

Questionnaire for participants

Metabolic processes, and therefore metabolites, are affected by different factors such as age, gender, and as well as diet to mention a few [1]. The purpose of this questionnaire is to minimize or account for potential variations arising from these factors. Your identity and any information disclosed in this questionnaire are confidential and will not be shared with anyone or misused in any way.

Thank you for your participation.

Name: \_\_\_\_\_

Age: \_\_\_\_\_

Race:  African     Caucasian     Indian     Other, please specify,  
\_\_\_\_\_
