Acknowledgements

I wish to acknowledge the debt of gratitude owed to all those who, in various ways, assisted in the preparation of this dissertation. In particular, Prof. F.G. Steyn, my supervisor, for his helpful criticism and continued interest, Dr. Staal Burger of the Department of Tourism at the Technikon Natal for his support and Mr Ian Dixon of the Department of Economic Affairs and Tourism.

The financial support of the KwaZulu-Natal Sustainable Tourism Research Programme of Technikon Natal is hereby acknowledged. Opinions expressed and conclusions arrived at, are those of the author and are not necessarily to be attributed to the Technikon.

Thanks also go to the respondents whose co-operation enabled me to carry out this research. I also thank T.C. Hlatshwayo of the Department of Public Works who gave so much of her time doing my typing, together with Maureen Ndamalo who assisted her. Their assistance is highly appreciated.

I would also like to express my gratitude to my colleagues in the Tourism Division of the Department of Economic Affairs and Tourism.

To my mother and sister for their encouragement and support I owe them many thanks.

Lastly, I would like to thank my friend Mpumelelo Mnguni for his moral support and encouragement.
Undertaking

In conformity with the regulations of the University of Pretoria, I hereby state that what follows is my own original work, unless specifically indicated to the contrary in the text. Furthermore, this dissertation has not been submitted for a degree at any other University.
Abstract

In order to be able to determine the contribution of the tourism sector to the KwaZulu-Natal economy, the study starts by reviewing some economic indicators that show the contribution of different economic sectors to GDP and to the economy in general. Where possible a comparison was made with other provinces and the RSA. These comparisons showed that the KwaZulu-Natal economy still has many problems, such as a relatively low gross geographical product per capita and a high unemployment rate (32.2 per cent). However, it has the potential to be the largest contributor to the GDP of the country despite the political problems that are still prevalent in some areas of the province, and also the fact that it has the largest population compared to other provinces. The manufacturing sector is the highest contributor to GDP and during 1988 to 1994 its average contribution was 30.3 per cent, followed by trade and government sectors with 16 per cent and 13.4 per cent respectively.

The study reviewed the economic principles underlying the tourism industry, and also attempted to put the tourism industry into perspective with other economic sectors. This revealed that the tourism industry by its nature falls into the category of service industries and that it is governed by the same economic principles that govern any market namely, demand and supply forces. Most importantly however, is the realisation that this industry has a significant macroeconomic impact, for example, on inflation, employment, balance of payments and economic growth.

The study has attempted to elicit the views of those involved in tourism activities and through the use of secondary sources examined the position of the South African tourism industry to that in the world and more importantly the relative position of the KwaZulu-Natal tourism industry. This data showed that there is a steady increase in the tourists inflow from 1985 to 1995 (from 728 000 to 4.5 million) and also revealed their spending patterns. Based on this data, projections were made for 1998 to 2006, and these projections are in line with most of the economic analysts’ speculations that there will be a steady increase of foreign tourist arrivals for the next five to ten years. Thus, the study has taken both a qualitative and a quantitative approach.
It was also found that in order for the tourism industry to contribute successfully to the economic growth of the province, it has to be properly developed and managed, which means that there has to be a policy that will guide the actions of all the interest groups, and all the appropriate structures has to be put in place following market development principles. The roles of different institutions, whether government, private sector or non-governmental organisations have to be defined and co-ordinated towards the same goals, that is, to have a tourism industry that is economically viable and that benefits all the communities.

**CHAPTER I : PROBLEM STATEMENT AND METHODOLOGY**

1.1 Introduction 1
1.2 Intra- and interregional linkages 4
1.3 Personal income 6
1.4 Labour 8
1.5 Informal sector 9
1.6 Objectives of the study 13
1.7 Hypotheses 14
1.8 Methodology 14

**CHAPTER II : THE TOURISM PROFILE AND INSTITUTIONAL STRUCTURE IN KWAZULU-NATAL**

2.1 Introduction 16
2.2 Tourism potential of KwaZulu-Natal 16
2.3 The profile of the existing tourism attractions 22
2.3.1 Thukela 23
2.3.2 Zululand 27
2.3.3 Southern Natal 30
2.3.4 Natal Midlands 32
2.4 Institutions involved in tourism 32
2.4.1 Government sector 32
2.4.1.1 Reasons for government involvement 32
2.4.1.2 Public sector roles and functions in tourism 33
2.4.1.3 The role of the provincial government 36
2.4.1.4 The role of local government 38
2.4.2 Private sector involvement 40
2.4.3 The role of Non-Governmental Organisations 42
2.4.4 The role of labour 44
2.4.5 The role of communities 45
2.4.6 The role of the media 45
2.5 The relations between the public sector and the private sector 48
2.6 Summary 49

CHAPTER III: THE ECONOMICS OF TOURISM

3.1 Introduction 51
3.2 Definitions and characteristics of a service industry 51
3.2.1 Definitions 51
3.2.2 Characteristics of services 52
3.3 Tourism as a service industry in the economy 53
3.4 Microeconomic perspective of tourism 58
3.4.1 The nature of the market demand for tourism products 58
3.4.1.1 Definition of demand 58
3.4.1.2 Total revenue (gross) 61
3.4.1.3 Demand shifters 61
3.4.1.4 Indicators of demand 63
3.4.1.5 Price elasticities of demand 64
3.4.2 The supply of tourism products 65
3.4.2.1 The nature of market supply 65
3.4.2.1.1 Definition of supply 65
3.4.2.1.2 Supply determinants 66
3.4.2.1.3 The supply schedule 68
3.4.2.1.4 Supply shifters 69
3.4.2.1.5 Elasticity of supply 69
CHAPTER IV: THE ECONOMIC ANALYSIS OF THE TOURISM INDUSTRY

4.1 Introduction 90

4.2 South African share of the world tourist market 90

4.3 South African tourism industry's economic importance 92

4.3.1 Contribution to GDP and GNP 92

4.3.2 Contribution to foreign exchange earnings 94

4.3.3 Geographical contribution of tourism 97

4.4 Determination of the growth and development potential of tourism in KwaZulu-Natal 100

4.4.1 Empirical research study and method 100

4.4.2 Limitations 102

4.4.3 Research findings 102

4.4.4 Analysis of the findings 107

4.5 Estimation of the economic impact of tourism 109
4.6 Projections of tourism demand

CHAPTER V: TOURISM POLICY, PLANNING AND MARKETING

5.1 Introduction

5.2 Establishing a tourism policy

5.2.1 Tourism goals

5.2.2 Market development goals

5.2.3 Resource protection and conservation goals

5.2.4 Tourism objectives

5.3 Tourism development plans

5.3.1 Preparing a resource inventory

5.3.2 Conducting an economic impact analysis

5.3.3 Conducting a social and cultural impact analysis

5.3.4 Planning tourist attractions

5.4 Marketing tourism

5.4.1 Key definitions and core concepts of marketing

5.4.2 Marketing plan

5.4.3 Target marketing

5.4.3.1 Market segmentation

5.4.3.2 Market targeting

5.4.3.3 Product/service positioning

5.4.4 Applying the general marketing components to tourism

5.4.5 Marketing approach

5.5 Implementing the tourism plan

5.5.1 Public-private sector co-ordination in implementing the tourism plan

5.6 Managing the tourism industry

5.6.1 Establishing a tourism information system

5.6.2 Monitoring

5.6.3 Coping with saturation
5.7 Summary
