SECTION 1. RESPONDENT'S BACKGROUND

INTRODUCTION AND CONSENT

INFORMED CONSENT

Hello. My name is _____ and I am working with the Central Statistical Organization. We are conducting a national survey about the health of women, men and children. We would very much appreciate your participation in this survey. I would like to ask you about your health (and the health of your children). This information will help the government to plan health services. The survey usually takes between 45 and 60 minutes to complete. Whatever information you provide will be kept strictly confidential and will not be shown to other persons.

Participation in this survey is voluntary and you can choose not to answer any individual question or all of the questions. However, we hope that you will participate in this survey since your views are important.

At this time, do you want to ask me anything about the survey?
May I begin the interview now?

1307	READ THE ANAEMIA CONSENT STATEMENT TO THE PARENT OR ADULT RESPONSIBLE FOR THE CHILD. As part of this survey, we are trying to find out more about anaemia, that is, low blood levels, in men, women, and children. To know more about this problem in Zimbabwe, we are asking people in this survey all over the country to take a test. For the test, I will take a few drops of blood from (NAME OF ADOLESCENT'S) finger. The test uses clean and completely safe equipment that is used only once and then thrown away. The blood will be tested with new equipment. The result will be given to (NAME) right after the test is done. We will not tell anyone else the results of the test. Do you have any questions? You can say yes or you can say no; it is up to you. If you say yes, it will help the country to develop programs to fight the problem of anaemia. Do you agree that (NAME) may give blood for the anaemia test? CIRCLE CODE AND SIGN. FURTHER DISCUSS ANAEMIA TESTING PROCESS TO PUT RESPONDENT AT EASE. Dear Mr Kembo

Approval Academic Advisory Committee

This serves to confirm that your change of title was served and approved at the Academic Advisory Committee on 24 June 2008.

Please note that your title was approved as:

Social and Economic factors influencing under-five mortality in Zimbabwe in 1996-2005

Please ensure that your protocol is amended with the above title. Also, please ensure that you advise the Ethics Committee of this change.

Sincerely

Prof C de Jager

Dear Mr. Kembo,

You have been authorized to use the Zimbabwe DHS data for your research titled "**Social and Economic Factors Influencing Under-Five Mortality in Zimbabwe During 2001-2005**".

The DHS files you will download from our website, do not give you access to any identifiers that can link these data to the respondents. Therefore, no risk of compromising respondent confidentiality will be present.

However, if you request access to geographic (GPS) data files in the future, you will be required to sign our conditions of use statement, agreeing that no attempt will be made to identify or contact survey respondents etc.

The DHS data sets must not be passed on to other researchers without the written consent of DHS. Users are requested to submit an abstract or project description to the DHS Data Archive for each new project, stating which datasets will be used. Copies of all reports and publications based on the requested data SHOULD be sent to the DHS Data Archive in sufficient number for DHS to forward copies to the countries whose data have been used.

Sincerely,

Bridgette James

PROOF OF ARTICLE ACCEPTANCE

Chapter 6

Subject: Acceptance of manuscript #851

Dear Joshua,

I have now heard back from Reviewer A of "*Determinants of infant and child mortality in Zimbabwe: Results of multivariate hazard analysis*". S/He really likes the revisions you made to the manuscript and would now like to change her vote to an "accept". Reviewer A is really pleased with this version. The editor also approves of the current version of the paper. **That is why it is now my pleasure to let you know that your paper is accepted for publication in Demographic Research. Congratulations!**

Now that the SRB is happy, we can proceed to the "housekeeping" part, where we prepare your work for publication. Here are two things you should now do...

- 1) If you have not already done so, print out a copy of the publication agreement (attached here as a PDF). You need to fill it in and sign in ink, and mail it to us by normal air mail (no need to send express or anything fancy, just normal mail).
- 2) Re-work any parts of the paper you want to improve or correct. If you want to change anything, including updating references, changing section numbers, or inserting a paragraph, please do so now.

After we format the paper for publication you will be getting a proof copy in a PDF, so you will be able to check for small typos or other minor items there, but it is much easier for all of us if you take care of the major work now. Once we have assigned page numbers and done the layout, it is more difficult to move things around. When you are finished with any and all changes you might want, please send us a new word file, calling it "851 ready to format" or something, and we will format that.

So, that is all. If you have any questions, please let me know and I will try to help. Congratulations again! Have a fantastic day!

All the very best,
Jana

Appendix 4

CURRICULUM VITAE AND SUMMARY OF PURPOSE AND CONTENTS OF RESEARCH

Joshua Kembo is a Senior Researcher in the Bureau of Market Research (BMR) at the University of South Africa (Unisa). He holds an Msc in Population Studies obtained from the University of Zimbabwe in 1992. He is currently completing his PhD in Epidemiology in the School of Health Systems and Public Health at the University of Pretoria. His areas of research interest include mortality, morbidity and statistical and mathematical demographic projections. He has been involved in over 20 research and evaluation projects in the demographic and public health disciplines.

Mr. Kembo recently submitted an article entitled "*The consequences of HIV and AIDS on children*" for publication in the SAHARA Journal. He was one of three authors whose paper entitled "*A review of National AIDS Councils in selected countries in Africa*" was published in the SAHARA Journal in December 2008. A paper drawn from chapter 6 of his doctoral thesis was recently accepted for publication in an international journal, namely, *Demographic Research*. Mr. Kembo is publishing this paper with his doctoral thesis supervisor, Professor Jeroen K. van Ginneken. The paper is entitled: "*Determinants of infant and child mortality in Zimbabwe: results of multivariate hazard analysis.*"

In his doctoral research Mr. Kembo focuses on the levels and trends of under-five mortality and the impact of maternal and socioeconomic variables on childhood mortality. His primary findings are that survival for all under-fives in Zimbabwe remained more or less constant from 1990-1994 to 1995-1999 and improved from 1995-1999 to 2001-2005.

This trend was unexpected. Determinants of child mortality were different in relative importance from those of infant mortality. His research contributes greatly to existing knowledge on under-five mortality by showing that the recent decline in under-five mortality in Zimbabwe was unexpected and is not genuine. The results from Mr. Kembo's research will assist policy makers in the child health sector to formulate strategies to improve the situation of under-5 children.
