BIBLIOGRAPHY

Explanatory Notes on Formatting

1. In the main body of this thesis, the initials of the authors are given only in the first occurrence of the reference within a chapter. Thereafter, only their surnames are used in indicating the reference in the remainder of the chapter since these are cross-referenced to the first occurrence of their names. Their initials are also reflected in the Bibliography below.

2. The year of publication of textbooks is not given in the body due to the fact that, unlike periodicals, these change with much less frequency and are not essential to locating the relevant text and there is enough detail in the footnotes without further complicating them unnecessarily. However, for the sake of completeness the year of publication is given in the Bibliography below.

3. Where a passage from a judgement or textbook is quoted and the quote itself contains references to other materials, the format of these references has not been altered to follow the format in the text of the thesis on the basis that it is a quote and as such must remain unaltered.

4. With regard to journal references their abbreviated names are used in the main body of the text and also in this Bibliography since their full names can be found by referring to the Table of Abbreviations.

5. References to case names appear in the main body of the text in italics except when they are intended as references to the people themselves in which case they appear as regular text: eg Soobramoney means the case of Soobramoney v the Minister of Health, KwaZulu-Natal while Soobramoney means the applicant in that case.
