audouin, 1827).....	99
ARTIFICIAL MATING	
A description of the first stage larva of <i>Oestrus aureoargentatus</i> Rodhain and Bequaert (1912) obtained by artificial mating (Diptera: Oestridae).....	287
BESNOITIA	
Observations on <i>Besnoitia</i> cysts in the cardiovascular system of some wild antelopes and domestic cattle.....	245
BLOOD CONSTITUENTS	
Contributions to the study of blood constituents in domestic animals in South Africa. 2. Normal values for the activity of some enzymes of the Embden—Meyerhof pathway and tricarboxylic acid cycle occurring in the plasma of sheep.....	325
Contributions to the study of blood constituents in domestic animals in South Africa. 3. Normal values for the activity of glyceraldehyde-phosphate dehydrogenase and glucose-6-phosphate dehydrogenase in the erythrocytes of sheep.....	337
Contributions to the study of blood constituents in domestic animals in South Africa. 4. Normal values for haemoglobin and plasma calcium, inorganic phosphate, magnesium, iron and copper in the blood of Angora goats in the Cape Midlands.....	343
Contributions to the study of blood constituents in domestic animals in South Africa. 5. The dog: normal values for red cell counts, haemoglobin, blood sugar and blood urea nitrogen and a practical statistical method for evaluating such data.....	353

	<i>Page</i>
BLOOD SUGAR	
Contributions to the study of blood constituents in domestic animals in South Africa. 5. The dog; normal values for red cell counts, haemoglobin, blood sugar and blood urea nitrogen and a practical statistical method for evaluating such data.....	353
BOVIDAE	
A study of hair morphology in the family Bovidae.....	379
BOVINES	
The influence of excess fluorine intake in the drinking water on reproductive efficiency in bovines.....	185
BLUETONGUE	
Observations on a strain of bluetongue virus by electron microscopy.....	9
CATTLE	
Observation on <i>Besnoitia</i> cysts in the cardiovascular system of some wild antelopes and domestic cattle.....	245
CHEMOTHERAPY	
Studies on specific oculo-vascular myiasis (uitpeuloog) of domestic animals. IV. Chemotherapy.....	297
CHROMATIN BODY	
The sex chromatin body and its importance for the demonstration of heterochromosomal conditions in <i>Ornithodoros moubata</i> (Murray, 1877).....	107
COPPER	
Contributions to the study of blood constituents in domestic animals in South Africa. 4. Normal values for haemoglobin and plasma calcium, inorganic phosphate, magnesium, iron and copper in the blood of Angora goats in the Cape Midlands.....	343
CORYNEBACTERIUM PSEUDOTUBERCULOSIS	
Identification of the protective and toxic antigens of <i>Corynebacterium pseudotuberculosis</i> ...	39
COWDRIA (RICKETTSIA) RUMINANTIUM	
Studies on the pathology of heartwater [<i>Cowdria (Rickettsia) ruminantium</i> , Cowdry, 1926]. 1. Neuropathological changes.....	115
CYTOPLASMIC DROPLET	
The significance of the cytoplasmic droplet in the disintegration of semen in Guernsey bulls	169
DEHYDROGENASE ACTIVITY	
Contributions to the study of blood constituents in domestic animals in South Africa. 3. Normal values for the activity of glyceraldehyde-phosphate dehydrogenase and glucose-6-phosphate dehydrogenase in the erythrocytes of sheep.....	337
DIPTERA	
A description of the first stage larva of <i>Oestrus aureoargentatus</i> Rodhain and Bequaert (1912) obtained by artificial mating (Diptera: Oestridae).....	287
DOG	
A technique for thoracic duct-portal vein anastomosis in the dog.....	239
Contributions to the study of blood constituents in domestic animals in South Africa. 5. The dog; normal values for red cell counts, haemoglobin, blood sugar and blood urea nitrogen and a practical statistical method for evaluating such data.....	353
DOMESTIC ANIMALS	
Studies on specific oculo-vascular myiasis (uitpeuloog) of domestic animals. IV. Chemotherapy.....	297
Contributions to the study of blood constituents in domestic animals in South Africa. 2. Normal values for the activity of some enzymes of the Embden-Meyerhof pathway and tricarboxylic acid cycle occurring in the plasma of sheep.....	325

	<i>Page</i>
Contributions to the study of blood constituents in domestic animals in South Africa. 3. Normal values for the activity of glyceraldehyde-phosphate dehydrogenase and glucose-6-phosphate dehydrogenase in the erythrocytes of sheep.....	337
Contributions to the study of blood constituents in domestic animals in South Africa. 4. Normal values for haemoglobin and plasma calcium, inorganic phosphate, magne- sium, iron and copper in the blood of Angora goats in the Cape Midlands.....	343
Contributions to the study of blood constituents in domestic animals in South Africa. 5. The dog: normal values for red cell counts, haemoglobin, blood sugar and blood urea nitrogen and a practical statistical method for evaluating such data.....	353
DRINKING WATER	
The influence of excess fluorine intake in the drinking water on reproductive efficiency in bovines.....	185
The effect of high levels of sodium bicarbonate in the drinking water of sheep on rumen function.....	315
ELECTRON MICROSCOPY	
Electron microscopic studies on lumpy skin disease virus type Neethling.....	3
Observations on a strain of bluetongue virus by electron microscopy.....	9
EMBDEN-MEYERHOF PATHWAY	
Contributions to the study of blood constituents in domestic animals in South Africa. 2. Normal values for the activity of some enzymes of the Embden-Meyerhof pathway and tricarboxylic acid cycle occurring in the plasma of sheep.....	325
ENZYMES	
Contributions to the study of blood constituents in domestic animals in South Africa. 2. Normal values for the activity of some enzymes of the Embden-Meyerhof pathway and tricarboxylic acid cycle occurring in the plasma of sheep.....	325
FLUORINE	
The influence of excess fluorine intake in the drinking water on reproductive efficiency of bovines.....	185
FOOT-AND-MOUTH DISEASE	
Multiplication of an attenuated RVII strain (Type SATI ₂) of foot-and-mouth disease virus in sheep.....	15
GEDOELSTIAL MYIASIS	
Gedoeslial myiasis in antelopes in South Africa.....	77
GLUCOSE LEVELS	
Ovine ketosis. V. Ketone body and blood glucose levels of Merino ewes during the pre- clinical, clinical and postclinical stages of pregnancy disease.....	161
Ovine ketosis. VI. The effect of starvation on the blood levels of ketones and glucose in pregnant ewes from the Karoo and Highveld regions of South Africa.....	305
GUERNSEY BULLS	
The significance of the cytoplasmic droplet in the disintegration of semen in Guernsey bulls	169
HAEMATOLOGY	
The haematology of the Angora goat with special reference to the habitual aborter. 1. The pregnant doe.....	363
Contributions to the study of blood constituents in domestic animals in South Africa. 4. Normal values for haemoglobin and plasma calcium, inorganic phosphate, magne- sium, iron and copper in the blood of Angora goats in the Cape Midlands.....	343
HAEMOGLOBIN	
Contributions to the study of blood constituents in domestic animals in South Africa. 5. The dog: normal values for red cell counts, haemoglobin, blood sugar and blood urea nitrogen and a practical statistical method for evaluating such data.....	353
HAIR MORPHOLOGY	
A study of hair morphology in the family Bovidae.....	379

	<i>Page</i>
HEARTWATER	
Studies on the pathology of heartwater [<i>Cowdria (Rickettsia) ruminantium</i> , Cowdry, 1926]. 1. Neuropathological changes.....	115
HELMINTH INFESTATIONS	
The pathological physiology of helminth infestations. II. <i>Oesophagostomum columbianum</i>	139
HETEROCHROMOSOMAL CONDITIONS	
The sex chromatin body and its importance for the demonstration of heterochromosomal conditions in <i>Ornithodoros moubata</i> (Murray, 1877).....	107
HIPPOTAMUS AMPHIBIUS	
A redescription of <i>Nilocotyle (Nilocotyle) braesphinctris</i> Näsmark, 1937 (Trematoda: Paramphistomidae) from <i>Hippopotamus amphibius</i>	73
HYDATIDOSIS	
The incidence of hydatidosis in the Republic of South Africa.....	49
INORGANIC PHOSPHATE	
Contributions to the study of blood constituents in domestic animals in South Africa. 4. Normal values for haemoglobin and plasma calcium, inorganic phosphate, magnesium, iron and copper in the blood of Angora goats in the Cape Midlands.....	343
IRON	
Contributions to the study of blood constituents in domestic animals in South Africa. 4. Normal values for haemoglobin and plasma calcium, inorganic phosphate, magnesium, iron and copper in the blood of Angora goats in the Cape Midlands.....	343
KETONE LEVELS	
Ovine ketosis. V. Ketone body and blood glucose levels of Merino ewes during the pre-clinical, clinical and postclinical stages of pregnancy disease.....	161
Ovine ketosis. VI. The effect of starvation on the blood levels of ketones and glucose in pregnant ewes from the Karoo and Highveld regions of South Africa.....	305
KETOSIS	
Ovine ketosis V. Ketone body and blood glucose levels of Merino ewes during the pre-clinical, clinical and postclinical stages of pregnancy disease.....	161
Ovine ketosis. VI. The effect of starvation on the blood levels of ketones and glucose in pregnant ewes from the Karoo and the Highveld regions of South Africa.....	305
LUMPY SKIN DISEASE	
Electron microscopic studies on lumpy skin disease virus type Neethling.....	3
MAGNESIUM	
Contributions to the study of blood constituents in domestic animals in South Africa. 4. Normal values for haemoglobin and plasma calcium, inorganic phosphate, magnesium, iron and copper in the blood of Angora goats in the Cape Midlands.....	343
MARE	
Persistence and parthenogenetic cleavage of tubal ova in the mare.....	195
MERINO	
Ovine ketosis. V. Ketone body and blood glucose levels of Merino ewes during the pre-clinical, clinical and postclinical stages of pregnancy disease.....	161
MYIASIS	
Gedoeftial myiasis in antelopes in Southern Africa.....	77
Studies on specific oculo-vascular myiasis (uitpeuloog) of domestic animals. IV. Chemotherapy.....	297

	Page
<i>NILOCOTYLE BRAESPHINCTRIS</i>	
A redescription of <i>Nilocotyle (Nilocotyle) braesphinctris</i> Näsmark, 1937, (Trematoda: Paramphistomidae) from <i>Hippopotamus amphibius</i>	73
OCULO-VASCULAR MYIASIS	
Studies on specific oculo-vascular myiasis (uitpeuloog) of domestic animals. IV. Chemotherapy.....	297
<i>OESOPHAGOSTOMUM COLUMBIANUM</i>	
The pathological physiology of helminth infestations. II. <i>Oesophagostomum columbianum</i>	139
OESTRIDAE	
A description of the first stage larva of <i>Oestrus aureoargentatus</i> Rodhain and Bequaert (1912) obtained by artificial mating (Diptera: Oestridae).....	287
<i>OESTRUS AUREOARGENTATUS</i>	
A description of the first stage larva of <i>Oestrus aureoargentatus</i> Rodhain and Bequaert (1912) obtained by artificial mating (Diptera: Oestridae).....	287
<i>ORNITHODOROS MOUBATA</i>	
The sex chromatin body and its importance for the demonstration of heterochromosomal conditions in <i>Ornithodoros moubata</i> (Murray, 1877).....	107
<i>ORNITHODOROS SAVIGNYI</i>	
Studies on karyotypes of South African Argasidae. I. <i>Ornithodoros savignyi</i> (Audouin, 1827).....	93
Investigations into sex dimorphism during nuclear interphase of the Argasid tick (<i>Ornithodoros savignyi</i> (Audouin, 1827).....	99
<i>OVIS ARIES</i>	
The microscopic vascular pattern of the ruminal wall in <i>Ovis aries</i>	233
PARAMPHISTOMIDAE	
A redescription of <i>Nilocotyle (Nilocotyle) braesphinctris</i> Näsmark, 1937 (Trematoda: Paramphistomidae) from <i>Hippopotamus amphibius</i>	73
PARTHENOGENETIC CLEAVAGE	
Persistence and parthenogenetic cleavage of tubal ova in the mare.....	195
PERSISTENCE OF TUBAL OVA	
Persistence and parthenogenetic cleavage of tubal ova in the mare.....	195
PLASMA CALCIUM	
Contributions to the study of blood constituents in domestic animals in South Africa. 4. Normal values for haemoglobin and plasma calcium, inorganic phosphate, magnesium, iron and copper in the blood of Angora goats in the Cape Midlands.....	343
PORTAL VEIN	
A technique for thoracic duct-portal vein anastomosis in the dog.....	239
PREGNANCY DISEASE	
Ovine ketosis. V. Ketone body and blood glucose levels of Merino ewes during the pre-clinical, clinical and postclinical stages of pregnancy disease.....	161
PREGNANT EWES	
Ovine ketosis. VI. The effect of starvation on the blood levels of ketones and glucose in pregnant ewes from the Karoo and Highveld regions of South Africa.....	305
RED CELL COUNTS	
Contributions to the study of blood constituents in domestic animals in South Africa. 5. The dog: normal values for red cell counts, haemoglobin, blood sugar and blood urea nitrogen and a practical statistical method for evaluating such data.....	353

	<i>Page</i>
REPRODUCTIVE EFFICIENCY	
The influence of excess fluorine intake in the drinking water on reproductive efficiency in bovines.....	185
RICKETTSIA	
Studies on the pathology of heartwater [<i>Cowdria (Rickettsia) ruminantium</i> , Cowdry, 1926].	
1. Neuropathological changes.....	115
RUMEN FUNCTION	
The effect of high levels of sodium bicarbonate in the drinking water of sheep on rumen function.....	315
RUMINAL WALL	
The microscopic vascular pattern of the ruminal wall in <i>Ovis aries</i>	233
SEMEN	
The significance of the cytoplasmic droplet in the disintegration of semen in Guernsey bulls	169
SEX DIMORPHISM	
Investigations into sex dimorphism during nuclear interphase of the Argasid tick, <i>Ornithodoros savignyi</i> (Audouin, 1827).....	99
SHEEP	
Multiplication of an attenuated RVII strain (Type SATI ₂) of foot-and-mouth disease virus in sheep.....	15
The effect of high levels of sodium bicarbonate in the drinking water of sheep on rumen function.....	315
Contributions to the study of blood constituents in domestic animals in South Africa.	
2. Normal values for the activity of some enzymes of the Embden-Meyerhof pathway and tricarboxylic acid cycle occurring in the plasma of sheep.....	325
Contributions to the study of blood constituents in domestic animals in South Africa.	
3. Normal values for the activity of glyceraldehyde-phosphate dehydrogenase and glucose-6-phosphate dehydrogenase in the erythrocytes of sheep.....	337
SODIUM BICARBONATE	
The effect of high levels of sodium bicarbonate in the drinking water of sheep on rumen function.....	315
STAPHYLOCOCCUS AUREUS	
The immunizing properties of a <i>Staphylococcus aureus</i> variant possessing surface antigen....	25
STARVATION	
Ovine ketosis. VI. The effect of starvation on the blood levels of ketones and glucose in pregnant ewes from the Karoo and the Highveld regions of South Africa.....	305
THORACIC DUCT	
A technique for thoracic duct-portal vein anastomosis in the dog.....	239
TREMATODA	
A redescription of <i>Nilocotyle (Nilocotyle) braesphinctris</i> Näsmark, 1937 (Trematoda: Paramphistomidae) from <i>Hippopotamus amphibius</i>	73
TRICARBOXYLIC ACID CYCLE	
Contributions to the study of blood constituents in domestic animals in South Africa.	
2. Normal values for the activity of some enzymes of the Embden-Meyerhof pathway and tricarboxylic acid cycle occurring in the plasma of sheep.....	325
TRYPANOSOMES	
Observation on the antigens of some trypanosomes with special reference to common antigens.....	277
TUBAL OVA	
Persistence and parthenogenetic cleavage of tubal ova in the mare.....	195

	<i>Page</i>
UITPEULOOG	
Studies on specific oculo-vascular myiasis (uitpeuloog) of domestic animals. IV. Chemotherapy.....	297
UREA NITROGEN	
Contributions to the study of blood constituents in domestic animals in South Africa. 5. The dog: normal values for red cell counts, haemoglobin, blood sugar and blood urea nitrogen and a practical statistical method for evaluating such data.....	353
VARIANT	
The immunizing properties of a <i>Staphylococcus aureus</i> variant possessing surface antigen	25
VASCULAR PATTERN	
The microscopic vascular pattern of the ruminal wall in <i>Ovis aries</i>	233
VIRUS	
Electron microscopic studies on lumpy skin disease virus type Neethling.....	3
Observations on a strain of bluetongue virus by electron microscopy.....	9
Multiplication of an attenuated RVII strain (Type SATI ₂) of foot-and-mouth disease virus in sheep.....	15
