"How Dare You Touch Our Zeppelins!" Says Germany.

THE NEW WAR ON GERMANY'S VAUDED ZEPPELINS.

Miss Pilkington, who warned Miss Moffat, a barmaid at the Bull and George, and enabled her to escape in time; and the children of Mrs. Bennett, who had a marvellous escape.

This damage at the Bull and George Hotel. Germany will say it was "a jest." A Zeppelin "victory."

The childlike faith of the German people in the vaunted invulnerability of their Zeppelins will be rudely shaken by the adventures of the airship that raided the coast of Kent. Immediately after the attack on Ramsgate the Zeppelin was chased by Eastchurch and Westgate airmen and attacked off Navepoint by eight naval machines from Dunkirk.

Flight-Commander Bigsworth dropped four bombs on the airship, which was last seen with its tail down in a trail of smoke.

PEERS' HEIRS KILLED IN ACTION.

Many Officers' Names In Latest Casualty Lists.

In the latest casualty lists, which are very scanty, the names of officers are numerous. News has been received at Trenchard's Head Quarters, that Captain H.H. Colwyn Ernests Arnold Philip, elder son and heir of Lord St. Davides, has been killed in action. Captain Colwyn Philip has been at the front with the Royal Horse Guards since the autumn, and was recently transferred to the Scots Guards. He was born in 1898.

In the list of killed appears the name of Second Lieutenant B.A. Hardinge, M.A., of the 4th Hussars, 2nd Cavalry Brigade, has been killed in action.

Turkish Orders Broken By Thin Khaki Line In Gallipoli.

OUR NAVAL CHIEF-KITCHENS.

Desperate Fighting Yard By Yard And Trench By Trench.

By Our Special Correspondent, E. ASHMEAD-BARTLETT.

The first stage of the great battle for the possession of the heights of Achi Baba across the toe of the Gallipoli Peninsula has come to a close; and although the British Army is not yet in occupation of that commanding position, the enemy has been forced to disclose his strength and the character of his defence, and we are now nearer a full measure of the task which lies ahead.

Achi Baba, the first of the commanding positions on which the Turkish-German forces can be attacked, is on the southern shore of the Narrows, and its capture, if at all possible, even if not more so, beyond its defence, and the enemy undoubtedly loses heart and decides to give in—a contiguity on which we have but little right to speculate—all these positions must be taken, hill by hill, valley by valley, and trench by trench, before the Army can open the gate to the Peninsula and enable it to pass to Constantinople.

NO HASTY VICTORY.

It is only just that all false illusions as to the task before us should be cleared away once and for all.

If we have got to dig our way by yard and yard: and if we must dig and dig, how many men can you afford to capture each trench and each kilometre of the front.

Victory can only be gained, as in France, through the steady and continuous supply of ammunition.

That both the Turks and Germans have received a staggering blow we know, for they were compelled that the Gallipoli Peninsula was impregnable, and that no enemy could make large efforts to the breach.

ATTACKING THE FRENCH.

Since the sustained Turkish attack to drive us from the hill on April 28 and 29 the 26th Turkish efforts against our trenches have been more energetic, and efforts have been directed against the French, who occupy the entire coastal side of the entrance—were taken from the salient where and from the right of the Girgenti line. On the night of the 29th the Turkish attacked in thick fog, with light rifles, and were finally routed in a force and well-directed rifle fire and a rapid volley of the bayonet.

On the following Saturday the Turkish attack against this part of the line, which was the weakest point in the position of the French trenches actually pushed them back to ground held.

The prisoners who were taken, including 41 Turks, were from Adrianople and were captured in masses by the British, who moved en masse through the valley to the sea at the point of the Turkish lines.

GREAT COUNTER-STROKE.

But it is not the policy of the allied commandors to sit still and allow the Turks to advance against our entrenched positions, while they were (Continued on Page 3.)

ZEPPELIN FIRED ON

BY DOVER BATTERIES.

Pursued By British Aircraft After Bomb-Dropping On Ramsgate.

CAUGHT BETWEEN 2 FIRES.

Last Seen With Her Tail Down

Off Coast Of Belgium.

From the Admiralty.

Monday Afternoon.

The Zeppelin that attacked Ramsgate early this morning was chased off by Eastchurch and Westgate machines as far as the West Hinder lightship [in the North Sea, midway between Harwich and the mouth of the Scheidt].

When bombed, three machines attacked by British aircraft, at least 11,000 feet, and was, in fact, to be severely damaged.

All our machine guns were trained on a heavy fire from the Zeppelin. No casualties.

50 BOMBS ON RAMSGATE.

Three People Injured In Hotel And A Sentry's Hurt.

The Zeppelin referred to in the Admiralty statement made a raid on Ramsgate about 2 o'clock yesterday afternoon.

Damage was done to property, and a few people were injured; but the raid did nothing like the anticipated damage.

The people injured were—

Mr. and Mrs. Smith, Miss Moffett.

A soldier on Sentry duty—

while the house in which they were staying—the Bull and George Hotel—was damaged most of any building in the town.

As far as can be ascertained only one Zeppelin was seen over Ramsgate, but a significant story was told by a Deal pilot, who said that when he was flying over the head of Deal he saw a large column of smoke.

Two were Zeppelin saws off Dover. They were apparently leaving for the harbour, but their course changed their minds and turned round and went, having fired on the anti-aircraft batteries.

A Zeppelin also rocked Calais during the night and dropped bombs on various parts of the town.

Some children were killed and a woman was injured.

CRASHED THROUGH THE ROOF.

Sentry Fired At Airship, Which At Once Dropped A Bomb.

The time of the raid was, as far as can be ascertained, the latter part of the morning. The presence of the Zeppelin in the vicinity had been anticipated previously by Mr. J. Gilroy, Deal, and Margate.

Mr. and Mrs. Smith were sleeping on the second floor of the hotel.

A bomb crashed through the roof and caused a general crash through all the floors into the sitting. Mr. and Mrs. Smith were precipitated through the window, which crashed, and were found from the debris. Mr. Smith was somewhat seriously injured, and with burns went to hospital.

Miss Moffett, who is a hairdresser, another employee, was getting out of bed just as the bomb came through the roof, but she was only slightly injured. The 

The report of Mrs. Smith was later, that her daughter, Miss D. Moffett, a patient in the hospital, was killed in the bombing.

SAVED BY CHILDREN'S PLAYTHINGS.

A special messenger of the Tasr is on his way to Italy with an autographic letter to the King.

There are some of the incidents which have followed the Cabinet circular last week, and have been almost certainly the prelude to the entry of Italy into the war on the side of Great Britain, France, and Russia.

(Signor Giolitti, leader of the "Neutralists," was shot about a laboratory in his home last week by threatening to use his Parliamentary majority to prevent the war. The result was an immediate general strike which was generally attributed to Italy in a German newspaper. The result was a violent demonstration, the recall of Signor Salandra. It is believed that it is in the hope of winning the final defeat of German aims in Italy."

Sir Edgar Speyer has sent this letter to Mr. Asquith.

Dear Mr. Asquith,—Nothing is harder to bear than a sense of injustice that finds no vent in expression. For the last nine months I have kept a locked heart and treated with disdain the charges of disloyalty and suggestions of treachery made in the Press and elsewhere.

I can keep silence now, for the new charges and suggestions have now been repeated by the public men who have not erred to use their position to inflame the overstrained feelings of the people."

After the Cartor, the Bath.

I mean that the names of enemy members are being furnished in connection with the membership of the Kaiser and other enemies of the Order of the Garter, the knowledge I have been paid for a couple of days ago, that London was cheering her on her wedding day, when she looked the most charming of girls, and the typical English maiden. She is handsome, young, and has just described her struggle with the Roman Catholic influence as a "Holy War." It is an unfair fighting war.

Princess Arthur's Birthday.

THE DANGER OF INDECISION.

In the candid Review for May there is a most interesting article on "Indecision." That trenchant critic Mr. Thomas Gibson Bowles conducts the review, and there is strong reason to believe that he is the writer of the article. He points out that the main defect in the approach to military preparedness is that, if the Government were unprepared for war, so will be prepared for peace. As a proof of his assertion he describes the indecision with which the Government acted during the last fatal days of July when Britain was making up her mind whether or not to go to war. Mr. Gibson Bowles criticises Sir Edward Grey, and accuses him of wobbling, but he thinks he fails to grasp the problem which was really generated. Two weeks have been levelled against the Government, but Mr. Gibson Bowles weans his case by confusing them. The first and most serious charge of indecision was the second is indecision. There is no difference in the world between the indecision of the prepared man and the indecision of the man who is unprepared for war. And the excuses of war, and the hesitation and the waiting time had to come to strike. Any writer who holds that this period was averted for all ends, the Government was determined to have war.

The real indecision of Britain was of earlier origin. For years there had been signs not of indecision, but of our leaders hesitated to prepare for war, they lacked foresight as well as imagination. That was the philosopher Lord Haldane was whittling down the Army on the splendid idea that Great Britain, as a little Navy, were planning for naval economy, German spies and agents were developing their plans, spreading their agents.

It's a well-known fact that the Germans are blackheads, conceited maniacs. If we had acted on every warning, if we had formed a great Army and a still more prosperous Navy, the whole story might have been different. At any rate, the German spies and agents were developing their plans, spreading their agents.

This latest strike of London tramwaymen is a small affair, but it shows our unpreparedness and indecision so serious that we should not waste national energy by internal dissensions. Therefore measures should be taken to arrest them. We now have to look at our compulsory arbitration, which would be immediately applied to labour disputes affecting the public interest. A true arbitration would bring the L.C.C. and the tramwaymen to their senses a few hours after the outbreak of trouble. The deplorable unpreparedness, indecision and incoherence of the Government did not act until the rioters forced their hands. Treadwell's and all matters compared with the big problems which confront us as a nation. The future of the British Empire is bound up with the maintenance of our law and order. Our future security depends on our action with regard to Germany and our Allies, and after the war.

WHAT WOMEN ARE DOING:

H. M. THE QUEEN, looking very handsome in a ruby choker, tailor-made costume, bright red shoes, and a new plumed hat with a wide brim, was today at the annual exhibition of the Royal Amateur Art Society, which was held at Monmouth House, London. The Queen was accompanied by Princess Mary, who looked very graceful in a pink brocade, tailor-made coat, and a hat of the same material, trimmed with a gold and black hat band and a string of pearls.

The Queen's Many Purchases. The proceeds of the exhibition are to be distributed among various charities, and the Queen made many purchases. She bought two tea caddies from the Hon. Sybil Legh, who is arranging the loan collection, which consists of old tea caddies, Napoleonic portraits, and other items. She also bought a toilet set, a glass, and a book-rest.

WEEDS SHOULD KNOW WHAT TO DO.

In the past this week has been devoted to Bath and Derby in the south and north respectively. The weather has been hot and extremely sunny, and it is possible that the matter is best left in the hands of the beauty clubs. The same can be said of the Newmarket, Ascot and Reves. In the case of the Randwick the executive pointed out that to continue their meeting to one day would in no wise affect the situation in the Snows in the case of the manufactures of armaments, as White Monday would be a general holiday in the district and the feature for a pretty local race.

The War will be taken for granted that nothing will be done in the racing world which will in any way prejudice the progress of the war, but suppose I had to say that this is the point, and the only thing that matters is that racing should be stopped as soon as possible.

Quite so, but let us get down to facts. Why should gambling be an evil? There must be other moral reasons. The gambling house will assure the race of a more direct and definite result. Here is a stoppage to be compared. But no one is likely .

THEY ARE NOT THE BLACK SHEEP.

As a rule I find that racing men are run down as a pack of poodles at the black sheep of the country by the Puritan, but it seems that they must be well sharpened or they would not maintain the place in the hall.

In the way the Stock Exchange and the racecourse are not the only post of sale, but of one, and on the other would mean that an enormous sum of money is at the beginning of the way.

If Lloyd George were a financier instead of a legislator, and not Lord Reading, the Exchange would not make him a financier any more than general manager to a railway company, but suppose I had to say that this was the case, the race of the country.

The money was being used to the thoroughbred industry. And so many hands at the beginning of the war.

Doubts Whether Legislation Will Be Necessary.

Sir C. Henry was told by Mr. Asquith yesterday that the suppression of printing during the war was reverting the attention of the Government to that subject. The following legislation would be necessary.

preparing for the great counter-stroke, the first stage of which has just been ended.

The care of the responsibility for handling troops and keeping up the supplies of food and ammunition in the hands of the Navy, and also the responsibility of protecting the flank of the combined arms and in keeping down the enemy's fires.

All troops, animals, guns, wagons, stores, ammunition, and a thousand other things have to be taken from the hundred transports lying off the straits. These arrive daily and leave empty for a fresh course. Whole days are spent in and night and day. They are conveyed in travels or lighters to two narrow beaches, neither of which is more than 100 yards wide.

Piers have been built out into deep water by our destroyers, providing them with the largest and best equipment for conveying the troops.

This has been cut off along the cliffs to increase the area of disembarkation. Systems of lighting have been extended to enable the work to be gone on

BUDDING KITCHENERS.

You are standing on one of the piers in the sweltering heat, with the beefs behind crouched with the heat and shams of Kitchener, with a megaphone in his hand, shoveling food to a dozen different soldiers, each served by a steaming pan鸸.

One occasion makes another, guns, a third, a biscuit, a fourth tinned meat, a fifth ammunition, a snatch of song to carry up to the sound of the salute.

Every one is directed as to its destination as by an army of wind and no one can be in shade until he has received his orders.

At the end of the pier the Naval authority arrives, and the last Food is passed.

Andor's Warning.

"But this is nonsense, Laszlo, for you are a man of spirit. I think of no woman who is going to be my wife. Not one of you who is my friend, nor even of the elite, would make a wife for me. And I'm not going to force upon myself a wife if I can help it. If you let me, I shall let you set up with mine, least of all the woman who is going to be my wife. And you will not make me your wife. If you do, you are my enemy, for I shall DFS with you and will keep you as far as the moon from our home."

"Such a remark, Bela," interposed Andor quietly. Bela threw him a dark and sullen look, and said, 'You will only be able to be so if you are alone. And then I shall look upon you as a pirate."

"What is it to you?" he muttered savagely.

"Only this, my darlings," replied Andor, who was intently watching the three girls. "The three of you are the most beautiful, the most passionate, and the most beloved of three, and you are not the same. There is no harmony among you. You have no feelings. You are only the shadow of the girl who is the same as the girl, and the girl who is the same as the girl, just because there is no love between you."

"Goodbye, sore feet, burning feet, swollen feet, peering eyes, tired feet."

"New TIZ does have sore feet."

makes the cures that it does, it is simply acting by the Law of Nature.

Nature will always accept itself. It is useless compelling a wound until it is thoroughly cleansed; it will heal out again more healthfully than before.

BURGESS' LION OINTMENT

is not that it will heal but that it thoroughly cleanses the wound and makes it more healthy. It does not heal in a day like Burgess' Lion Ointment, as it is called, but it does heal in a day when it has been applied. It heals without pain. Burgess' Lion Ointment is the result of years of study.

Mr. Hamish Mackay, Mrs. Mackay's one companion, noted Scottish singer, comforts her little son.

Mother-love. The baby was fastened both to the noted Scottish singer and to the lifebelt she wore.

"Anyone who saw or spoke to my husband in the last terrible hours is requested to communicate with me," is the appeal of Mrs. Hamish Mackay, widow of the well-known Scottish vocalist (who was lost in the Lusitania), from her home at 39, Dick-place, Edinburgh. We publish the two photographs of the victims picked up at sea in the hope they will be identified and not go down to an unnamed grave.

"Stars and Stripes Cover Lusitania Victim."

The Stars and Stripes draped the coffin of Mr. P. L. Jones, who was buried in London yesterday. Mr. Jones, a member of the London staff of the <i>New York American</i>, was drowned in the Lusitania outrage. Inset, Mr. and Mrs. Jones.
