A VISIT TO MARIE WHEATLEY.

Ligutemant Wootten said Wheatley returned letters he had sent her, and he put them on the fire. On March 19, a few days before his wife's death, Wheatley told him she had quarrelled with b-7 parents, and wanted to get work in London. He engaged a room for her in Richmond-road, Shepherd's Bush, until she found employment.

At 9.10 p.m. on the night of the tragedy he called at Richmond-road to see if Wheatley had got an engagement. Wheatley opened the door. She had a rather excited manner, and appeared to have been hurrying. She told him she had been unsuccessful in her search for a situation.

Mrs. Wootten, was present in charge of two wardresses, and listened to the story of the interview which took place between herself, the husband, and a friend of the dead woman after the tragedy.

Lieutenant Wootten described how he went to Rotherfield-street at 12.30 a.m. on the night of his wife's death, and found her father with tears streaming down his cheeks. He came to the conclusion at first that his wife had fallen downstairs.

You asked me once to do a dirty trick for you. Now it's my turn. You passed me as if I was dirt. I don't forget. In answer to Mr. Pratt, who appeared for Wheatley, Lieut. Wootten said when he became acquainted with Wheatley he did not tell her point blank that he was a married. He had not denounced her to the police as the murderess of his wife.

After visiting his regimental quarters at the White City he went with Mr. Higson to the police and the Coroner's officer was handed a telegram which had been sent to Mrs. Wootten the night before.

In answer to the Coroner Lieut. Wootten said he found a small handkerchief, more like a child's than a lady's, in the hall of the house at Rotherfield-street on the morning after his wife's death. He took little notice of it at the time, but gave it to a detective later in the day.

On the Sunday before the tragedy his wife said that he had. His wife said on the previous Thursday a woman had called about the children. She was dressed like Marie, but had a covering over her head. From the voice his wife was certain the woman was Marie.

ASKED TO LEAVE HIS WIFE.

Lieut. Wooiten said he first became acquainted with Wheatley last October, and subsequently he introduced her to his wife in the lounge of a hotel. His wife said to Wheatley, "Don't you think you are doing very wrong by taking a man away from his wife and children?" Wheatley said, "Yes," and expressed her love for him.

Then they went to his house, where they discussed the matter. It was arranged that Wheatley should stay at Mr. Higson's house, and they all went there later in the evening.

The lieutenant said he had arranged that be should provide for Wheatley until she got a sitnation. Wheatley said when she had a job she would not trouble him or see him again.

On February 21 he and his wife went to Mrs. Higson's and saw Wheatley. His wife agreed that he could go out with Wheatley that night, providing Mr. Higson accompanied him.

Wheatley asked him to take his children and leave his wife. He told her it was impossible, as he had definitely decided to stay with his wife and children. She was slightly depressed by his answer. Wheatley had several times asked him to leave his wife.

The khaki dockers who have joined the new battalion of their comrades, and are ready to go anywhere and do anything, were seen off to their work yesterday morning by Lord Derby-and they woman, are ready and willing to do that anything at a moment's notice, too.

They were all dressed in uniform, as also was Lord Derby when at 6.15 sharp he came among them as their commanding officer.

No greater change in the Liverpool docker could possibly have been imagined than that which has taken place in regard to the men who are now in the service of the King. They looked fit, smart and soldierly in their khaki and service caps, and

marched briskly.

There was no "slouching," and every man seemed to realise the responsibility of his new

One docker, however, had caused some little difficulty. He was at least 6ft. Jin. in height and broadly proportioned, with the result that no uniform could at first be got to fit him. But he appeared in khaki all the same, for at the last moment a uniform which had been worn in the trenches by a wounded soldier was served out to him, and it fitted him perfectly.

Lord Derby showed how glad he was as an ex-officer in the Grenadier Guards to return to his uniform, and the men were undoubtedly inspired by his presence.

Before the dockers marched to their work "somewhere at the docks" Lord Derby addressed them. "I wish you the best of luck," he said. "You are starting to-day in what I believe is the beginning of a very large scheme, and on your conduct depends its success. I am perfectly certain every one of you will do your best. Every ounce of work you do is an ounce of work put in to try to destroy the German Empire."

HEROES OF THE FLOTILLA.

How British Warships Saved The Belgian Coast.

Many acts of bravery and devotion are recorded in a despatch from Rear-Admiral Horace Hood, reporting the operations of the British and French warships off the coast of Belgium.

The flotilia was organised to prevent the movement of large bodies of German troops along the coast roads from Ostend to Nieuport, to support the left flank of the Belgian army, and to prevent any movement by sea of the enemy's troops.

movement by sea of the enemy's troops.

The naval operations on the coast continued for more than three weeks without intermission.

The Amazon, flying the Rear-Admiral's flag, was badly holed on the waterline and was sent to England for repairs, and during these early days most of the vessels suffered casualties, chiefly from shrapnel shell from the field guns of the enemy.

KILLED IN LANDING PARTY.

The despatch relates that on October 18 machine-guns from the Severn were landed at Nieuport to assist in the defence, and Lieutenant E. S. Wise fell, "gallantly leading his men." "It soon became evident (writes the Rear-Admiral) that more and heavier guns were required

in the flotilia. The scouts therefore returned to England, while H.M.S. Venerable and several older cruisers, sloops and gunboats arrived to carry on the operations.

"Five French torpedo-boat destroyers were placed

under my orders by Admiral Favereau, and on October 30 I had the honour of hoisting my flag in the Intrepide, and leading the French flotilla into action off Lombartzyde.

"The greatest harmony and enthusiasm existed between the allied flotillas.

HEAVY BRITISH CASUALTIES.

HEAVY BRITISH CASUALTIES.

"As the heavier guns of the enemy came into play it was inevitable that the casualties of the flotilla increased, the most important being the disablement of the 6-inch turret and several shots on the water-line of the Mersey, the death of the commanding officer and eight men and the disablement of 16 others in the Falcon, which vessel came under a heavy fire when guarding the Venerable against submarine attack; the Wildfire and Vestal were badly holed, and a number of casualties caused in the Brilliant and Rinaldo.

"Enemy submarines were seen and torpedoes were fired, and during the latter part of the operations the work of the torpedo craft was chiefly confined to the protection of the larger ships.

"It gradually became apparent that the rush of the enemy along the coast had been checked, that the operations were developing into a trench warfare, and that the work of the flotilla had, for the moment, ceased.

Lieutenant H. O. Joyce, of the Vestal, who was badly wounded by a shell, but rallied his men to attend to the wounded, and then got his gun again into action.

Petty-Officer Robert Chappell, O.N. 207788, of the Falcon, who, though both legs were shattered and he was dying, continued to try and assist in the tending of the wounded. He shortly afterwards died of his wounds.

Able Seaman Ernest Dimmock, of the Falcon, O.N. 204549, who directly the casualties occurred in Falcon, finding himself the only person unwounded on deck, went immediately to the helm and conned the ship.

"Recognise They Will Be Beaten By The English Masses,'

The British Eye-Witness, in a parrative issued yesterday by the Press Bureau, shows that the German resistance has so weakened since the outbreak of the war that they are unable to avenge their defeat by the British at Neuve Chapelle. He says :-

It is a significant fact that although a month has passed since the action at Neuve Chapelle, the enemy has made no attempt to retaliate in any quarter, but has remained inactive while we have established ourselves securely on the ground won. Looking back over the past four months it is instructive to note the gradual weakening of the German resistance on our front. Formerly any offensive action on our part was met with an immediate counterstroke. This is the first occasion on which the enemy has made no reply at all. This does not mean, of course, that their resistance is collapsing, but the Germans have, none the less, admitted that with the troops at their disposal on this front they are unable to avenge their defeat.

WHAT THE TROOPS ARE TOLD,

This is clearly seen by a proclamation, already quoted in the Press, issued by the Crown Prince Rupprecht of Bavaria to his troops after the battle, in which, after admitting the defeat, he seeks to encourage them by a vague reference to a future day of reckoning, and it is no doubt with a view to keeping alive these hopes that the soldiers are told that Field-Marshal Hindenburg will shortly appear in France with a fresh army. Some light has been thrown on the conditions lately prevailing in the area behind the German lines which serves to confirm the impression that the general situation is creating great anxiety.

Both machines then disappeared in the direction of Zeebrugge.

The Serula was hardly damaged at all, and only a few bomb splinters were found on the deck. Captain Sharp, adds the Telegraaf, is convinced that the smaller aeroplane was unable to reach Zeebrugge.—Reuter.

the general situation is creating great anxiety.

As already stated, the Germans are evacuating large numbers of the civil population by way of Switzerland, and many of these have now returned

From their evidence it would appear that some thing very like a panic prevailed in Lille during the fighting at Neuve Chapelle. The large hospitals were all removed to Tournai, and a great many German officers who had been billeted in Lille went to Tournai to sleep.

THEY WERE VERY UNEASY.

Both officers and men openly expressed their

uneasiness.

Apparently a marked change began to occur in the general demeanour of the German troops soon after Christmas. Till then they had been absolutely confident and extremely cheerful, but this

feeling has been steadily decreasing.

Latterly the soldiers used to tell the French civilians that they recognised that they would be overpowered by the masses that the English were going to place in the field, and tried to persuade them that the English were equally bent on ruining France and grabbing everything for themselves.

Then a bigger hydropiane appeared and proceeded to drop bombs, also in parcels of three. Getting too near the ship the wing of the smaller aeroplane was badly damaged.

According to details gathered by the Telegraaf Captain Sharp, who is a good shot, fired at the hostile craft with a rifle.

At this moment the German hydroplane arrived on the scene, and also dropped bombs, which fell close to the steamer.

The captain, however, was not to be deterred, and continued to fire at the first acroplane when it again approached the steamer, and succeeded in hitting it several times, badly damaging one wing.

The one thing that troubled him was the thought of being again placed in a camp such as that from which he broke away.

"It's too awful for words," he said, as he puffed at a cigarette. "It is the monotony, you know, and it is the last thing in the world for a person like myself. Fancy being enclosed in those beastly walls while my country is at war. The thought is horrible to me. What say you, Leben?"

Leben nodded significantly.

"Fancy, when I go back to Germany they will say to me: 'Where have you been, Andler?' and all I shall be able to reply will be: 'In England in a detention camp.'

BRITISH SOLDIERS' TRIBUTE TO THE HOMELESS BELGIAN.

A British officer and a Belgian corporal headed the little procession.

British soldiers fired the farewell volley.

British buglers sounded the Last Post.

Chrysal Liere, a wounded Belgian soldier, who died in Brompton Hospital, was buried at Kensal Green Cemetery yesterday with full military honours. — (Daily Sketch photographs.)

His wounded comrades from the fighting line joined in the last tribute.

British soldiers presented arms as the coffin was carried into the church.

Our Portrait is of Mr. Frank Inge, of 209, King's Cross Road, London, W.C., who writes:

"I am sending you a testimonial of a wonderful cure 'Clarke's Blood Mixture' has effected in me. I had a very bad running

Abscess in the Jaw Bone

for some years; it was gradually eating the bone, away — it would get better and then break out again. I was continually poulticing the abscess, but still it would not heal. One day souteone advised me to try 'Clarke's Blood Mixture,' and after taking two bottles I could see a great difference, so I continued with it, and after taking the third bottle it had disappeared. The abscess was such a torture to me, and it was a godsend that I heard of 'Clarke's Blood Mixture,' for if I had not taken it at the time I might have been faced with a diseased jaw bone. I was quite run down, weak and very thin, but as soon as the abscess had healed, I began to fill out again."

Do You Suffer

from any disease due to impure blood, such as Eczema, Scrofula, Bad Legs, Abscesses, Ulcers, Glandular Swellings, Boils, Pimples, Sores of any kind, Piles, Blood Poison, Rheumatism, Cout, etc.?

If so, don't waste your time and money on useless lotions and messy ointments which cannot get below the surface of the skin. What you want and what you must have to be permanently cured is a medicine that will thoroughly free the blood of the poisonous matter which alone is the true cause of all your suffering. Clarke's Blood Mixture is just such a medicine. It is composed of ingredients which quickly expel from the blood all impurities from whatever cause arising, and by rendering it clean and pure can be relied upon to effect a lasting cure.

CLARKE'S BLOOD MIXTURE

By reason of its Remarkable Blood Purifying Properties is universally recognised as

THE WORLD'S BEST REMEDY FOR SKIN & BLOOD DISEASES

Clarke's Blood Mixture is pleasant to take, and warranted free from anything injurious to the most delicate constitution of either sex, from infancy to old age.

THE NEWMARKET CRAVEN MEETING.

Quiet Headquarters Gathering May Yield Royal Successes.

CITY AND SUBURBAN PROBLEM.

All racing men will be glad to get back to Newmarket to-day, for there is nothing like the Head-quarters of the Turl in the world.

There may be more up-to-date courses in France and Australia than we have at home, but there is not a meeting the world over run on the same lines as the Newmarket fixtures, which, after all, is only as it should be, for the Newmarket meetings are run by the Jockey Club, the highest and most exclusive institution of its kind in the world.

The Craven Meeting is just about the quietest of the series held throughout the season, but it is always interesting because we usually see some good-class juveniles stripped, and the opportunity is often chosen to give classic candidates a gallop.

HIS MAJESTY'S "DARK" COLT.

One of the most interesting features to-day will be the début of the King's three-year-old colt, Jungle Cock, in the Newmarket Biennial Stakes.

The colt did not run as a two-year-old, but he has always been thought something of, and he came well out of a trial the other day, beating three older horses in good style. A maiden, Jungle Cock claims a 7lb. allowance, and he looks to have only Manxman and Archelaus to beat.

He should accomplish this task if he is as good as he is reported to be

He should accomplish this task if he is as good as he is reported to be.

A HORSE FOR THE COURSE.

There are two interesting handicaps, and four of the entrants for the Crawfurd Plate have already won this season.

won this season.

Of the quartette I prefer Erl King, who was unlucky not to beat Liangeinor at Warwick, and I expect him to defeat the latter to-day and win the race for the second year in succession.

Hallick may score a double by the aid of Roseville in the Visitors' Plate. He beat Roi de Cœur so easily at Newbury that a pull of 3lb. will not avail the Belgian anything.

THE CITY AND SUBURBAN.

The next first-class handicap will be the City and Suburban at Epsom a week to-morrow, and as no fewer than seventeen of those left in have been seen in public this season it is possible to discuss the problem with more than usual certainty.

Of the horses which ran in the Newbury Cup, Blue Stone, Cigar, Ambassador, Disdumenos, Lie-a-Bed, Happy Warrior, Draughtsman, and Woodwild are engaged at Epsom.

The weights are practically the same as the horses carried last Saturday, and it is, therefore, a very close problem between Woodwild, Diadumenos, and Blue Stone, who were respectively third, fourth and fifth at Newbury, and very close together.

It is thus trick and tie between them, and the luck of the race might be the deciding factor. The trio will all have benefited by Saturday's race, and should look after those which finished behind them.

them.

Polycrates looks to have a chance on his third in
the Lincolnshire Handicap, but I believe he is more
likely to wait for the Victoria Cup at Hurst Park.

MAIDEN ERLECH'S FUTURE.

Had all gone well with him I should have stood Maiden Eriegh to win again, but he has met with an accident and is not likely to be again seen on the

His trainer also has Honeywood in the race, but we may have to wait a little longer before finding the Cambridgeshire winner at his best. Of the newcomers Florist and Sir Eager are likely

BELGIANS ESCAPE FROM GERMANY

COPENHAGEN, Monday.

Three Belgian non-commissioned officers arrived at Esbjerg yesterday by train from the Danish-German frontier, having succeeded in escaping from the prisoners' camp at Husum, Schleswig, where they had been confined since the fall of

Antwerp.

The Belgian Consul at Eabjerg found accommodation for them at the Sailors' Home, and within a few days will send them home via England, or by direct ship to France.—Central News,

HINDENBURG DOES NOT BELIEVE IN KITCHENER'S ARMY.

Germany's Man Of Action Plays The Part Of Job's Comforter.

BERLIN, Monday.

The well-known Italian correspondent, Cabasino Renda, publishes an interview with Von Hindenburg, saying that Von Hindenburg does not believe in Kitchener's million soldiers.

Even if there were a million they would form no

Even if there were a million they would form no real army, but a uniformed crowd. Officers and non-commissioned officers are lacking, while Germany has educated hers through many generations.

The Russian artillery is shooting well, but wasting ammunition. Their infantry is good, but their cavalry is poor. The Russian soldier is a good fighter, but his bravery is a consequence of his blind obedience, and not, like the German soldier, of his intelligence and moral.

The Field-Marshal closed the interview with

Brisk Bidding At The Art Sale In Aid Of The Red Cross,

Within five minutes of the opening of the art sale in aid of the Red Cross Society and the St. John Ambulance Fund at Christie's yesterday the auctioneer had given a patriotic speech and sold number one of a catalogue of over 1,800 lots for

The auctioneer said, while all could not go to France and tend the sick and wounded, they could do their share by supporting the sale, and he asked the audience not to think so much of the buying and selling value of the lots, but to be governed by the idea of how much they could help the Red Cross

This sentiment was warmly applauded, and the bidders acted up to it. The first hour of the sale realised over a thousand guineas.

An ancient sporting rifle, the gift of the King, fetched 350 guineas. It was dated 1646, and was made for Frederick William, Duke of Saxony.

Three Sevres vases and two covers, presented by Sir George Donaldson, were knocked down for 350 guineas.

A Spode writing set, presented by Lady Wernher. was sold for 200 guineas.

BEER TICKETS FOR WORKERS?

No Prohibition, But Dearer Whisky And Shorter Hours.

Public interest in the reassembling of Parliament to morrow is chiefly centred in the Government's proposals for dealing with the new drink problem. The Cabinet meet to-day to come to a final decision on the policy which they will ask the House of Commons to follow.

The Daily Sketch understands that there will be no prohibition, not even in those areas which are responsible for all the trouble. Neither will spirits be hanned.

responsible for all the trouble. Neither will spirits be banned.

The Cabinet will probably decide to make whisky dearer. Whatever increased duty is put on it will not, the Dally Sketch has reason to believe, be a flat rate, but will be heaviest on immature spirits.

The object in view is to prevent the working man in certain parts of the country drinking deleterious "fire-water."

Gin and rum, also, are not likely to escape the increased duty. Now that beer is relatively expensive the consumption of these cheap spirits has risen enormously.

Coupled with semi-prohibitive duties a further reduction of hours is to be expected. Eleven o'clock to nine is the period favoured.

A card or permit system for areas where the evil is worst has been under consideration.

Meanwhile the householder is laying in stocks; so much so that there is already a whisky famine in the retail shops.

WOMEN AS CAMP CATERERS.

War-Time Work That Will Release Men For The Firing-Line.

To-day a deputation of women will tell Mr. Runci-man, President of the Board of Trade, just how women can help the nation in war time. Most of the suffrage societies will be represented. Miss Nina Boyle, of the Women's Freedom League, will suggest that:—

Women teachers of domestic science, trained by the Government, could eater for the camps. Women clerks could deal with women's allow-ances, which at present occupy the time of 600 men clerks at the War Office. Women could give riding instruction to officers, and also do some stable work.

READY FOR THE "VICTORY."

The Matin states that when war was declared a number of German brewers, financed by the German Treasury, went to Venice and other places in Italy, and established themselves there. They took with them an enormous number of paper balloons, bearing on them the portrait of the Kaiser. These were intended for a Venetian Ulumination in the event of a great German visit.

BELGIAN'S MILITARY FUNERAL.

And Sound The Last Post.

A Belgian soldier named Chrysol Liere, who was brought to England wounded, and died in Bromp-ton Mospital, was given a military funeral at Kensal Green Catholic Cemetery yesterday.

The coffin, covered by the Belgian colours edged with black and white, was carried on a gun-carriage. A bearer party and a firing party was provided by the 1st Battalion 10th County of London Regiment. Canon Fieming, of Moorfields, and Father Inglebeen, a Belgian priest, conducted the funeral.

Prayers were recited over the open grave, three volleys were fried, and the Last Post was sounded. Among those present were Mr. Handel Booth, M.P., Mr. Jeremiah MacVeagh, M.P., and several wounded Belgian soldiers.

Over the grave the Wounded Allies' Relief Committee has erected a wooden cross bearing the inscription in French:—

DRINK HABIT OVERCOME IN ONLY THREE DAYS.

Remarkable Success of New Method.

Edward Woods, who was a heavy spirit drinker for many years, was completely cured in 72 hours by a method which has since been successfully employed in thousands of cases.

Leading medical authorities state that with elimination of desire for alcohol many other ills are naturally cured, also there is wonderful improvement in mental and physical working ability. Life is prolonged five to fifty years. The person detests anything alcoholic, preferring water, tea, and other non-alcoholic drinks, and the result is lasting. If the person is willing he can be saved in 72 hours by the clock, safely and easily. If the drinker is so far addicted that he cannot decide to give up the drink you can procure the secret method. Full proof of successes sent to every applicant, together with photographs and autograph letters from grateful clients. So enthusiastic is Mr. Woods, whose address is 10, Norfolk-street (302 A.M.), London, W.C., that he has published a book giving details of hie own case and describing the method. This he will send free, post paid, at his own cost, to anyone who writes in response to this advertisement.—Advt.

CANADIAN PACIFICS RISE.

British Soldiers Fire Volleys Over Grave Reduction Of Nearly £5,000,000 In Traffic Receipts,

There was a further improvement in American Railway securities yesterday, but business was quiet, and the parity of Wall Street was not reached. A feature was a further rise to 1744 in Canadian Pacific shares, which brings them to practically the "making-up" price of end-July, allowing for accrued dividend. The company, meantime, continues to report heavy traffic decreases, and for the financial year to date there is a reduction of £4.840,000 as compared with the same period of 1913-14.

Grand Trunk stocks were also better, and the stocks of the Mexican Railway Company had a

stocks of the Mexican Railway Company had a sharp rise.

The declaration of the usual dividend was followed by a little selling of Brazilian Traction shares, which fell back to 53. Associated Cements were harder, and Armstrongs improved to 40s. 6d. J. Lyons further advanced to 5 11-16.

Rubbers moved irregularly, but were generally firm. A promising share is Seafield, the final dividend of which, just announced, makes a total distribution for the year of 45 per cent. This should easily be repeated for the current year.

Among Kaffirs Rand Mines were hid for at 4%, and Gedulds were firm at 28s. 6d. Springs closed buyers at 23s. 9d. Premier Diamonds improved to 5%, while De Beers fell back to 12.

"Dear Madam, Having seen in your 'Mrs. Gossip' about a French soldier's wife and baby whose husband was killed at Mons, and who is asking for help, I am willing to offer them a home until she is able to find a situation, and, being near Nottingham, she will very likely find the situation she requires. I am a soldier's wife myself, and my husband is a prisoner in Germany. I am newly married, and since my husband went to the front I became a mother of a son, and unfortunately I have lost him. I have everything a baby requires if the lady would care to accept the home I offer her. I would do my best to make her and the baby happy and comfortable. I can feel for her, as I myself might have been left in the same predicament."

"Bien, m'sien," the waiter said submissively, yawning behind his hand, and preparing to back out of the room. "Good night, m'sieu."

"Oh, get out," said Richard angrily.

He undressed, and fell asleep almost at once. When he was dressing in the morning his annoyance returned. He would complain. He would let the management hear a thing or two.

As he walked past Lady Pat's rooms a memory of the evening before came to him. He hesitated, then tapped on the door.

"That you, Dickie?" came the answer. "Down already! Wonderful person! I won't be long. Wait about in the hall. I've had my coffee, of course."

"I haven't," said Richard, "and I'm starving.

he walked straight to the manager's office. No one was there.

"Oh, dash!" Richard muttered, and went across to the clerk in charge.

"Look here, I've a complaint to make. Last night when I was out my room was entered. I'm certain of what I say, because the counterpane on the bed was ruffled and the pillow dented and quite warm. Really, you know—"

"One moment, sir," the pale, suave clerk said, as he flicked over the pages of a register. "Your room is 51, isn't it?"

"Yes," Richard said, "hurry up, please, I'm on my way to breakfast."

"Quite so, quite so, sir. Ah! Here is the entry. I thought so. The fact is, Mr. Chard," said the clerk as he coughed and seemed to hide a faint smile in his snowy handkerchief, "the fact is a lady arrived last night, quite late, about a quarter to twelve, I should say, and asked for you."

"A lady?" Richard stammered, his face flushing.

"But I—"

"The lady registered as Mrs. Chard," the clerk

"Where is My Wife?"

The clerk twisted the register round, and he saw Evie's writing.

"But where—?" Richard began confusedly.

"The lady asked for your room and was shown up into it, Mr. Chard. That explains the—erdisarrangement of the room, I fancy."

"But, where is my wife then?" Richard said, looking into the clerk's face, which now wore a faint but obvious smile.

"I tell you she must have taken a room for hersell," Richard went on violently. "Look it up, can't you, and find out where she is."

"There is only one signature in the name of Chard, and that is for room 51," said the clerk as the smile disappeared from his face. "The hotel can't be responsible for finding your wife, Mr. Chard. That is surely your business. I'm sorry, but I have to interview the chief now. Good morning."

Richard watched him go. Then, very slowly, he went towards the stairs again.

Hyou want to gain 15 or 20 lb. of good healthy flesh in as many days without any trouble or annoyance, get about 2s. 9d. worth of ordinary Sar gol tablets from your chemist, and chew one up with every meal. You will simply be astonished to with every meal. You will start to fatten up. Don't waste any more time or money on Patent Flesh Foods, or in following some foolish diet system. Sargol, by its regenerative power, enables the stomach to literally soak up the fattening elements of your food, and pass them into the blood, where they are carried to every starved broken-down cell and tissue of your body.

Richard Learns The Truth.

Richard stood staring at his pillow, and noticed he imprint of a form on the counterpane.

There must be a note, a message in his room, which he had overlooked. And yet—Evie in Paris, Evie here. It was impossible. He went into his room, believing that someone had adopted his name. On the threshold of his room he stopped, confronted by his trunks. No one but Evie could have brought them to Paris.

Will There Be A Scandal?

He opened them and looked eagerly for a "Someone has been in my room," Richard said peremptorily. "I did not lock the door, but that she now! She must be in the hotel. That thought is no excuse for allowing an engaged bedroom to be to abandon the frip. Then very suddenly Richard

"Oh, curse it all," he said. "Everything seems rotten."

He dashed down to the manager's office. Someone must have seen Evie leave, if she had left;

one must have seen Evie leave, if she had left; someone might know where she was.

The manager listened to him in silence. He had received Mrs. Chard, it geemed, and his description of her left no doubt in Richard's mind that Evie had really come. The night porter was sent for, and gave a clear account of Evie's arrival.

"Thanks, you may go," the manager said,
The man made an awkward little bow and backed to the door. Then he stopped abruptly.

"Monsieur knows, of course," he said, addressing the manager, "that madame left here this morning, about one, or perhaps half-past. Yes, madame appeared then at the door, and without a word, walked out, carrying a valise. She would not have a cab. She did not answer when I asked her, but simply walked away. I was surprised, disturbed, but what could I do? One may not stop a lady if she wishes to go."

The manager's keen eyes were fixed on Richard's face.

"There—there you mean—" Richard stammered.

The manager's keen eyes were fixed on Richard's face.

"Then—then, you mean—" Richard stammered, "that she—that my wife went out alone into the streets in the middle of the night?"

"Madame went doubtless to some other hotel," the manager suggested soothingly.

There was going to be a scandal, the manager felt, and it must be hushed up at any cost. He would do everything in his power to help this wild-eyed voung man, although be himself had been greatly to blame. Why should a wife come to a hotel to see her husband, and then, without seeing him, dash off into the night?

"At what hour did Monsieur return yesterday evening?" he asked.

"What does it matter?" said Richard. "Oh, well, one or half-past, I suppose."

"In fact, about the time that Madame apparently left the hotel."

Richard stared at him.

"Well, what of it? That doesn't help us much."

"We will see. What did you do on your return, Monsieur?"

SILENT MESSAGES.

"There is no name on it, so cannot find the owner. It doesn't belong to the Oxfords," writes the sender.

On the back of this photograph is the name of Pte. N. Hutchinson, K.O.Y.L.I.

This photograph was found on the body of a sergeant of the Wiltshires.

More pictures picked up on the Neuve Chapelle battlefield.

CRIPPLES OF PEACE AND WAR WORK SIDE BY SIDE.

In one of the bright and airy wards.

The little cripples teach the wounded soldiers in the workshops.

Working side by side in the garden.

The Heritage School of Arts and Crafts for crippled children at Chailey, Sussex, may solve the problem of the broken soldiers' future. Here alongside of the little inmates our wounded soldiers are being taught trades at which they may find employment later on. No more match-selling in our streets for those who have "done their bit" for their country.—(Daily Sketch Photos.)

THE RED INDIAN'S CUNNING IS OUTCLASSED BY THE SOLDIER OF TO-DAY.

A machine gun on the banks of a river in France, concealed from the enemy. War proves every day the truth of the old adage that necessity is the mother of invention. Primitive and scanty as are the means at Tommy's disposal, he turns them to account with a fertility of invention which would make Fenimore Cooper's Red Indian wonder.—(Daily Sketch War Service.)
