Appendix 3. The significance of the rank order of the themes as generated by the perceived *benefit* rating data (participant groups combined) were examined using independent t-tests, with Bonferroni corrected *p-values* below 0.0023 indicating significance. Significant values are in bold type.

Themes	Facilitating peer and other professional support (mean 3.31; SD 0.97)	Including communication partners (mean 3.54; SD 0.94)	Improving social engagement with technology (mean 3.75; SD 0.76)	Use of strategies and training to personalising the rehabilitation program (mean 3.86; SD 0.73)	Client empowerment (3.89; SD 0.83)	Promoting client responsibility (mean 3.97; SD 0.73)
Including communication partners (mean 3.54; SD 0.94)	0.167					
Improving social engagement with technology (mean 3.75; SD 0.76)	0.004	0.149				
Use of strategies and training to personalising the rehabilitation program (mean 3.86; SD 0.73)	<0.001	0.026	0.382			
Client Empowerment (mean 3.89; SD 0.83)	<0.001	0.021	0.304	0.832		
Promoting client responsibility (mean 3.97; SD 0.73)	<0.001	0.002	0.071	0.339	0.495	
Providing emotional support (mean 4.02; SD 0.67)	<0.001	0.001	0.027	0.177	0.299	0.717
