Appendix A1

FRAMES EVALUATION:
Questionnaire used in a general evaluation, September 1997

This questionnaire contains general effectiveness questions, of which many also provided information for the parallel study, namely an evaluation from the viewpoint of learning theory.

The questionnaire survey was supplemented by random, unstructured telephone interviews.
Dear

Thank you for volunteering to join in evaluating the prototype of the interactive practice environment, FRAMES. It covers the more difficult kinds of relations covered in COS101-S. We hope that by now you have had hands-on experience of using FRAMES and can take a short while to complete the evaluation form. We would really appreciate your answers to the questions and any additional comments you might like to make. Please use the enclosed envelope to post it back to me in the Department of Computer Science.

All the best for your exam preparation. You are welcome to contact me or any one of the other lecturers mentioned in tutorial letter 103.

Yours sincerely

Mrs Ruth de Villiers

Before you look at or fill in the forms, please just write down BRIEFLY your strongest impressions about FRAMES in the space below and pop this into the envelope too. Thanks!

DEGREE OR DIPLOMA FOR WHICH REGISTERED _______________________________________

STUDENT NUMBER ___________________________________________________________

ADDRESS _________________________________________________________________
_____________________________________________________________________________
_____________________________________________________________________________

PHONE NUMBER (H) ________________________   (W) ____________________________

OTHER UNISA MODULES THIS YEAR __________________________________________

UNISA MODULES PREVIOUSLY PASSED _______________________________________
_____________________________________________________________________________
_____________________________________________________________________________

Please put a cross in the appropriate block

1  The demo screens are easy to use.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

2  The demo screens helped me get started, so I knew what to do when I started the RAM exercises.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

3  When I do RAM exercises, I can easily access the one I want.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

4  I like practicing examples on the computer.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

5  The FRAMES system is easy to operate.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

6  The blackboard-style definition of the current relation (P, Q, S, etc) at top left is helpful.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>
7 The step-by-step build-up of answers:

<table>
<thead>
<tr>
<th>Really helps</th>
<th>Makes no difference</th>
<th>Puts me off</th>
<th>Forces me to work in a way I might not choose</th>
</tr>
</thead>
</table>

8 It is easy to access the HELP information such as definitions and graphic aids.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

9 The definitions (cartesian products, reflexivity, transitivity, etc) are a useful form of HELP.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

10 The attribute called ‘EG’ (for synthesis of ordered pairs in the relation) helps me to understand the relation.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

11 The graphic aids help me get a feel of the relation.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

If yes, how? ____________________________________________________________
______________________________________________________________________

12 I used the elaboration of maths symbols:

<table>
<thead>
<tr>
<th>Not at all</th>
<th>Once or twice</th>
<th>The first few times I used FRAMES</th>
<th>Most of the time</th>
</tr>
</thead>
</table>

13 FRAMES is complicated to use.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

14 It is easy to understand the meaning of the icons and symbols in the right-hand quick-control column.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

If not, which are not easy to understand?
______________________________________________________________________

15 I got stuck.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

If so, where? ____________________________________________________________
16 I appreciate the learner-control that lets me do **what** I want, **as much** as I want and in the **way** (i.e. the mode) of my choice.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

At a typical practice session with FRAMES, I usually do ____________________________________________

17 The feedback (i.e. the system's responses to my typed-in answers) was useful.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

Please elaborate on your answer above - how and why the feedback was useful or otherwise.

_________________________________________________________________________________________
_________________________________________________________________________________________
_________________________________________________________________________________________

18 I learned to use FRAMES:

<table>
<thead>
<tr>
<th>Very quickly</th>
<th>Fairly quickly</th>
<th>Gradually</th>
<th>Slowly</th>
<th>Could not use it at all</th>
</tr>
</thead>
</table>

If slowly or not at all, why? ___________________________________________________________
_________________________________________________________________________________

19 There is too much information on the screen, i.e. the screens are too cramped.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

20 The mode I **enjoy** using most is:

<table>
<thead>
<tr>
<th>Mode 1</th>
<th>Mode 2</th>
<th>Mode 3</th>
</tr>
</thead>
</table>

Why? ____________________________________________________________________________
________________________________________________________________________________

21 The mode that **helps me learn the most** is:

<table>
<thead>
<tr>
<th>Mode 1</th>
<th>Mode 2</th>
<th>Mode 3</th>
</tr>
</thead>
</table>

Why? ____________________________________________________________________________
________________________________________________________________________________
22 I find the processes lengthy and laborious.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

If so, which ones? ________________________________________________________________
_______________________________________________________________________________

23 The mode I like least is:

<table>
<thead>
<tr>
<th>Mode 1</th>
<th>Mode 2</th>
<th>Mode 3</th>
</tr>
</thead>
</table>

Why? _________________________________________________________________________
_______________________________________________________________________________

24 I prefer doing exercises on paper.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

25 I find it difficult to use the RAM access method.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

26 It was useful having the structure of the proof set out in Mode 2 and Mode 3.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

27 It is difficult using both the mouse and the keyboard to enter answers in Modes 2 and 3.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

28 After using the pre-set structures in FRAMES, I will know how to approach written examples in the exams.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

29 It is a waste of time doing interactive practice when I can read worked examples in the tutorial material.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

30 FRAMES helped me with the more complex proofs in the section of COS101-S on relations.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>
31 I would use FRAMES in different ways at different stages in my studies.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

32 I know that FRAMES is intended to be a non-threatening practice environment, nevertheless I would like a scoring facility.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

33 I should like similar practice environments for other sections of my studies.

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Maybe</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
</table>

34. Please make any further comments about FRAMES, including:
   - the impression it made on you
   - frustrations you experienced
   - in what way it helped
   - which examples of relations you found the easiest/ hardest/ most useful, etc.
   - anything else you want us to know.

_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________

THANK YOU FOR YOUR INVOLVEMENT!
Appendix A2

‘FIVE C’ EVALUATION OF FRAMES:
Questions used a structured interview survey on aspects of learning theory,
September 1998

(This was called the 'Five C' evaluation, since the sixth 'C', collaborative learning,
was not envisaged for FRAMES. The evaluation indicated that students were,
however, using FRAMES co-operatively.)

1 COGNITION

Has FRAMES changed the way you think when you solve a problem in the ‘relations’ section of
COS101? If so, how?

Did the structures in Mode 2 help? If so, how?

Does it affect the way you will think in general problem-solving?
e.g. Will you classify a problem as a certain kind? / Be aware of a pattern to follow?

Think of the objects on a FRAMES screen and the way you interacted with an excercise – what
helped you and how?
(Look for chunking, bridging from known to new, use of graphics, revision, use of rules and
principles, etc)

2 CONSTRUCTIVISM

How does FRAMES help you learn new skills?

Do you enjoy being in active control (as opposed to passive, e.g in a book / video)

Would it help you do new problems? If so, how?

In what way do you use the graphic aids? (real-world, etc)

What about the step-by-step development?

How did you find working on FRAMES together with another student?
3 CUSTOMIZATION

How do you feel about being able to take the initiative in learning? / organize your own learning experience?

How do you find the feedback (FRAMES = responses to what you type in)?

How and when did you use the elaborations?
Would you use it in different ways at different times? (i.e. time-customization)

4 CREATIVITY

What do you find different about the way FRAMES lets you practice?

Do you get bored quickly when you use it?

Do you enjoy it?

Does it give you, on the screen, all you need to solve problems? (i.e. virtual table-top)

Talk about ARCS (Attention? / Relevance? / Confidence? / Satisfaction?)

Could you maintain concentration?

Is it directly relevant to the type of problems you are asked in assignments and exams?

Does it help you develop confidence about this section of the work?

How do you feel when you’ve finished a FRAMES session?

5 COMPONENT-THEORY

How do you feel about the three different performance modes?

How did you find the different things you could do with the different attributes? (content)

Is it worthwhile to have the choice between doing very small and easy components (e.g. a Mode 1 proof for one attribute) and at the other extreme, doing a whole kind of analysis in Mode 2 or Mode 3?

Note: There were no questions on co-operative learning, since co-operative use of FRAMES was not envisaged. During the interviews, it emerged that three of the four interviewees were using FRAMES with a fellow-student.
Appendix B

RBO EVALUATION:

Questionnaire used in the comprehensive evaluation, May 2000

Questionnaire used in the evaluation of May 2000, in which two researchers co-operated and included their questions in a single survey.

Section F is devoted exclusively to questions on aspects of learning theory that were not included in the other sections. Section F does not address collaborative learning, which was incorporated elsewhere in the questionnaire, nor does it explicitly enquire about components of learning, since these were implicit, rather than explicit in RBO.
Questionnaire for the evaluation of the RBO course of 1999 and 2000

This questionnaire is to evaluate your perceptions and experiences of the RBO course on Internet-based learning / Computer-Assisted Communication and Management.

Section A: General information

1. Name: ___________________________ (optional)
2. Email address: _______________________________________
3. Age: (please mark the appropriate square with an “X”)
   - 18 - 24
   - 25 - 29
   - 30 - 39
   - 40 - 49
   - 50 - 59
   - Over 60
4. Gender: (please mark the appropriate square with an “X”)
   - Male
   - Female
5. Are you studying full-time or part-time?
   - Full-time
   - Part-time
6. Job title and sector of employment:

7. Before doing the RBO course, had you used the Internet and the World Wide Web in teaching / training?
   - Yes
   - No
7.1 If “Yes”, please elaborate.

________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________

8. With the RBO course behind you, what do you classify yourself as:
   a newbie or a webbie?

<table>
<thead>
<tr>
<th>Newbie</th>
<th>Webbie</th>
</tr>
</thead>
</table>

9. I am part of the RBO course of:

<table>
<thead>
<tr>
<th>1999</th>
<th>2000</th>
</tr>
</thead>
</table>

10. I did the course as:

<table>
<thead>
<tr>
<th>A credit for the MEd (CIE)?</th>
</tr>
</thead>
<tbody>
<tr>
<td>An “extra” module for the MEd (CIE)?</td>
</tr>
<tr>
<td>An outsider – to be exposed to Internet-based learning?</td>
</tr>
<tr>
<td>None of the above?</td>
</tr>
</tbody>
</table>
## Section B: Pedagogical issues

Please mark an “X” in the applicable box.

<table>
<thead>
<tr>
<th></th>
<th>Strongly Agree</th>
<th>Agree</th>
<th>Disagree</th>
<th>Strongly Disagree</th>
</tr>
</thead>
<tbody>
<tr>
<td>The course, without the provision of face-to-face contact:</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1. Adequately guided, facilitated and enhanced my learning.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Met my needs as an adult learner, i.e. relevant, self-directed, self-paced, flexible, hands-on, etc.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Provided adequate and effective communication amongst the learners and between learners and the instructor.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. Facilitated individual tasks.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Facilitated collaborative tasks.</td>
<td></td>
<td></td>
<td></td>

<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>11. I would have preferred some face to face interaction, rather than e-mail only.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>12. The course met my expectations.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>13. I found the course exciting.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

14. What were the most important things you learned from this course?
15. How did you experience interaction with your class mates, e.g. useful/supportive/complex/frustrating, etc?
________________________________________________________________________________
________________________________________________________________________________

16. Were there any issues relating e-mail communication and the chat sessions – other than technology-related – that were problematic, e.g. misunderstandings of meanings or intentions?
________________________________________________________________________________
________________________________________________________________________________

17. Besides the discussion that took place in the collaborative group tasks, why did / didn’t you contribute to the discussion in general?
________________________________________________________________________________
________________________________________________________________________________

18. Did you use any other means of communication during the course with the facilitator or other learners, e.g. phone, face-to-face, fax, etc.

| Yes | No |

18.1 If “Yes”, why did you use this alternative method of communication?
________________________________________________________________________________
Section C: Motivational and Affective issues

<table>
<thead>
<tr>
<th></th>
<th>Extremely effective</th>
<th>Very effective</th>
<th>Effective</th>
<th>Ineffective</th>
</tr>
</thead>
<tbody>
<tr>
<td>19.</td>
<td>The course was effective in providing me with materials, models and metaphors that motivated me to learn?</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

20. Did the course affect your self-esteem and confidence in any way?

Yes    No

20.1 If “Yes”, how?

________________________________________________________________________________
________________________________________________________________________________

21. One of the problems in collaborative learning is getting started. What factors influence group members to take initiative?

________________________________________________________________________________
________________________________________________________________________________

22. Were you at any point so engaged and absorbed by certain activities that you seem to “flow” along with it, experiencing a sense of happiness and satisfaction – glued to your computer?

Yes    No

22.1 If “Yes”, which activities did this occur in, and what led you to this state?

________________________________________________________________________________
________________________________________________________________________________

23. If you were NOT registered for the M. Ed. (CIE) course, i.e. you took RBO as a guest, do you think there were any disadvantages you experienced from not having been in a previous study class with other participants. If so, what were they?

________________________________________________________________________________
________________________________________________________________________________

24. To what do you attribute your success/failure to perform during the course?

________________________________________________________________________________
________________________________________________________________________________
Section D: Learner Interface issues

Please mark an “X” in the applicable box.

<table>
<thead>
<tr>
<th></th>
<th>Strongly agree</th>
<th>Agree</th>
<th>Disagree</th>
<th>Strongly disagree</th>
</tr>
</thead>
<tbody>
<tr>
<td>25.</td>
<td>The site layout and page layout was effective.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>26.</td>
<td>I could find my way around the site.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>27.</td>
<td>The design of the classroom motivated me to explore the site.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>28.</td>
<td>The page where the course’s objectives and expected outcomes was helpful.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th></th>
<th>All of them</th>
<th>Most</th>
<th>Some</th>
<th>Did not follow links</th>
</tr>
</thead>
<tbody>
<tr>
<td>29.</td>
<td>I read the instructions and followed the links from the RBO home page.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

30. What do you think of the design of the online classroom? Please elaborate.

_______________________________________________________________________________
_______________________________________________________________________________
_______________________________________________________________________________

Section E: Technological issues

31. Did you experience any problems with the following during the course?

<table>
<thead>
<tr>
<th></th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>31.1</td>
<td>Hardware</td>
<td></td>
</tr>
<tr>
<td>31.2</td>
<td>Software</td>
<td></td>
</tr>
<tr>
<td>31.3</td>
<td>Internet connection</td>
<td></td>
</tr>
<tr>
<td>31.4</td>
<td>E-mail communication with the Instructor / class members</td>
<td></td>
</tr>
<tr>
<td>31.5</td>
<td>Chat room</td>
<td></td>
</tr>
</tbody>
</table>

31.6 If “Yes”, describe the problem(s) briefly, along with any others not mentioned above.

Section F: Learning Theories

32. Constructivism in RBO

<table>
<thead>
<tr>
<th>Constructivist aspects in RBO</th>
<th>Very great extent</th>
<th>Great extent</th>
<th>Moderately</th>
<th>Little</th>
</tr>
</thead>
<tbody>
<tr>
<td>32.1 Learning situated in the real world</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>32.2 Discovery learning</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>32.3 Anchored instruction</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>32.4 Integrated testing</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>32.5 Active construction of knowledge</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>32.6 Transfer of skills</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

32.7 As an educator yourself, how does it feel to be on the receiving end of constructivism – please describe your emotions honestly.

________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________

Cognitive learning in RBO

33.1 Describe how the knowledge and skills required in RBO related to your prior learning.

________________________________________________________________________________
________________________________________________________________________________

33.2 Where you lacked prior knowledge, how did you bridge the gap?

________________________________________________________________________________
________________________________________________________________________________

33.3 RBO students largely plan their own study / learning experiences. How does this work for you in terms of scheduling and monitoring your time, other priorities and obligations, self-discipline, etc?

________________________________________________________________________________

33.4 Did you at any time experience overload and/or anxiety? If "Yes", please elaborate.

[ ] Yes  [ ] No
34. Creativity in the presentation of the module
34.1 RBO is offered in an innovative, unconventional manner. Describe the innovative aspects you experienced, both in terms of the presentation of the module and in the content of the assignments, and how you feel about the approach.

________________________________________________________________________________
________________________________________________________________________________

34.2 What aspects and styles of this innovative approach did you incorporate in your own RBO project, or plan to use in your subsequent teaching ethos?

________________________________________________________________________________
________________________________________________________________________________

35. Customised learning in RBO
35.1 What are your personal learning preferences, and in what way did RBO match / mismatch these preferences?

________________________________________________________________________________

35.2 Despite the “virtuality” of the classroom, most of us had some direct contact with the instructor, officially or unofficially. Do you find him approachable?

Yes  No

35.2.1 Please elaborate.

________________________________________________________________________________

36. The conventional instruction paradigm includes marks at intervals for students' interim test / assignments. How do feel about the lack of this in RBO?

________________________________________________________________________________

37. How did you find the course useful in your personal or professional life?

________________________________________________________________________________
### Section G: General

38. What difficulties / barriers, if any, did you experience in participating in this course, that have not been mentioned in this questionnaire?

________________________________________________________________________________

________________________________________________________________________________

39. How did you find the course useful in your personal or professional life?

________________________________________________________________________________

________________________________________________________________________________

40. Is there anything else you’d like to say? Feel free!

________________________________________________________________________________

________________________________________________________________________________

________________________________________________________________________________

________________________________________________________________________________

*Thank-you for your participation.*
Appendix C

EVALUATION OF MKAMBATI PROJECT

Questionnaire used in the learning theory evaluation, October 2000

This questionnaire relates specifically to the elements of the Hexa-C Metamodel, with the exception of knowledge and skill *components*, since these were not explicitly part of this fieldwork project.
Dear Ecotourism Student

It was great to be at Mkambati with you – it’s a week I will not forget. I was very impressed with your attitudes and approach to this real-world project. Thank you so much for the CD Rom of photos; it is so well done.

For my own academic work, I am doing research into learning theories. I have been given permission to use your Mkambati project, a form of ‘problem-based learning’, as a case study and I’d really appreciate if you would take some time to complete this questionnaire.

Thank you so much and all the best for your future studies and careers.

Ruth de Villiers

Tel (012) 361 6080
CASE STUDY: Problem-based learning in the Mkambati 2000 project of GGY 787 (Ecotourism)

Questions related to learning theory

1. Constructivist learning in the Mkambati Project of GGY 787 (Ecotourism)

Constructivism is a philosophy of learning that involves aspects such as:
• active participation by learners,
• construction of one’s own knowledge, instead of direct instruction,
• authentic settings for learning, and
• problems which do not have a single fixed solution.

One of the implementations of constructivism is problem-based learning (PBL), where students, in groups, use resources in investigating open-ended, real-world problems, and the instructor acts as a facilitator. The Mkambati Project was an example of PBL - for a real, not a hypothetical, problem.

1.1 How did you find this experience of constructivist learning – please describe your emotions honestly.

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

1.2 Describe strengths and shortcomings, in your opinion, of this experience of problem-based learning. The strengths and weaknesses may relate to any aspect or any stage of the project.

Strengths: ______________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Shortcomings: ___________________________________________________________
1.2.1 What sources of information did you use?

Before the trip to Mkambati
________________________________________________________________________

At Mkambati
________________________________________________________________________

During write-up time afterwards
________________________________________________________________________

2 Cognitive learning in the Mkambati project

2.1 Describe how the knowledge and skills required of you in the Mkambati project related to your own prior learning (i.e. what you know from previous study).

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

2.2 In situations where you lacked prior knowledge, how did you bridge the gap?

________________________________________________________________________
________________________________________________________________________

2.3 Problem-based learning is open-ended. It has no fixed ending stage, and is flexible in terms of the type and quantity of content. How did you find this in terms of deciding how far to take your section of work, and how did it impact on scheduling and monitoring your time, your other priorities and obligations, self-discipline, etc?

________________________________________________________________________
________________________________________________________________________
2.4 Did you at any time experience overload and/or anxiety?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
</table>

If "Yes", please elaborate.

________________________________________________________________________
