UNITED DEMOCRATIC FRONT - TRANSVAAL

PROGRAMME OF ACTION

A AIMS

1. To defeat the government's attempts to impose the Koornhof and Constitutional Proposals. } 16
7/9
2. To strive for the maximum possible unity of Worker, Community, P. A. Student, Womens, Youth and Religious organisations for this purpose.
3. To unite our people in action.
4. To counter the government's propaganda onslaught.
5. To consolidate and strengthen the existing grassroots and other organisations of the people.
6. To link the Koornhof and Constitutional proposals to the day-to-day struggles of our people. } 20
17/9/87
7. To popularise the UDF DECLARATION.

B PROGRAMME OF ACTION

1. Workshops for volunteers in all areas.
2. Area committees to be established in all areas.
3. Door-to-door campaigns in all areas.
4. Local mass-meetings in all areas.
5. Provincial Rally for the people of the Transvaal.
(The Rally would take place at the end of October)

Note : Local mass-meetings should be completed by mid-October wherever possible.

C AREA COMMITTEES

An area committee will be set up in each area. In small townships one area committee will suffice. In bigger townships (like Soweto) a number of area committees need to be set up.

COMPOSITION OF AREA COMMITTEES:

The composition of area committees would differ from area to area as conditions differ. The following are some suggestions for the composition of area committees:

- (i) a civic or youth organisation plays the role of an area committee
- (ii) a number of organisations forming a joint committee
- (iii) a committee comprising of a group of volunteers.

FUNCTIONS OF THE AREA COMMITTEE:

1. To organise a workshop for volunteers in the area. The workshop should amongst others focus on:
 - (i) The history and nature of the UDF
 - (ii) The Koornhof Bills
 - (iii) The Constitutional proposals
 - (iv) A Programme of Action for the area.
2. To educate the people in the area through house visits, house meetings, etc.
3. To organise a mass meeting in the area. The mass meeting should have an appropriate focus depending on the conditions and issues in the area.
4. To speak to other local organisations about the UDF. These would include churches, welfare organisations etc. Where possible these organisations should be drawn into the activities of the UDF.
5. To link the current issues and problems in the community to the Black Local Authorities and the Constitutional proposals.
6. To publicise the Transvaal Rally in the area and also to arrange for people to attend the Rally.
7. To distribute "UDF News" and all other publications of the UDF.

D OTHER ISSUES TO BE INCORPORATED IN THE PROGRAMME OF ACTION

1. Removals and Resettlement
2. Housing (housing shortage, sale of houses etc)
3. Education
4. Bantustans
5. Military Conscription

NOTE : This document merely suggests guidelines. The specific needs of particular organisations and communities would require both flexibility and creativity as the campaign unfolds.

REFERENDUM.

Rev⁴ K3

The UDF was formed to oppose and resist the Constitutional and Koornhof Bills. We reject the entire process that led to this referendum. And we also reject and will oppose all processes which will be set in motion by this so-called new deal. Through the forthcoming referendum on November 2, the present minority government will seek to force upon the people of S.Africa a constitution that is not based on the will of the people.

This referendum misses the essence of the South African question in that it shifts attention away from Apartheid as such to its formal appearance. The real issue about S.Africa is still whether Apartheid and all that it implies is the right order of things for this country's people or not. Most white people and, to a lesser extent, sections of the voteless majority in the country have fallen into the trap of elevating the referendum and its pending outcome to the legitimacy of the past, present and future policies of this minority white regime.

We assert that an acceptable and truly democratic constitution can only be worked out in an atmosphere which is free of fear, mistrust and harassment of one section of the population by another. That includes the release of all political prisoners, the unbanning of the banned and restricted and the return of those who have been forced into exile.

In rejecting this undemocratic method of deciding on the future of the people of South Africa we call on our people to show once and for all that they are determined to control their own destiny by doing all in their power to halt the current process of Apartheid legislation.

In keeping with this call the UDF regional councils have been charged with the responsibility of working out schedules for the implementation of the programme of action which should culminate in regional mass rallies shortly before the implementation of the referendum and Black Local Authorities election.

Ours is a broad non-racial outlook which embraces everybody and we insist that it must be reflected in every decision and activity we engage in. Due to this and other considerations we addressed ourselves to the referendum question in a different manner, i.e. what can the UDF initiate in order to consolidate opposition to this Constitution Act, and all the legislation that is likely to flow from it. Our programme of action is a **very** clear response to this question.

PROGRAMME OF ACTION

Bew^u.K4

1. We are launching an immediate house to house campaign to educate the masses of our people about and mobilise them against the new deal.
2. This will be interspersed with localised rallies and church services.
3. Of particular interest is the virgils that will be held in the various regions towards the end of October, and
4. The culmination of this phase of the campaign will be huge regional mass rallies calculated to reflect vibrant opposition to the New Constitution Act and the Black Local Authorities elections.
5. The other aspects of the Programme of Action will be made known from time to time. Obviously there are going to be shifts and changes by the Nats. which will necessitate adjustment of our tactics to suit each new twist or turn.

NEWSPAPERS

⁶
Bew. K S

Sunday Times, Daily Dispatch, Finance Week, The Friend and The Natal Mercury

Recently these newspapers and publications have come out in full support of the so-called new constitution thus becoming extensions of the state's propoganda and ideological tools alongside the Labour Party.

After careful consideration the National Executive Committee has referred this matter to the regional councils for final decisions. It is important that action in this regard should flow from popular feeling if it is to enjoy maximum support.

The added advantage in this approach is that regional newspapers will be considered regionally.
