

## Acknowledgements.

I would like to thank

- My Supervisor Prof. George Brendenkamp and his co-supervisor Dr Elmar Veenendaal for being so supportive particularly when things seemed not to work well. I am very grateful for your patience and unreserved willingness to guide.
- Mr. Peter Smith for his invaluable assistance with plant identification.
- Miranda Deutschlander for assisting me with various technical problems and administrative issues.
- David Haore and Luke Perkins for helping me with phytosociological tables.
- Staff members of the H. O. Okavango Research Center for assisting me with fieldwork and other logistical support particularly Owen Mpedi, Jacob Sello, Bobo Ratsoma and Kagiso Thebe who spent long hours with me in field.
- The University of Botswana for funding my studies.
- Staff members for Agric. Research Laboratory for helping me with plant analysis.
- Fellow students Claudia Ueckermann, Francie du Plessis, Koos Smit, W. de Frey, and Rian Robinson for making the working environment welcoming and encouraging.
- My family and friends for their support and coping well with my continuous absence.
