

SUBJECT INDEX.

Volume 17, Nos. 1 and 2.

	PAGE
Alimentary Tract.	
Studies on the alimentary tract of merino sheep in South Africa VI. The rôle of infusoria in ruminal digestion with some remarks on ruminal bacteria	61
Alkaloids.	
South African senecio alkaloids Part 6. The toxic alkaloids of <i>Senecio scleratus</i> sp. nov. Schweickerdt	181
Anatomical Studies.	
Anatomical studies No. 65. Two cases of cervical ribs in bovines	351
Bovine.	
Treatment and control of chronic streptococcus mastitis in bovines. Results obtained in two herds	7
Anatomical studies No. 65. Two cases of cervical ribs in bovines	351
Calcium Carbide.	
Poisoning by spent calcium carbide	207
Carbohydrate Complex of Grasses.	
The relative digestibility of the constituents of the carbohydrate complex of grasses at successive stages of growth with reference to their partition into crude fibre and nitrogen- free extract according to the standard method for feeding stuff analysis	165
Cervical Ribs.	
Anatomical studies No. 65. Two cases of cervical ribs in bovines	351
Conception.	
The hydrogen-ion concentration of the vaginal secretion of merino sheep during oestrus, dioestrus, and pregnancy, with some remarks on its influence on sex-determination, and the influence of the vaginal temperature at the time of mating on conception	105
Crude Fibre.	
The relative digestibility of the constituents of the carbohydrate complex of grasses at successive stages of growth with reference to their partition into crude fibre and nitrogen- free extract according to the standard method for feeding stuff analysis	165
<i>Cynodon plectostachyum.</i>	
The hydrocyanic acid content of <i>Cynodon plectostachyum</i> Pilger (Giant Star grass) and its suitability as a pasture grass	191
Dioestrus.	
The hydrogen-ion concentration of the vaginal secretion of merino sheep during oestrus, dioestrus, and pregnancy, with some remarks on its influence on sex-determination, and the influence of the vaginal temperature at the time of mating on conception	105

	PAGE
Domsiekte.	
Domsiekte or pregnancy disease in sheep I. A review of the literature	225
Domsiekte or pregnancy disease in sheep II	245
Ferrets.	
Preliminary observations on the breeding of ferrets in South Africa	297
Fertilise.	
A note on the results of an attempt to fertilise Native goat-ewes with sheep rams	115
Fleece Density.	
Studies on merino wool production. Plain-bodied and developed merino sheep II. Fleece density tests on a group of extremely plain-bodied merino stud rams	345
Giant Star Grass.	
The hydrocyanic acid content of <i>Cynodon plectostachyum</i> Pilger (Giant Star grass) and its suitability as a pasture grass	191
Goat.	
A note on the results of an attempt to fertilise Native goat-ewes with sheep rams	115
Hydrocyanic Acid.	
The hydrocyanic acid content of <i>Cynodon plectostachyum</i> Pilger (Giant Star grass) and its suitability as a pasture grass	191
Hydrogen-ion Concentration.	
The hydrogen-ion concentration of the vaginal secretion of merino sheep during oestrus, dioestrus, and pregnancy, with some remarks on its influence on sex-determination, and the influence of the vaginal temperature at the time of mating on conception	105
Infusoria.	
Studies on the alimentary tract of merino sheep in South Africa VI. The rôle of infusoria in ruminal digestion with some remarks on ruminal bacteria	61
Intra-testicular Temperature.	
Further observations on the scrotal skin temperature of the bull, with some remarks on the intra-testicular temperature	123
Ixodes alluaudi.	
Ticks in the South African Zoological Survey collection—Part I. <i>Ixodes alluaudi</i> Neumann 1913, a primitive tick parasitic on shrews	51
Living Tissue.	
Thermocouples for temperature measurements on skin surfaces and in living tissue	141
Mastitis.	
Treatment and control of chronic streptococcus mastitis in bovines. Results obtained in two herds	7

Mating.	PAGE
The hydrogen-ion concentration of the vaginal secretion of merino sheep during oestrus, dioestrus, and pregnancy, with some remarks on its influence on sex-determination, and the influence of the vaginal temperature at the time of mating on conception	105
 Merino.	
Studies on the alimentary tract of merino sheep in South Africa VI. The rôle of infusoria in ruminal digestion with some remarks on ruminal bacteria	61
Studies on the photosensitisation of animals in South Africa XI. The reaction of the sensitised merino skin to radiation in different regions of the spectrum	89
The hydrogen-ion concentration of the vaginal secretion of merino sheep during oestrus, dioestrus, and pregnancy, with some remarks on its influence on sex-determination, and the influence of the vaginal temperature at the time of mating on conception	105
Studies on the variation within the fleece of the characteristics of South African merino wool. I. Tensile strength	311
Studies on merino wool production. Plain-bodied and developed merino sheep I. A standard of production of a group of plain-bodied stud ewes	319
Studies on merino wool production. Plain-bodied and developed merino sheep II. Fleece density tests on a group of extremely plain-bodied merino stud rams	345
 Nitrogen-free Extract.	
The relative digestibility of the constituents of the carbohydrate complex of grasses at successive stages of growth with reference to their partition into crude fibre and nitrogen-free extract according to the standard method for feeding stuff analysis	165
 Oestrus.	
The hydrogen-ion concentration of the vaginal secretion of merino sheep during oestrus, dioestrus, and pregnancy, with some remarks on its influence on sex-determination, and the influence of the vaginal temperature at the time of mating on conception	105
 Photosensitisation.	
Studies on the photosensitisation of animals in South Africa XI. The reaction of the sensitised merino skin to radiation in different regions of the spectrum	89
 Poisoning.	
Poisoning by voided urine	201
Poisoning by spent calcium carbide	207
 Poisonous Plants.	
Recent investigations into the toxicity of known and unknown poisonous plants in the Union of South Africa XII	211
 Pregnancy.	
The hydrogen-ion concentration of the vaginal secretion of merino sheep during oestrus, dioestrus, and pregnancy, with some remarks on its influence on sex-determination, and the influence of the vaginal temperature at the time of mating on conception	105
 Pregnancy Disease.	
Domsiekte or pregnancy disease in sheep I. A review of the literature	225
Domsiekte or pregnancy disease in sheep II	245

Radiation.	PAGE
Studies on the photosensitisation of animals in South Africa XI. The reaction of the sensitised merino skin to radiation in different regions of the spectrum	89
 Relative Digestibility.	
The relative digestibility of the constituents of the carbohydrate complex of grasses at successive stages of growth with reference to their partition into crude fibre and nitrogen- free extract according to the standard method for feeding stuff analysis	165
 Ruminal Bacteria.	
Studies on the alimentary tract of merino sheep in South Africa VI. The rôle of infusoria in ruminal digestion with some remarks on ruminal bacteria	61
 Ruminal Digestion.	
Studies on the alimentary tract of merino sheep in South Africa VI. The rôle of infusoria in ruminal digestion with some remarks on ruminal bacteria	61
 Scrotal Skin Temperature.	
Further observations on the scrotal skin temperature of the bull, with some remarks on the intra-testicular temperature	123
 Senecio.	
South African senecio alkaloids Part 6. The toxic alkaloids of <i>Senecio sceleratus</i> sp. nov. Schweickerdt	181
 Sex-determination.	
The hydrogen-ion concentration of the vaginal secretion of merino sheep during oestrus, dioestrus, and pregnancy, with some remarks on its influence on sex-determination, and the influence of the vaginal temperature at the time of mating on conception	105
 Sheep.	
A note on the results of an attempt to fertilise Native goat-ewes with sheep rams	115
Domsiekte or pregnancy disease in sheep I. A review of the literature	225
Domsiekte or pregnancy disease in sheep II	245
 Shrews.	
Ticks in the South African Zoological Survey collection—Part I. <i>Ixodes alluaudi</i> Neumann 1913, a primitive tick parasitic on shrews	51
 Skin Surfaces.	
Thermocouples for temperature measurements on skin surfaces and in living tissue	141
 Spectrum.	
Studies on the photosensitisation of animals in South Africa XI. The reaction of the sensitised merino skin to radiation in different regions of the spectrum	89
 Streptococcus.	
Treatment and control of chronic streptococcus mastitis in bovines. Results obtained in two herds	7

	PAGE
Temperature Measurements.	
Thermocouples for temperature measurements on skin surfaces and in living tissue	141
Tensile Strength.	
Studies on the variation within the fleece of the characteristics of South African merino wool. I. Tensile strength	311
Thermocouples.	
Thermocouples for temperature measurements on skin surfaces and in living tissue	141
Ticks.	
Ticks in the South African Zoological Survey collection. Part I. <i>Ixodes alluaudi</i> Neumann 1913, a primitive tick parasitic on shrews	51
Urine.	
Poisoning by voided urine	201
Vaginal Secretion and Temperature.	
The hydrogen-ion concentration of the vaginal secretion of merino sheep during oestrus, dioestrus and pregnancy with some remarks on its influence on sex-determination, and the influence of the vaginal temperature at the time of mating on conception	105
Wool.	
Studies on the variation within the fleece of the characteristics of South African merino wool. I. Tensile strength	311
Studies on merino wool production. Plain-bodied and developed merino sheep I. The standard of production of a group of plain-bodied stud ewes	319
Studies on merino wool production. Plain-bodied and developed merino sheep II. Fleece density tests on a group of extremely plain-bodied merino stud rams	345
