

**Table S3: Number of teams trained, and number of volunteers used for standardisation, per province.**

Team code	Number of teams <sup>a</sup> trained	Number of volunteers		
		0-2 years	2-12 years	>12 years
Province A	3	2	2	5
Province B	3	3	2	3
Province C	11	7	3	1 <sup>b,c</sup>
Province D	6	1	5	2
Province E	7	2	3	2
Province F	4	2	1	3
Province G	4	2	2	4
Province H	8	6	8	4
<b>Total</b>	<b>46</b>	<b>25</b>	<b>26</b>	<b>24</b>
Site lead anthropometrists	6	4	7	4

<sup>a</sup> Each team consisted of two people

<sup>b</sup> 6 additional volunteers (not included in this total) only attended one round of measurements; their data was used for assessment of inter-rater reliability only.

<sup>c</sup> Measurements for 10 additional volunteers were excluded from the analysis as they were each only measured by one fieldworker
