

SUBJECT INDEX.

Volume 16, Nos. 1 and 2.

	PAGE
Albino Rat.	
Growth of the albino rat with special reference to the influence of environment	331
Animal Proteins.	
The nutritive value of animal proteins. The biological values of fishmeal, whale and fishmeal, meatmeal, meat and bonemeal, crayfishmeal and white fishmeal	191
Antibodies.	
The electrophoresis of the neurotropic virus of horsesickness and its neutralizing antibodies in low concentration	51
Antigenic Structure.	
Further studies on the antigenic structure of paratyphoid bacilli with special reference to three new species of Salmonella	103
Artificial Insemination	
Observations on artificial insemination of sheep with fresh and stored semen	263
Biological Value.	
The nutritive value of animal proteins. The biological values of fishmeal, whale and fishmeal, meatmeal, meat and bonemeal, crayfishmeal and white fishmeal	191
Bovine.	
Bionomic studies on cattle in the semi-arid regions of the Union of South Africa. IV. The ovarian cycle of heifers during summer	213
A preliminary note on the temperature of the scrotal skin of the bull and its relation to air, skin and body temperature	299
A note on the influence of a bloodmeal ration on porphyrin excretion in normal bovines	315
Carotene.	
The carotene content of some South African feeds.	199
Cattle.	
Bionomic studies on cattle in the semi-arid regions of the Union of South Africa. IV. The ovarian cycle of heifers during summer	213

	PAGE
Cystine.	
A study on the possibility of cystine synthesis in the rumen of sheep together with the effect of cystine supplementation on the nitrogen of lucerne in young stock	181
Dog Tick.	
The transmission of tickbite fever by the dog tick, <i>Rhipicephalus sanguineus</i> , Labr.	9
Electrophoresis.	
The electrophoresis of the neurotropic virus of horsesickness and its neutralizing antibodies in low concentration	51
Environment.	
Growth of the albino rat with special reference to the influence of environment	331
Feeds.	
The carotene content of some South African feeds.	199
Horsesickness.	
Studies on the neurotropic virus of horsesickness. VII. Transmitted immunity	19
The particle size of African horsesickness virus as determined by ultra-filtration and ultra-centrifugation	33
The electrophoresis of the neurotropic virus of horsesickness and its neutralizing antibodies in low concentration	51
Hotis Test.	
The diagnosis of chronic streptococcus mastitis. Reaction, chlorine, methylene blue and Hotis tests, and microscopic examination	69
Immunity.	
Studies on the neurotropic virus of horsesickness. VII. Transmitted immunity	19
Isatidine.	
South African Senecio alkaloids. Part 5. Notes on <i>isatidine</i> , <i>rosmarinine</i> and <i>pterophine</i> , and on the structure of their necines and necic acids.	149
Ixodidae.	
Description of a tick <i>Rhipicephalus glabroscutatum</i> , sp. nov. (<i>Ixodidae</i>), from Karroo areas of the Union of South Africa	115
Maintenance Protein Requirement.	
The endogenous nitrogen metabolism of pigs with special reference to the maintenance protein requirement	169
Mastitis.	
The diagnosis of chronic streptococcus mastitis. Reaction, chlorine, methylene blue and Hotis tests, and microscopic examination	69
Merino Wool.	
Studies on the basic characteristics of South African merino wool. IV. Scaliness	543
Necic Acid.	
South African Senecio alkaloids. Part 5. Notes on <i>isatidine</i> , <i>rosmarinine</i> and <i>pterophine</i> , and on the structure of their necines and necic acids.	149
Necines.	
South African Senecio alkaloids. Part 5. Notes on <i>isatidine</i> , <i>rosmarinine</i> and <i>pterophine</i> , and on the structure of their necines and necic acids.	149

	PAGE
Neurotropic Virus.	
Studies on the neurotropic virus of horesickness. VII. Transmitted immunity	19
The electrophoresis of the neurotropic virus of horesickness and its neutralizing antibodies in low concentration	51
Nitrogen Metabolism.	
The endogenous nitrogen metabolism of pigs with special reference to the maintenance protein requirement	169
Nitrogen Utilization.	
A study on the possibility of cystine synthesis in the rumen of sheep together with the effect of cystine supplementation on the nitrogen utilization of lucerne in young stock	181
Oestrus.	
Sex physiology of sheep. Studies on the nature of the onset of oestrus in ewes following a period of sexual inactivity	243
Ovarian Cycle.	
Bionomic studies on cattle in the semi-arid regions of the Union of South Africa. IV. The ovarian cycle of heifers during summer	213
Paratyphoid Bacilli.	
Further studies on the antigenic structure of paratyphoid bacilli with special reference to three new species of Salmonella	103
Particle Size.	
The particle size of African horesickness virus as determined by ultra-filtration and ultra-centrifugation	33
Pigs.	
The endogenous nitrogen metabolism of pigs with special reference to the maintenance protein requirement	169
Poisonous Plants.	
Recent investigations into the toxicity of known and unknown poisonous plants in the Union of South Africa. XI	121
Porphyrin.	
A note on the influence of a bloodmeal ration on porphyrin excretion in normal bovines	315
Pterophine.	
South African Senecio alkaloids. Part 5. Notes on <i>isatidine</i> , <i>rosmarinine</i> and <i>pterophine</i> , and on the structure of their necines and necic acids.	149
Rhipicephalus Glabroscutatum.	
Description of a tick <i>Rhipicephalus glabroscutatum</i> , sp. nov. (<i>Ixodidae</i>), from Karroo areas of the Union of South Africa	115
Rhipicephalus Sanguineus Labr.	
The transmission of tickbite fever by the dog tick, <i>Rhipicephalus sanguineus</i> , Labr.	9
Rosmarinine.	
South African Senecio alkaloids. Part 5. Notes on <i>isatidine</i> , <i>rosmarinine</i> and <i>pterophine</i> , and on the structure of their necines and necic acids.	149
Salmonella.	
Further studies on the antigenic structure of paratyphoid bacilli with special reference to three new species of Salmonella	103

	PAGE
Scaliness.	
Studies on the basic characteristics of South African merino wool. IV. Scaliness	543
Scrotal Skin.	
A preliminary note on the temperature of the scrotal skin of the bull and its relation to air, skin and body temperature	299
Semen.	
Observations on artificial insemination of sheep with fresh and stored semen ...	263
Senecio Alkaloids.	
South African Senecio alkaloids. Part 5. Notes on <i>isatidine</i> , <i>rosmarinine</i> and <i>pterophine</i> , and on the structure of their necines and necic acids.	149
Sex Physiology.	
Sex physiology of sheep. Studies on the nature of the onset of oestrus in ewes following a period of sexual inactivity	243
Sexual Inactivity.	
Sex physiology of sheep. Studies on the nature of the onset of oestrus in ewes following a period of sexual inactivity	243
Sheep.	
A study on the possibility of cystine synthesis in the rumen of sheep together with the effect of cystine supplementation on the nitrogen utilization of lucerne in young stock	181
Sex physiology of sheep. Studies on the nature of the onset of oestrus in ewes following a period of sexual inactivity	243
Observations on artificial insemination of sheep with fresh and stored semen ...	263
Streptococcus.	
The diagnosis of chronic streptococcus mastitis. Reaction, chlorine, methylene blue and Hotis tests, and microscopic examination	69
Temperature.	
A preliminary note on the temperature of the scrotal skin of the bull and its relation to air, skin and body temperature	299
Tickbite Fever.	
The transmission of tickbite fever by the dog tick, <i>Rhipicephalus sanguineus</i> , Labr.	9
Toxicity.	
Recent investigations into the toxicity of known and unknown poisonous plants in the Union of South Africa. XI	121
Ultra-Centrifugation.	
The particle size of African horsesickness virus as determined by ultra- filtration and ultra-centrifugation	33
Ultra-Filtration.	
The particle size of African horsesickness virus as determined by ultra- filtration and ultra-centrifugation	33
Virus.	
Studies on the neurotropic virus of horsesickness. VII. Transmitted immunity	19
The particle size of African horsesickness virus as determined by ultra-filtration and ultra-centrifugation	33
The electrophoresis of the neurotropic virus of horsesickness and its neutralizing antibodies in low concentration	51
