

*transcending speed – the culture of motorsport*  
*a facility for the development and promotion of motorsport*

*in memory of my dad whose enthusiasm for racing was instilled  
in me at a very young age, not by force but by choice*

*may he rest in peace 05\_11\_2005*

---

*submitted in fulfilment as partial requirement for completion of the degree magister in architecture  
(professional) in the faculty of engineering, the built environment and information technology.  
department of architecture, landscape architecture & interior architecture  
university of pretoria*

2005

*the facility for the development and promotion of motorsport in South Africa will aim to serve as a precedent for future race track development. It is an exploration into the culture of motor racing and how the culture of architecture is enhanced within this very realm.*

*the aim of this discourse is to establish the criteria required for an improved experience trackside and create a relationship between motor racing and architecture that will exhibit the fundamental purpose of being at the track – the racing.*
