

APPENDIX 5

Plate 1. Eroded topsoil by interrill erosion on hillslope 4

Plate 2. Damage by rill and interrill erosion on hillslope 4

Plate 3. Stabilising gully cutting between hillslope 1 and 2

Plate 4. The influence of gully erosion on hillslope 1

Plate 5. Erosion damage on the rock outcrop area of hillslope 1 and 2

Plate 6. Highly erodible Escourt on hillslope 1

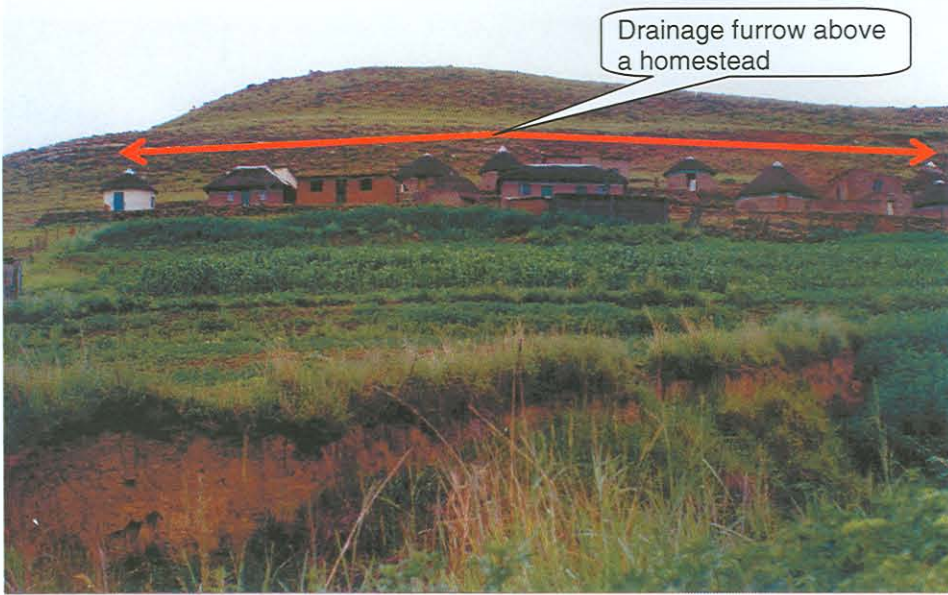

Plate 7. A view of hillslope 2 from below

(a)

(b)

Plate 8 (a) and (b). Rill measurements used to compute soil loss in ACED method

Plate 9. Improved vegetation cover by inter-cropping maize with *Canabis Sativa*
