Not an iceberg hurled ashore, but the front of a railway snow-plough after cutting its way through a drift.

It looks a hopeless task to attempt to clear this main line with merely pick and shovel.

State Grants to Meet Cases of Hardship.

Power to Be Given to Judges to Break Leases.

Mr. Long's Statement. "Uncalled-For Criticism" of The Government.

No Unfair Treatment of the Married Men.

Mr. Walter Long, in the House of Commons, yesterday, outlined the Government's scheme for the relief of attached married men.

He declared that the criticism of the Government for not having dealt with the married men before had been unjust.

The Government proposed that certain sums should be given to the Statutory Pension Committee, to enable them to make grants to men already in the Army, or who were now being called up, to meet the hardships arising out of the existing conditions. These grants were to be distributed according to rules drawn up by the Committee with the approval of the Treasury.

It was suggested that the Courts' Emergency Powers Bill, if passed, would enable them to make grants since the war in the same way that it applied to contracts made before the war.

It was also proposed that power should be given to the Treasury to apply the application for power of control under the County Court Act to contracts made since the war in the same way that it applied to contracts made before the war.

The Government felt, said Mr. Long, that every thing must be done that could be done to get single men in all their numbers into the Army, and that all the married men who had been called to the Colours and who were not attached to the Army should be attached as soon as possible.

Many of the men already serving had a strong desire to be discharged, and to go back to their homes and the same sacrifices that had been made before.

"Unfair and Cruel Attacks," said Mr. Long, in the House of Commons yesterday, in reply to the Motion of Mr. Viscount Wolmer, that the Government should be asked to undertake the liability of all the married men.

Lord Derby Feels Very keenly Charges of Breach Of Faith, Says Mr. Long.

Mr. Walter Long, in the House of Commons yesterday, said that Lord Derby, who had been attached to the Army during the recent disturbances, had felt very keenly the charges of breach of faith.

Mr. Long announced that Lord Derby had been visited by a messenger this morning, who had been sent by Lord Derby to tell him that Lord Derby was well and that he had found nothing to prove that Lord Derby had been in any way responsible for the breach of faith.

The Government proposed that the men who were in the first group as they now were should be given more time for service abroad, until they were 18. That would be reasonable, said Mr. Long, and consequently the release of at least an equal number of men.

Justice to the Married Man.

Sir Edward Carson demands an application of compulsion to all.

Sir Edward Carson said the question of recruiting a large number of men for the Army had been raised, and that the Government should be asked to undertake the liability of all the married men.

The Government proposed that the men who were in the first group as they now were should be given more time for service abroad, until they were 18. That would be reasonable, said Mr. Long, and consequently the release of at least an equal number of men.

Banning Bloodless Surgery.

Mr. H. A. Barker Replies To The Army Doctors.

Mr. H. A. Barker, the manager of a dispensary, is in no way perturbed by the Motion of Mr. Tennant in the House of Commons to reply to the Army doctors.

The reply was just what Mr. Barker said to the Daily Sketch yesterday. "It was not necessary," he said, "if Mr. Tennant's own answer as to that of the Army Medical Men with whom his acquaintance was made, in not having any acquaintance with the Army, and always remained so practically for the next six days we were deserted for a long time.

The Government would never get married men to go on a satisfied spirit when they saw their comrades lying in hospital, and they would have to look forward to the prospects of finding employment and at the same sacrifice that they had made.

The Government proposed that the men who were in the first group as they now were should be given more time for service abroad, until they were 18. That would be reasonable, said Mr. Long, and consequently the release of at least an equal number of men.

Brilliant Recapture Of Wood Taken Last Week.

Redoubt Seized And Enemy's Counter-Attack Beaten Back.

RENEWED VERDUN BATTLE.

After six days' shelling of the French positions, the Germans have renewed the Battle of Verdun. A series of fierce attacks in the wooded region west of the Meuse.

The first attack began at three o'clock on Tuesday afternoon, between Malancourt and Avocourt [see map].

The French artillery lay down and awaited the onslaught, then opened the thick smoke down with rifle and machine-gun fire.

Thus the first attack of the new phase failed. But Verdun still held.

The second attack was marked by an important French victory.

Part of the Little Avocourt Wood and a redoubt in the rear of the railway were captured after a daring attack, and the French also advanced on the other side of Avocourt, between the road to Varennes and the Cheppy Wood.

In the village of Malancourt the enemy succeeded in winning a footing, but failed, in consequence of an unceasing effort by the French to get into the rear of the enemy.

On the British front at St. Eloi the ground won by the Royal and Northumberland Fusiliers was held up, despite fierce counter-attacks by the enemy.

FRENCH HOLD CAPTURED GROUND.

Complete Repulse Of Three Successive German Attacks.

French Official News.

Paris, Wednesday, 11 p.m.

Between the Oise and the Aisne our artillery dispensed important fires on the north-east of Montreuil-sur-Mer.

In the Argonne we exploded a mine to the north of the Four de Paris. The explosion destroyed a large bomb and a shelter and wrecked an enemy work.

Of the many thousands of rounds fired into the Malancourt-Avocourt Wood while the Germans were making counter-attacks on the neighbouring sector.

To the west of the Meuse the bombardment continued in the general direction of the captured wood.

Three successive counter-attacks were made by the enemy, the first of which took place the morning in the Avocourt Wood were completely repulsed.

In the course of an attack in great strength launched against the village of Malancourt the Germans succeeded in making two breaches in the advanced work situated to the north of Malancourt, and in capturing two houses in that village.

All their attempts to push further were stopped by our fire.

To the east of the Meuse and in the Woëvre the 29th Division was on the defensive.

In the Vexin we bombarded the German positions of St.-Ouen and of Montreuil.

PROGRESS AT SEVERAL POINTS.

Paris, Wednesday, 9.45 p.m.

In the Argonne our battalions of the 44th and 49th Divisions captured the Key Wood between the Argonne and the Meuse.

An attack in force, delivered in connection with the attacks in the neighbouring sector, was made in the north of the Meuse, but it was repulsed by an overwhelming force in the enemy's cross trenches to the north of Avocourt and to take some prisoners.

At one o'clock the latest German offensive was made by the enemy during the night. It was made on fresh attempts on our positions of Baulne and Malancourt [practically on the village north-west of Deauville Hill].

WINTER RELIEF FOR VERDUN.

MANY DEATHS IN THE STORM.

Worst March On Record: 22 Days Of Snow.

TRAFFIC IN A TANGLE.

For bishop, snow, and rain the present month has created a record. The region of the Charollais has endured such a winter that the snow has fallen in various parts of England in 20 out of 20 days, and on many days the temperature has been below freezing. As a result, the accompanying high winds have caused deep hoarfrost.

Nine deaths are reported from South Wales. Assistant-Paymaster Arthur Henry Laird, R.A.S., aged 43, at the Base House, Risdonham, was killed by the fall of a large tree. Leading Seaman John Roach, of the Royal Naval Reserve, was killed by a flying cross tree. Leading Seaman John Long, of the Royal Naval Reserve, was killed by a flying tree. Leading Seaman John Long, of the Royal Naval Reserve, was killed by a flying tree.

A violent counter-attack delivered by the British with a brilliant fresh tempo, for which the enemy was completely unprepared, achieved a complete repulsion of the German attacks, while the German camps had to be abandoned.

An eventful day in the north of the Meuse generally on the whole front.

Of the Second Day, was marked wood to the mouth generally on the whole front. The enemy suffered a marked scarcity of milk in consequence of yesterday's weather. Sloan's Liniment

relieves the pain of

Sprains, Bruises, Rheumatism, Chest Pains, Sore Throat, Neuralgia, Headaches.

No matter what causes your pain, a few drops of Sloan's Liniment laid on the affected part will stop it instantly. No rubbing is necessary—Sloan's Liniment goes right to the seat of the trouble, warms and soothes the nerves and tissues, and the pain is felt no more.

Two Applications Completely Cured.

Mr. J. B. Riley, Kilmacleague, Co. Waterford, writes:—"For at least three weeks I suffered terribly from a pain in the small of my back, and tried various remedies, but of no avail. I was beginning to get quite hopeless when I saw your advertisement of Sloan's Liniment. Thanks to your wonderful remedy after two applications I was completely cured. A hundred of people have given their testimony to the wonderful relieving power of Sloan's Liniment. If you have never tried it get a bottle to-day from any chemist, 1/½ or 2/½.

TIRED ALL THE TIME.

It is good to feel tired sometimes, when you have exercised sufficiently to cause a beautiful feeling of fatigue. But you should be refreshed by rest. A tired feeling that does not disappear even after a night's sleep is abnormal. It means that you are anemic or debilitated; that you need a tonic to build you up and fortify your system against such a condition. If you do not take prompt measures you are inviting disease because thin blood means that the body's defenses against the inroads of disease is lowered. This blood is largely the sufferer's own fault. It results from neglect, because the blood can be built up. Dr. Williams' pink pills supply the elements that the blood needs to make it rich and red and in order to carry more oxygen. Building up the red portion of the blood is simple, but because thin blood does not call attention to itself is often neglected. Have you seriously considered taking a course of treatment with these blood-making pills? If you are in doubt write for information to Book Dept. at Holborn Viaduct, London; a postcard giving your address will bring a useful Health Guide by return of post.

The best way is to begin without delay a short course of Dr. Williams' pink pills for pale people; any dealer can supply you; but take care to always ask for Dr. Williams' Adt.

THE only changes in the Office were due to the criminal negligence of officials: he actually refused to admit there had not been "intrigue among the higher officials". This was unavoidable. But gradually young men, most of them soldiers, were substituted for the only man who ever knew what Browning was doing in the Office.

I have seen a state coach, with horses that cannot go the pace, driven through the streets to-strafe the tablecloth. And I have seen a limpet-like poet—"Sordello." When I read that about the Duke of Wellington, I was genuinely moved. He as asserts that he is a Canadian (for the amusement of the Edgcumbe, who is eighty-five) and is the son of a clever business man, who has written for the laughs of the people. When he has written for the amusements of the reader, he has written it in aid of the cause where he is interested. If he has written for the amusements of the people, he has written it for the people. But the men who have written for the amusements of the people, have not been much interested in what is written.

Henry is a very clever kid. It's not a bad effort to have had an original work staged at the West End before you are fifteen. But Vera Wray has pulled off the double. She has written for the amusements of the people, and she is to be congratulated on the success of her work. It is certainly "the younger generation," and so magnificent about it.

"Arabesque" and Arthur Weigall.

The only remaining feature of Raymond Roe's "Arabesque" at the Coliseum is the scenery of Arthur Weigall. Otherwise this attempt to put dialogue into the mouths of Madame de la Hume, Columbia Phonograph, and Sargent is a delicate thing to handle. Without the right touch it becomes fictitious. In this case it has.

**War-Worker And Playwright.**

Mrs. Gabrielle Enthoven is probably one of the most remarkable women in the whole of London, and one of the most remarkable in these days of extraordinary activity.

"I found her at the headquarters of the Middlesex House-warming; yesterday morning, taking charge of a depart­ment of the Red Cross devoted to making jam for wounded prisoners of war.

"In her very limited spare time she is attending to the rehearsals for her play," Ellen Young, which the Pioneer Players are producing on Sunday.

90,000 Play-Bills. Miss Enthoven is an enthusiastic about theatrical matters, and was one of the first collectors of play-bills in the world. About 90,000 is her estimate of their number. They date from 1733.

"I have one that shows Mrs. Siddons's first appearance," Mrs. Enthoven told me, "and other markings of Edmund Kean, the Kicheners, and Ellen Terry.

**Duchess's Two Days.**

How busy is the Duchess of Somerset these days? Today saw her in the chair at the general meeting of the Irish Women's Patriotic League, at 35, Gravenor-square. The Duchess was a lovely diamond jewel in the lace at the throat of her black gown, and she had two little feather-trimmed hats.

Lord Kitchener's sister, Mrs. Parker, was there, and I saw, too, Lady Audley, Lady Sloane, the Miss Grey Wemyss, and Lady Mabel Blessfield. Miss Baden Powell's smart guide-and a very wise guard of honour, and such neat little girls they were, and bright white!

**Friends Of The Children.**

The following day the Duchess was at home to the National Society for the Prevention of Cruelty to Children. All sorts of interesting folk were present, and the Duke of York was helping the Duchess. The party was to meet the Dowager Lady Anstruther. Lady Iden, had been playing at 36, St. Cyrus, and many other influential workers in the cause.

**Why Not A Birthday Club?**

"I would like to see English parties continue to be fashionable, war time though they be," said Ethel Levy's, to which I was accented by all at the Ladies' Club. Christmas, then I was at Gertrude Miller's, and this week I was at Monsieur Lévy's, where I had one, and now Marie Norello has done it.

It was on Tuesday as the Ritz. Miss Norello made a very satisfactory matinée at the Queen's Theatre, so came on to receive her friends, in a pink blue taffeta dress and freshening white.

A BRISK WOOPER AT 50.

Proposed Marriage In A Day Or Two And Wished To Be Wedded Secretly.

Mr. Porta Rhoda Burton, said to be an actor professionally known as Miss Dorothy Bullen, brought an action for alleged breach of promise against Mr. George Dresner, of Hatton Garden, in the High Court Division yesterday. The alleged promise was given by Mr. Dresner on August 8th, 1913, to Miss Burton, who had been his mistress for about five years. Miss Burton said she had been Mr. Dresner's mistress for about five years. She had largely performed with companies on the Continent.

On November 12 Miss Burton and a Miss Grant, who was also an actress, were at a cinema in Dragoon Guards.

"I have great pleasure in recommending your splendid Phosferine as a splendid nerve tonic. I have been out here 17 months and have had some very strenuous and nerve-racking work. I was wounded in June last, and since returning to the trenches, to my dismay I felt absolutely run-down and nervous. I was fit for nothing. I had a battle of Phosferine sent me, and, believe me, after taking that bottle of your splendid tonic, it has made a new man of me. It is really marvellous what it has done for me. I have recommended Phosferine to my chums, and shall always say that was my only cure."

This war-stained Trooper makes it clear Phosferine alone saved him from succumbing to the rigours and privations of 17 months at the Front. Phosferine roused the inactive nerve organism to establish such an abundance of robust vitality, that he now easily endures unharmed just the same unnatural nerve strain and exposure that caused the collapse from which Phosferine restored him.

THE LOVE CHEAT.

By YELVA BURNETT.

Laurette Corvoon, a sweet, good-natured girl, companion to Mrs. Drayton, a wealthy old lady. 

Vivian Drayton, the wealthy, unscrupulous daughter of Mrs. Drayton. 

Chevonne, an attractive, honest young man, a great friend of Mrs. Drayton.

WHAT HAS HAPPENED.

Laurette is staying with her employer, Mrs. Drayton, at the famous Hotel. Recently, Laurette was left on her own by Vivian Grant, and soon the young people are heard to be courting in love.

One day, Laurette's sister, Betty, arrives at the hotel. Although Mr. Drayton is a kindly, easy-going man, he is not averse to politics. He has heard that his daughter, Vivian, has gone off with a young rake, and he is not pleased. 

But Betty is quick to claim acquaintance with Vivian, and finds that Vivian is quite free from the taint of her father's excesses. She finds that Vivian is quite free from the taint of her father's excesses.

Suddenly, Laurette appears, and demands an explanation for the presence of Vivian. Vivian is quite free from the taint of her father's excesses.

Later, Betty makes an offer to Laurette that she will join her in a romantic adventure. Laurette is quite free from the taint of her father's excesses.

Betty has invited Vivian to a ball, and invites her to come with her. Vivian is quite free from the taint of her father's excesses.

A Matter Of Money.

It was bound to be. Betty, who is herself transformed into some hideous hag riddled with age.

Mrs. Drayton continued her croquet placket.

Laurette stared at the croquet placket, not noticing it.

She seemed frightened, her hands began to tremble, and suddenly she felt a sense of danger. She looked around her, seeing many people in her lap. 

Fortunately, Mrs. Drayton was far away in thought, absorbed in Vivian. She was so often lost in thought that she paid no attention to her surroundings.

But Betty was watching her. She started to laugh, and walked away, leaving Laurette alone in her thoughts.
