	URBAN ANALYSIS 8.1	
	LIST OF FIGURES 8.2	
	REFERENCES 8.3	

## 8.1 Urban Analysis

The following figures 8.1-8 represent the rest of the urban grain analysis as set out in chapter three of the Document. The analysis as stated previously is done at the hand of numerous performance criteria as detailed in chapter three.

The Summary of the complete analysis can be seen in figure 3.17 as a representational diagram of a city blocks urban performance.

Figure 8.1: Height and Massing analysis

Figure 8.2: Urban Structure analysis

Figure 8.4: Streetscapes and landscapes

Figure 8.3: Urban Grain analysis

Figure 8.5: Facade and Interface analysis

Figure 8.6: Adaptability analysis

Figure 8.7: Quality of the public realm analysis

Figure 8.8: Legibility analysis

## List of Figures

### 1 Brief

- |     |   |  |
|-----|---|--|
| 1.1 | Design development section through facility, landscape and circulation (Author) | (Author)   |
| 1.2 | Concept sketch of lab surface interface (Author)                                | 2.23 Current site use aerial photograph (Mr.SidGEO View)   |
| 1.3 | Design development section through central connective atrium (Author)           | 2.24 Public transport surrounding campus diagram (Author)  |
|     |   | 2.25 Site climate analysis diagram (Author)                |
|     |   | 2.26 Panorama of Southern neighbour (Visual Arts) (Author) |

### 2 Context

- |      |  |   |
|------|--|---|
| 2.1  | Regional scale location diagram (Author)             | 2.27 Panorama of eastern neighbour (Boukunde) (Author)                  |
| 2.2  | Regional scale areal photograph (Mr.SidGEO View)     | 2.28 Panorama of Norther neighbour (Music Department) (Author)          |
| 2.3  | Metropolitan scale areal photograph (Mr.SidGEO View) | 2.29 Site location diagram (Author)                                     |
| 2.4  | Precinct scale areal photograph (Mr.SidGEO View)     | 2.30 Panorama of Fever tree lane (Author)                               |
| 2.5  | Metropolitan scale location diagram (Author)         | 2.31 Diagram showing neighbouring site features (Author)                |
| 2.6  | 1921 Campus Development (A.D Destinatium)            | 2.32 Photograph of Boukunde`s Western facade (Author)                   |
| 2.7  | 1943 Campus Development (A.D Destinatium)            | 2.33 Photograph of Boukunde`s Northern facade (Author)                  |
| 2.8  | 1960 Campus Development (A.D Destinatium)            | 2.34 Boukunde location diagram (Author)                                 |
| 2.9  | 1970 Campus Development (A.D Destinatium)            | 2.35 Visual arts location diagram (Author)                              |
| 2.10 | 1982 Campus Development (A.D Destinatium)            | 2.36 Photograph of Visual Arts main entrance (Author)                   |
| 2.11 | Educational soft open spaces (Author)                | 2.37 Photograph of Visual Arts` NE corner (Author)                      |
| 2.12 | Functional soft open spaces (Author)                 | 2.38 Photograph of Administration Northern facade (Author)              |
| 2.13 | Buffer soft open spaces (Author)                     | 2.39 Aerial photograph of the Administration building (A.D Destinatium) |
| 2.14 | Hard open space structure (Author)                   | 2.40 Administration location diagram (Author)                           |
| 2.15 | Campus figure ground study (Author)                  | 2.41 Musaion location diagram (Author)                                  |
| 2.16 | Campus soft open space structure (Author)            | 2.42 Photograph of Musaion main entrance (Author)                       |
| 2.17 | Campus building use study (Author)                   | 2.43 Photograph of Musaion Western facade (Author)                      |
| 2.18 | Campus possible development sites (Author)           | 2.44 Site access and movement analysis sketch diagram (Author)          |
| 2.19 | Campus circulation and axis study (Author)           | 2.45 Site views diagram (Author)  |
| 2.20 | Site location diagram (Author)                       | 2.46 Panorama of main Tukkies laan and ring road intersection (Author)  |
| 2.21 | Site and Precinct location diagram (Author)          |   |
| 2.22 | Site surround development potential diagram          |   |

2.47	National Research context diagram (Author)	3.16	Analysis area (Group Work)
2.48	Regional Research context diagram (Author)	3.17	Campus urban performance analysis avareges (Author)
2.49	International Research context diagram (Author)	3.18	Character analysis (Group Work)
2.50	Argiculture research storage and wash area analysis diagram (Author)	3.19	Details and Materials analysis (Group Work)
2.51	Natural sciences research lab analysis diagram (Author)	3.20	Continuity and Enclosure analysis (Group Work)
2.52	New Fabi research Lab analysis diagram (Author)	3.21	Diversity analysis (Group Work)
2.53	Engineering research lab write up area analysis diagram (Author)	3.22	Density and Mix analysis (Group Work)
2.54	Engineering research lab analysis diagram (Author)	3.23	Ease of Movement analysis (Group Work)
		3.24	Initial Interventions map (Group Work)
		3.25	Urban fabric devision process (CABE, 2006)
		3.26	Pedestrian friendly sidewalk set out (CABE, 2006)
		3.27	Pedestrian spatial requirements (CABE, 2006)
		3.28	Pedestrian sidewalk boundary scale (Office of the Deputy Prime Minister, 1998)
		3.29	Proposed ringroad, parking and pedestrian zone (Office of the Deputy Prime Minister,1998)
		3.30	Pedestrian line of sight requirements (Office of the Deputy Prime Minister, 1998)
		3.31	Basic street width to height ratios (Office of the Deputy Prime Minister, 1998)

3.15	Campus development potential analysis (Group Work)		

- |      |  |  |
|------|--|--|
| 4.4  | Hans Hollein's Abteiberg Museum (Schaefer, H.P)            | Boeringer Lab. (Sauerbruch Hutton)   |
| 4.5  | Michael Graves' Portland Public Service Building (Refocus) | 5.11 Photograph of an interactional space in the Boeringer Lab (Sauerbruch Hutton)                                       |
| 4.6  | Charles Willard Moore's Piazza d'Italia (Lockley,W)        | 5.12-14 Photograph of the glass louvre facade at the Boeringer Ingleheim Pharmasuetical Research Lab (Sauerbruch Hutton) |
| 4.7  | Kas Oosterhuis surface explorations (Kas Oossterhuis)      | 5.15 Boeringer research facility FF plan (Sauerbruch Hutton)   |
| 4.8  | Kas Oosterhuis surface explorations (Kas Oossterhuis)      | 5.16 Photograph of the Clark center central courtyard (Foster and Partners)  |
| 4.9  | Kas Oosterhuis surface explorations (Kas Oossterhuis)      | 5.17-19 Photographs of the internal court yard at the Clark Centre (Foster and Partners)                                 |
| 4.10 | Kas Oosterhuis surface explorations (Kas Oossterhuis)      | 5.20-22 Clark Centre internal spaces (Foster and Partners)   |
| 4.11 | International student ( Mustav Hamdy) surface exploration  | 5.23 Section Through the Clark Centre (Foster and Partners)  |
| 4.12 | International student ( Mustav Hamdy) surface exploration  | 5.24 Blizzard building atrium view, showing pods and research space (Kiser, K. 2005)                                     |
| 4.13 | International student ( Mustav Hamdy) surface exploration  | 5.25 Internal view in one of the pods in the blizzard building (Kiser, K. 2005)  |

## 5 Precedents Studies

- |       |  |   |
|-------|--|---|
| 5.1   | Internal circulation void of the Life Sciences building (Structural Concrete Industries, 2002)                   | 5.26 Photograph of the external glass facade (Kiser, K. 2005)                             |
| 5.2-3 | Photos of the external facade of the life sciences building (Structural Concrete Industries, 2002)               | 5.27 Photograph of mezzanine level circulation in the blizzard building (Kiser, K. 2005)  |
| 5.4   | View of lecture hall in the life sciences building (Structural Concrete Industries, 2002)                        | 5.28 Photograph of the external glass facade and connecting bridge (Kiser, K. 2005)       |
| 5.5-6 | Photos of the external facade of the life sciences building (Structural Concrete Industries, 2002)               | 5.29 Photograph of atrium pods and research space (Kiser, K. 2005)                        |
| 5.7   | First floor plan of the NSW Life Sciences research facility (Structural Concrete Industries, 2002)               | 5.30 Photograph of atrium pods and research space (Kiser, K. 2005)                        |
| 5.8   | Photograph of the glass louvre facade at the Boeringer Ingleheim Pharmasuetical Research Lab (Sauerbruch Hutton) | 5.31 Night time Photograph of the exterior of the Prada store (Glynn, S. 2005)            |
| 5.9   | Photograph of the glass louvre facade at the Boeringer Ingleheim Pharmasuetical Research Lab (Sauerbruch Hutton) | 5.32 Section drawing of the Prada store (Glynn, S. 2005)                                  |
| 5.10  | Photograph of the circulation void in the  | 5.33 Design model of the Prade store (Glynn, S. 2005)                                     |
|       |  | 5.34 Photograph of the interior of the Prada store (Glynn, S. 2005)                       |
|       |  | 5.35-39 Photographs of the rhomboid lattice structure of the prada store (Glynn, S. 2005) |
|       |  | 5.40 Section drawing of the Prada store (Glynn, S. 2005)                                  |
|       |  | 5.41-43 Photographs of the Prada store (Glynn, S. 2005)                                   |
|       |  | 5.44 Photograph of the facade of the seattle  |

library (Kiser, K. 2008)	6.45-47 Focal point views as part of formal development (Author)
5.45-47 Photograph of the lattice structure of the seattle library (Kiser, K. 2008)	6.48 Massing Diagram Indicating main views and axis (Author)
5.48-49 Construction details for the Seattle library lattice structure (Kiser, K. 2008)	6.49 Conceptual massing diagram indicating main entrances (Author)
5.50 Construction details for the Seattle library lattice structure (Kiser, K. 2008)	6.50 Conceptual massing diagram indicating Transition Zones (Author)
5.51 Interior view of the Seattle library common space (Kiser, K. 2008)	6.51 Conceptual massing diagram indicating connecting atrium axis (Author)
5.52 Photograph of the lattice structure of the Seattle library (Kiser, K. 2008)	6.52 Combination of view determined formal development (Author)
5.53 Conceptual context rendering of the Autolith design proposal (Serero Architects)	6.53 Initial Walkway concept (Author)
5.54-57 Conceptual projects renderings of the proposed Serero Autolith design (Serero Architects)	6.54 Conceptual walkway rendering (Author)
	6.55 Walkway from boukunde (Author)
	6.56 Walkway from main intersection (Author)
	6.57 Preliminary final circulation concept (Author)
	6.58 Final Conceptual model of circulation system (Author)
	6.59 Sketch investigating main entrance and circulation relationship (Author)
	6.60 Perspective artistic impression of one of the proposed atrium zone with all its connective and interactional devices. (Author)
6 Design Investigation	6.61 Perspective artistic impression of one the proposed atrium zone showing the vertical link between structure and space in the atrium zones, as well as daylight penetration at midday in the summer. (Author)
6.1 Study of people in landscape as source of light (Author)	6.62 Perspective artistic impression of one of the proposed atrium zones from the upper laboratory circulations space. (Author)
6.2 Analogue Generative process A (Author)	6.63 Perspective artistic impression illustrating the interior of the long connective tube (Author)
6.3 Conceptual facade studies from analogue generation process (Author)	6.64 Perspective artistic impression illustrating the view of the transitions zone with vertical circulation in the atrium. (Author)
6.7 Analogue Generative process B (Author)	6.65 Perspective artistic impression from the proposed transition zone at second floor level in to the atrium. (Author)
6.8-11 Contextual facade studies from analogue generation process B (Author)	6.66 Perspective artistic impression illustrating the view of the atrium as it will be experienced when entering the research
6.12-16 Structural development studies (Author)	
6.17-20 Structural development studies (Author)	
6.21-24 Structural development studies (Author)	
6.25-29 Structural development studies (Author)	
6.30-31 Deep surface tubes spatial exploration (Author)	
6.32 Initial conceptual rendering of Deep Surface (Author)	
6.33-34 Break out spaces exploration (Author)	
6.35-36 Conceptual spatial study of atrium (Author)	
6.37 Aerial view of deep surface tubes (Author)	
6.38-39 Deep Surface spatial study (Author)	
6.40 View of quadruple volume atrium and spatial exploration	
6.41 Conceptual view from deep surface (Author)	
6.42-44 Focal point views as part of formal development (Author)	

- 7.56 Smart glass coolvue glass (P.G Smart Glass)
- 7.57 Composite aluminium cladding panels
- 7.58 Zinc standing seam roof cladding
- 7.59 Ecoresin cladding panels
- 7.60 Epoxy resin floor finish
- 7.61 RGB LED facade lighting
- 7.62 LED facade lighting systems

## 8 Appendices

- 8.1 Height and Massing analysis (Group Work)
- 8.2 Urban Structure analysis (Group Work)
- 8.3 Urban Grain analysis (Group Work)
- 8.4 Streetscapes and landscapes (Group Work)
- 8.5 Facade and Interface analysis (Group Work)
- 8.6 Adaptability analysis (Group Work)
- 8.7 Quality of the public realm analysis (Group Work)
- 8.8 Legibility analysis (Group Work)
