

**SUBJECT INDEX.**  
Volume 24, Nos. 1 and 2.

	PAGE
<b>Alimentary tract.</b>	
Studies on the alimentary tract of merino sheep in South Africa. XVII. On the identity of "Schizosaccharomyces ovis". Part I. Some yeastlike organisms from the rumen contents of sheep fed on a lucerne diet.....	119
<b>Beef heifers.</b>	
The influence of delayed breeding on the fertility of beef heifers.....	125
<b>Bone formation.</b>	
The availability of the calcium and phosphorus in "Electrofos" for bone formation. I. In the rat.....	87
<b>Calcium.</b>	
The availability of the calcium and phosphorus in "Electrofos" for bone formation. I. In the rat.....	87
<b>Chlorophyll.</b>	
Studies on the photosensitisation of animals in South Africa. XII. An attempt to identify the icterogenic factor in geeldikkop; the reaction of nitrous acid on chlorophyll.....	105
<b>Delayed breeding.</b>	
The influence of delayed breeding on the fertility of beef heifers.....	125
<b>Digestibility.</b>	
Digestibility of lucerne hay with special reference to experimental technique in digestion trials.....	67
<b>Digestion trials.</b>	
Digestibility of lucerne hay with special reference to experimental technique in digestion trials.....	67
<b>Digestive nutrients.</b>	
The nutritive value of South African feeding stuffs. III. Digestive nutrients and metabolizable energy content of a mixture (1 : 1) of lucerne hay and yellow maize at different planes of intake for sheep.....	57
<b>Feeding stuffs.</b>	
The nutritive value of South African feeding stuffs. III. Digestive nutrients and metabolizable energy content of a mixture (1 : 1) of lucerne hay and yellow maize at different planes of intake for sheep.....	57
<b>Fertility.</b>	
The influence of delayed breeding on the fertility of beef heifers.....	125
<b>Geeldikkop.</b>	
Studies on the photosensitisation of animals in South Africa. XII. An attempt to identify the icterogenic factor in geeldikkop; the reaction of nitrous acid on chlorophyll.....	105

	PAGE
<b>Icterogetic factor.</b>	
Studies on the photosensitisation of animals in South Africa. XII. An attempt to identify the icterogenic factor in geeldikkop ; the reaction of nitrous acid on chlorophyll.....	105
<b>Ixodes.</b>	
Zoological survey of the Union of South Africa. 6. Tick Survey. The distribution of the Ixodids, <i>I. pilosus</i> and <i>I. rubicundus</i> .....	37
<b>Lucerne.</b>	
Studies on the alimentary tract of merino sheep in South Africa. XVII. On the identity of " <i>Schizosaccharomyces ovis</i> ". Part I. Some yeastlike organisms from the rumen contents of sheep fed on a lucerne diet.....	119
The nutritive value of South African feeding stuffs. III. Digestive nutrients and metabolizable energy content of a mixture (1 : 1) of lucerne hay and yellow maize at different planes of intake for sheep.....	57
Digestibility of lucerne hay with special reference to experimental technique in digestion trials.....	67
<b>Metabolizable energy.</b>	
The nutritive value of South African feeding stuffs. III. Digestive nutrients and metabolizable energy content of a mixture (1 : 1) of lucerne hay and yellow maize at different planes of intake for sheep.....	57
<b>Nitrous acid.</b>	
Studies of the photosensitisation of animals in South Africa. XII. An attempt to identify the icterogenic factor in geeldikkop ; the reaction of nitrous acid on chlorophyll.....	105
<b>Nutritive value.</b>	
The nutritive value of South African feeding stuffs. III. Digestive nutrients and metabolizable energy content of a mixture (1 : 1) of lucerne hay and yellow maize at different planes of intake for sheep.....	57
<b>Phosphorus.</b>	
The availability of the calcium and phosphorus in " Electrofos " for bone formation. I. In the rat.....	87
<b>Photosensitisation.</b>	
Studies on the photosensitisation of animals in South Africa. XII. An attempt to identify the icterogenic factor in geeldikkop ; the reaction of nitrous acid on chlorophyll.....	105
<b>Poisonous plants.</b>	
Recent investigations into the toxicity of known and unknown poisonous plants in the Union of South Africa.....	53
<b>Red tick.</b>	
Zoological survey of the Union of South Africa. 5. Distribution of <i>Rhipicephalus evertsi</i> , the red tick.....	33
<b>Refractive index.</b>	
Studies on wool grease and suint. I. The refractive index of wool grease.....	355
<b>Rhipicephalus.</b>	
Zoological survey of the Union of South Africa. 4. Distribution of <i>Rhipicephalus capensis</i> .....	7
Zoological survey of the Union of South Africa. 5. Distribution of <i>Rhipicephalus evertsi</i> , the red tick.....	33
<b>Rumen contents.</b>	
Studies on the alimentary tract of Merino sheep in South Africa. XVII. On the identity of " <i>Schizosaccharomyces ovis</i> ". Part I. Some yeastlike organisms from the rumen contents of sheep fed on a lucerne diet.....	119

	PAGE
<b>Schizosaccharomyces ovis</b> ”.	
Studies on the alimentary tract of merino sheep in South Africa. XVII. On the identity of “ Schizosaccharomyces ovis ”. Part I. Some yeastlike organisms from the rumen contents of sheep fed on a lucerne diet.....	119
<b>Suint.</b>	
Studies on wool grease and suint. 1. The refractive index of wool grease.....	355
<b>Wool grease.</b>	
Studies on wool grease and suint. 1. The refractive index of wool grease.....	355
<b>Yeastlike organisms.</b>	
Studies on the alimentary tract of Merino sheep in South Africa. XVII. On the identity of “ Schizosaccharomyces ovis ”. Part I. Some yeastlike organisms from the rumen contents of sheep fed on a lucerne diet.....	119
<b>Yellow maize.</b>	
The nutritive value of South African feeding stuffs. III. Digestive nutrients and metabolizable energy content of a mixture (1 : 1) of lucerne hay and yellow maize at different planes of intake for sheep.....	57
<b>Zoological survey.</b>	
(4) Distribution of <i>Rhipicephalus capensis</i> .....	7
(5) Distribution of <i>Rhipicephalus evertsi</i> , the red tick.....	33
(6) Distribution of the Ixodids, <i>I.pilosus</i> and <i>I.rubicundus</i> .....	37
