73	[Fig. 100] Foundations for turbine hall extension (1928)
73	[Fig. 102] New addition to the turbine hall in 1932
73	[Fig. 104] Excavation to prepare for the 1935 addition
73	[Fig. 106] Steel structure for 1935 turbine hall extension
73	[Fig. 101] Pretoria West Power Plant in 1932
73	[Fig. 103] Later stage of additions in 1932
73	[Fig. 105] Steel structure for 1935 turbine hall extension
73	[Fig. 107] Installation of windows to the 1935 extension
76	[Fig. 108] Natural phenomena
78	[Fig. 109] Man made phenomena
80	[Fig. 110] Spaces
82	[Fig. 111] existing character
84	[Fig. 112] Character proposed by framework
86	[Fig. 113] West Elevation
87	[Fig. 114]
87	[Fig. 115]
88	[Fig. 116] North Elevation
88	[Fig. 117]
89	[Fig. 118] South Elevation
89	[Fig. 119]
90	[Fig. 120] Turbine Hall - natural phenomena
91	[Fig. 121] Turbine Hall - man made phenomena

92	[Fig. 122] Turbine Hall - spaces
94	[Fig. 123] Turbine Hall - character
96	[Fig. 124] Turbine Hall - textures
100	[Fig. 125] Showing the three main phases of progressive construction of the old Turbine Hall (Base map provided by Google Earth 3D buildings 2010 and edited by author)
101	[Fig. 126] Process of electricity production at the Power Plant
101	[Fig. 127] triangle of activity
102	[Fig. 128] Diagram showing the three sections of the turbine hall
103	[Fig. 129] Conceptual diagram demonstrating degrees of permeability, public access and progression
103	[Fig. 130] Conceptual diagram demonstrating different approaches to new architecture
104	[Fig. 131] Diagram demonstrating harvesting northern light by cutting courtyards into the building, suggests which spaces could be appropriate for living and for working
105	[Fig. 132] Diagram outlining how different function support each other
105	[Fig. 133] Production to the East and recreation to the West
105	[Fig. 134] North sun vs. view to the west
106	[Fig. 135] Hierarchy of spaces
106	[Fig. 136] diagram demonstrating approach to new interventions in section
106	[Fig. 137] diagram demonstrating approach to new interventions in plan
107	[Fig. 138] Diagram demonstrating the use of courtyards and height to create public and private spaces
107	[Fig. 139] Conceptual diagram demonstrating the external focus of working environments and the internal focus of living environments
107	[Fig. 140] Restore
107	[Fig. 141] Integrate
107	[Fig. 142] Intervene
108	[Fig. 143] Site analysis exploring the interplay between different spaces around the turbine hall
109	[Fig. 144] Axonometric exploring where circulation and light penetrate the existing mass
110	[Fig. 145] West Elevation (not to scale)
112	[Fig. 146] North Elevation (not to scale)
113	[Fig. 147] South Elevation (not to scale)
114	[Fig. 148] East Elevation (not to scale)
116	[Fig. 149] B1 - B1 section through existing building
116	[Fig. 151] B1 - B1 Section (not to scale)
116	[Fig. 150] B1 - B1 section showing new and demolished work
117	[Fig. 152] B2 - B2 section through existing building
117	[Fig. 154] B2 - B2 Section (not to scale)
117	[Fig. 153] B2 - B2 section showing new and demolished work
118	[Fig. 155] C1 - C1 section through existing building
118	[Fig. 157] C1 - C1 Section (not to scale)
118	[Fig. 156] C1 - C1 section showing new and demolished work
119	[Fig. 158] Diagrammatic ground floor plan (not to scale)
119	[Fig. 159] Diagrammatic first floor plan (not to scale)
120	[Fig. 160] 3D perspective view (not to scale)
125	[Fig. 161] Restore - The new steel touches the existing concrete lightly, a steel spacer separates the two making it seem like they do not even touch
125	[Fig. 162] Integrate - A steel haunch is fixed to the existing column to support the new beam, this emphasises how the two are connected
125	[Fig. 163] Intervene - In this instance two beams are used and run past the column making it seem like they are not even directly connected

126	<i>[Fig. 164] 1:20 Technical section</i>
127	<i>[Fig. 165] D1 - D1 section through existing building</i>
127	<i>[Fig. 166] D1 - D1 section showing new and demolished work</i>
130	<i>[Fig. 167] North West perspective</i>
132	<i>[Fig. 168] North Elevation [Restore]</i>
132	<i>[Fig. 169] North West perspective [Restore]</i>
133	<i>[Fig. 170] Western perspective [Integrate]</i>
133	<i>[Fig. 171] Perspective view of ground floor workshops [Integrate]</i>
134	<i>[Fig. 172] South Elevation [Intervene]</i>
134	<i>[Fig. 173] North Western perspective of the Artists' Studio and Arts and Crafts Gallery [Intervene]</i>
135	<i>[Fig. 174] Ground Floor Plan (Not to scale)</i>
136	<i>[Fig. 175] First Floor Plan (Not to scale)</i>
137	<i>[Fig. 176] Second Floor Plan (Not to scale)</i>
138	<i>[Fig. 177] Third Floor Plan (Not to scale)</i>
139	<i>[Fig. 178] Loft Level Plan (Not to scale)</i>
140	<i>[Fig. 179] Western Perspective</i>
144	<i>[Fig. 180] Longitudinal Section (Not to scale)</i>
