

As mens was hy 'n skugter introvert, maar geseën met n doelgerigtheid en waagmoed wat aan die avontuurlustigheid gegrens het. Hy was 'n talentvolle man van vele fasette wat tot uiting gekom het in sy verrassende innoverende oplossings oor die volle spektrum van die konstruksiewese, insluitende die meganiese aspekte daarvan. Voeg daarby sy fyn aanvoeling vir kontrakte en sy vermoë om sowel kliënte as konsultante op hulle tone te hou en jy kry die byna volmaakte argitek - 'n **enigma!**

Stokes, B

Brian Stokes graduates as architect at Pretoria University in 1974, and starts his own practise, which presently operates as Brian Stokes, Moolman & Marais in George, Upington, Mosselbaai and Pretoria.

He is both architect and landscape-architect, and practices at the interface between the two disciplines.

Swanepoel, P

Pierre Swanepoel was born on the 14th October 1965 in Ladysmith Natal and matriculated in 1983 at Lydenburg High School, Transvaal.

In 1984 he completed his first year studying Civil Engineering at the University of Pretoria.

In 1985 he started his architectural studies at the Pretoria University School of Architecture.

During 1987 he did practical work at two professional offices in Pretoria.

In 1988 he competed in the annual Des Baker competition for architectural students and was awarded second prize. He was also awarded the Concrete Society Student Award and the Corobrick prize for the innovative use of concrete and brick respectively.

At the end of 1989 Pierre was awarded the Progress Lighting Award for the highest average in the subjects Design and Building Science at the University of Pretoria.

In 1990 he designed a Genetic Research Centre as part of his final year thesis. He obtained the highest marks in both Design and Building Science and was awarded his degree with distinction.

He obtained the highest marks in Design in his third, fourth and fifth years at the University of Pretoria.

In 1991 he joined the firm Taljaard Carter Architects where he entered various competitions on behalf of the firm. The new residence on the Wits Campus, the David Webster Hall, was one of the schemes. He was also awarded the 1991 EPPIC (Integrated Environmental Management) National Student Award for his thesis.

Work done in 1992 includes the new Head Office Building for the Standard Bank of South Africa, Prima Bank and the new Head Office Building for Genmin, where he is presently heading the design team.

In 1992 he was appointed an associate of Taljaard Carter and during June of that year travelled extensively in Europe.
