

Figure S4. The average maximum (Tmax) and minimum (Tmin) monthly temperatures (a and b) for the two seasons (2020/2021 and 2021/2022) for both the Pretoria and Potchefstroom trial sites and the total monthly rainfall for each season at each site (c and d) showing the second season (2021/2022) was generally wetter and cooler than the first (2020/2021).
