CHAPTER 7. REFERENCES

CALLOW L.L. 1965. *Babesia bigemina* in ticks grown on non-bovine hosts and its transmission to these hosts. *Parasitology* 55: 375-381

CALLOW L.L., McGREGOR Q.D.A.H., PARKER R.J. and DALGLIESH R.J. 1974b. Immunity of cattle to *Babesia bigemina* following its elimination from the host, with observations on antibody levels detected by the Indirect Fluorescent Antibody test. *Australian Veterinary Journal* 50: 12-15

DALGLIESH R.J. and STEWART N.P. 1982. Some effects of time, temperature and feeding on infection rates with *Babesia bovis* and *Babesia bigemina* in *Boophilus microplus* larvae. *International Journal for Parasitology* 12: 323-326
DALGLIESH R.J. and STEWART N.P. 1983. The use of tick transmission by *Boophilus microplus* to isolate pure strains of *Babesia bovis*, *Babesia bigemina* and *Anaplasma marginale* from cattle with mixed infections. *Veterinary Parasitology* 13: 317-323

GOTHE R. 1967b. Investigations into the cold resistance of the eggs and larvae of
*Boophilus decoloratus* (Koch, 1844), *Boophilus microplus* (Canestrini, 1888) and
*Margaropus winthemi* (Karsch, 1879). *Onderstepoort Journal of Veterinary Research*
34: 109-128

GRAY J.S. and POTGIETER F.T. 1981. The retention of *Babesia bigemina* infection
by *Boophilus decoloratus* exposed to imidocarb dipropionate during engorgement.
*Onderstepoort Journal of Veterinary Research* 48: 221-227

GRAY J.S. and DE VOS A.J. 1981. Studies on a bovine *Babesia* transmitted by
*Hyalomma marginatum rufipes* Koch, 1844. *Onderstepoort Journal of Veterinary*
Research 48: 215-223

HALL W.T.K. 1963. The immunity of calves to tick-transmitted *Babesia argentina*
infection. *Australian Veterinary Journal* 39: 386-389

The immunity of calves to *Babesia bigemina* infection. *Australian Veterinary Journal*
44: 259-264

HEWETSON R.W. 1981. Results of selection for cattle tick resistance in cattle. In:
Whitehead G.B. and Gibson J.D. (eds). *Tick Biology and control*. Tick Research Unit,
Rhodes University. Grahamstown, South Africa. pp 91-93.

JOHNSTON L. A. Y., LEATCH G. and JONES P.N. 1978. The duration of latent infection and functional immunity in Droughtmaster and Hereford cattle following natural infection with *Babesia argentina* and *Babesia bigemina*. *Australian Veterinary Journal* 54: 14-18

babesiosis. *Transactions of the Royal Society of Tropical Medicine and Hygiene* 83: 43-52

approach in the survey of resistance to pesticides in ticks in southern Africa. In:
York. pp 65-69

SOLORIO-RIVERA J.L., RODRÍGUEZ-VIVAS R.I., PÉREZ-GUTIERREZ E. and
WAGNER G. 1999. Management factors associated with *Babesia bovis* seroprevalence
in cattle from eastern Yucatán, Mexico. *Preventive Veterinary Medicine* 40: 261-269

SPICKETT A.M. and MALAN J.R. 1978. Genetic incompatibility between *Boophilus
decoloratus* (Koch, 1844) and *Boophilus microplus* (Canestrini, 1888) and hybrid
*Onderstepoort Journal of Veterinary Research* 45: 149-153

Resistance of Nguni, Bonsmara and Hereford cattle to ticks in a bushveld region of
South Africa. *Onderstepoort Journal of Veterinary Research* 56: 245-250

*Proceedings of the International Conference of Veterinary Preventive Medicine and
Animal Production*. Australian Veterinary Association, Melbourne. pp 32-37

THEILER G. and ROBINSON B. 1954. Tick survey VIII. Checklists of ticks recorded from the Belgian Congo and Ruanda Urundi, from Angola and from Northern Rhodesia. Onderstepoort Journal of Veterinary Research 3: 447-461

WAGLAND B. M. 1975. Host resistance to cattle tick (*Boophilus microplus*) in Brahman (*Bos indicus*) cattle. I. Responses of previously unexposed cattle to four infestations with 20,000 larvae. *Australian Journal of Agricultural Research* 26: 1073-1080
