# SUBJECT INDEX.

## Volume 11, Nos. 1 and 2.

---

	PAGE
<b>Acid-base Balance.</b>	
Sulphur metabolism VII. The effect of the acid-base balance of the ration on the toxicity of elementary sulphur ... ..	113
<b>Alimentary Tract.</b>	
Studies on the alimentary tract of the merino sheep in South Africa IV. Description of experimental technique ... ..	341
Studies on the alimentary tract of the merino sheep in South Africa V. The motility of the rumen under various conditions ... ..	361
<b>Arsenic.</b>	
The toxicity of some dipping fluids containing arsenic and sulphur ... ..	247
<b>Blood.</b>	
The blood of the ostrich ... ..	419
<b>Cestodes.</b>	
South African Helminths III. Some mammalian and avian cestodes ... ..	23
South African Helminths IV. Cestodes from <i>Columbiformes</i> ... ..	51
<b>Chick Embryo.</b>	
Studies on the neurotropic virus of horsesickness VI. Propagation in the developing chick embryo ... ..	9
<b>Cl. Welchii.</b>	
The isolation of <i>Cl. welchii</i> , Type B, from foals affected with dysentery ... ..	333

	PAGE
<b>Columbiformes.</b>	
South African Helminths IV. Cestodes from <i>Columbiformes</i> ... ..	51
<b>Coproporphyrin.</b>	
Coproporphyrin excretion in East Coast fever of cattle ... ..	385
<b>Cystine.</b>	
Plant proteins IV. The biological values of soyabeans, linseedmeal and soya-beans supplemented by cystine ... ..	391
Plant proteins V. The biological value of lucerne and lucerne supplemented by cystine in sheep ... ..	399
<b>Dipping Fluids.</b>	
The toxicity of some dipping fluids containing arsenic and sulphur ... ..	247
<b>Dysentery.</b>	
The isolation of <i>Cl. welchii</i> , Type B, from foals affected with dysentery ... ..	333
<b>East Coast Fever.</b>	
Coproporphyrin excretion in East Coast fever of cattle ... ..	385
<b>Embryo.</b>	
See Chick Embryo.	
<b>Fat.</b>	
Sulphur metabolism VI. The effect of various levels of fats and proteins in the ration on the toxicity of elementary sulphur ... ..	107
<b>Grass.</b>	
The influence of frequency of cutting on yield, chemical composition, digestibility and nutritive value of some grass species ... ..	163
<b>Helminths.</b>	
See South African Helminths.	
<b>Horsesickness.</b>	
Studies on the neurotropic virus of horsesickness VI. Propagation in the developing chick embryo ... ..	9
<b>Immunization.</b>	
Immunization against rinderpest with special reference to the use of dried goat spleen ... ..	263
<b>Linseedmeal.</b>	
Plant proteins IV. The biological values of soyabeans, linseedmeal and soya-beans supplemented by cystine ... ..	391
<b>Lucerne.</b>	
Plant proteins V. The biological value of lucerne and lucerne supplemented by cystine in sheep ... ..	399
<b>Metabolism.—See also Sulphur Metabolism.</b>	
The endogenous nitrogen metabolism of sheep with special reference to the maintenance requirement of protein ... ..	131
The basal metabolism of 3 to 4 weeks old white leghorn chickens ... ..	141
<b>Motility.</b>	
Studies on the alimentary tract of merino sheep in South Africa V. The motility of the rumen under various conditions ... ..	361
<b>Neurotropic Virus.</b>	
Studies on the neurotropic virus of horsesickness VI. Propagation in the developing chick embryo ... ..	9
