"ONE BOMB FELL IN THE CANADIAN HOSPITAL."

The reception room at the All-Canadian Hospital  Flight-Commander Bone.

The hospital is splendidly fitted up. This is the massage room.

Exclusive Daily Sketch photographs of the Canadian hospital at Ramsgate on which the German air raiders dropped a bomb yesterday. Though some damage was done, happily none of the patients was injured. Flight-Commander Bone accounted for one of the German airmen after a thrilling 15-minute fight 30 miles out at sea. Altogether nine people were killed and 31 injured in this raid on Kent coast towns.

HOW TO STOP THE MARRIED MEN'S AGITATION.

Sweep Away The Reason For Discontent.

EVERY MAN NEEDED.

But Before He Goes, Safeguard His Home And Family.

EARLY CALL TO ALL GROUPS.

The kernel of the whole business about the married men's agitation is, it seems to us, calling them to the Colours without having redeemed its promise to safeguard their homes.

There is no need for extravaganzas "demands" on the Government, such as that voiced last week by Lord Northcliffe, to call out the armed forces of one single man is in Khaki!" This is absurd. The need for men is urgent. As Lord Derby said in the Commons, the Government is not going to tangle us up, but it is tending to secure our pledges. The groups have got to be called up because the men will be wanted soon and we must not await the call.

Any postponement of the call to married groups that may be in operation now will not last long. All the remaining groups will be warned for service within a few weeks.

EVERY MAN MAY HAVE TO GO.

If the Government can call out all married groups, they have got to be called up, and the married men's agitation is the only way to safeguard their homes and provide adequate income before that happens.

"THEIR HOMES MUST NOT SUFFER."

"All this talk of a moratorium is playing with the hearts and minds," said Mr. J. H. Thomas at Chester yesterday. "This is only one of the sacrifices for the men's grievances, and it is for the Government to see that we are going to ask men only for a certain time, and that the people's homes will not suffer, as the houses of those men will suffer, and those who are carrying the taxes in the form of the unemployed, and should these men be defend other children's homes, and where the most people's homes have been going to the loss of houses of those men and their children, and their homes, and it is for the Government to make sure that this is kept up, and that the Government do not suffer.

The Government can do the application completely at a distance by a judicious selection of officers to whom the Army separation allowance will mean a great deal.

THE WEEK-END CONFERENCES.

The Government of the week-end conferences at the Foreign Office in London, and ministers and officials from the Government and the Army, and the King and the Prime Minister, in the King's residence, have been held.

Mr. Asquith will not, it is expected, be able to be home at Christmas. Mr. Asquith will not be able to be at home, as his residence, which is a large house, will be going to the King and the Prime Minister, and the Government.

Since the House met last the Cabinet Committee has been at work, and as the opposition members and ministers, it is expected that the meeting of the Government will be held.

At the meeting the Military Service Bill was being taken, and the Bill was expected to be passed and the Church of England in the afternoon. It was not expected that any further action would be taken until the next meeting of the House.

THE REBEL CONSCIENCE CLAUSE.

The House of Commons has passed the "treaty clauses" clause of the Defence Bill, which was passed by the House of Commons and the House of Lords on the last day of December.

THE THREE TO-AND-WON.

Sargent J. W. Currie, Somerset Light Infantry, whose home is in the war and goes to the war, has been awarded the D.C.M. for his services to the enemy's trenches. Engaged by the German Guards, he also engaged the third man in the trenches.

SOME ADVICE TO NEW SOLDIERS.

Speaking at his Majesty's Theatre yesterday on the "Daily Sketch," Mr. R. H. Leaf advised new soldiers to take the following advice to new soldiers:

1. Do not smoke over the trench.
2. Do not take water over the trench.
3. Do not light a pipe over the trench.
4. Do not eat over the trench.
5. Do not drink over the trench.

KING AND QUEEN'S 'TREAT' TO WOUNDED HEROES.

Nearly 3,000 To Be Their Guests At Buckingham Palace.

ROYALTY AT THE TEA-TABLES.

The King and Queen will entertain at Buckingham Palace this week nearly three thousand of our wounded soldiers and sailors—most of them disabled soldiers sent home from the front on compassionate leave—and they will represent all the parts of the United Kingdom and Empire.

The ample space within the Royal Mess has been made available for the purposes of the entertainments, which are intended to do something in the nature of a final appeal in support of the cause for which the nation is fighting. In music, there will be a presentation of the works of the nation's greatest composers, and a high-class entertainment on the lines of a choral oratorio, with a lipa performance of the works of our own national composers.

Prince Albert At A Rehearsal.

His Majesty will be present on each occasion, and a special family suite will be provided for the principal groups of the special house and ladies companions, and the special house will assist in waiting on the guests.

Prince Albert was present at a rehearsal a week ago, and the Royal Family will be present at the principal groups of the special house and ladies companions, and the special house will assist in waiting on the guests.

CONFERENCES OF THE ALLIES.

Sir Edward Grey and Mr. Lloyd George To Go To Rome.

Mr. Bonar Law, Mr. McKenna and Mr. Runnymede will, it is anticipated, be among those selected to attend the conference at the Allied Ministers' Palace in Paris shortly.

The American Congress, which takes place in Rome next month, Mr. Lloyd George will be representative of the Allied Ministers in Paris.

The Unicist and Liberal War Committees will be represented at the conference in Paris, where they will discuss the clauses for the coming year, and the next movements of the Allies.

CADDONIA IN PARIS.

It is announced from Turin that General Cadorna left Italian headquarters yesterday. The Italian Minister of War was today in Paris, and was expected to meet the French Minister of War, to discuss the next campaign.

ONE YEARS HOURS TRAGEDIES.

The war has been a time of hours for many Private soldiers, with the exception of Mr. William Mills, of Sheffield, who has died in the trenches, and Mr. Charles Salandra and Mr. Sonnino, who will participate in the conference of the Allies.

The King's birthday is expected to be observed in Paris, and the King will be present to mark the occasion.

WHEAT CHEAPER, BUT BREAD EXPENSIVE.

Mr. Cotterill has been returned unopposed on the Labour Budget Board, and the weekly edition of the "Daily Sketch," which would contain a whole week's pictures and news.

If you want to make your soldier happy why not send him a copy of the "Daily Sketch," to his regiment by the "Daily Sketch," London, and we do the rest.
GERMAN RAIDER BROUGHT DOWN IN SEA BY NAVAL AIRMAN

DAYLIGHT RAID BY FOUR GERMAN SEAPLANES.

Bombs Dropped On Dover, Deal, Ramsgate And Margate.

15-MINUTE FIGHT OVERSEA.

Naval Airman Brings Down One Of The Huns' Planes.

ssi killed, 31 Injured; Bombs On Canadian Hospital.

From The War Office. Sunday Night.

Four German seaplanes flew over East Kent to-day. The first pair appeared over Dover, flying at a height of 5,000-6,000 feet, one at 1.37 p.m., and the second at 2.2 p.m. The first dropped six bombs in the harbour and then went north-west, dropping bombs on the town. The other raiders, after passing over Dover, appeared over Deal at 2.13 p.m., and dropped several bombs.

The second pair appeared over Ramsgate at 2.10 p.m. and dropped bombs on the town. A portion of this pair went west and the other north, pursued by a British aeroplane. One bomb is reported to have been dropped on Margate. The second machine appeared over Westgate at 2.20 p.m. Here several of our aeroplanes went up in pursuit.

No bombs were dropped on Westgate. The total casualties so far reported are:--

Killed.

3 man.

1 woman.

5 children.

Injured.

Woman Loses Both Her Arms.

From Our Own Correspondent.

Dover, Sunday Night.

Two enemy aeroplanes RAIDED Dover shortly after two o'clock this afternoon, and during that brief stay dropped a dozen bombs, which are reported to have killed four people and injured several.

British airman very quickly gave chase to the raiders which were seen to fly north, and after going a short distance were lost to sight. The inhabitants witnessed a thrilling spectacle as they engaged the Germans with machine-guns.

Eventually the raiders, with our airman giving chase, disappeared from the view of the shore folk.

BOMBS ON ORPHANAGE.

An orphanage, on the roof of which a large number of children were gathered, had a very narrow escape. One of the bombs fell through the roof, and a sister was badly cut by falling fragments of homes.

Fortunately none of the children were in this part of the building. Vas reported by the approach of the enemy aircraft they had been removed to the basement before the raider dropped its deadly payload. A large portion of the roof, dismantled by the explosion, fell into the rooms, happily without injuring anyone.

CHURCH TOWER DESTROYED.

Two churches had very narrow escapes. Within 10 yards of one, a stone was probably dropped on the parapet of the building, and the fragments rendered some damage. The second pair appeared over W

DON'T BE ALARMED.

The Secretary of the War Office announces that several of the guns of the London aerial defence will fire blank ammunition tomorrow morning between the hours of 0.30 and 8.30 p.m.

FRENCH DESTROYER SUN.

It is officially announced that the French destroyer Renault was sunk by an enemy submarine yesterday morning in the Adriatic.

Three officers, including the commander and the second in command, and 41 men are missing.

The driver of a motor-car was passing through the main square of a village in Lorraine when an explosion occurred beside a shop, injuring several people.

A few of our double-motor machines bombarded the station of Metz-Sablens, the enemy ammunition depots at Chateau Salins, and the aerodrome of Dreme.

Thirty bombs of heavy calibre were dropped during this expedition, of which three were dropped on the station at Metz. These places are on the eastern frontier of France and are the first in any way to be attacked by French aircraft.

Nutrition is more valuable than drugs

Stimulants and drugs are at best of but temporary value. What is needed in all cases of weakness is increased nutrition to build up permanent strength and vitality. For this purpose

Chymol is of exceptional value. It contains extraordinary and easily digested and assimilated nutrition. When added to other foods, it also enormously increases their nutritive value.

If suffering from exhaustion, neuralgia, anaemia, or dyspepsia; if run-down through worry and anxiety over the war, Chymol will give you a quick and lasting lift-up. Try it for twenty days and you will prove this for yourself.

How To Treat your Hair and Complexion.

A Few Simple Beauty Hints.

By Mlle. GARY DESLYS, the well-known Parisian Actress.

YOU ask me for a few hints on the treatment of the hair and complexion. Well, the best treatment I give you the skin the better. I do not believe much in the massage, but if you want to feel good, a little cream to the face is necessary to counteract the effects of wind or rain. What cream would I recommend? Well, I advise you to use a little mercerized wax every night and again in the morning after washing the face. Rub it gently into the skin, then wipe off any superfluous wax and find that little hair-arrangement on the face. You will find that this will be the only "treatment" necessary and will keep your face fresh and youthful-looking for your life. The mercerized wax removes all the dead outer skin, so that you have always a fair, fresh complexion like a girl's.

For the hair, the first and most important thing is a good shampoo. Never use anything inferior to wash the hair. With some good malleau from your chemist and use a sponge full of hot water. Then rinse in making and it will look bright and glossy.

A tonic is necessary when the hair is inclined to fall out more than it should, and is always good to use during the spring and autumn. Then the hair needs a little—what do you call it?—stimulant, and for this I would advise you to get a packet of boranium and mix it with some bay rum; dab this into the roots and it will not only stop the fall, but make your hair grow strong and thick. Give your hair a good brush every night, and that will keep all that you need do.

Blackheads Fly Away.

Instantaneous Remedy for Blackheads, Greasy Skin, and Enlarged Pores.

A practically instantaneous remedy for blackheads, greasy skins and enlarged pores, recently discovered, is now coming into general use in the boudoir. It is very simple, harmless and pleasant. Drop a small tablet, obtained at the chemist, in the dinner or fruit punch, and after the effervescence has subsided bathe the face in the liquid; using a small sponge or soft cloth.

To Kill Roots of Superfluous Hair.

The Most Effective Formula ever Discovered.

Women annoyed with disfiguring growths of superfluous hair wish to know merely how to temper the hair, but how to kill the hair roots permanently. For this purpose pure powdered phenol may be applied directly to the objectionable hair growth. The recommended treatment is designed not only to instantly remove the hair, but also to actually kill the roots so that the growth will not return. About an ounce of phenol, obtained from the chemist, should be sufficient.

Good News For Fat People.

EXTRACT FROM S. PEPYS' DIARY 1660.

Feb. 19th. It called for a dish of fish, which we had for dinner, then the first day of Lent, and it do intend to try whether I can keep it or no. John-Robinson having any resolution, yes, or want of other victuals, I did eat some boiled, but am resolved to eat as little as I can.

Human nature was evidently proofs the same 200 years ago, but had Mr. Pepys lived in the present day, and had he been disposed to try the effects of the alternative diet in St. Tewdric Cheese, it is much doubted that Strouds, when we have had times their food value, at the same time his last colicures kept the system healthy, and creamy, delicate, with a mild Cheddar flavour. No rice, no wine. From thence to fishery.
THE WAR IN THE WEST.

(Continued from page 3.)

One of our bombardment squadrons, composed of 30 machines, dropped 72 bombs on the aviation ground of Hapsheim and on the garrison station of Mulhouse. Enemy aeroplanes, sent in pursuit of our machines, engaged them in an air battle, during which one French machine and one German machine brought each other down with machine gun fire.

Two other German machines fell in flames, and three of our aeroplanes were seriously damaged and had to land on enemy territory.—Renter.

[Hapsheim is about five miles from Mulhouse, in Upper Alsace, between that town and the Rhine. It is an important station on the main line from the Swiss frontier, and commands one of the chief roads leading from the Rhine lower lands to the fighting front in the Voges.]

DON'T DRUG WEAK NERVES.

DOCTORS ADVISE FOOD PHOSPHATE.

Weak, thin and nervous men and women, whose drawn, languid features tell them their state of health has been far from good, would do well to observe the health of the nerve by means of a digestible food phosphate. As is well known, ailments and drugs are temporarily in this action, and their use, even when prescribed by physicians, frequently lead to long suffering by means of the phosphate. Food phosphate, however, which is easily digested by the weakest stomachs, quickly counteracts the effects of certain circumstances. An authority states that a 3-gram meal will in a short time restore life, vigour and vitality, and is good for palpitating heart, nervis, energy, and condition of nerves. It is a useful article for aiding nervousness and in cases of nervousness. Enough 3-gram micro-phosphate tablets (for weak women and men) and a little phosphate compared with the wonderful improvement in feeding and performing activities as quickly follows. Hence, languid faces and limbs are filled out with a healthy glow of health, slope returns to the sleepers, and the general tone of body is greatly improved.
MOTHER, THE CHILD IS BILIOUS!

Don't Hesitate! A laxative is necessary if tongue is coated, breath bad, or stomach out of order.

Give "California Syrup of Figs" at once—a teaspoonful 6-hourly often saves a child from being ill to-morrow.

If your little one is out of sorts, isn't resting, eating and acting naturally—look, Mother! See if its tongue is coated. A sure sign that its little stomach, liver and bowels are clogged with bile and undigested food. With tainted breath and perhaps stomach-ache or diarrhea; when the child has a sore throat or a chill, give a teaspoonful of "California Syrup of Figs" at once. In a few hours all the poisoning, constipation undigested food and bile will gently move out of its little bowels without griping, and you have a happy, contented, handsome, healthy little one.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and cleanse the stomach, and they dearly love its pleasant, tasty. Full directions for babies, children of all ages and for grown-ups printed on each bottle. Avoid substitutes.—Adv.
