An ecological study of the plant communities of Marakele National Park

by

PETRUS JOHANNES VAN STADEN

Submitted in partial fulfillment of the requirements for the degree

MAGISTER SCIENTIAE

Center for Wildlife Management
Faculty of Natural and Agricultural Sciences

University of Pretoria
Pretoria

Supervisor: Prof Dr GJ Bredenkamp
Co-supervisor: Prof Dr N van Rooyen

November 2002
"Waterberg had always been associated with all the wonders of unpeopled veld, and so to us who were born and grew up on the outskirts of the wilderness it represented the ideal theatre of manly adventure, of great endeavours and the possibility of princely wealth. Before us like a gapless wall lay a range of black hills. These, Dolf explained to me, were the barrier-hills of the first plateau.... There was a splashing of water, a steep rise, and we were on a straight, white road through straggling syringa and boekenhout trees."

Eugene Marais,
The Road to Waterberg
I dedicate this dissertation to my wife Assi, and children, Carissa and Pieter.

4 RESULTS AND DISCUSSION

A. THE VEGETATION OF MARAKELE NATIONAL PARK

4.1 Introduction

4.2 *Olea europaea*-Diospyros whyteana Major Community

4.2.1 Widdringtonia nodiflora-Podocarpus latifolius Short Forest

4.2.2 Podocarpus latifolius-Rothmannia capensis Tall Forest

4.2.3 Buxus macowanii-Kirkia wilmsii Low Forest

4.2.4 Rhus leptodictya-Mimusops zeyheri Termitarium Thickets

4.2.4.1 Rhus leptodictya-Carissa bispinosa variation

4.2.4.2 Rhus leptodictya-Berchemia zeyheri variation

4.2.5 *Olea europaea* ssp. africana-Calpurnia aurea Tall Closed Woodland

4.3 *Acacia caffra*-Heteropogon contortus Major Community

4.3.1 *Acacia karroo*-Eragrostis chloromelas Short Closed Woodland

4.3.2 *Acacia caffra*-Setaria sphacelata Short Closed Woodland

4.3.2.1 Faurea saligna-Setaria sphacelata variation

4.3.2.2 *Acacia caffra*-Setaria sphacelata variation
4.4 Protea caffra-Loudetia simplex Major Community 61
4.4.1 Protea caffra-Tristachya rehmannii Low Closed Woodland 62
4.4.2 Protea caffra-Encephalartos eugene-maraisii Low Open Woodland 64
4.4.3 Protea caffra-Rhus dentata Low Closed Woodland 67
4.4.4 Protea welwitchii-Tristachya leucothrix Short Open Shrubland 69
4.4.5 Andropogon schirensis-Dicoma anomala Short Closed Grassland 70
4.5 Burkea africana-Setaria lindenbergiana Major Community 72
4.5.1 Burkea africana-Setaria lindenbergiana Low Thicket 73
4.5.1.1 Burkea africana-Diplorhynchus condylocarpon variation 75
4.5.1.2 Burkea africana-Englerophytum magalismontanum variation 77
4.6 Andropogon huilensis-Xyris capensis Major Community 78
4.6.1 Suzygium cordatum-Miscanthus junceus Short Thicket 79
4.6.2 Fuirena pubescens-Aristida junciformis Short Closed Grassland 82
4.6.3 Fuirena pubescens-Chironia purpurascens Low Closed Grassland 84

B. RANGE CONDITION

Introduction 85
4.7 *Acacia karroo*-Eragrostis chloromelas Short Closed Woodland

4.8 *Faurea saligna*-Setaria sphacelata variation

4.9 *Acacia caffra*-Setaria sphacelata variation

4.10 *Protea caffra*-Tristachya rehmannii Low Closed Woodland

4.11 *Protea caffra*-Encephalartos eugene-maraisii Low Open Woodland

4.12 *Protea caffra*-Rhus dentata Low Closed Woodland

4.13 *Protea welwitchii*-Tristachya leucothrix Short Open Woodland

4.14 *Andropogon schirensis*-Dicoma anomala Short Closed Grassland

4.15 *Burkea africana*-Diplorhynchus condylocarpon variation

4.16 *Setaria lindenberghiana*-Englerophytum magalismonatum variation

4.17 *Fuirena pubescens*-Aristida junciformis Short Closed Grassland

4.18 *Fuirena pubescens*-Chironia purpurascens Low Closed Grassland

4.19 Summary

5 MANAGEMENT RECOMMENDATIONS

5.1 Introduction
5.2 Management units

5.2.1 Red-yellow apedal, freely drained soils with *Acacia caffra* short closed woodland

5.2.2 Shallow lithocutanic soils of the Mispah Form with *Burkea africana* low woodland

5.2.3 Shallow lithocutanic soils of the Mispah Form with *Podocarpus latifolius* forests

5.3 Fire Management

5.3.1 Recommended burning program for MNP

5.4 Monitoring

5.5 Roads

5.6 Fencing

5.7 Water

5.8 Exotic problem plants

5.9 Erosion control
