## TESTIMONIALS AND PRESS OPINIONS ON MR. GALVAYNE'S HUMANE HORSE SYSTEM.

Mr. Sydney Galvayne, when teaching his Humane and Scientific System for the Treatment of Unbroken or Vicious Horses in Great Britain, succeeded in obtaining 300 different classes, which numbered up to 400 members. He was the recipient of many illuminated addresses and testimonials, the following being a copy of the one received from the York Class:—

DEAR SIR,—“ We the undersigned, being members of your class  
“ in York, beg to convey to you the expression of our cordial  
“ appreciation of the valuable instruction we have derived  
“ from your deeply interesting course of lectures and lessons.  
“ We are of opinion that your humane, scientific, and  
“ common sense system of breaking colts, and your manner  
“ of treating horses (old and young) generally, is far in  
“ advance of those heretofore adopted in this country.  
“ And particularly do we appreciate the information you  
“ have given us on Dentition which enables us to ascertain,  
“ up to 30 years, the age of any horse. We consider that  
“ we have derived such benefit from your teaching as will  
“ be invaluable to us. We consider also that such a  
“ testimony to the value of your system, and to the lucid  
“ and practical mode in which you illustrate it, is especially  
“ due to you, and will be appreciated by you from the  
“ members of your class in York.”

Among the names (400) attached to this testimonial were those of His Grace the late Archbishop Thompson of York and Primate of England; Lord Downe, then Lieut.-Colonel 10th Hussars; Lord Herries; Lord Middleton; Hon. E. Baring, 10th Hussars, etc., etc.

In the year 1887 Mr. Galvayne had the honour of appearing at Balmoral Castle, by command of Her Late Majesty Queen Victoria; also afterwards at Eaton Hall, by request of the late Duke of Westminster; at Alnwick Castle, by request of the late Duke of Northumberland, etc., etc.

## PRESS OPINIONS.

"The animal was unbroken and under his instruction for fifty minutes only. The rapidity with which it was induced to bear harness, saddle and rider was marvellous."—*London Times*, June 16th, 1890.

"We cordially commend the system."—*The Sportsman*, London.

"There is no question that the system is simple, humane and absolutely free from cruelty."—*Daily Telegraph*, London.

"The simplicity, effectiveness and common sense of all the methods introduced by Mr. Galvayne form their great recommendation."—*Bel's Life in London*.

"Mr. Sydney Galvayne is without doubt the most accomplished horse tamer in the world."—*The American Traveller*.

"In every town Mr. Galvayne has visited, the unanimous opinion of the Press is that his system is unique in its idea, unequalled in humanity and unparalleled in its results."—*Durham Chronicle*.

"The success which attended his experiment with this extremely vicious animal was wonderful."—*Home News*.

"The efficacy of Mr. Galvayne's system in cases of the most nervous or vicious horses is free from cruelty and is simplicity itself."—*Yorkshire Post*.

SCOTSMAN says:—"Undoubtedly as powerful and exciting a piece of fiction penned for some considerable time. . . . A style that reminds one of Mr Rider Haggard's 'Stories of Country Life.'"
