Frustration: the results indicate that full text is available but when I click on the link I find that it's not!

Why getting full text access can be frustrating

- **The numbers are for us and against us**

Print: 1 210 titles

Electronic: 139 000 titles (includes individually purchased journals, journals in packages, and Open Access journals)

Platforms/vendors: 284 (includes e-books and e-journals)

- **Most of our journals are in packages, which are usually the problem titles regarding coverage dates**
- **Please report coverage errors to me.**
- **But there is hope!**

Frustration: why is the link not working?

Links not working:

- **The complaints about links not working have dropped dramatically**
- **Setup:**
 - **Knowledge Base**
 - **Vendor**
 - **WMS**
 - **EZProxy**
- **Slow Internet speed**
