25th November, 1935.

Dear Cleland,

Rupert Holloway, a member of the firm of Holloway Brothers, who are rebuilding the Bank of England for me and have done or are doing many of my better buildings here, is paying a visit with his wife to South Africa. I shall be immensely obliged if you will show him over the Union Buildings and give him any help you can in Pretoria, and also in Cape Town. His special branch is timber and joinery so you will be mutually interesting to each other.

He is rushing through the country, like so many visitors, at great pace, but I hope he will be persuaded to stay a little longer in the Cape Peninsula, and if he does you may be able to give him some help.

Rupert Holloway is a personal friend of mine and I know that you will like him very much.

Yours sincerely,

Herbert Baker

P. S. I would particularly like him to see the colonial woods and furniture at Groote Schuur, the Union Buildings and Government House if possible.

J. B. Cleland, Esq.,
Secretary to the P.W.D.,
Union Buildings,
Pretoria.
