CHAPTER 6: COMPARATIVE ANALYSIS - 4. OVERALL PICTURE

4.3. USE OF SPACE

4.3.1. INTRODUCTION

This section provides an overview of the use of space within the structures built and of the ervens.

EXTENSION 10

4.3.2. USE WITHIN STRUCTURES

- Every household has the basics (kitchens and bedrooms).
- Less than half of the number of people interviewed have luxuries such as lounges and bathrooms, dining rooms and toilets (indoors).

EXTENSION 6

4.3.3. USE WITHIN ERVEN

- All households have kitchens and bathrooms.
- Half of those interviewed have luxuries such as indoor toilets, lounges, bathrooms.
- Very few have dining rooms and storage areas.

4.3.3. USE WITHIN ERVEN

- Other uses (clotheslines, storage, etc) tend to occur the most across the households.
- Gardening tends to be the most popular use across most households, followed by parking for vehicles.
- 20% of people engage in commercial activity.
- Approximately 13% participate in rental activity and the planting of vegetable gardens.
- One household provides a service.
- The use of space is quite diverse.

4.3.3. USE WITHIN ERVEN

- Gardening occurs across ten households.
- Half of the people interviewed have luxuries such as indoor toilets, lounges, bathrooms.
- Very few have dining rooms and storage areas.

4.3.3. USE WITHIN ERVEN

- Gardening occurs across ten households.
- Half of the people interviewed have luxuries such as indoor toilets, lounges, bathrooms.
- Very few have dining rooms and storage areas.
- Other uses (clotheslines, storage areas) occur less than 50% of the time.
- 20% plant vegetables.
