

AUTHOR'S INDEX.

Volume 11, Nos. 1 and 2.

	PAGE
ALEXANDER, R. A. ... Studies on the neurotropic virus of horsesickness VI. Propagation in the developing chick embryo	9
BEKKER, P. M. ... The toxicity of some dipping fluids containing arsenic and sulphur	247
DE VILLIERS, O. T. ... The blood of the ostrich	419
KELLERANN, J. H. ... Sulphur Metabolism V. The effect of various levels of fats and proteins in the ration on the toxicity of elementary sulphur	107
... Sulphur Metabolism VII. The effect of the acid-base balance of the ration on the toxicity of elementary sulphur	113
... Sulphur Metabolism VIII. The effect of incomplete rations on the toxicity of elementary sulphur	121
LOUW, J. G. ... The influence of frequency of cutting on yield, chemical composition, digestibility and nutritive value of some grass species	163
MARAIS, J. S. C. ... The endogenous nitrogen metabolism of sheep with special reference to the maintenance requirement of protein	131
... The basal metabolism of 3 to 4 weeks old white leghorn chickens	141
... Plant proteins III. The supplementary effect amongst certain plant proteins	151
... Plant proteins IV. The biological values of soyabeans, linseedmeal and soyabeans supplemented by cystine ...	390
... Plant proteins V. The biological value of lucerne and lucerne supplemented by cystine in sheep	399
... Plant proteins VI. The amino acid deficiencies in certain plant proteins	407
MASON, J. H. ... The isolation of <i>Cl. welchii</i> , Type B, from foals affected with dysentery	333
MYBURGH, S. ... Studies on the alimentary tract of merino sheep in South Africa IV. Description of experimental technique	341
ORTLEPP, R. J. ... South African Helminths III. Some mammalian and avian cestodes	23
... South African Helminths IV. Cestodes from <i>Columbiformes</i>	51
... South African Helminths V. Some avian and mammalian helminths	63
PFAFF, G. ... Immunization against rinderpest with special reference to the use of dried goat spleen	263
QUIN, J. I. ... Studies on the alimentary tract of merino sheep in South Africa IV. Description of experimental technique	341
... Studies on the alimentary tract of merino sheep in South Africa V. The motility of the rumen under various conditions	361

	PAGE
ROBINSON, E. M. ... The isolation of <i>Cl. welchii</i> , Type B, from foals affected with dysentery	333
ROETS, G. C. S. ... Coproporphyrin excretion in East Coast fever of cattle ...	385
SMUTS, D. B. ... The endogenous nitrogen metabolism of sheep with special reference to the maintenance requirement of protein ...	131
The basal metabolism of 3 to 4 weeks old white leghorn chickens	141
Plant proteins III. The supplementary effect amongst certain plant proteins	151
Plant proteins IV. The biological values of soyabeans, linseedmeal and soyabeans supplemented by cystine ...	391
Plant proteins V. The biological value of lucerne and lucerne supplemented by cystine in sheep	399
Plant proteins VI. The amino acid deficiencies in certain plant proteins	407
STEYN, D. G. ... The toxicity of some dipping fluids containing arsenic and sulphur	247
VAN DER WATH, J. G. Studies on the alimentary tract of merino sheep in South Africa IV. Description of experimental technique ...	341
Studies on the alimentary tract of merino sheep in South Africa V. The motility of the rumen under various conditions	361
