

Subject index

Acarid: Ixodidae	
Hosts, seasonal occurrence and life cycle of <i>Rhipicentor nuttalli</i> (Acarid: Ixodidae)—L.J. FOURIE, I.G. HORAK, D.J. KOK and W. VAN ZYL	177–187
Acaricide	
Acaricide resistance profiles of single- and multi-host ticks from communal and commercial farming areas in the Eastern Cape and North-West Provinces of South Africa—S. MEKONNEN, N.R. BRYSON, L.J. FOURIE, R.J. PEETER, A.M. SPICKETT, R.J. TAYLOR, T. STRYDOM and I.G. HORAK	99–105
African buffaloes	
The gamma-interferon test, its usefulness in a bovine tuberculosis survey in African buffaloes (<i>Syncerus caffer</i>) in the Kruger National Park—D.G. GROBLER, ANITA L. MICHEL, LIN-MARI DE KLERK and R.G. BENGIS	221–227
Albendazole	
A survey on the occurrence of resistance to anthelmintics of gastrointestinal nematodes of goats in Mozambique—A. ATANÁSIO, J. BOOMKER and C. SITOÉ	215–220
Strategic control of gastrointestinal nematodes of sheep in the highlands of central Kenya—N. MAINGI, R.O. OTIENO, V.M. MUMBI and E.H. WEDA	229–235
Amphistome infection	
Amphistome infection of goats farmed under resource-poor conditions in South Africa—A.F. VATTA and R.C. KRECEK	327–329
Anaplasmosis	
Occurrence of concurrent trypanosomosis, theileriosis, anaplasmosis and helminthosis in Friesian, Zebu and Sahiwal cattle in Uganda—J.W. MAGONA and J.S.P. MAYENDE	133–140
Animal health	
Review of current problems and shortcomings in the Tanzanian animal health information system with suggestions on improvement—F.M. KIVARIA and A.M. KAPAGA	305–314
Anthelmintic resistance	
A survey on the occurrence of resistance to anthelmintics of gastrointestinal nematodes of goats in Mozambique—A. ATANÁSIO, J. BOOMKER and C. SITOÉ	215–220
Antigen preparation	
Development of solid phase antigen for indirect ELISA for the detection of specific antibody responses to infection with Newcastle disease virus—M. SAHLE and G.W. BURGESS	237–242
Arbovirus	
Seasonal abundance of four <i>Culicoides</i> spp. (Diptera: Ceratopogonidae) at Al-Ahsa oasis, Eastern Province, Saudi	

Arabia—E.M.E. ABU ELZEIN, M.A. HILALI, A.I. AL-AFALEQ, P.S. MELLOR, J. BOORMAN, S. AL-ATIYA and A. AL NAIEM	115–122
<i>Atelerix frontalis</i>	
Hosts, seasonal occurrence and life cycle of <i>Rhipicentor nuttalli</i> (Acari, Ixodidae)—L.J. FOURIE, I.G. HORAK, D.J. KOK and W. VAN ZYL	177–187
<i>Babesia caballi</i>	
<i>In vitro</i> isolation of equine piroplasms derived from Cape mountain zebra (<i>Equus zebra zebra</i>) in South Africa—E. ZWEYGARTH, LAURA M. LOPEZ-REBOLLAR and P. MEYER	197–200
<i>Boophilus decoloratus</i>	
Seasonal abundance of adult ixodid ticks infesting cattle belonging to resource-limited farmers in the north-eastern Free State Province of South Africa—M. HLATSHWAYO, P.A. MBATI and O.O. DIPEOLU	1–6
Bovine fasciolosis	
The prevalence and economic importance of bovine fasciolosis in Kenya—an analysis of abattoir data—J.M. KITHUKA, N. MAINGI, F.M. NJERUH and J.N. OMBUI	255–262
Bovine tuberculosis	
The gamma-interferon test: its usefulness in a bovine tuberculosis survey in African buffaloes (<i>Syncerus caffer</i>) in the Kruger National Park—D.G. GROBLER, ANITA L. MICHEL, LIN-MARI DE KLERK and R.G. BENGIS	221–227
<i>Brucella abortus</i>	
Validation of an indirect enzyme-linked immunosorbent assay for the detection of antibody against <i>Brucella abortus</i> in cattle sera using an automated ELISA workstation—J.T. PAWESKA, A.D. POTTS, H.J. HARRIS, S.J. SMITH, G.J. VILJOEN, B. DUNGU, O.L. BRETT, M. BUBB and L. PROZESKY	61–77
<i>Brucella melitensis</i>	
An overview of the eradication of <i>Brucella melitensis</i> from KwaZulu-Natal—F.R. EMSLIE and J.R. NEL	123–127
Bufadienolide	
The effect of three bufadienolide cardiac glycosides on contraction of isolated rat jejunum—C.J. BOTHA, R. GEHRING, J.M. VAN ROOYEN and D. VENTER	243–246
Camels	
Animal-level risk factors for <i>Trypanosoma evansi</i> infection in camels in eastern and central parts of Kenya—J.M. NGAIRA, B. BETT and S.M. KARANJA	263–271
Cape mountain zebra	
<i>In vitro</i> isolation of equine piroplasms derived from Cape mountain zebra (<i>Equus zebra zebra</i>) in South Africa—E. ZWEYGARTH, LAURA M. LOPEZ-REBOLLAR and P. MEYER	197–200
Cardiac glycosides	
The effect of three bufadienolide cardiac glycosides on contraction of isolated rat jejunum—C.J. BOTHA, R. GEHRING, J.M. VAN ROOYEN and D. VENTER	243–246
Cattle	
Seasonal abundance of adult ixodid ticks infesting cattle belonging to resource-limited farmers in the north-eastern Free State Province of South Africa—M. HLATSHWAYO, P.A. MBATI and O.O. DIPEOLU	1–6
Validation of an indirect enzyme-linked immunosorbent assay for the detection of antibody against <i>Brucella abortus</i> in cattle sera using an automated ELISA workstation—J.T. PAWESKA, A.D. POTTS, H.J. HARRIS, S.J. SMITH, G.J. VILJOEN, B. DUNGU, O.L. BRETT, M. BUBB and L. PROZESKY	61–77
Parasitological prevalence of bovine trypanosomosis in Kindo Koisha district, Wollaita zone, south Ethiopia—A. KIDANEMARIAM, K. HADGU and M. SAHLE	107–113
Occurrence of concurrent trypanosomosis, theileriosis, anaplasmosis and helminthosis in Friesian, Zebu and Sahiwal cattle in Uganda—J.W. MAGONA and J.S.P. MAYENDE	133–140
Seasonal availability of gastrointestinal nematode larvae to cattle on pasture in the central highlands of Kenya—R.M. WARUIRU, E.H. WEDA, R.O. OTIENO and J.W. NGOTHO	141–146
Non-immune control of trypanosomosis: <i>In vitro</i> oxidative burst of PMA- and trypanosome-stimulated neutrophils of Boran and N'Dama cattle—V.O. TAIWO, J.O. ADEJINMI and J.O. OLUWANIYI	155–161

The prevalence and economic importance of bovine fasciolosis in Kenya—an analysis of abattoir data—J.M. KITHUKA, N. MAINGI, F.M. NJERUH and J.N. OMBUI	255–262
Chelonia	
Description of <i>Pelonia alncana</i> n. g., n. sp. (Pentastomida: Sebekidae) from the lungs of <i>Pelomedusa subrufa</i> and <i>Pelusios sinuatus</i> (Chelonia) in South Africa—K. JUNKER and J. BOOMKER	53–59
Closantel	
Strategic control of gastrointestinal nematodes of sheep in the highlands of central Kenya—N. MAINGI, R.O. OTIENO, V.M. MUMBI and E.H. WEDA	229–235
Colon	
Water absorption in relation to fermentation in the colon of the ostrich (<i>Struthio camelus</i>)—C. MUSARA, J.P. CHAMUNORWA, K. HOLTUG and E. SKADHAUGE	315–320
Complement fixation test	
Apparent prevalence of dourine in the Khomas region of Namibia—F.F. KUMBA, B. CLAASEN and P. PETRUS	295–298
Coryza	
Isolation of serovar C-3 <i>Haemophilus paragallinarum</i> from Zimbabwe: A further indication of the need for the production of vaccines against infectious coryza containing local isolates of <i>H. paragallinarum</i> —R.R. BRAGG	129–132
Virulence of South African isolates of <i>Haemophilus paragallinarum</i> Part 3: experimentally produced NAD-independent isolate—M. TAOLE, J. ALBERTYN, E. VAN HEERDEN and R.R. BRAGG	189–196
Cotyledoside	
The effect of three bufadienolide cardiac glycosides on contraction of isolated rat jejunum—C.J. BOTHA, R. GEHRING, J.M. VAN ROOYEN and D. VENTER	243–246
Cryopreservation	
Freezing of sheep faeces invalidates <i>Haemonchus contortus</i> faecal egg counts by the McMaster technique—J.A. VAN WYK and LAETITIA VAN WYK	299–304
Culicoides	
Seasonal abundance of four <i>Culicoides</i> spp. (Diptera: Ceratopogonidae) at Al-Ahsa oasis, Eastern Province, Saudi Arabia—E.M.E. ABU ELZEIN, M.A. HILALI, A.I. AL-AFALEQ, P.S. MELLOR, J. BOORMAN, S. AL-ATIYA and A. AL NAJEM	115–122
Cycloheximide	
The Kümm isolate of <i>Ehrlichia ruminantium</i> . <i>In vitro</i> isolation, propagation and characterization—E. ZWEYGARTH, ANTOINETTE I. JOSEMANS, M. FRANSI VAN STRIJP, HENRIETTE VAN HEERDEN, MARIA T.E.P. ALLSOPP and B.A. ALLSOPP	147–153
Diptera: Ceratopogonidae	
Seasonal abundance of four <i>Culicoides</i> spp. (Diptera: Ceratopogonidae) at Al-Ahsa oasis, Eastern Province, Saudi Arabia—E.M.E. ABU ELZEIN, M.A. HILALI, A.I. AL-AFALEQ, P.S. MELLOR, J. BOORMAN, S. AL-ATIYA and A. AL NAJEM	115–122
Dourine	
Apparent prevalence of dourine in the Khomas region of Namibia—F.F. KUMBA, B. CLAASEN and P. PETRUS	295–298
<i>Ehrlichia (Cowdria) ruminantium</i>	
The Kümm isolate of <i>Ehrlichia ruminantium</i> : <i>In vitro</i> isolation, propagation and characterization—E. ZWEYGARTH, ANTOINETTE I. JOSEMANS, M. FRANSI VAN STRIJP, HENRIETTE VAN HEERDEN, MARIA T.E.P. ALLSOPP and B.A. ALLSOPP	147–153
<i>Elephantulus myurus</i>	
Hosts, seasonal occurrence and life cycle of <i>Rhipicentor nuttalli</i> (Acari: Ixodidae)—L.J. FOURIE, I.G. HORAK, D.J. KOK and W. VAN ZYL	177–187
Epoxyascilliroside	
The effect of three bufadienolide cardiac glycosides on contraction of isolated rat jejunum—C.J. BOTHA, R. GEHRING, J.M. VAN ROOYEN and D. VENTER	243–246

Equine encephalosis virus

- The classification of seven serotypes of equine encephalosis virus and the prevalence of homologous antibody in horses in South Africa—P.G. HOWELL, DALEEN GROENEWALD, CARINA W. VISAGE, ANNA-MARI BOSMAN, J.A.W. COETZER and A.J. GÜTHRIE 79–93

Equine piroplasmiasis

- In vitro* isolation of equine piroplasms derived from Cape mountain zebra (*Equus zebra zebra*) in South Africa—E. ZWEYGARTH, LAJRA M. LOPEZ-REBOLLAR and P. MEYER 197–200

Equus zebra zebra

- In vitro* isolation of equine piroplasms derived from Cape mountain zebra (*Equus zebra zebra*) in South Africa—E. ZWEYGARTH, LAURA M. LOPEZ-REBOLLAR and P. MEYER 197–200

Ethiopia

- Parasitological prevalence of bovine trypanosomiasis in Kindo Koisha district, Wollaita zone, south Ethiopia—A. KIDANEMARIAM, K. HADGU and M. SAHLE 107–113

Faecal egg counts

- Freezing of sheep faeces invalidates *Haemonchus contortus* faecal egg counts by the McMaster technique—J.A. VAN WYK and LAETITIA VAN WYK 299–304

- Amphistome infection of goats farmed under resource-poor conditions in South Africa—A.F. VATTA and R.C. KRECKE 327–329

Fasciola

- The prevalence and economic importance of bovine fasciolosis in Kenya—an analysis of abattoir data—J.M. KITHUKA, N. MAINGI, F.M. NJERUH and J.N. OMBUI 255–262

- Amphistome infection of goats farmed under resource-poor conditions in South Africa—A.F. VATTA and R.C. KRECKE 327–329

Feed aversion

- Continuous exposure to an aversive mixture as a means of maintaining aversion to vermeerbos (*Geigeria ornativa* O. Hoffm.) in the presence of non-averted sheep—L.D. SNYMAN, R.A. SCHULTZ, T.S. KELLERMAN and L. LABUSCHAGNE 321–325

Fenbendazole

- A survey on the occurrence of resistance to anthelmintics of gastrointestinal nematodes of goats in Mozambique—A. ATANÁSIO, J. BOOMKER and C. SITOÉ 215–220

Gamma-Interferon test

- The gamma-interferon test: its usefulness in a bovine tuberculosis survey in African buffaloes (*Syncerus caffer*) in the Kruger National Park—D.G. GROBLER, ANITA L. MICHEL, LIN-MARI DE KLERK and R.G. BENGIS 221–227

***Geigeria ornativa* (vermeerbos)**

- Continuous exposure to an aversive mixture as a means of maintaining aversion to vermeerbos (*Geigeria ornativa* O. Hoffm.) in the presence of non-averted sheep—L.D. SNYMAN, R.A. SCHULTZ, T.S. KELLERMAN and L. LABUSCHAGNE 321–325

Gekkonidae

- Redescription of some *Spauligodon* spp. and *Parapharyngodon* spp., and of *Skryabinodon mabuyae* Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER 7–29

Gerrhosauridae

- Redescription of some *Spauligodon* spp. and *Parapharyngodon* spp., and of *Skryabinodon mabuyae* Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER 7–29

- Redescription of some *Thelandros* and *Tachygonetna* spp. (Pharyngodonidae: Oxyuroidea) from the omnivorous plated lizard, *Gerrhosaurus validus validus* A. Smith, 1849 in South Africa—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER 31–51

Goats

- An overview of the eradication of *Brucella melitensis* from KwaZulu-Natal—F.R. EMSLIE and J.R. NEL 123–127

- A survey on the occurrence of resistance to anthelmintics of gastrointestinal nematodes of goats in Mozambique—A. ATANÁSIO, J. BOOMKER and C. SITOÉ 215-220
- Amphistome infection of goats farmed under resource-poor conditions in South Africa—A.F. VATTA and R.C. KRECEK 327-329
- Haematology**
- Effects of the scab mite *Psoroptes ovis* on the haematology and live mass of Merino and Dorper sheep—T. MEINTJES, L.J. FOURIE and I.G. HORAK 285-293
- Haemonchus contortus***
- Freezing of sheep faeces invalidates *Haemonchus contortus* faecal egg counts by the McMaster technique—J.A. VAN WYK and LAETITIA VAN WYK 299-304
- Haemophilus paragallinarum***
- Isolation of serovar C-3 *Haemophilus paragallinarum* from Zimbabwe: A further indication of the need for the production of vaccines against infectious coryza containing local isolates of *H. paragallinarum*—R.R. BRAGG 129-132
- Virulence of South African isolates of *Haemophilus paragallinarum*. Part 1: NAD-dependent field isolates—R.R. BRAGG 163-169
- Virulence of South African isolates of *Haemophilus paragallinarum*. Part 2: Naturally occurring NAD-independent field isolates—R.R. BRAGG 171-175
- Virulence of South African isolates of *Haemophilus paragallinarum*. Part 3: experimentally produced NAD-independent isolate—M. TAOLE, J. ALBERTYN, E. VAN HEERDEN and R.R. BRAGG 189-196
- Heartwater**
- The Kümm isolate of *Ehrlichia ruminantium*: *In vitro* isolation, propagation and characterization—E. ZWEYGARTH, ANTOINETTE J. JOSEMANS, M. FRANSI VAN STRIJP, HENRIETTE VAN HEERDEN, MARIA T.E.P. ALLSOPP and B.A. ALLSOPP 147-153
- Helminthosis**
- Occurrence of concurrent trypanosomosis, theileriosis, anaplasmosis and helminthosis in Friesian, Zebu and Sahiwal cattle in Uganda—J.W. MAGONA and J.S.P. MAYENDE 133-140
- Seasonal availability of gastrointestinal nematode larvae to cattle on pasture in the central highlands of Kenya—R.M. WARUIRU, E.H. WEDA, R.O. OTIENO and J.W. NGOTHO 141-146
- Hippopotami**
- Hepatic and renal concentrations of copper and other trace elements in hippopotami (*Hippopotamus amphibius* L.) living in and adjacent to the Kafue and Luangwa Rivers in Zambia—M. MWASE, B. ALMLI, T. SIVERTSEN, M.M. MUSONDA and A. FLÅØYEN 207-214
- Horses**
- The classification of seven serotypes of equine encephalosis virus and the prevalence of homologous antibody in horses in South Africa—P.G. HOWELL, DALEEN GROENEWALD, CARINA W. VISAGE, ANNA-MARI BOSMAN, J.A.W. COETZER and A.J. GUTHRIE 79-93
- Apparent prevalence of dourine in the Khomas region of Namibia—F.F. KUMBA, B. CLAASEN and P. PETRUS 295-298
- Indirect ELISA**
- Validation of an indirect enzyme-linked immunosorbent assay for the detection of antibody against *Brucella abortus* in cattle sera using an automated ELISA workstation—J.T. PAWESKA, A.D. POTTS, H.J. HARRIS, S.J. SMITH, G.J. VILJOEN, B. DUNGU, O.L. BRETT, M. BUBB and L. PROZESKY 61-77
- Development of solid phase antigen for indirect ELISA for the detection of specific antibody responses to infection with Newcastle disease virus—M. SAHLE and G.W. BURGESS 237-242
- Information system**
- Review of current problems and shortcomings in the Tanzanian animal health information system with suggestions on improvement—F.M. KIVARIA and A.M. KAPAGA 305-314
- Kenya**
- Seasonal availability of gastrointestinal nematode larvae to cattle on pasture in the central highlands of Kenya—R.M. WARUIRU, E.H. WEDA, R.O. OTIENO and J.W. NGOTHO 141-146
- Strategic control of gastrointestinal nematodes of sheep in the highlands of central Kenya—N. MAINGI, R.O. OTIENO, V.M. MUMBI and E.H. WEDA 229-235

The prevalence and economic importance of bovine fasciolosis in Kenya—an analysis of abattoir data—J.M. KITHUKA, N. MAINGI, F.M. NJERUH and J.N. OMBUI	255–262
Animal-level risk factors for <i>Trypanosoma evansi</i> infection in camels in eastern and central parts of Kenya—J.M. NGAIRA, B. BETT and S.M. KARANJA	263–271
Kruger National Park	
The gamma-interferon test: its usefulness in a bovine tuberculosis survey in African buffaloes (<i>Syncerus caffer</i>) in the Kruger National Park—D.G. GROBLER, ANITA L. MICHEL, LIN-MARI DE KLERK and R.G. BENGIS	221–227
Kümm isolate	
The Kümm isolate of <i>Ehrlichia ruminantium</i> : <i>In vitro</i> isolation, propagation and characterization—E. ZWEYGARTH, ANTOINETTE I. JOSEMANS, M. FRANZI VAN STRIJP, HENRIETTE VAN HEERDEN, MARIA T.E.P. ALLSOPP and B.A. ALLSOPP	147–153
KwaZulu-Natal	
An overview of the eradication of <i>Brucella melitensis</i> from KwaZulu-Natal—F.R. EMSLIE and J.R. NEL	123–127
Levamisole	
A survey on the occurrence of resistance to anthelmintics of gastrointestinal nematodes of goats in Mozambique—A. ATANÁSIO, J. BOOMKER and C. SITOÉ	215–220
Lizards	
Redescription of some <i>Spauligodon</i> spp. and <i>Parapharyngodon</i> spp., and of <i>Skrijabinodon mabuyae</i> Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N. HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	7–29
Redescription of some <i>Thelandros</i> and <i>Tachygonetria</i> spp. (Pharyngodonidae: Oxyuroidea) from the omnivorous plated lizard, <i>Gerrhosaurus validus validus</i> A. Smith, 1849 in South Africa—S.F.B.N. HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	31–51
Madin Derby bovine kidney cells (MDBK)	
Multiplication of the V4 strain of Newcastle disease virus in Madin Derby bovine kidney cells—M. SAHLE, G.W. BURGESS and A. KIDANEMARIAM	201–206
McMaster technique	
Freezing of sheep faeces invalidates <i>Haemonchus contortus</i> faecal egg counts by the McMaster technique—J.A. VAN WYK and LAETITIA VAN WYK	299–304
Methacholine	
The effect of three butadienolide cardiac glycosides on contraction of isolated rat jejunum—C.J. BOTHA, R. GEHRING, J.M. VAN ROOYEN and D. VENTER	243–246
Mites	
On-host ecology and off-host survival of the sheep scab mite <i>Psoroptes ovis</i> —T. MEINTJES, L.J. FOURIE and I.G. HORAK	273–283
Effects of the scab mite <i>Psoroptes ovis</i> on the haematology and live mass of Merino and Dorper sheep—T. MEINTJES, L.J. FOURIE and I.G. HORAK	285–293
Mozambique	
A survey on the occurrence of resistance to anthelmintics of gastrointestinal nematodes of goats in Mozambique—A. ATANÁSIO, J. BOOMKER and C. SITOÉ	215–220
<i>Mycobacterium bovis</i>	
The gamma-interferon test: its usefulness in a bovine tuberculosis survey in African buffaloes (<i>Syncerus caffer</i>) in the Kruger National Park—D.G. GROBLER, ANITA L. MICHEL, LIN-MARI DE KLERK and R.G. BENGIS	221–227
NAD-dependence/NAD-independence	
Virulence of South African isolates of <i>Haemophilus paragallinarum</i> . Part 1: NAD-dependent field isolates—R.R. BRAGG	163–169
Virulence of South African isolates of <i>Haemophilus paragallinarum</i> . Part 2: Naturally occurring NAD-independent field isolates—R.R. BRAGG	171–175

Virulence of South African isolates of <i>Haemophilus paragallinarum</i> . Part 3: experimentally produced NAD-independent isolate—M. TAOLE, J. ALBERTYN, E. VAN HEERDEN and R.R. BRAGG	189-196
Namibia	
Apparent prevalence of dourine in the Khomas region of Namibia—F.F. KUMBA, B. CLAUJEN and P. PETRUS	295-298
Nematodes	
Redescription of some <i>Spauligodon</i> spp. and <i>Parapharyngodon</i> spp., and of <i>Skrjabinodon mabuyae</i> Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	7-29
Redescription of some <i>Thelandros</i> and <i>Tachygonetria</i> spp. (Pharyngodonidae: Oxyuroidea) from the omnivorous plated lizard, <i>Gerrhosaurus validus validus</i> A. Smith, 1849 in South Africa—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	31-51
Seasonal availability of gastrointestinal nematode larvae to cattle on pasture in the central highlands of Kenya—R.M. WARUIRU, E.H. WEDA, R.O. OTIENO and J.W. NGOTHO	141-146
A survey on the occurrence of resistance to anthelmintics of gastrointestinal nematodes of goats in Mozambique—A. ATANASIO, J. BOOMKER and C. SITOE	215-220
Strategic control of gastrointestinal nematodes of sheep in the highlands of central Kenya—N. MAINGI, R.O. OTIENO, V.M. MUMBI and E.H. WEDA	229-235
Neutralizing antibody	
The classification of seven serotypes of equine encephalosis virus and the prevalence of homologous antibody in horses in South Africa—P.G. HOWELL, DALEEN GROENEWALD, CARINA W. VISAGE, ANNA-MARI BOSMAN, J.A.W. COETZER and A.J. GUTHRIE	79-93
Neutrophils	
Non-immune control of trypanosomosis. <i>In vitro</i> oxidative burst of PMA- and trypanosome-stimulated neutrophils of Boran and N'Dama cattle—V.O. TAIWO, J.O. ADEJINMI and J.O. OLUWANIYI	155-161
Newcastle disease virus	
Multiplication of the V4 strain of Newcastle disease virus in Madin Derby bovine kidney cells—M. SAHLE, G.W. BURGESS and A. KIDANEMARIAM	201-206
Development of solid phase antigen for indirect ELISA for the detection of specific antibody responses to infection with Newcastle disease virus—M. SAHLE and G.W. BURGESS	237-242
Nigeria	
Non-immune control of trypanosomosis: <i>In vitro</i> oxidative burst of PMA- and trypanosome-stimulated neutrophils of Boran and N'Dama cattle—V.O. TAIWO, J.O. ADEJINMI and J.O. OLUWANIYI	155-161
Orbivirus	
The classification of seven serotypes of equine encephalosis virus and the prevalence of homologous antibody in horses in South Africa—P.G. HOWELL, DALEEN GROENEWALD, CARINA W. VISAGE, ANNA-MARI BOSMAN, J.A.W. COETZER and A.J. GUTHRIE	79-93
Osmosis	
Water absorption in relation to fermentation in the colon of the ostrich (<i>Struthio camelus</i>)—C. MUSARA, J.P. CHAMUNORWA, K. HOLTUG and E. SKADHAUGE	315-320
Ostrich	
Water absorption in relation to fermentation in the colon of the ostrich (<i>Struthio camelus</i>)—C. MUSARA, J.P. CHAMUNORWA, K. HOLTUG and E. SKADHAUGE	315-320
Oxyuroidea	
Redescription of some <i>Spauligodon</i> spp. and <i>Parapharyngodon</i> spp., and of <i>Skrjabinodon mabuyae</i> Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	7-29
Redescription of some <i>Thelandros</i> and <i>Tachygonetria</i> spp. (Pharyngodonidae: Oxyuroidea) from the omnivorous plated lizard, <i>Gerrhosaurus validus validus</i> A. Smith, 1849 in South Africa—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	31-51
Pachydactylus	
Redescription of some <i>Spauligodon</i> spp. and <i>Parapharyngodon</i> spp., and of <i>Skrjabinodon mabuyae</i> Sandground,	347

1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	7-29
Parapharyngodon	
Redescription of some <i>Spauligodon</i> spp. and <i>Parapharyngodon</i> spp., and of <i>Skrjabinodon mabuyae</i> Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	7-29
Pelomedusa	
Description of <i>Pelonia africana</i> n. g., n. sp. (Pentastomida: Sebekidae) from the lungs of <i>Pelomedusa subrufa</i> and <i>Pelusios sinuatus</i> (Chelonia) in South Africa—K. JUNKER and J. BOOMKER	53-59
Pelonia africana	
Description of <i>Pelonia africana</i> n. g., n. sp. (Pentastomida: Sebekidae) from the lungs of <i>Pelomedusa subrufa</i> and <i>Pelusios sinuatus</i> (Chelonia) in South Africa—K. JUNKER and J. BOOMKER	53-59
Pelusios	
Description of <i>Pelonia africana</i> n. g., n. sp. (Pentastomida: Sebekidae) from the lungs of <i>Pelomedusa subrufa</i> and <i>Pelusios sinuatus</i> (Chelonia) in South Africa—K. JUNKER and J. BOOMKER	53-59
Pentastomida	
Description of <i>Pelonia africana</i> n. g., n. sp. (Pentastomida: Sebekidae) from the lungs of <i>Pelomedusa subrufa</i> and <i>Pelusios sinuatus</i> (Chelonia) in South Africa—K. JUNKER and J. BOOMKER	53-59
Pharyngodonidae	
Redescription of some <i>Thelandros</i> and <i>Tachygonetria</i> spp. (Pharyngodonidae: Oxyuroidea) from the omnivorous plated lizard, <i>Gerrhosaurus validus validus</i> A. Smith, 1849 in South Africa—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	31-51
Plant poisoning	
Continuous exposure to an aversive mixture as a means of maintaining aversion to vermeerbos (<i>Geigeria ornativa</i> O. Hoffm.) in the presence of non-averted sheep—L.D. SNYMAN, R.A. SCHULTZ, T.S. KELLERMAN and L. LABUSCHAGNE	321-325
Psoroptes ovis	
On-host ecology and off-host survival of the sheep scab mite <i>Psoroptes ovis</i> —T. MEINTJES, L.J. FOURIE and I.G. HORAK	273-283
Effects of the scab mite <i>Psoroptes ovis</i> on the haematology and live mass of Merino and Dorper sheep—T. MEINTJES, L.J. FOURIE and I.G. HORAK	285-293
Rat jejunum	
The effect of three butadienolide cardiac glycosides on contraction of isolated rat jejunum—C.J. BOTHA, R. GEHRING, J.M. VAN ROOYEN and D. VENTER	243-246
Rhipicentor nuttalli	
Hosts, seasonal occurrence and life cycle of <i>Rhipicentor nuttalli</i> (Acari: Ixodidae)—L.J. FOURIE, I.G. HORAK, D.J. KOK and W. VAN ZYL	177-187
Rhipicephalus spp.	
Seasonal abundance of adult ixodid ticks infesting cattle belonging to resource-limited farmers in the north-eastern Free State Province of South Africa—M. HLATSHWAYO, P.A. MBATI and O.O. DIPEOLU	1-6
Rift Valley fever virus	
Teratogenicity of a mutagenised Rift Valley fever virus (MVP 12) in sheep—P. HUNTER, B.J. ERASMUS and J.H. VORSTER	95-98
Development of a diagnostic one-tube RT-PCR for the detection of Rift Valley fever virus—A. ESPACH, M. ROMITO, L.H. NEL and G.J. VILJOEN	247-252
RT-PCR	
Development of a diagnostic one-tube RT-PCR for the detection of Rift Valley fever virus—A. ESPACH, M. ROMITO, L.H. NEL and G.J. VILJOEN	247-252

Saudi Arabia

- Seasonal abundance of four *Culicoides* spp. (Diptera: Ceratopogonidae) at Al-Ahsa oasis, Eastern Province, Saudi Arabia—E.M.E. ABU ELZEIN, M.A. HILALI, A.I. AL-AFALEQ, P.S. MELLOR, J. BOORMAN, S. AL-ATIYA and A. AL NAIEM 115–122

Scincidae

- Redescription of some *Spauligodon* spp. and *Parapharyngodon* spp., and of *Skrjabinodon mabuyae* Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER 7–29

Sera

- Validation of an indirect enzyme-linked immunosorbent assay for the detection of antibody against *Brucella abortus* in cattle sera using an automated ELISA workstation—J.T. PAWESKA, A.D. POTTS, H.J. HARRIS, S.J. SMITH, G.J. VILJOEN, B. DUNGU, O.L. BRETT, M. BUBB and L. PROZESKY 61–77

Serotypes

- The classification of seven serotypes of equine encephalosis virus and the prevalence of homologous antibody in horses in South Africa—P.G. HOWELL, DALEEN GROENEWALD, CARINA W. VISAGE, ANNA-MARI BOSMAN, J.A.W. COETZER and A.J. GUTHRIE 79–93

Sheep

- Teratogenicity of a mutagenised Rift Valley fever virus (MVP 12) in sheep—P. HUNTER, B.J. ERASMUS and J.H. VORSTER 95–98
- Strategic control of gastrointestinal nematodes of sheep in the highlands of central Kenya—N. MAINGI, R.O. OTIENO, V.M. MUMBI and E.H. WEDA 229–235
- On-host ecology and off-host survival of the sheep scab mite *Psoroptes ovis*—T. MEINTJES, L.J. FOURIE and I.G. HORAK 273–283
- Effects of the scab mite *Psoroptes ovis* on the haematology and live mass of Merino and Dorper sheep—T. MEINTJES, L.J. FOURIE and I.G. HORAK 285–293
- Continuous exposure to an aversive mixture as a means of maintaining aversion to vermeerbos (*Geigeria ornativa* O. Hoffm.) in the presence of non-averted sheep—L.D. SNYMAN, R.A. SCHULTZ, T.S. KELLERMAN and L. LABUSCHAGNE 321–325

Skrjabinodon

- Redescription of some *Spauligodon* spp. and *Parapharyngodon* spp., and of *Skrjabinodon mabuyae* Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER 7–29

South Africa

- Seasonal abundance of adult ixodid ticks infesting cattle belonging to resource-limited farmers in the north-eastern Free State Province of South Africa—M. HLATSHWAYO, P.A. MBATI and O.O. DIPEOLU 1–6
- Redescription of some *Spauligodon* spp. and *Parapharyngodon* spp., and of *Skrjabinodon mabuyae* Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER 7–29
- Redescription of some *Thelandros* and *Tachygonetria* spp. (Pharyngodonidae: Oxyuroidea) from the omnivorous plated lizard, *Gerrhosaurus validus validus* A. Smith, 1849 in South Africa—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER 31–51
- Description of *Pelonia africana* n. g., n. sp. (Pentastomida: Sebekidae) from the lungs of *Pelomedusa subrufa* and *Pelusios sinuatus* (Chelonia) in South Africa—K. JUNKER and J. BOOMKER 53–59
- The classification of seven serotypes of equine encephalosis virus and the prevalence of homologous antibody in horses in South Africa—P.G. HOWELL, DALEEN GROENEWALD, CARINA W. VISAGE, ANNA-MARI BOSMAN, J.A.W. COETZER and A.J. GUTHRIE 79–93
- Acaricide resistance profiles of single- and multi-host ticks from communal and commercial farming areas in the Eastern Cape and North-West Provinces of South Africa—S. MEKONNEN, N.R. BRYSON, L.J. FOURIE, R.J. PETTER, A.M. SPICKETT, R.J. TAYLOR, T. STRYDOM and I.G. HORAK 99–105
- Virulence of South African isolates of *Haemophilus paragallinarum*. Part 1: NAD-dependent field isolates—R.R. BRAGG 163–169
- Virulence of South African isolates of *Haemophilus paragallinarum*. Part 2: Naturally occurring NAD-independent field isolates—R.R. BRAGG 171–175

<i>In vitro</i> isolation of equine piroplasms derived from Cape mountain zebra (<i>Equus zebra zebra</i>) in South Africa—E. ZWEYGARTH, LAURA M. LOPEZ-REBOLLAR and P. MEYER	197–200
Amphistome infection of goats farmed under resource-poor conditions in South Africa—A.F. VATTA and R.C. KRECEK	327–329
<i>Spaullogodon</i>	
Redescription of some <i>Spaullogodon</i> spp. and <i>Parapharyngodon</i> spp., and of <i>Skrjabinodon mabuyae</i> Sandground, 1936) Inglis, 1968 (Pharyngodonidae: Oxyuroidea) from insectivorous South African lizards—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	7–29
<i>Struthio camelus</i>	
Water absorption in relation to fermentation in the colon of the ostrich (<i>Struthio camelus</i>)—C. MUSARA, J.P. CHAMUNORWA, K. HOLTUG and E. SKADHAUGE	315–320
<i>Syncerus caffer</i>	
The gamma-interferon test: its usefulness in a bovine tuberculosis survey in African buffaloes (<i>Syncerus caffer</i>) in the Kruger National Park—D.G. GROBLER, ANITA L. MICHEL, LIN-MARI DE KLERK and R.G. BENGIS	221–227
<i>Tachygonetria</i>	
Redescription of some <i>Thelandros</i> and <i>Tachygonetria</i> spp. (Pharyngodonidae: Oxyuroidea) from the omnivorous plated lizard, <i>Gerrhosaurus validus validus</i> A. Smith, 1849 in South Africa—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	31–51
Tanzania	
Review of current problems and shortcomings in the Tanzanian animal health information system with suggestions on improvement—F.M. KIVARIA and A.M. KAPAGA	305–314
Teratogenicity	
Teratogenicity of a mutagenised Rift Valley fever virus (MVP 12) in sheep—P. HUNTER, B.J. ERASMUS and J.H. VORSTER	95–98
<i>Theileria equi</i>	
<i>In vitro</i> isolation of equine piroplasms derived from Cape mountain zebra (<i>Equus zebra zebra</i>) in South Africa—E. ZWEYGARTH, LAURA M. LOPEZ-REBOLLAR and P. MEYER	197–200
Theileriosis	
Occurrence of concurrent trypanosomosis, theileriosis, anaplasmosis and helminthosis in Friesian, Zebu and Sahiwal cattle in Uganda—J.W. MAGONA and J.S.P. MAYENDE	133–140
<i>Thelandros</i>	
Redescription of some <i>Thelandros</i> and <i>Tachygonetria</i> spp. (Pharyngodonidae: Oxyuroidea) from the omnivorous plated lizard, <i>Gerrhosaurus validus validus</i> A. Smith, 1849 in South Africa—S.F.B.N HERING-HAGENBECK, A.J. PETTER and J. BOOMKER	31–51
Ticks	
Seasonal abundance of adult ixodid ticks infesting cattle belonging to resource-limited farmers in the north-eastern Free State Province of South Africa—M. HLATSHVAYO, P.A. MBATI and O.O. DIPEOLU	1–8
Acaricide resistance profiles of single- and multi-host ticks from communal and commercial farming areas in the Eastern Cape and North-West Provinces of South Africa—S. MEKONNEN, N.R. BRYSON, L.J. FOURIE, R.J. PETER, A.M. SPICKETT, R.J. TAYLOR, T. STRYDOM and I.G. HORAK	99–105
Trematode	
The prevalence and economic importance of bovine fasciolosis in Kenya—an analysis of abattoir data—J.M. KITHUKA, N. MAINGI, F.M. NJERUH and J.N. OMBUI	255–262
Amphistome infection of goats farmed under resource-poor conditions in South Africa—A.F. VATTA and R.C. KRECEK	327–329
<i>Trypanosoma/trypanosomosis</i>	
Parasitological prevalence of bovine trypanosomosis in Kindo Koisha district, Wolfaita zone, south Ethiopia—A. KIDANEMARIAM, K. HADGU and M. SAHLE	107–113
Occurrence of concurrent trypanosomosis, theileriosis, anaplasmosis and helminthosis in Friesian, Zebu and Sahiwal cattle in Uganda—J.W. MAGONA and J.S.P. MAYENDE	133–140

Non-immune control of trypanosomosis: <i>In vitro</i> oxidative burst of PMA- and trypanosome-stimulated neutrophils of Boran and N'Dama cattle—V.O. TAIWO, J.O. ADEJINMI and J.O. OLUWANIYI	155–161
Animal-level risk factors for <i>Trypanosoma evansi</i> infection in camels in eastern and central parts of Kenya—J.M. NGAIRA, B. BETT and S.M. KARANJA	263–271
Apparent prevalence of dourine in the Khomas region of Namibia—F.F. KUMBA, B. CLAASEN and P. PETRUS	295–298
Tyledoside D	
The effect of three bufadienolide cardiac glycosides on contraction of isolated rat jejunum—C.J. BOTHA, R. GEHRING, J.M. VAN ROOYEN and D. VENTER	243–246
Uganda	
Occurrence of concurrent trypanosomosis, theileriosis, anaplasmosis and helminthosis in Friesian, Zebu and Sahiwal cattle in Uganda—J.W. MAGONA and J.S.P. MAYENDE	133–140
V4 strain replication	
Multiplication of the V4 strain of Newcastle disease virus in Madin Derby bovine kidney cells—M. SAHLE, G.W. BURGESS and A. KIDANEMARIAM	201–206
Vaccines	
Isolation of serovar C-3 <i>Haemophilus paragallinarum</i> from Zimbabwe: A further indication of the need for the production of vaccines against infectious coryza containing local isolates of <i>H. paragallinarum</i> —R.R. BRAGG	129–132
Vermeersiekte	
Continuous exposure to an aversive mixture as a means of maintaining aversion to vermeerbos (<i>Geigeria ornativa</i> O. Hoffm.) in the presence of non-aversed sheep—L.D. SNYMAN, R.A. SCHULTZ, T.S. KELLERMAN and L. LABUSCHAGNE	321–325
Zambia	
Hepatic and renal concentrations of copper and other trace elements in hippopotami (<i>Hippopotamus amphibius</i> L.) living in and adjacent to the Kafue and Luangwa Rivers in Zambia—M. MWASE, B. ALMLI, T. SIVERTSEN, M.M. MUSONDA and A. FLÅØYEN	207–214
Zimbabwe	
Isolation of serovar C-3 <i>Haemophilus paragallinarum</i> from Zimbabwe: A further indication of the need for the production of vaccines against infectious coryza containing local isolates of <i>H. paragallinarum</i> —R.R. BRAGG	129–132
