

Theiler Memorial Trust

During 1988, the "THEILER MEMORIAL TRUST" was created by his daughter Margaret Theiler in memory of his pioneer work.

The aim of this TRUST is to promote Veterinary Science in southern Africa by means of annual awards in one or more of the following categories

- Bursaries for studies either in South Africa or abroad
- Awards in recognition of outstanding research relevant to veterinary problems of southern Africa
- Invitations to eminent scientists
- Any other purpose that the advisory board may deem appropriate to promote the primary aim of the TRUST.

The award will be made to deserving appropriate candidates irrespective of race, sex, religion, creed or nationality.

The income of the TRUST will be administered by an Advisory Board consisting of the Director of the Veterinary Research Institute, the Dean of the National Faculty of Veterinary Science of the University of Pretoria and other appointed members. They will meet annually to decide on income administration and award presentations.

A proportion of the net income of the TRUST will be added to the capital to ensure the TRUST's continual growth.

The balance of the net income will be available to the Advisory Board for disbursement as is deemed appropriate.

The TRUST shall pursue exclusively and directly such aims as are non-profitmaking in accordance with the regulations pertaining to taxation.

We hope that you will consider the aims of this TRUST, worthy of your support.
