Kwasizabantu

A spatial development framework
and detail design

thea wentzel

mentor and study leader:

Graham Young

submitted in partial fulfillment of
the requirements for the degree of

Masters in Landscape Architecture (Professional)

in the Faculty of Engineering, Built Environment
and Information Technology

University of Pretoria
Department of Architecture
November 2006

This book is dedicated to Fano Sibisi and his wife, Lindiwe, who are an example for all. In the moments I have seen them, they never stopped smiling.

“For my strength is made perfect in weakness”- (2 Cor 12:9).

When a farmer plows for planting, does he plow continually? Does he keep on breaking up and harrowing the soil? His God instructs him and teaches him the right way.
All this also comes from the Lord Almighty, wonderful in counsel and magnificent in wisdom
(Is 28: 24,26,29).

What would creation have been without his design? Is there a fish in the sea, or a fowl in the air, which was left to chance for its formation? Nay, in every bone, joint, and muscle, sinew, gland, and blood-vessel, you mark the presence of God working everything according to the design of infinite wisdom.

He hath in his mind a clear knowledge of every stone which shall be laid in its prepared space, and how vast the edifice shall be, and when the top-stone shall be brought forth with shoutings of "Grace! Grace! unto it". At the last it shall be clearly seen that in every chosen vessel of mercy, Jesus did as he willed with his own; and that in every part of the work of grace he accomplished his purpose, and glorified his own name.

Charles Spurgeon

Thanks to all the people that helped me:

To uncle Tobie, who first gave me the idea to work on Kwasizabantu and then provided all the information possible! To all the people working with the different projects who were willing to answer all my many questions. To Hennie Reynders who guided me to the understanding of the problem. To Graham Young who coordinated the thesis. To Clinton who was willing to read the thesis and act as an internal “external”. To the youth of Pelindaba Mission who helped me right through the night to build a model. I know it was Hanrick’s and Jonathan’s first all-nighter, and hopefully their last. To Daniel Wunderlich who gave so many beautiful photos of the mission. The thesis would have been quite dull without them. To uncle Volkmar and aunt Angelica who provided in so many ways: from a house to work from, to the base for the model. To Uncle Waldemar and aunt Susan for your support and prayers. To Dr. Andre van Niekerk who provided the funds for the model and the printing of the thesis. To my father and mother who helped where they could and even where they couldn’t. If you weren’t such wonderful parents in obedience to our Father, I wouldn’t be writing this thesis. To Ronel who willingly edited my work and even made me feel it was an honour for her! To Christien who took my ups and downs with such wisdom. Who reminded me every time to keep faith. It was quite a blessing to share the commune with you. Thanks to Mia and Esti who shared the growth pains of thesis writing. To Mareli who just shared in my tears and laughs.

And then to my Heavenly Father to whom I owe my life, who made Himself known as the provider, father, and friend. Who gave me all these wonderful people with whom to share my life.
